

ORDINANCE NO. ORD-23-0001

1
2
3 AN ORDINANCE OF THE CITY COUNCIL OF THE
4 CITY OF LONG BEACH AMENDING THE LONG BEACH
5 MUNICIPAL CODE BY ADDING CHAPTERS 18.100, 21.69,
6 AND 22.35, TO TEMPORARILY SUSPEND CERTAIN
7 PROVISIONS OF TITLES 18, 21 AND 22 DURING THE
8 PROCLAIMED LOCAL EMERGENCY CAUSED BY
9 HOMELESSNESS; DECLARING THE URGENCY THEREOF;
10 AND DECLARING THAT THIS ORDINANCE SHALL TAKE
11 EFFECT IMMEDIATELY

12
13 WHEREAS, on January 10, 2023, the City Council of the City of Long Beach
14 has adopted Resolution No. RES-23-0004 proclaiming the existence of a local
15 emergency caused by conditions and threatened conditions of homelessness within the
16 City of Long Beach (City), which if not corrected, constitutes and imminent and proximate
17 threat to the safety of persons and property within the City; and

18 WHEREAS, in order to protect the public safety, health and welfare, it is
19 imperative for the City to suspend certain provisions of the City of Long Beach Municipal
20 Code Titles 18, 21 and 22 in relation to the City's building standards code, zoning and
21 transitional zoning code in an effort to combat the crisis of homelessness and affordable
22 housing for the reasons stated below; and

23 WHEREAS, currently the City of Long Beach has at any given time
24 approximately 3,300 people experiencing homelessness citywide; and

25 WHEREAS, according to City's 2022 Point in Time Count, the number of
26 people experiencing homelessness in the City increased dramatically in recent years, with
27 an overall rise in homelessness of 77 percent since 2017; and

28 WHEREAS, homelessness has disproportionately impacted Black,

1 Indigenous, and Pacific Islander Long Beach residents who are approximately three times
2 more likely to experience homelessness than other populations. Black people comprise
3 only 13 percent of the population of the City but, in the most recent homelessness count,
4 completed in February 2022, accounted for approximately 36 percent of people
5 experiencing homelessness; and

6 WHEREAS, more than 40% of people experiencing homelessness have
7 experienced violence or trauma in their lives, and 6% were fleeing violence when they
8 became homeless; and

9 WHEREAS, the number of veterans experiencing homelessness has grown
10 by 48% since 2019; and

11 WHEREAS, people experiencing homelessness suffer disproportionately
12 from mental and physical health ailments and require assistance from the County Health
13 and Mental Health Departments to provide the necessary public services. Specifically, it is
14 estimated that 31 percent of people experiencing homelessness in the City are affected by
15 a chronic health condition, 29 percent are affected by substance abuse, 37 percent are
16 affected by a serious mental illness, 36 percent are affected by physical disabilities, 23
17 percent are affected by developmental disabilities, and 24 percent are affected by traumatic
18 brain injuries. The number of people experiencing homelessness with severe mental illness
19 has more than doubled to 1,200 people and those with a substance use disorder has
20 increased by 70% to 950 people. This strains the City's ability to provide appropriate
21 shelter, housing, and wrap-around services. The prevalence of extreme need significantly
22 stresses the City's public services; and

23 WHEREAS, 101 people experiencing homelessness in the City died in 2022
24 while living on the street. The average age of those who died while homeless was 47 years
25 old and over 75% of the causes of death were unnatural. This represents a drastic 225%
26 increase in comparison to the number of people who died in 2017; and

27 WHEREAS, notwithstanding that the State of California has enacted a
28 Community Assistance, Recovery and Empowerment (CARE) Court to address the crisis

1 of untreated mental illness, the beds and necessary access to acute and subacute care for
2 such mental illness is still in development and steps must be taken in the interim to provide
3 increased access to housing and care; and

4 WHEREAS, the homelessness crisis has strained the City’s public safety
5 resources. Among other things, occurrences of fires related to homelessness have doubled
6 between 2019 and 2022, and now constitute over one-third of all fires to which the Long
7 Beach Fire Department responds. In addition, a number of fires have taken significant fire
8 resources and caused damage to adjacent structures and vehicles; and

9 WHEREAS, shelter and housing is particularly important during these coming
10 winter months when people experiencing homelessness in the City are likely to face
11 heightened exposure and dangers from living outdoors, and heightened dangers from the
12 combination of COVID-19, flu outbreak and respiratory syncytial virus (RSV). It is projected
13 that the City will face an acute shortage of winter homeless shelters through March 2023,
14 with fewer than half of the number of shelter sites available in the County of Los Angeles
15 compared to the winter of 2021-2022 and nearly two-thirds fewer shelter beds; and

16 WHEREAS, California Government Code Sections 8698.1 and 8698.2 allow
17 local jurisdictions to declare a shelter crisis; the City of Long Beach’s most recent shelter
18 crisis is set to expire March 31, 2023; and

19 WHEREAS, the State of California’s COVID-19 State of Emergency, which
20 has provided resources to keep many Long Beach residents from falling into
21 homelessness, ends in February of 2023, thus requiring immediate action in order to create
22 replacement and additional housing and shelter, and in order to support the necessary
23 infrastructure and laws required to protect and provide that shelter and housing; and

24 WHEREAS, the County and State’s eviction moratorium, which has protected
25 many Long Beach residents from falling into homelessness, ends concurrently with the end
26 of California’s State of Emergency regarding the COVID-19 pandemic on February 1, 2023;
27 and

28 WHEREAS, the City expanded interim bed access by 535 beds since 2020;

1 there are currently more than 1,300 interim housing beds citywide and the City Council
2 continues to prioritize the building of interim and permanent supporting housing, yet need
3 continues to outpace demand; and

4 WHEREAS, the City projects it will soon have a total of 15,346 supportive
5 and affordable units, of which 1,546 have been recently completed, 319 are currently under
6 construction, and more than 500 are in pre-development; and

7 WHEREAS, the City has responded to the rapid increase in its homeless
8 population with unprecedented investments into homelessness solutions, including a more
9 than \$80 million commitment in the 2022-2023 City budget for the expansion of bridge
10 housing, an additional Restorative Engagement to Achieve Collective Health (REACH)
11 team, call takers, library outreach workers, two mobile MSC units, a mental health and
12 substance use treatment van, a winter shelter partnership, and the hiring of professionals
13 to address the homelessness crisis and, notwithstanding these efforts, the number of those
14 experiencing homelessness in the City continues to increase and outstrip the resources
15 and services that the City has provided; and

16 WHEREAS, the City of Long Beach has designated significant resources to
17 address homelessness in the City, but the threat to life and property remains at stake
18 beyond the control of the services, personnel, equipment, and facilities of this City,
19 requiring the City to protect the public safety, health, and welfare within the City through
20 this ordinance;

21 NOW, THEREFORE, the City Council of the City of Long Beach ordains as
22 follows:

23
24 Section 1. Chapter 18.100 is hereby added to the Long Beach Municipal
