EXHIBIT A-2

The Adjustment Factors submitted with the Bid shall be in effect the full term of the contract including the Base Term and any and all Option Terms.

Construction Task Catalog®

The Construction Task Catalog® is a comprehensive listing of construction related tasks together with a specific unit of measure and a published Unit Price. All Unit Prices are based on local labor, material and equipment prices and are for the direct cost of construction. The language in this exhibit shall replace Section 79, Price Adjustments in Division H of the original specifications, R-7074. This section shall also apply to all subsequent contract renewals, unless indicated otherwise by the City in writing.

- a. The Construction Task Catalog® issued with this Solicitation will be in effect for all years of this contract.
- b. On the annual anniversary of the solicitation, the City shall provide the Contractor with a new Construction Task Catalog® for review and acceptance prior to accepting new work. In general, the Contractor shall use the Construction Task Catalog® in effect on the date that the Job Order Contract process is initiated (i.e. Joint Scope Meeting Invitation). However, the Contractor cannot delay the initiation of the Job Order Contract process to take advantage of a scheduled update of the Construction Task Catalog®. In that event, the Contractor shall use the Construction Task Catalog® that was in effect prior to the update.
- c. The new Construction Task Catalog® will be effective for the twelve (12) month period after the anniversary of the award date. The Construction Task Catalog® that accompanies each anniversary shall only apply to Job Orders initiated after the effective date of that specific renewal option and shall have no impact on Job Orders initiated prior to the effective date of that specific renewal option.

The new Construction Task Catalog shall be available in the Gordian Group Software.
