Subject: Against Eviction Moratorium

-EXTERNAL-

My husband is retired, I am semi retired. We rely on our apartment income for our livelihood. If renters don't pay, we are in hurts. We will try to work with our tenants these next couple months, but we will need their payments relatively soon to keep us going. If they continually can't pay, we'll need an option to evict. Please consider the needs of landlords as well. We don't all have money to spare. Our apartments are in Long Beach.
