RE :Moira Hahn and Mark Hotchkiss
Long Beach residents
4351 Clark Avenue, Long Beach CA 90808-1414

I'm here to support the Moira Hanh opposition to the Cell phone tower within the proximity of a dwelling.

The City of Long Beach basically took a bribe from Verizon Wireless to install 5 G antennas without conducting an environmental impact study or a referendum.

5 G towers effective Long Beach Residents with Disabilities. I support the right to have a 5 G tower to have a minimum 200 ft from residential dwellings and school just like every other city ordinance with California.

I also want to know how Verizon Wireless was able to bypass local ordinance with a vote by the residents.

thank you
