BUDGET HEARING:	diana lejins	dianalejins@yahoo.com					90815	Spending over \$103 million on a pool in an already affluent area when people are dying in the streets in other areas of the city is egregious. "Those people" matter too.	9/3/2016

(16-0809) Recommendation to receive supporting documentation into the record, conclude the public hearing and take the actions necessary to adopt the Fiscal Year 2017 budget as listed in Attachment A. (Citywide)	Corrine Dolman	corriedol@hotmail.com						We need funding to fix the residential parking problem. We are requesting budget funding for a comprehensive Parking Study & Plan and to change the parking requirements downtown so those new buildings have enough parking for their own use.	9/6/2016

(Citywide)	Anne Proffit	anne.proffit@gmail.com			Long Beach	CA	90802	A SMART PARKING PLAN IS NECESSARY in this city. Exacerbating the problem by allowing 1.25 spaces per unit in new buildings will drive people away from DTLB. The downtown plan as it currently stands is not popular with anyone and it's becoming difficult for developers to fill these new properties because there is no parking. We pay for you to work for us, not the other way around. WE NEED A VIABLE PARKING PLAN.	9/6/2016

(Citywide)	Diana Burbano	dialexburbano@yahoo.com			Long Beach	CA	90802	Please consider the city residents as you put a budget together. We live in Long Beach because we work in both LA and the OC. We need 2 cars. There have been nights where it takes more than an hour to find a place to park in our East Village neighborhood. I have a renter in one of my East Village properties who is moving away due to lack of parking. We live here and work elsewhere, we need safe parking options.	9/4/2016

(Citywide)	Kellie Brown	panapet88@gmail.com			Long Beach	CA	90803	Funds for a parking plan should be including in this budget. It is a persistent problem in Long Beach & only getting worse. I am a long time resident and homeowner. This problem effects my quality of life, safety and property values. We need a parking study!	9/4/2016
(16-0809) Recommendation to receive supporting documentation into the record, conclude the public hearing and take the actions necessary to adopt the Fiscal Year 2017 budget as listed in Attachment A. (Citywide)	Debora Dobias	taps@lbparking.com			Long Beach	CA	90802	Residential Parking on streets & lots is a valuable community asset that LB policies actively destroy. Planning Commission recognized the urgency & asked for study session twice last year; denied due to lack of funding. Give Public Works & Planning Commission funding needed to do their job. They need data/study/professional parking planner. LB can't compete with other cities without that. People keep their cars when their building doesn't have parking. Wishful thinking isn't a smart plan.Help!	9/4/2016

12. (16-0834) WITHDRAWN Recommendation to request that the City Manager report back within 60 days researching how other cities with similar environments address coastal parking challenges as well as reviewed the feasibility of residential parking permit programs to address the problem of non-residents parking in residential neighborhoods near our coastline.	Kellie Brown	panapet88@gmail.com			Long Beach	CA	90803	As a long time resident& homeowner I am VERY concerned about parking. It's getting worse. Allowing developers to only provide 1 space per unit in DTLB is absurd. I feel LB residents are literally being ignored regarding this problem. It makes me want to move out of LB.	9/4/2016
