

Dear Mayor and City Council,

Today we are here to urge you to stand with Long Beach Tourism Workers by supporting a policy that ensures family-supporting wages of at least \$25 an hour, steadily increasing to \$30 an hour by the 2028 Olympics.

This crisis is more urgent than ever, with reports of workers having to choose between paying rent or putting food on the table; being forced to commute for hours because they can't afford to live in Long Beach, and often forced to work multiple jobs because wages are too low.

Meanwhile, the tourism employers have built back with billions of dollars in public investment and pandemic relief funds, leaving their workers behind.

We are tourism workers and members of the community calling upon you to stand with us in this historic fight to ensure tourism workers a living wage that allows them to thrive and sustain their families. It's time to update the laws that set the standard in the Long Beach tourism industry.

Sincerely,

UNITE
HERE!
