Subject: Gas Prices – Winter 2004-05

We have recently received information regarding the possibility that gas prices may fluctuate this winter due to Hurricane Ivan and other natural causes. The public may experience an effect from this fluctuation. It is therefore critical that the public receive this information as soon as possible.

I would request that the City Council receive a briefing at the November 9th City Council meeting from City Staff concerning the above, along with recommendations on how the public can conserve energy over the coming months.
