Public Comment  
Parker et Cook

Good Evening.

I am here in representation not only of Occupy Long Beach, but Anonymous.

We choose to be Anonymous because with a face we are but the ideas of an individual.

Through our Anonymity, we are the idea of a Unified people. United as One, Divided by Zero. An Irish poet by the name of Oscar Wilde once said,

"Man is least himself when he talks in his own person. Give him a mask, and he will tell you the truth."

However that does not mean you must wear a mask to fight along side us.

We Cannot stress enough that Anonymous is not the enemy, we are here to help.

First off, We at Anonymous would like to thank from the bottom of our hearts City Council woman Rae Gabelich for interfering in the Police disruption of Occupy Long Beach. You showed them that even with their so called "authority" over the people, they have no right to do what they tried to do, and for that we at Anonymous commend you, and thank you. We hope to see you as a continued ally in the fight for freedom, the fight for a more fortunate future.

However action must be taken, and fast fellow Americans. Senate has passed into law a Bill that effectively ends "The Bill of Rights" as we know it.

Obama has yet to sign it into legislation, but if you review his history on the matters contained in the bill, you will learn that he is for this very type of legislation and backed it in 09.

We here at Anonymous know some of you see these Occupiers as just a bunch of people who don't know what they are fighting for. We also know that some officers of the LBPD, one L. Moreno, and probably others, laugh at Occupy Long Beach, and believe there to be quote "only 5 or 10 of

them out there, the rest are JUST TRANSIENTS".

Anonymous believes you must take into account the many that are out there and do in fact know what they are fighting for, and continue to push every day.

Police being dispatched to Occupy Long Beach is costing the city money that doesn't need to be lost, \$40,000 dollars as the Press Telegram's Eric Bradley wrote on November 21st. That ordinance from 1992 targets Homeless People, Human beings who have lost their homes. We understand that without this, many parks could have become a health hazard, but Occupy Long Beach are not trying to Live at this park. They are trying to exercise their rights, their rights, that are your rights as well.

They are fighting against the very acts going on in the senate and congress right now to censor the internet, and turn America into a Military state.

We at Anonymous had very much hoped for a response in the emails we sent to the Press-telegram's Eric Bradley, Kristopher Hansen, Pam Hale, Joe Segura as well as the City's own Rae Gabelich, and Mayor Bob Foster. We had hoped that you would initiate a press release that Anonymous had reached out for one of the first times, directly to city officials and Newspapers.

However due to the lack of any response from any of the above listed, an envelope was left at the residence of what seems to be our only true vocal supporter in the City, Rae Gabelich. This envelope contains the original email we at Anonymous sent, as well as DVD's containing our message to the City of Long Beach & Occupy Long Beach, Our message against Police brutality, and our UK brothers message of Hope.

We hope we can see you, The Press-Telegram as an ally, in reporting the most truthful news you can to the people you

serve.

We hope we can see you, Rae Gabelich to continue to support Occupy, and Anonymous. Your bravery shines valiantly in these dark times.

We hope to see you all help spread our messages, and share them with the people.

Stop Fighting against us.

Start Fighting along us.

We are the 99%

We are Anonymous.

We are Legion.

We do not Forgive.

We do not Forget.

Do not Expect us.

We're already here.

Thank You.
