BETTER VISION FOR CHILDREN FOUNDATION

the city of Mission Viejo and the Mission Viejo Elks Lodge will be hosting a free eye screening to help prevent permanent blindness from lazy eye (amblyopia) and death from eye cancer, and a major cause of autism. The screenings are non invasive, PAINLESS and fun using a camera to take a picture of the child's eyes. No eye drops required. 1 in 3 children start school every year with undetected vision problems that will affect their learning, yet only 3.3% get a professional screening. We can see most of these problems before they get into school. For more information contact (714) 637-4034 or bvcfdn@gmail.com

DONATION RECEIPT

"I urge you to help BVC and get your preschoolers screened as soon as possible - as these problems often result in lifelong blindness or even death, have your child checked immediately. And, if you don't have children you should still help the Better Vision for Children Foundation by giving as much as you can."
