

**eComments Report for City Council Meeting Agenda of March 10, 2020**

Item	Name	E-mail	Street	Neighborhood	City	State	Zip	Comment	Received
25. (20-0200) Recommendation to authorize City Manager, or designee, to execute all documents necessary to amend existing contracts with seven firms, for as-needed professional and technical services related to system analysis, system development, system implementation, project management, and technical support for information technology projects and systems, to extend the terms of the contracts an additional four months to July 22, 2020. (Citywide)	Dave Shukla	dave.shukla@gmail.com						<p>It would be helpful to have an update to Council from Staff on the progress of the existing contract work, and current needs assessment, as the TI department awards the new contracts later this year. Will the presentation to council - on the new contracts as well as these here being extended for continuity of services - be within the next six months?</p> <p>It would be very helpful for the public to have an update on the progress of this body of contract work: The new Civic Center Data Center, the new service management system for the city, updates to the Utility Customer Information System, the status of the new Advanced Metering systems for Water and Energy, the status of the land management and revenue systems upgrades, and continued support for DataLB.</p> <p>Please note these concerns during and after completion of these amended contracts - I look forward to more information by August</p>	3/10/2020
