

MAYOR BOB FOSTER

CITY OF LONG BEACH

Mission Statement of the Charter Amendment Committee

We will seek to improve the structure of our government, enhance our democracy, and build a framework upon which our quality of life and environment will be sustained and flourish for the benefit of future generations.

Thus, our goal is to present Charter reforms that clearly define responsibility and accountability while providing flexibility and transparency necessary in a diverse, evolving community like ours. Furthermore, we begin with the presumption that nothing is exempt from examination nor immune from reform.
