

eComments Report for City Council Meeting Agenda of March 12, 2013

Item	Name	E-mail	Street	Neighborhood	City	St	Zip	Comment	Received
17. (13-0181) Recommendation to authorize City Manager to amend the City's Feasibility Cost Share Agreement (FCSA) with the United States Army Corps of Engineers (Army Corps) to contribute up to \$50,000 in existing authorized local-sponsor funds for the purposes of rescoping the East San Pedro Bay Ecosystem Restoration feasibility study; authorize City Manager to further amend the FCSA to accelerate a revised local-sponsor amount of \$1.5 million and allow the City to contribute \$750,000 to fulfill a portion of the Army Corps' federal-cost share; and authorize City Manager to enter into the revised agreement with the Army Corps to implement the rescoped feasibility study. (Districts 2,3)	Phil Osterlind	philosterlind@me.com			Long Beach	California	90803	Reduced re-scoping is a concern. In earlier study there were 11 Stakeholder groups; about 55 comments/concerns in total. Now that the budget has gone from \$8MM to \$3MM; who is going to determine which comments/concerns will be addressed? Not addressing all bonafide comments/concerns will make the revised study a very weak one, with inaccurate results, addressing only those of the noisiest sponsors, and not addressing all bonafide stakeholders/comments/concerns.	3/12/13 8:40 AM
