333 W. OCEAN BLVD, 3RD FLOOR • LONG BEACH, CALIFORNIA 90802 • (562) 570-5237 • FAX: (562) 570-5072

July 5, 2016

HONORABLE MAYOR AND CITY COUNCIL
City of Long Beach
California

RECOMMENDATION:

Approve the Fiscal Year 2017 Action Plan, the First Substantial Amendment to the Fiscal Year 2016 Action Plan, and the Third Substantial Amendment to the Fiscal Year 2015 Action Plan for the expenditure of Community Development Block Grant, Home Investment Partnership Grant, and Emergency Solutions Grant Funds; and,

Authorize the City Manager, or designee, to execute all necessary documents with the United States Department of Housing and Urban Development to receive these funds, execute agreements necessary to implement and comply with related federal regulations, and expend these funds for the purposes of implementing the program. (Citywide)

DISCUSSION

The United States Department of Housing and Urban Development (HUD) requires the City to develop and submit a Five-Year Consolidated Plan (Consolidated Plan) and an annual Action Plan that furthers the goals established in the Consolidated Plan, for use of Community Development Block Grant (CDBG), Home Investment Partnership Grant (HOME), and Emergency Solution Grant (ESG) funds. The current Consolidated Plan was approved by the City Council and HUD in 2012, and is valid through September 30, 2017. HUD requires that the City Council review and approve an annual Action Plan that describes how HUD funds will be used to support programs and services, which principally benefit low- and moderate-income residents, consistent with the Consolidated Plan as approved.

The attached Fiscal Year 2017 (FY 17) Action Plan, First Substantial Amendment to the Fiscal Year 2016 (FY 16) Action Plan and Third Substantial Amendment to the Fiscal Year 2015 (FY 15) Action Plan (Exhibit A) describe in detail the proposed programs and services to be funded during the period of October 1, 2016 through September 30, 2017. The following table summarizes the funding proposed for the FY 17 Action Plan:

FY 17 Action Plan Budget

Available Funds	CDBG	HOME	ESG	TOTAL
New Entitlement	\$5,456,484	\$2,213,394	\$507,817	\$8,177,695
Program Income	\$80,000	\$1,000,000	\$0	\$1,080,000
Total Available Funds	\$5,536,484	\$3,213,394	\$507,817	\$9,257,695

Under previous HUD directives, the City was allowed to reprogram unspent funds (i.e., roll over) from previous Action Plans as part of the development of subsequent Action Plans. However, under recent HUD directives, the ability to roll over these funds into subsequent Action Plans has been eliminated. Instead, HUD now requires unspent funds to be reprogrammed and accounted for by individual Action Plan through defined Amendments. As such, the FY 17 Action Plan will not include unspent reprogrammable funds from prior years' Action Plans. These funds will be reallocated, through an Amendment, and continue to be accounted for and spent under the amended FY 16 and FY 15 Action Plans. The table below shows the reallocation of remaining FY 16 and FY 15 funds contained in the Amendments:

FY 16 Action Plan First Substantial Amendment

Program	Reduced Amount	Proposed Program	Increased Amount
Home Improvement Rebate Program	(\$108,762)	Economic and Infrastructure Development	\$510,225
Program Delivery	(\$12,015)	Neighborhood Business Investment	\$157,501
Neighborhood Resource Center	(\$9,275)	Business Revitalization Program/Corridor	\$367,142
Neighborhood Leadership Program	(\$1,202)		
Code Enforcement	(\$315,463)		
Interim Assistance	(\$106,814)		
Neighborhood Partners Program	(\$52,647)		
Urban Forestry Program	(\$11,031)		
Program Administration	(\$417,659)		
Total Proposed to be Reallocated	(\$1,034,868)	Total	\$1,034,868

FY 15 Action Plan Third Substantial Amendment

Program	Reduced Amount	Proposed Program	Increased Amount
Neighborhood Resource Center	(\$2,524)	Acquisition for Open Space Development (14th Street Park)	\$1,000,000
Neighborhood Leadership Program	(\$4,078)	Public Facility Improvements and ADA Compliance (Drake Park and Chavez Park)	\$363,317
Technical Business Assistance	(\$4,400)		
Revolving Loan	(\$9,662)		
Neighborhood Business Investment	(\$69,627)		
Business Revitalization Program/Corridor	(\$132,997)		
Program Administration	(\$199,047)		
ED/Infrastructure Improvement	(\$940,982)		
Total Proposed to be Reallocated	(\$1,363,317)	Total	\$1,363,317

HUD requires certain prescribed timeframes for the development of Action Plans. During the initial community outreach period, staff conducted several neighborhood meetings to engage the community in the planning process for the draft FY 17 Action Plan. Attendees responded to surveys that asked them to propose and prioritize projects and programs for implementation through the FY 17 Action Plan. (The results of the surveys are provided in Exhibit A.) On April 20, 2016, the Long Beach Community Investment Company (LBCIC) conducted a public hearing to review and solicit public comment on the development of the FY 17 Action Plan. The draft Action Plan was released on May 16, 2016.

A second public hearing was conducted by the LBCIC on June 15, 2016. Notices regarding this second public hearing and the availability of the draft Action Plan and Amendments were posted on the City website for public review 30 days prior to the second public hearing. Advertisements were published in the *Long Beach Press-Telegram*, *Impacto USA*, and *Khmer Post* announcing the availability of the draft Action Plan and Amendments and details of the public hearing. In addition, several hundred stakeholders received an email notice about the public hearing and the availability of the draft Action Plans for review and comment. Staff also conducted additional meetings in different CDBG-area neighborhoods. At the conclusion of the public hearing, the LBCIC Board voted to recommend that the City Council approve the draft FY 17 Action Plan, and Amendments to the FY 16 and FY 15 Action Plans.

This matter was reviewed by Deputy City Attorney Richard F. Anthony on June 14, 2016 and by Budget Analysis Officer Rhutu Amin Gharib on June 20, 2016.

TIMING CONSIDERATIONS

City Council action is requested on July 5, 2016, as the FY 17 Action Plan must be submitted to HUD no later than August 15, 2016, 45 days prior to the beginning of the new fiscal year.

FISCAL IMPACT

In FY 17, the City will receive \$8,177,695 in CDBG, HOME, and ESG entitlement funds and an estimated \$1,080,000 in Program Income. These funds will be budgeted in the Community Development Grants Fund (SR 150) in the Development Services Department (DV) through the annual budget process. These grant funds generate a broad, positive impact on job creation and retention within the community. Based on a HUD formula for job creation, the direct infusion of entitlement funds into programs that support local businesses, and spur infrastructure and housing improvements will generate an estimated 135 jobs within the community.

SUGGESTED ACTION:

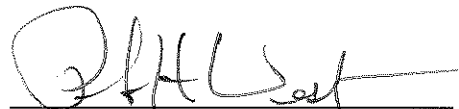

Approve recommendation.

Respectfully submitted,

AMY J. BODEK, AICP
DIRECTOR OF DEVELOPMENT SERVICES

APPROVED:

PATRICK H. WEST
CITY MANAGER

CITY OF LONG BEACH

FY 17 Annual Action Plan,

(October 1, 2016 – September 30, 2017)

First Amendment to the FY 16 Action Plan,

and

Third Amendment to the FY 15 Action Plan

ALLOCATION OF:

COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)
EMERGENCY SOLUTIONS GRANT (ESG)
HOME INVESTMENT PARTNERSHIP GRANT (HOME)

**AS DETERMINED BY THE CITY OF LONG BEACH 2013 -
2017 CONSOLIDATED PLAN**

I. Executive Summary

Presented here is the Fiscal Year 2016 - 2017 Action Plan, the final year under the 2013 - 2017 Consolidated Plan. This document provides details of the programs, activities, and budgets for the year beginning October 1, 2016, through September 30, 2017. In addition, the City is amending the FY 2015 and FY 2016 Action Plans to reallocate unspent Community Development Block Grant (CDBG) funds for different programs and activities.

In recent years, the City of Long Beach's funding assistance from the U.S. Department of Housing and Urban Development (HUD) has continued to decline. The City is struggling to maintain services for its residents. In FY 2017, the City's CDBG allocation further decreased by 3.3 percent, and the ESG allocation decreased 0.2 percent, compared from the FY 2016 funding levels. However, the City's HOME Investment Partnership Act Grant (HOME) allocation increased 4.9 percent.

HUD consolidated the planning and application process of formula grant programs in 1995, with the purpose of coordinating program requirements and simplifying the process of requesting and obtaining federal funds. The City of Long Beach receives three formula grants: CDBG, HOME, and the Emergency Solutions Grant (ESG). The consolidated planning process is intended to achieve the following:

- Promote citizen participation in the development of local priority needs benefiting low and moderate income persons.
- Develop a series of one-year Action Plans that will be the basis for assessment of performance.
- Consult with public and private agencies to identify needs and appropriate actions required to address their needs.

The City initiated a new five-year planning cycle beginning FY 2013 and extending through FY 2017 (October 1, 2012 - September 30, 2017). The Consolidated Plan explains how and why federal HUD funding for housing and community development activities should be used based on identified local needs. It describes the City's plan to create a viable urban community that offers decent affordable housing, a suitable living environment, and expanding economic opportunities, especially for low and moderate income persons. The activities the City will undertake to achieve its stated objectives are detailed in the Consolidated Plan.

The City's priorities, which are identified in the Consolidated Plan and can be found throughout this Action Plan, are designed to serve extremely low-, low-, and moderate-income residents by addressing the following:

- Housing Needs
- Homeless Needs
- Community Services and Special Needs
- Community Facilities and Infrastructure
- Economic Development Needs

The purpose of the annual One-Year Action Plan is to update the Consolidated Plan. It also provides the City with a basis for assessing its progress in meeting the goals of the Plan through Consolidated Annual Performance and Evaluation Reports (CAPER). The One-Year Action Plan describes the resources expected to be available in the coming program year from federal, non-federal, and private sources. It includes a description of the activities that will be undertaken to meet the specific objectives in the FY 2013 - FY 2017 Consolidated Plan.

Objectives and Outcomes

The City is being guided by HUD's Office of Community Planning Development (CPD) Outcome Performance Measurement System to address the high priority needs stated in its Consolidated Plan.

When funding an activity, the City determines which of three HUD objectives best describes the purpose of the activity. The three objectives are:

- Suitable Living Environment (SL) - In general, this objective relates to activities that are designed to benefit communities, families, or individuals by addressing issues in their living environment.
- Decent Housing (DH) - The activities that typically would be found under this objective are designed to cover the wide range of housing programs possible under HOME, CDBG or ESG. This objective focuses on housing programs where the purpose of the program is to meet individual family or community needs and not programs where housing is an element of a larger effort, since such programs would be more appropriately reported under Suitable Living Environment.
- Creating Economic Opportunities (EO) - This objective applies to the types of activities related to economic development, commercial revitalization, or job creation.

Once the objective for the activity is identified, the City determines which of the three HUD outcome categories best reflects what the City seeks to achieve by funding the activity. The three outcome categories are:

- Availability/Accessibility (1) - This outcome category applies to activities that make services, infrastructure, public services, public facilities, housing, or shelter available or accessible to low- and moderate- income individuals, including persons with disabilities.
- Affordability (2) - This outcome category applies to activities that provide affordability in a variety of ways in the lives of low and moderate income individuals. It can include the creation or maintenance of affordable housing, basic infrastructure hook-ups, or services such as day care.
- Sustainability (3) - Promoting livable or viable communities. This outcome applies to projects where the activities are aimed at improving communities or neighborhoods, helping to make them livable or viable by providing benefit to persons of low- and moderate-income, or by removing or eliminating slums or blighted areas through multiple activities or services that sustain communities or neighborhoods.

Each outcome category can be connected to each of the overarching objectives, resulting in a total of nine pairings of nationally reportable outcome statements:

	Outcome 1: Availability/Accessibility	Outcome 2: Affordable	Outcome 3: Sustainability
General Objective SL: Suitable Living Environment	SL-1	SL-2	SL-3
	Improve the Accessibility of a Suitable Living Environment	Improve the Affordability of a Suitable Living Environment	Improve the Sustainability of a Suitable Living Environment
General Objective DH: Decent Housing	DH-1	DH-2	DH-3
	Improve the Accessibility of Decent Housing	Improve the Affordability of Decent Housing	Improve the Sustainability of Decent Housing
General Objective EO: Economic Opportunity	EO-1	EO-2	EO-3
	Improve the Accessibility of Economic Opportunities	Improve the Affordability of Economic Opportunities	Improve the Sustainability of Economic Opportunities

Each of the City’s specific objectives can be linked back to a nationally reportable outcome statement using the numbering system in the chart above.

Past Performance

The FY 2017 Action Plan is the final year of implementing the FY 2013 - FY 2017 Consolidated Plan. During FY 2015, the third year of implementing the Consolidated Plan, the City met its established objectives in the Consolidated Plan and Action Plan for housing and community development activities. Specifically, the City rehabilitated 17 single-family units and 54 multi-family units. While the City fell short of its single-family rehabilitation goal, the City received 144 applications for rehabilitation loans and is leveraging over \$3,000,000 in CalHome funds to provide single-family rehabilitation assistance in FY 2016. Additionally, through the collaborative work of the Code Enforcement Program and the Home Improvement Rebate Program, property owners are made aware of their code violations and provided with resources to correct code violations through City assistance. In FY 2015, 229 rebates were given to single- and multi-residential property owners for exterior home improvements. During the same time, 16,941 housing units were inspected for code violations under the Intensive Code Enforcement Program.

The City also used Neighborhood Stabilization Program (NSP) funds to further meet the housing needs identified in the Consolidated Plan. Using prior years funding from NSP1, NSP2, and NSP3, two silent second mortgages were provided to low and moderate income residents in FY 2015 to finance the purchase of foreclosed properties. Furthermore, The Long Beach Community Investment Company (LBCIC) provided 14 second mortgage loans to very low- and low-income first-time homebuyers, and partnered with Habitat for Humanity to enhance the program.

Additionally, the City met the one-year targets established for special needs populations in its Consolidated Plan. The after-school and weekend recreation programs for elementary and middle school aged youth are being implemented in several schools, primarily located in Neighborhood Improvement Strategy (NIS) areas, which have a high number of low-income

households. In FY 2015, 189,854 (duplicated number) youth participated in various after-school and weekend recreation programs. Moreover, the Multi-Service Center (MSC) assisted special needs populations by co-locating both private and public service entities in order to provide integrated, centralized assessment and comprehensive services for homeless individuals and families in one location. In FY 2015, the MSC provided services to 15,589 (duplicated number) client contacts, averaging to 1,299 (duplicated number) client contacts per month. Another program that fulfilled the needs of this group was the Security Deposit Assistance/Utility Deposit Assistance program. HOME funds were used to fund security deposits equivalent to two months of rent to enable formerly homeless renters, who had income sufficient to pay rent but could not afford the “upfront costs,” to secure a decent place to live. For FY 2015, 108 households were assisted.

Through its NIS strategy, the City utilized CDBG and other local and private funds to provide an array of programs and services to improve neighborhoods. During FY 2015, the City assisted 25 local neighborhood businesses by providing access to grants and technical assistance. In addition, the Long Beach Small Business Development Center (SBDC) at Long Beach City College, provided one-on-one services to fellow business owners at no cost. In partnering with the City of Long Beach, SBDC and the City were able to assist 602 new and existing small businesses and create 130 jobs. Further, to revitalize distressed business corridors and bolster economic activity, the City has provided 103 business store-front beautification rebates and 32 new business start-up grants. City staff also assisted residents in organizing neighborhood clean-ups and tree planting events. In FY 2015, 2,338 volunteers held 95 cleanup events. In addition, through separate grants, the City partnered with neighborhood associations and community members to plant over 500 trees.

Accomplishments achieved during FY 2016 (October 1, 2015 through September 30, 2016) will be evaluated in detail in the Consolidated Annual Performance and Evaluation Report (CAPER). The CAPER will be completed and submitted to HUD by the required December 31, 2016, deadline.

II. General Descriptions

A. Geographic Areas and Basis for Allocation

The City of Long Beach has a population of over 462,000, making it the seventh largest city in California according to the 2010 Census. Overlooking the San Pedro Bay on the south coast of Los Angeles County, Long Beach is 22 miles south of downtown Los Angeles and 10 miles southwest of Anaheim, covering an area of 54 square miles.

Because the primary national objectives of the Consolidated Plan programs are to benefit low-income and moderate-income residents, the City's CDBG funds will be targeted to extremely low-, low-, and moderate-income neighborhoods and businesses that provide jobs to low or moderate income individuals. The City has traditionally focused an annual average of 99 percent of its CDBG resources on activities that exclusively benefit low- and moderate-income persons. This trend is expected to continue in FY 2017.

Ten NIS areas are the main focal points for CDBG funds in the FY 2017 Action Plan. In 1990, as part of an effort to maximize the impact of neighborhood revitalization activities, the City of Long Beach adopted The NIS. NIS utilizes federal, state, and local resources to comprehensively improve targeted neighborhoods. Resources are directed toward 10 specific target areas in order to maximize impact and create immediate improvements. These areas were selected using criteria developed by a task force of City staff. Indicators of problems or potential problems were assessed for each neighborhood. Selections were made based on the number and types of problems existing in the neighborhood (poverty, physical blight, and crime), as well as the potential for effective problem solving and neighborhood resident involvement. This comprehensive approach to neighborhood development extends to neighborhood improvement, housing, economic development, and public service activities. Appendix D contains a series of maps that illustrate the City's low and moderate income areas by block group and CDBG Target Areas. The City will continue to target its economic development activities to businesses providing jobs to low and moderate income individuals.

Although there will continue to be an emphasis on NIS areas, the City will target funds to all CDBG eligible areas and will provide programs based on income eligibility that will be conducted citywide.

In addition, the City's code enforcement activities will be focused in areas with aging housing stock. As stated in the City's FY 2013 - FY 2017 Consolidated Plan and 2014 Housing Element, housing over 30 years of age is likely to have rehabilitation needs that may include new plumbing, roof repairs, foundation, and other repairs. If maintenance is deferred, housing over 50 years in age may require replacement. Among owner-occupied housing, over 80 percent of units were constructed prior to 1970, largely a reflection of the community's numerous Post World War II subdivisions. While a lesser proportion of rental housing is greater than 40 years in age (69 percent), this housing is typically of lesser quality construction and suffers more wear-and-tear than owner-occupied housing. The prevalence of housing built prior to 1978 is also of concern because of lead-based paint hazards. The City will continue to address issues relating to the aging housing stock through CDBG-code enforcement and rehabilitation activities, as well as other neighborhood improvement projects. Two maps in Appendix D illustrate the correlations between the age of housing stock, distribution of code enforcement activities, and the City's CDBG areas.

HOME funds can be spent anywhere in the City, but most projects have traditionally been located within the NIS areas.

B. Meeting Underserved Needs

The City will continue to target low- and moderate-income persons, families, and neighborhoods with its federal, state, and local resources in a comprehensive and coordinated strategy to address individuals and families that are underserved. This approach is designed to leverage private resources to augment and enhance the City's efforts. The NIS Program and Neighborhood Leadership Program (NLP) will continue in FY 2017. These and other programs focus on developing the skills and confidence of neighborhood residents to prepare them for leadership roles in their communities. The programs are designed to improve housing, neighborhood conditions, and enhance the quality of life in low and moderate income neighborhoods. Youth programs will also continue as a means of providing supervised recreation opportunities to low income neighborhoods. HOME and ESG funds will be used to assist homeless individuals and families as they transition to permanent housing through the Security and Utility Deposit Assistance Program.

C. Federal, State, and Local Resources

1. Consolidated Planning Funds

The Action Plan utilizes federal resources from CDBG, HOME, and ESG entitlement programs. For FY 2017, the City's CDBG allocation decreased further by 3.3 percent and the ESG allocation decreased 0.2 percent, compared to the FY 2016 funding levels. However, the City's HOME allocation increased 4.9 percent. HUD funding under the Action Plan for FY 2017 includes the following resources:

Source	CDBG	HOME	ESG	Total
New Entitlement	\$5,456,484	\$2,213,394	\$507,817	\$8,177,695
Program Income	\$80,000	\$1,000,000	\$0	\$1,080,000
Total Available Funds	\$5,536,484	\$3,213,394	\$507,817	\$9,257,695

New Entitlement: FY 2017 Grant Year HUD allocated funds. Grant amounts are determined by HUD formula.

Program Income: Income received by the City directly generated through the use of CDBG or HOME funds.

The allocation of these resources to anticipated projects and programs is shown in the Listing of Proposed Projects Appendix B.

2. Surplus Funds

The City of Long Beach has not received any surplus funds from urban renewal settlement or float-funded activities. Furthermore, the City of Long Beach has not returned any grant funds to the line of credit.

3. Other Funds

Additional federal, local, and private funds will be utilized to address the needs identified in the Consolidated Plan. In FY 2017, the City of Long Beach projects the use of \$96,705,986 from multiple funding sources, including \$56,377,356 from the Section 8 programs. In addition, various CDBG, HOME, and ESG-funded programs have a required match and program-designed match in the amount of \$2,289,652. The following table shows the anticipated levels of these resources in FY 2017:

Table 2: Leveraging of Resources	
Source	Amount
Federal	\$71,336,862
CDBG	\$5,456,484
HOME	\$2,213,394
ESG	\$507,817
Section 8	\$56,377,356
Continuum of Care	\$6,530,552
HOPWA	\$251,259
State	\$3,231,473
CalHOME	\$2,731,473
CalGRIP (Gang Reduction and Intervention)	\$500,000
City	\$19,850,013
Local Housing Fund	\$11,952,473
General Fund	
Public Facilities Improvement	\$3,000,000
Code Enforcement Activities	\$3,197,540
Health Fund	
Code Enforcement Activities	\$1,700,000
Private	\$2,289,652
Banks	
Grow American Revolving Fund - Business Loans	\$1,400,000
Community Organizations	
Neighborhood Partners Program (Match from Applicants)	\$33,271
Nonprofits	
Emergency Solutions Grant (Agency Match)	\$544,602
Owners	
NSB Commercial Improvement Rebate (Owner Match)	\$129,323
NSB Residential Rehabilitation (Owner Match)	\$182,456
Total	\$96,708,000

* These figures are estimates based on prior year's funding and subject to revision.

III. Managing the Process

A. Lead Agency

As the entitlement grantee for the CDBG, HOME and ESG programs, Long Beach Development Services is the lead agency for the development of this Annual Action Plan. The department will also act as one of several public and private agencies that will administer programs and activities under the Plan. Long Beach Development Services oversees community development, economic development, and housing programs.

In an effort to increase the direct effectiveness of ESG, the Department coordinates the distribution and supervision of ESG funds with the Department of Health and Human Services, which handles the actual distribution and supervision of funds to nonprofits (the direct recipients of ESG funds). The Department of Health and Human Services also prepares the Continuum of Care for the City of Long Beach and submits the City's application for Shelter Plus Care and Supportive Housing Program Grants. This department has significant knowledge and expertise with the homeless community, and provides assistance to non-profit agencies serving homeless individuals and families.

B. Plan Development

The Consolidated Plan and Action Plans represent a comprehensive planning effort mainly led by The LBCIC, with involvement of local government experts, the social service community, residents, and consultation with other local HUD entitlement communities. The LBCIC is appointed by the Mayor and consists of a seven-member Board of Directors, representing a cross-section of the community. Members represent:

- Business and Industry
- Social Services
- Housing Rehabilitation
- Low-Income
- Minorities
- Housing

The LBCIC works closely with staff to ensure that careful consideration is given to the City's identified needs, and that programs and services are cost-effective and meet specific goals and objectives.

C. Enhancing Coordination

The City of Long Beach will continue to coordinate and share ideas with residents, other local government entities, affordable housing providers, and social service agencies to maximize the effectiveness of planned activities.

Long Beach expands its existing relationships with local jurisdictions through participation in sub-regional planning efforts through the Gateway Cities Council of Governments. In addition, the City regularly meets with representatives from other cities through the Southern California

Neighborhood Partners to share ideas and achieve coordinated solutions to regional issues. The City also regularly distributes its federal HUD reports and public meeting announcements to local and county officials.

Long Beach interacts with various nonprofit agencies and public service groups in the delivery of programs through its federal entitlement and other resources. City staff assists these agencies in planning programs and projects, ensuring activity eligibility and costs, complying with federal regulations and requirements, and monitoring the timely expenditure of annually allocated program funds. The City requires agencies to submit quarterly and annual reports to meet federal requirements, and periodically conducts on-site monitoring reviews.

IV. Citizen Participation

A. Citizen Participation Plan

As part of the City's FY 2013 - FY 2017 Consolidated Plan process, the City amended its Citizen Participation Plan to revise the criteria of substantial amendment. The complete Citizen Participation Plan is located in Appendix A of the FY 2013 - FY 2017 Consolidated Plan.

B. Citizen Participation Process

The development of the City of Long Beach FY 2017 Action Plan involves extensive citizen participation, including neighborhood meetings and public hearings.

1. Neighborhood Meetings

City staff developed a list of organizations from which to seek comments on the Action Plan. Presentations were made to neighborhood and community organizations that benefit from CDBG, HOME, and ESG-funded services. Nine neighborhood meetings were conducted to engage the community in the planning process and to review the Action Plan Draft. These meetings consisted of the following:

- College Square Neighborhood Association Meeting on March 29, 2016, at 6801 Long Beach Blvd.
- Wrigley Neighborhood Association on April 4, 2016, at 101 E. 28th St.
- AOC7 Neighborhood Association Meeting on April 6, 2016, at 1323 Gundry Ave.
- Starr King Neighborhood Association Meeting on April 6, 2016, at 6934 Long Beach Blvd.
- Drake Park on April 16, 2016, at 951 Maine Ave.
- Wrigley Area Neighborhood Alliance Meeting on April 18, 2016, at 701 E. 28th St.
- Washington Neighborhood Association on April 20, 2016, at 1335 Pacific Ave.
- Admiral Kidd Park on May 21, 2016, at 2125 Santa Fe Ave.
- AOC7 Neighborhood Association Meeting on June 1, 2016, at 1323 Gundry Ave.

A total of 86 surveys and 73 participatory budgeting worksheets were completed by community members to help prioritize activities and funding (See Appendix A).

2. Public Hearings

After a notice was published in three local newspapers, The LBCIC conducted an initial Public Hearing on April 20, 2016, to solicit public comments to begin the preparation of the FY 2017 Action Plan. In addition to published notices in English, Spanish, and Khmer (Cambodian), fliers announcing the Public Hearing were e-mailed to over 1,000 individuals and organizations.

The LBCIC will conduct a second Public Hearing on June 15, 2016 to solicit public comments on the Draft FY 2017 Action Plan. The Action Plan included all public comments received at the Public Hearing and written summary responses from staff. At the conclusion of the Public Hearing, The LBCIC is expected to recommend approval of the FY 2017 Action Plan to the Long Beach City Council.

At a regularly scheduled public meeting, the City Council will review the Action Plan recommended by The LBCIC along with the citizen comments. Once the City Council approves the Plan, it will be submitted to HUD.

C. Citizen Comments

For citizen comments, please refer to Appendix A.

D. Efforts to Broaden Participation

The components of the Citizen Participation Plan mentioned above have been designed with the explicit intention of accommodating and encouraging participation by low and moderate income residents, residents of low and moderate income neighborhoods, members of minority groups, persons with limited English skills, and persons with disabilities.

Community outreach efforts include presentations and requests for comments at community meetings. For a list of meetings at which staff discussed the FY 2017 Action Plan, please refer to Appendix A.

E. Comments Accepted

Please submit written comments on the draft FY 2017 Action Plan to:

Alem S. Hagos
HUD Grants Officer
City of Long Beach
Department of Development Services
333 W. Ocean Blvd.
Long Beach, CA 90802
alem.hagos@longbeach.gov

V. Institutional Structure

The central responsibility for the implementation of the Action Plan is assigned to the Development Services Department Grant Administration Division. This division will coordinate activities among the public and private organizations to realize the prioritized goals of the Annual Action Plan. Extensive public-private partnerships have been established and organized to address the City's housing, homeless, and community development needs. The Grant Administration Division will access, facilitate, and coordinate resource linkages and draw from the immediate sources of expertise in the community to strengthen existing partnerships and develop new collaborative.

VI. Monitoring

The Long Beach Development Services Grants Administration Division is responsible for ensuring the use of HUD funds complies with program requirements through program performance monitoring. Monitoring is proactive and ongoing to ensure federal compliance and evaluate the effectiveness of HUD-funded programs. The primary goals of monitoring are to:

- Ensure production and accountability.
- Ensure compliance and consistency with HUD regulations.
- Evaluate organizational and project performance.

A. CDBG and ESG Monitoring

A Monitoring Plan has been developed and implemented. The plan includes:

- Standardized procedures for reporting by program service providers;
- Standardized procedures for monitoring frequency and reviews; and
- Availability of staff and other resources to assist in meeting HUD regulations.

At the beginning of the program year, a meeting is set with program providers to discuss the reporting requirements and Monitoring Plan.

Program providers are required on a quarterly basis to provide progress reports, which are reviewed for compliance. A site review, held quarterly, is scheduled with the program providers. An entrance interview is held at the beginning of the program year with key representatives for clarification of the program's purpose, scope, objectives and goals. HUD-required records and information to be collected are then discussed. The review ends with an exit conference to present preliminary results of the monitoring, to provide an opportunity to discuss program compliance and reporting concerns, and to provide an opportunity for the program provider to report on steps being taken to address areas of non-compliance or non-performance. Formal notification of the results of the monitoring review is sent to the program provider, which creates a permanent written record, an outline of concerns and findings, and set deadlines for a written response and corrective actions, if any.

It is the monitor's responsibility to provide the technical assistance needed to ensure that the programs are productive and in compliance with federal regulations.

B. HOME Monitoring

The City of Long Beach will follow monitoring standards and procedures regarding affordable housing projects funded through HOME to ensure compliance through program regulations. The City's HOME monitoring standards and procedures are as follows:

- 1) The City will monitor the HOME program to ensure that HOME funding is used in conjunction with nonprofit partners, including Community Housing Development Organizations (CHDOs), in accordance with HOME regulations. The City evaluates organizations' qualifications and designates them as CHDOs. The City will use a minimum of 15 percent of its annual HOME allocation for housing owned, developed or sponsored by CHDOs.
- 2) The City will monitor all activities undertaken with HOME funds to ensure that they are consistent with the City's Consolidated Plan.
- 3) The City will review the status of HOME grants to monitor the 24-month deadline to commit HOME funds and the five-year deadline to expend HOME funds.
- 4) The City will leverage HOME funds with private, local and nonprofit dollars. HOME regulations state that a 25-percent matching obligation is incurred for expended HOME funds. A record of match obligations and contributions will be maintained in a Match Log. Match will be reported to HUD annually in the CAPER.
- 5) The City will monitor HOME project activities to ensure that the activities are eligible under the HOME Program and the associated costs are related to affordable housing tasks.
- 6) The City will monitor HOME activities to ensure compliance with minimum HOME investment requirements. The minimum amount of HOME funds is an average of \$1,000, multiplied by the number of HOME-assisted units in a project. The City will also monitor HOME activities to ensure compliance with the maximum per-unit HOME subsidy limits applicable to the City of Long Beach.
- 7) The City will monitor HOME activities to ensure compliance with the HOME maximum purchase price/after-rehab value limits, the 203(b) limits applicable to the City of Long Beach, for owner-occupied and homebuyer properties. The City will conduct the required frequency of property inspections as stated in the HOME regulations. At least 15 percent of the HOME-assisted rental units in a project and a minimum of one unit in every building will be inspected during the period of affordability per the following schedule:
 - 1 to 4 unit building: every 3 years.
 - 5 to 25 unit building: every 2 years.
 - 26 unit or more building: annually.

The City will monitor HOME funded rehabilitation work to ensure compliance with methods and materials to be used when performing rehabilitation activities.

- 8) The City will monitor HOME activities to ensure that HOME funds are used to assist households with incomes at or below 80 percent of the area median income. The City will also ensure that for each annual HOME allocation, 90 percent of the occupants of HOME-assisted rental units and households assisted with HOME-funded Tenant-Based Rental/Security Deposit Assistance have incomes that are 60 percent or less of the area median and 20 percent of the units in each rental housing project containing five or more units are occupied by tenant households with incomes at or below 50 percent of median income. Household incomes of tenants residing in HOME-assisted rental units will be re-certified annually.

C. Additional Performance Measurement

The City of Long Beach has implemented a Citywide integrated management system. The goals of this system are to:

- Align resources around City Council and community priorities.
- Focus the entire organization on common objectives.
- Empower the work team.
- Improve efficiency and effectiveness of City services.
- Increase accountability at all levels of organization.
- Communicate status of performance regularly.

Long Beach's system was designed to strengthen the decision-making process and serve as a critical communication link between City Council, City staff, and the community. The system links budget and performance information for the entire organization. It facilitates regular and integrated performance reporting, highlights performance and resource gaps, and enables the optimization of service delivery based on demand, results, and best practices.

The activities of HUD formula grant programs have been integrated into the City's goals and strategies as communicated through citywide and departmental Strategic Plans. Results of many of the CDBG, ESG and HOME-funded activities reported herein are also communicated to City Council, City staff and the community through monthly, quarterly, and annual performance reports.

VII. Priority Housing Needs

A. Specific Housing Objectives

Table 3 summarizes the housing activities that the City of Long Beach will pursue in FY 2017. Specific information about each activity is provided in Appendix B: Listing of Proposed Projects.

Table 3: Specific Housing Objectives						
Specific Objective	Objective/ Outcome	Activity	Funding Source	Entitlement + PI	Five-Year Goal	FY 2017 Goal
H-1	DH-1	Residential Rehabilitation - Program Delivery	CDBG	\$111,388	NA	NA
H-1	DH-1	Single-Family Residential (Owner-Occupied) Rehabilitation Loan Program	HOME	\$0 ¹	160 units	0 units
H-2	DH-1	LBCIC Acquisition/Rehabilitation	HOME (CHDO)	\$332,009	50 units	10 units
H-2	DH-1	Multi-Family Residential New Construction/ Acquisition/Rehabilitation	HOME	\$2,465,046	200 units	40 units
H-3	DH-1	Home Improvement Rebate	CDBG	\$386,876	1,000 units	200 units
H-3	DH-1	Tool Rental Assistance	CDBG	\$0 ²	250 units	0 units
H-4	SL-3	Intensified and NIS Code Enforcement (ICE)	CDBG	\$1,239,551	50,000 units	10,000 units
H-4	SL-3	Code Enforcement - City Attorney	CDBG	\$150,000	250 units	50 units
H-5	DH-2	Security/Utility Deposit Assistance	HOME	\$195,000	350 households	70 households
H-5	DH-2	Housing Choice Vouchers	Section 8	NA	69,500 households (duplicated)	7,451 households

Notes:

1. The City will be leveraging CalHome funds to provide single-family residential rehabilitation.
2. The City no longer has a local vendor to operate this program. Instead, under the Home Improvement Rebate program, homeowners may request rebates on tool rentals for the home improvement projects.

B. Lead-Based Paint

In FY 2017, efforts to evaluate and reduce the number of housing units containing lead-based paint hazards will continue. Ultimately, the effects of these programs are to increase the inventory of lead-safe housing available to extremely low-, low-, and moderate-income households.

All CDBG, HOME, and ESG-funded housing programs and projects have incorporated lead-based paint hazard reduction efforts. In addition, Code Enforcement uses Lead Safe Work Practice (LSWP) standards to correct code enforcement violations. Five full-time equivalent Code Enforcement employees have obtained the State of California Department of Public Health Lead Inspection Assessor certification. These five programs act as the ears and eyes for detecting and correcting conditions at properties with lead-based paint hazards.

The Department of Health and Human Services also manages the Childhood Lead Poisoning Prevention Program (CLPPP), focusing on case management of children with elevated blood lead levels as defined by the State. This program provides community outreach regarding lead poisoning prevention and the hazards of lead poisoning, as well as information on identifying sources of lead. Health education presentations and materials are provided at community

events and meetings. Public Health Nurses (PHNs) provide case management services to children who are referred to the program. Case management services include an interview and lead prevention and nutrition education by PHNs with the parents. The PHNs encourage parents to conduct medical follow-up for children who have lead poisoning. A Registered Environmental Health Specialist provides an environmental inspection including on-site testing and specimen collection for possible sources of lead for testing by the Health Department Public Health Laboratory. The PHNs also provide outreach and education to parents of children with lower lead levels and to adults who have elevated lead levels.

In FY 2015, the City of Long Beach received \$3,231,609 from HUD for its Lead-Based Paint Hazard Control Program (LHC) for a three-year period from November 2, 2015 through November 1, 2018. The LHC Program identifies low income residences (with a focus on families with children under six years old), and address lead poisoning hazards created by lead-based paint. These may include chipping and peeling paint on walls and exterior surfaces, dust-producing friction surfaces (like doors, cabinets, and windows), and other conditions whereby children and adults are exposed to lead-based paint dust or chips. The program hires painting and construction companies that are certified to work with lead, and families are relocated during the renovations. The program is also responsible for conducting outreach/education events in the community, and training economically disadvantaged people in lead-safe work practices so that they may be hired as part of these renovations. Table 4 outlines the LHC's work program for the funding.

Objective	Methodology
Enrollment: 205 Units	Will provide lead-based paint hazard control services for 205 units of pre-1978 constructed affordable housing throughout the City, focusing on areas of highest need, specifically ZIP Codes 90802, 90804, 90806, 90810, and 90813.
Assessment: 205 Units	Enrollment Specialist verifies resident income meets latest low-income definitions (HUD); Health Education Specialist educates residents, advises residents of relocation and other responsibilities associated with LHC activities. Inspectors / Assessors perform inspections, create reports.
Units Cleared/Completed: 195	After LHC work is performed by contractor, Inspector/Assessors follow HUD and State of California clearance protocols. Submit samples to certified lab.
Outreach Events:	Program manager solicits educational outreach opportunities from city and community groups. Program manager and health educator attend event, provide materials and education, with focus on pregnant women and children under six. Provide lead-safe work practices education for CLPPP events. A new flyer was created to promote the program.
Training: Low Income	Program Assistant coordinates with Center for Working Families, City Section 3 coordinator, and local media to recruit low income residents interested in becoming lead-based paint certified workers. Contracts with local certified training company to provide education, certification.

C. Public Housing

The City of Long Beach does not own public housing units. However, the Los Angeles County-owned Carmelitos Housing Project is located in the City of Long Beach. In FY 2017, the City will continue to inform residents of the Carmelitos Housing Project about available City programs, including Welfare-to-Work. The City will also continue to develop our working relationship with the Los Angeles County Community Development Commission and coordinate appropriate services to residents of the Carmelitos Housing Project.

D. Reduction of Barriers to Affordable Housing

1. Long Beach Community Investment Company

The City will continue to improve and expand affordable housing opportunities in the City through its public nonprofit corporation, The LBCIC. The LBCIC is a nonprofit, public benefit corporation established to assist in the creation of affordable housing opportunities, including both rental and home ownership. The major sources of revenue for the LBCIC include HOME funds and advances from the City's Housing Development Fund. LBCIC will continue to work with CHDOs and other developers to create additional affordable housing opportunities for low income households.

The Long Beach Development Services Housing and Community Improvement and Grants Administration Division will work with the LBCIC and the City to identify and finance affordable housing projects and programs that will provide safe, decent, and affordable rental and ownership opportunities for Long Beach residents and workers.

2. Incentives for Affordable Housing

To encourage the development and conservation of affordable housing, the City has adopted several ordinances - a density bonus ordinance, State coastal zone law, as well as various other incentives. These ordinances encourage higher density housing that is affordable to special needs populations and remove potential constraints to development, while preserving affordable units in the coastal zone.

- **Density Incentives** - Long Beach has adopted the State density law to provide up to 35 percent of density bonus to facilitate the development of lower income housing, moderate-income condominiums, and housing for seniors.
- **Fee Waiver** - In addition to the density bonus, parks and recreation and transportation development fees are waived for affordable housing if the criteria on length of affordability and income/affordability level are met.
- **Relaxed Standards** - In conjunction with the density bonus ordinance, certain development standards may be relaxed if increased density cannot be physically accommodated on the site. This provision follows a priority order specified in the Zoning Code and the applicant must show that the density bonus cannot be achieved with each sequential waiver before the next waiver is allowed. The priority order is:
 1. Percentage of compact parking
 2. Tandem parking design limitations
 3. Privacy standards
 4. Private open space
 5. Common open space
 6. Height
 7. Distance between buildings
 8. Side yard setbacks
 9. Rear yard setbacks

10. Number of parking spaces (but not less than one space per unit)
11. Front setbacks

If the developer believes that with the density bonus and the additional incentives, the provision of lower income housing, moderate income condominiums, or senior citizen housing units is not financially feasible, then the developer may submit a project pro forma demonstrating the deficiency.

3. HOME-Funded Programs

The City will continue to implement programs that foster and maintain affordable housing. During the FY 2017 program year, HOME will be used to assist in the new construction of affordable units. In addition, HOME funds will be made available to continue the Security and Utility Deposit Program to assist homeless families who are able to sustain permanent housing, but are unable to save the funds necessary to initially secure the housing. This program is the result of collaboration between the Department of Health and Human Services Human and Social Services Bureau and the Long Beach Development Services Grants Administration Division to provide a program that creates affordable rental housing opportunities for formerly homeless households. The HOME Security and Utility Deposit Program brings together federal HOME funding and an efficient participant qualification process developed for the Tenant-Based Rental Assistance (TBRA) program by the Grants Administration Division with homeless applicant intake, processing and monitoring by staff from the Department of Health and Human Services. Homeless individuals and families are assisted in securing stable, long-term housing through this collaborative effort. HOME funds are used to support security deposits equivalent to two months of rent to enable these formerly homeless renters, who have income sufficient to pay rent but cannot afford upfront costs to secure a decent place to live.

Under federal regulations, a minimum of 15 percent of HOME funding must be allocated to CHDOs for housing development activities. CHDO organizations must be private, non-profit, community-based service organizations that have obtained or intend to obtain staff with the capacity to develop or rehabilitate affordable housing for the community served. Since the inception of HOME in 1992, the City has worked with numerous CHDOs, including the following:

- Clifford Beers Housing Inc.
- Community Corporation of Santa Monica (CCSM)
- Comprehensive Child Development
- Decro Alpha Corporation
- Decro Gamma Corporation
- Decro Epsilon Corporation
- Federation of Filipino American Associations, Incorporated
- Friends of Central Avenue
- Habitat for Humanity South Bay/Long Beach
- Helpful Housing
- Home Ownership for Personal Empowerment
- JABEZ Foundation, Inc.
- Joshua One Community Development Corporation
- Long Beach Affordable Housing Coalition
- Mental Health Association

- Shelter for the Homeless
- United Cambodian Community, Inc.

E. Activities to Further Fair Housing

1. Fair Housing Program

The City contracts with the Fair Housing Foundation (FHF), a private, nonprofit, nonpartisan educational agency dedicated to promoting the enforcement of fair housing laws. The Fair Housing Program for the City includes the following programs:

- **Discrimination Program:** FHF manages a high case load of bona fide discrimination complaints. In addition, FHF takes a proactive stance on random audit testing designed specifically to address underserved areas. After thoroughly and successfully completing its investigations for a case, FHF advises each complainant of the findings and their options.
- **Landlord/Tenant Program:** FHF receives a high volume of landlord/tenant calls. Since approximately 90 percent of discrimination complaints originate from landlord/tenant calls, the full-time bilingual (English/Spanish) Landlord/Tenant Counselor works closely with the Discrimination Housing Specialist. Services include counseling and mediation to landlords, tenants and homeseekers.
- **Education and Outreach Program:** FHF provides a comprehensive, extensive and viable education and outreach program. The purpose of this program is to educate tenants, landlords, owners, realtors and property management companies on fair housing laws; to promote media and consumer interest; and to secure grass roots involvement with the communities.

2. Analysis of Impediments to Fair Housing Choice

In 2010, the City of Long Beach completed an update to the City's Analysis of Impediments (AI) to Fair Housing Choice. The impediments and proposed actions identified in the AI are presented in Table 5. The City is in the process of preparing its first Assessment of Fair Housing, which is expected to be completed by the end of 2016.

Impediment	Proposed Action and Timeline	Time Frame
Racial and Ethnic Concentrations	Annual Poster Contest and increase involvement to middle schools and high schools.	Ongoing
	The City will actively solicit the participation of a diverse group of residents (including minorities, seniors, persons with disabilities, and women) to serve on the City commissions and committees that influence housing decisions in order to represent the interests and needs of all Long Beach residents.	Ongoing
Visitability	The City will be exploring incentives to promote universal design principles.	Ongoing

Table 5: FY 2017 Activities to Reduce Fair Housing Impediments		
Impediment	Proposed Action and Timeline	Time Frame
Housing Vacancies	The City will continue to contract with FHF to provide fair housing services that will include, but not be limited to: Discrimination Complaint Intake and Investigation, Outreach and Education, and General Housing (Landlord/Tenant) Counseling.	Ongoing
Housing Discrimination against Minority and Female-Headed Households	The City will evaluate the feasibility of providing additional density bonuses or other incentives for new developments that include universal design.	Ongoing
	The City will continue to contract with FHF to provide fair housing services that will include, but not be limited to: Discrimination Complaint Intake and Investigation, Outreach and Education, and, General Housing (Landlord/Tenant) Counseling.	Ongoing
	When mailing the invoices for business license renewal for rental properties, include information on fair housing rights and responsibilities, and opportunities and resources for fair housing training.	Ongoing
Limited Housing Opportunities for Large Households	The City will continue working with developers, affordable housing advocate groups, and FHF to identify and pursue all available funding to develop affordable housing to include large family rentals, and units for the disabled.	Ongoing
Housing Affordability and Substandard Housing Issues Disproportionately Impact Minority Special Needs, and Renter-Households	The City will target a portion of its housing resources to benefit households of extremely low incomes (30% MFI) and to facilitate the development of housing for persons with special needs.	Ongoing
Housing Discrimination against Large Households and Persons with Disabilities	The City will continue working with developers, affordable housing advocate groups, and FHF to identify and pursue all available funding to develop affordable housing to include large family rentals, and units for the disabled.	Ongoing
	The City will work with the Long Beach Housing Authority to make available on FHF and city websites a list of affordable housing units by size and those accessible to disabled persons.	Ongoing

VIII. Priority Homeless Needs

A. Specific Homeless Objectives

Table 6 summarizes the homeless services and programs that the City of Long Beach will pursue in FY 2017. Specific information about each activity is provided in Appendix B: Listing of Proposed Projects.

Table 6: Specific Homeless Objectives						
Specific Objective	Objective/ Outcome	Activity	Funding Source	Entitlement + PI	Five-Year Goal	FY 2017 Goal
Hm-1	SL-1	Emergency Shelters	ESG	\$247,526	1,875 homeless persons (duplicated)	375 homeless persons (duplicated)
Hm-1	SL-1	Homeless Multi-Service Center	CDBG	\$100,000	100,000 persons (duplicated)	20,000 persons (duplicated)

Table 6: Specific Homeless Objectives						
Specific Objective	Objective/ Outcome	Activity	Funding Source	Entitlement + PI	Five-Year Goal	FY 2017 Goal
Hm-2	DH-2	Homelessness Prevention	ESG	\$30,581	1,250 persons at risk of becoming homeless	250 persons at risk of becoming homeless
Hm-2	DH-2	Rapid Re-Housing	ESG	\$134,460	250 households	50 households
Hm-2		Street Outreach	ESG	\$57,164	N/A	

B. ESG Match

The City of Long Beach contracts with non-profit agencies to provide prevention, street outreach, emergency housing, and rapid rehousing services. The funded agencies must provide 100 percent match as stated in the Request for Proposals. The match source can be either in-kind or cash match, and must be from sources other than ESG or McKinney-Vento funding. Funds used to match a previous ESG/CDBG grant may not be used to match a subsequent grant. Additionally, detailed match documentation must be submitted during the invoice process.

C. Homeless Continuum of Care

The City has been committed to shaping a comprehensive and coordinated system of care to respond to the diverse needs of homeless individuals and families at risk of becoming homeless. In an ongoing collaborative effort of local agencies, City leaders, community groups, and public and private resources, the City continues to expand services to the homeless population and works to provide for a coordinated and seamless delivery system that addresses fundamental needs. Through the City's Consolidated Planning process and services provided through the Long Beach Continuum of Care, the City and social service providers strive to create a wide spectrum of services including emergency, transitional, and permanent housing and supportive services to assist homeless families and individuals, empowering them to make the critical transition from housing crisis to self-sufficiency and stable permanent housing.

The Long Beach Continuum of Care system is comprised of several components:

1. **Homeless Prevention:** Homeless prevention efforts in Long Beach are supported by ESG funds, a portion of which is used for eviction prevention. In addition, the HOME program is utilized as a gap service to assist households with move-in deposits for permanent housing units in order to divert them from needing to access the shelter system altogether. The City of Long Beach Housing Authority has set aside 70 Housing Choice Vouchers for homeless households. This housing resource has been integral in permanently housing homeless households with low earning potential or living on fixed incomes. Access to these to Housing Choice Vouchers have made it possible for homeless households to stabilize despite significant increases in the real estate market, which adversely impacts availability and affordability of housing in Long Beach.

2. **Outreach and Assessment:** Street outreach is usually the first point of contact for many homeless persons. The goal of outreach is to engage the system resistant and chronically homeless living on the street. The Street Outreach Network, a multi-disciplinary team of staff, uses a comprehensive approach that is coordinated and integrated, yet flexible to address the varying needs of the street homeless population and is the critical link between the streets and supportive housing services. The Street Outreach Network provides services to participants where they reside, ranging from: intake, assessment and treatment planning, health assessments (physical and mental), minor wound treatment and medical screenings, referrals into mainstream programs, assistance navigating the medical and mental health systems, shelter and housing placement. This approach has been successful in providing services to participants that in the past did not access services due to significant physical and psychological barriers. Various agencies focus on special populations such as youth, chronically homeless, mentally ill, substance abuse, veterans, households affected by domestic violence and trimorbid individuals. The Street Outreach Network coordinates their outreach efforts at their bi-weekly meetings held at the Multi-Service Center.
3. **Immediate Shelter (Emergency Shelter):** Participants are placed into short-term emergency shelter to provide immediate shelter for the participant while the participant works with a case management team to focus on housing goals with the ultimate goal of becoming permanently housed and self-sufficient.
4. **Transitional Housing with Supportive Services:** This component involves individuals and families who move from the streets, or in some cases, emergency shelter, into longer-term shelter programs. This process begins after initial stabilizing services have been utilized. Housing needs are assessed during the initial evaluation and development of the individual case plan. Transitional housing placement is prioritized for homeless households requiring long-term shelter (more than 90-days) with the outcome target of securing permanent housing. The Century Villages at Cabrillo, a 27-acre therapeutic community located in Long Beach, provides a unique setting and opportunity for homeless individuals and families to begin transition back into the community through a carefully planned network of services and agencies. Participants are placed into permanent supportive housing, as quickly as possible, and supportive services are readily available to assist participants with learning the skills necessary for independent living.
5. **Permanent Housing:** The Long Beach Continuum of Care maintains a wide portfolio of permanent housing resources ranging from deposit assistance to permanent supportive housing. All households are assessed for eligibility and overall needs to ensure that the household is being linked to the most appropriate housing resource. Continuum of Care agencies employ Housing Coordinators to connect individuals and families with housing units that are safe, clean, affordable, and accessible to the disabled. As individuals and families are stabilized in permanent housing, supportive services are decreased over time until they are no longer needed. Staff uses the Critical Time Intervention Model, an evidence-based practice, to ensure that individuals and families have the appropriate support services in place and gradually reduce them as the households stabilizes in their permanent housing. Long-term housing retention is the ultimate goal so as to prevent the downward cycle of homelessness from reoccurring.

Supportive services are provided through each step of the Continuum of Care delivery system to help all sub-populations of homeless individuals and families receive the assistance they need. The Long Beach Continuum of Care has a vision that every resident of Long Beach will be able to access adequate housing, food, and medical services. Throughout the year, various groups involved in the Continuum of Care planning process assess areas of need and set priority areas and goals.

Areas of concentration during FY 2017 include:

- Continue to strengthen street outreach to homeless residents and in response to broader community concerns.
- Shorten length of stay within the shelter system.
- Continue to streamline service referrals within the Continuum of Care system.
- Continue to build relationships with neighborhood and business associations and faith-based partners.
- Develop avenues to expand available housing resources and thereby increasing access to affordable housing units in Long Beach.
- Increase program participants' income and connections to mainstream resources.
- Increase the number of permanent housing placements for chronically homeless persons.
- Expand utilization rates and outcome data for the Homeless Management Information System (HMIS).

The City's ESG Written Standards are presented in Appendix HH.

D. Chronic Homelessness

According to the 2015 point-in-time count, 927 people self-reported as meeting the requirements under the HUD definition of chronic homelessness. From the information captured through the homeless assessment, the Long Beach Continuum of Care system has refocused its efforts to address the high number of chronically homeless found in Long Beach. The service providers in the Long Beach Continuum of Care system share the vision of ending chronic homelessness in Long Beach.

The Continuum of Care agencies will continue to improve participant-centered, culturally competent activities while utilizing a Coordinated Entry System (CES) approach. The CES process is designed to identify, prioritize, and target resources to meet the greatest needs among homeless individuals and families. The CES ensures that persons experiencing homelessness who enter programs throughout the CoC will be given similar information and support to access and maintain permanent housing. Additionally, the CES looks at ways to prevent chronically homeless participants from cycling back onto the streets. The following list is the core of the Continuum of Care delivery system for chronically homeless services:

- Substance abuse and mental health treatment.
- Primary health care, homeless veteran services.
- Service-enriched permanent housing.
- In-home case management services with enhanced supportive services.

Many chronically homeless persons have had adverse experiences with seeking assistance across multiple disparate systems of care, therefore the Long Beach Continuum of Care is based on immediate access to comprehensive services either through the Multi-Service Center, or through the multi-disciplinary outreach network team, which brings needed resources to participants where they reside. Street outreach programs are the critical link between the chronically homeless and comprehensive services.

In FY 2017, the Multi-Service Center collaborative will continue to coordinate the multi-disciplinary Street Outreach Network. To facilitate immediate access to services, van and taxi transportation services are made available. The Multi-Service Center, Mental Health America and United States Veterans Initiative all operate daily shuttle services, while other service providers distribute bus tokens and bus passes and assist disabled participants with obtaining bus passes and shuttle services through mainstream resources.

The City of Long Beach also collaborates with regional partners in the County of Los Angeles to encourage participation in a regional approach to end homelessness. As the lead agency for the Gateway Connections Local Coordinating Alliance (LCA) 4, the Department Health and Human Services-Homeless Services Division works with human services agencies, local law enforcement, and street outreach workers to provide outreach and targeted engagement of the chronic homeless population in the greater Long Beach area. The project works to link people with regional services and supportive housing to help decompress impacts of homelessness in bordering cities.

The SSI/SSDI Outreach, Access, and Recovery (SOAR) program, funded by the Substance Abuse and Mental Health Services Administration (SAMHSA), is an approach that helps increase access to mainstream disability income benefit programs for people who are homeless or at risk of homelessness. The City of Long Beach is the local lead on this initiative. The SOAR steering committee continues to provide SOAR trainings to improve SSI/SSDI linkages for homeless persons who are eligible. Help Me Help You collocates at the Multi-Service Center and is the lead agency on site that provides assistance with SOAR applications to ensure that homeless households are assisted with the application process to ensure accurate and expedited applications for benefits.

Another component of the Continuum of Care system to address chronic homelessness is the integrated database tracking system known as the Homeless Management Information System (HMIS). The HMIS has increased access to resources, streamlined participant information gathering, and has eliminated service duplication. A case manager can access information such as service history, information about eligibility for services, services received, and rely on consistency of information relevant to the participant. The information allows appropriate referrals, flexible changes in the level of service, and the elimination of duplicate efforts of service providers to assist the participant. The HMIS also supplies data on demographics, service delivery, program effectiveness, resource/service gaps, service utilization, and the overall continuum efficiency and effectiveness in achieving positive housing and service outcomes. By refocusing service efforts to address the special needs of the chronically homeless, the Continuum of Care system will be able to track progress on the number of chronically homeless placed and maintained in permanent housing.

E. Homelessness Prevention

The City will continue to utilize ESG funding to support homeless prevention services during FY 2017. Diversion from the shelter system is one of the strategies the Continuum of Care utilizes to reduce homelessness in Long Beach. During intake and assessment, households are assessed for existing support systems and the capacity to prevent them from entering the shelter system. Intake staff provides linkage to mainstream resources such as childcare, employment services and food resources to stabilize households. The Long Beach Continuum of Care provides homeless prevention services such as rental assistance and eviction prevention that were designed to prevent individuals and families from experiencing homelessness. Several community partners, including Alliance for Housing, provide rental assistance subsidies through Housing Opportunities for Persons With AIDS (HOPWA) funds, to assist persons living with HIV/AIDS from becoming homeless. Centro CHA provides gap rental assistance, utility assistance and other gap prevention efforts to ensure at-risk households are diverted from requiring homeless assistance. In addition, Legal Aid Foundation of Los Angeles (LAFLA) provides legal counsel and mediation to prevent homelessness for households who are issued unlawful detainers. Furthermore, collaborative agencies incorporate a prevention component into their services by conducting educational classes for low- and very low- income families and individuals to assist with employment preparedness, budgeting, information access, case management, health programs, and access to other mainstream resources. The Multi-Service Center hosts Tenant Rights Training workshops provided by Legal Aid Foundation and the Fair Housing Foundation which provide information on tenant rights and responsibilities to help prevent homelessness. These classes have been critical for both households exiting homelessness as well as those who are at risk of becoming homeless.

F. Assisting the Transition to Permanent Housing

The City will continue to carry out all activities related to the ESG program and other transition services identified in the City's Continuum of Care. Under this program the City will fund local public and private agencies during FY 2017 with ESG funds and other available resources. The City will also continue to advocate for the availability of State and County resources and to effectively use those resources to assist individuals and families who are homeless or at-risk of homelessness. The City will seek out and aggressively pursue, as appropriate, grant opportunities for homeless assistance funds from applicable federal, state, and local authorities as well as assist and endorse such applications submitted by other entities. The focus will be on identifying additional resources to assist homeless persons and families, especially resources aimed at providing affordable permanent housing for homeless and special needs persons and families.

Transitional housing programs managed by nonprofit agencies are designed to prepare homeless persons and families for relocation into permanent housing. These programs monitor persons for a temporary period of time after moving into permanent housing to assess progress, identify, and address potential problems. An important aspect of the transition process is the access that families and individuals always have to services, programs, and assistance necessary to address any difficulties experienced in maintaining permanent housing.

Programs that provide employment, supportive services, and related assistance to the Continuum of Care System are identified in the Strategic Plan and Anti-Poverty Strategy of the FY 2013 - FY 2017 Consolidated Plan. Local homeless service providers are highly familiar with these public and private local resources and use them extensively in their efforts to transition homeless persons into permanent housing and community self-sufficiency. The City

will continue to provide a comprehensive coordinating function as well as provide resources for all aspects of the Continuum of Care System.

The City's Career Transition Center and Goodwill, Serving the People of Southern Los Angeles County provide an array of vocational counseling services, on-the-job training and job placement services. These agency resources are focused on providing opportunities for economic self-sufficiency necessary to maintain permanent housing. They are important tools utilized as part of the Long Beach Continuum of Care.

G. Discharge Coordination Policy

The Long Beach Continuum of Care continues to develop, refine, and implement strategies for comprehensive discharge planning practices citywide. The Street Outreach Network is proactive in coordinating with agencies working with homeless individuals being released from local jails, hospitals, and the foster care system, in order to facilitate planning for housing placement and therefore preventing homelessness.

Three major health care facilities in Long Beach—St. Mary Medical Center, Long Memorial Medical Center and VA Long Beach Healthcare System—as well as smaller healthcare agencies provide medical and mental health care for homeless persons in Long Beach. These facilities have been informed of proactive planning options available to prevent an individual from being discharged into homelessness. A referral mechanism has been formalized within the Long Beach Continuum of Care and agreed upon via a Memorandum of Understanding, to ensure the continuity of discharge planning from acute medical facilities to address homelessness prior to discharge.

Mental Health America operates a comprehensive system of care for severely mentally ill individuals, who are homeless, recently released from jail, and at serious risk of recidivistic incarceration or institutionalization. A critical component of this process is the role of the local system navigator, who provides the initial referral for identification and discharge planning coordination between Mental Health America and the Los Angeles County or Long Beach City Jail. The outreach team will go to the detention facility to identify potential participants and begin the engagement process. Upon notification of a pending release of an eligible, previously identified inmate, coordination will begin to ensure connection to emergency housing options and services. These services are also provided to transitional age youth, many of whom have aged out of the foster care system. These services include wraparound programs where housing, case management, educational and vocational training are available in order to prevent youth from experiencing barriers to self-sufficiency.

IX. Priority Community Services and Special Needs

A. Specific Community Services and Special Needs Objectives

Table 7 summarizes the community services and special needs activities that the City of Long Beach will pursue in FY 2017. Specific information about each activity is provided in Appendix B: Listing of Proposed Projects.

Table 7: Specific Community Services and Special Needs Objectives						
Specific Objective	Objective/ Outcome	Activity	Funding Source	Entitlement + PI	Five-Year Goal	FY 2017 Goal
CS-1	SL-1	Youth - After School and Weekend Recreation	CDBG	\$390,000	265,000 people (duplicated)	53,000 people (duplicated)
CS-2	SL-1	Graffiti Removal	CDBG	\$175,000	150,000 sites	30,000 sites
CS-2	SL-1	Graffiti Removal - Mural Conservation Program	CDBG	\$10,000	50 mural restorations	10 mural restorations
CS-3	SL-1	Neighborhood Resource Center	CDBG	\$150,000	75,000 people (duplicated)	15,000 people (duplicated)
CS-3	SL-1	Neighborhood Leadership Program	CDBG	\$7,200	150 people	30 people

X. Priority Community Facilities and Infrastructure

A. Specific Community Facilities and Infrastructure Objectives

Table 8 summarizes the community facilities and infrastructure improvements that the City of Long Beach will pursue in FY 2017. Specific information about each activity is provided in Appendix B: Listing of Proposed Projects.

Table 8: Specific Community Facilities and Infrastructure Objectives						
Specific Objective	Objective/ Outcome	Activity	Funding Source	Entitlement CO+PI	Five-Year Goal	FY 2017 Goal
CFI-1	SL-1	Neighborhood Partners Program	CDBG	\$90,869	50 projects	10 projects
CFI-1	SL-1	Infrastructure/ Park Development	CDBG	\$0 ²		0 project
CFI-1	SL-1	Urban Forestry	CDBG	\$98,674		1 project
CFI-1	SL-1	Interim Assistance	CDBG	\$0		0 project
CFI-1	SL-1	Park and Open Space Development	CDBG	\$600,000	NA ¹	NA ¹
CFI-2	SL-1	Sidewalk Replacement Program	CDBG	\$600,000	400,000 square feet of sidewalks	800,000 square feet of sidewalks
CFI-2	SL-1	Urban Forestry	CDBG	\$0 ²	2,500 trees	0 trees

Notes:

1. Annual bond payment for completed park development at nine CDBG-eligible area sites.
2. Funding from previous years will continue to be used to provide general public improvements and urban forestry activities. No additional funding from FY 2017 will be provided to these two programs.

XI. Priority Economic Development Needs

A. Specific Economic Development Objectives

The City continues to make substantial investments in economic development. Investments include infrastructure improvements, support for new commercial and retail development, technical assistance for businesses, access to capital programs, commercial corridor revitalization, workforce development, and incentives for business retention, expansion, creation and attraction.

Streetscape improvements including medians, crosswalks, curb ramps, sidewalks, security lighting, and landscaping are ongoing or planned in numerous neighborhoods.

Commercial corridor revitalization, a priority for the City, is ongoing in several major corridors. Components of the effort include the Business Revitalization Program which provides reimbursement of up to \$2,000 per business to commercial property owner and business owners on several City business corridors that serve adjacent neighborhoods to improve the exterior of their businesses and ensure proper code standards. The Business Start-up Grant Program encourages new business ventures in low and moderate income neighborhoods by providing small grants to entrepreneurs. The City continues to deploy its aggressive workforce development program to provide training and placement of low and moderate income Long Beach residents.

The City provides an array of direct and technical assistance for both business retention and attraction. CDBG funds are used to assist private for-profit businesses with counseling, development, and expansion. Business loans are a key tool to create low and moderate income jobs and provide needed services to the City's low and moderate income neighborhoods. The Small Business Development Center (SBDC) provides services to small and large businesses by supporting new start-ups and promoting growth of existing businesses to provide services and jobs to low and moderate income neighborhoods. SBDC services include:

- Business start-up counseling
- Site location assistance
- Enterprise Zone Hiring Credit assistance
- Marketing or business plan preparation assistance and counseling
- Business loan information
- International trade opportunities
- Assistance with business operation, financing, and problems

Table 9 summarizes the economic development activities that the City of Long Beach will pursue in FY 2017. Specific information about each activity is provided in Appendix B: Listing of Proposed Projects.

Table 9: Specific Economic Development Objectives						
Specific Objective	Objective/ Outcome	Activity	Funding Source	Entitlement + PI	Five-Year Goal	FY 2017 Goal
ED-1	EO-1	Economic Development (Citywide) - Technical Business Assistance	CDBG	\$110,000	120 jobs	24 jobs
ED-1	EO-1	Economic Development (Target Areas) - Neighborhood Business Investment Program	CDBG	\$0 ¹	300 businesses	0 businesses
ED-1	EO-1	Economic Development (Target Areas) - Business Revitalization Program (Corridor)	CDBG	\$0 ¹	500 businesses	0 businesses
ED-1	EO-1	Economic Development (Target Areas) - Hire-A-Youth/Future Generations Center - Job Placement	CDBG	\$146,419	100 jobs	20 jobs
ED-1	EO-1	Economic Development Infrastructure Improvements (Target Areas) or Façade Improvement Project (Corridor)	CDBG	\$0 ¹	150 businesses	0 ¹ businesses

Note 1: The City is amending its FY 2015 and FY 2016 Action Plans to reallocate unspent funding to Neighborhood Business Investment Program, Business Revitalization Program, and Infrastructure Improvements. This amendment is discussed later in this Action Plan.

B. Anti-Poverty Strategy

The City of Long Beach will provide resources to households living in poverty through a network of social and public service agencies and programs addressing poverty and its effects. These efforts may include, but are not limited to, the following:

1. Housing and Employment

- **Family Self-Sufficiency Program:** HACLB’s Family Self-Sufficiency Program links Housing Choice Voucher holders with a network of Long Beach service providers to offer job training, personal development, and educational programs to help move them towards self-sufficiency. The HACLB provides rent subsidies, and also administers an escrow savings account for extra income earned by the participant. Program participants are eligible to participate in the Section 8 Homeownership Assistance Program administered by the Housing Services Bureau.
- **Rental Housing Acquisition and/or Rehabilitation:** Through rental housing acquisition and/or rehabilitation, the City provides long-term affordable housing for low and moderate income households. Stable housing fights poverty by helping families to maintain economic stability. The City gives funding priority for service-

enriched housing that provides access to social services, such as childcare, after-school educational and recreational programs, health programs, job-training, financial and legal counseling.

- **Tenant-Based Rental Assistance (TBRA):** The Department of Health and Human Services and Housing Services Bureau offer a joint Tenant Based Rental Assistance (TBRA) Homeless Transition Program to assist homeless to transition into permanent rental housing. Intermediary TBRA assistance includes security deposits, first and last months' rent and moving expenses.
- **Public Housing:** Residents of the 743-unit Carmelitos public housing development in North Long Beach have access to several programs aimed at lifting residents out of poverty. The Housing Authority of the County of Los Angeles (HACLA) offers public housing CalWORKS recipients career development and work experience opportunities. A Service Learning Program on-site at Carmelitos provided in conjunction with local universities and colleges, offers a range of educational opportunities for residents, with a focus on family literacy, workforce development, and family issues.

2. Economic Development/Job Training

Another critical component to the City's anti-poverty strategy is to increase the local employment base, in conjunction with educational and job training opportunities for the local workforce.

The Long Beach Workforce Development Bureau utilizes federal, state, and local funding resources to support employment training and development programs and job creation and retention efforts. The One-Stop Career Transition Center provides training and access to employment for Long Beach residents, including the Welfare-to-Work program that targets the lowest income residents of the City. The City will continue its annual Youth Employment Services for low/moderate income youth and offer the Hire-A-Youth program that assists with the placement of youth into available job opportunities.

3. Support Services

Supportive services can help to address poverty by providing needed services to enable people to prepare for, locate, and maintain employment. For example, services that support independence for special needs populations - persons with disabilities, persons with alcohol and/or drug dependencies, homeless - can help to prepare these populations for employment. And youth and gang-prevention programs geared towards keeping kids in school and improving the high school graduation rate help to reduce long-term poverty rates in Long Beach.

The MSC is designed to provide one-stop access to resources for persons and families experiencing homelessness in the City. The MSC provides comprehensive supportive services to promote progress towards permanent housing and self-sufficiency. The many services offered include employment preparation and placement, child care, transportation, medical and mental health care, substance abuse treatment, integrated case management, and housing coordination.

XII. Planning and Administration

A. Specific Planning and Administration Objectives

Table 10 summarizes the planning and administration activities that the City of Long Beach will pursue in FY 2017. Specific information about each activity is provided in Appendix B: Listing of Proposed Projects.

Table 10: Specific Planning and Administration Objectives						
Specific Objective	Objective/ Outcome	Activity	Funding Source	Entitlement + PI	Five-Year Goal	FY 2017 Goal
NA	NA	CDBG Administration - Program	CDBG	\$1,085,507	NA	NA
H-6	DH-1	CDBG Administration - Fair Housing	CDBG	\$85,000	10,000 people	2,000 people
NA	NA	HOME Administration - Program	HOME	\$221,339	NA	NA
NA	NA	ESG Administration - Program	ESG	\$38,086	NA	NA

XIII. Program-Specific Requirements

A. CDBG-Specific Requirements

1. Float Funding

The CDBG program provides an allocation of funds that is available for the City of Long Beach to undertake housing, community development, and economic development activities as established in the FY 2013 - FY 2017 Consolidated Plan and this FY 2017 Action Plan. This allocation is held as a line of credit at the Federal Reserve for the City, and the City draws down from the line of credit as funding is expended.

Sometimes, however, activities take longer to get started than initially anticipated and funds for undertaking these planned activities remain in the grantee's (i.e., City of Long Beach) line of credit. Under this circumstance, HUD permits CDBG grantees to use a financing technique called float funding.

Under the float funding provision (CFR-24 570.301), the grantee uses the amount of funds available in the line of credit to fund an alternate eligible activity with the assumption that these funds will be repaid by the grantee and then used to fund the originally planned activity.

All float-funded activities must meet all of the same requirements that apply to all other CDBG activities. In addition, the following requirements must be met:

- Float funded activities should generate sufficient program income (repayment) to permit the originally planned activity to be carried out.

- This program income must be received within 2.5 years from the time of obligation for the float-funded activity.
- Extensions to this repayment period are considered new float-funded activities.
- The float-funded activity must be included in the Action Plan for the year or the Action Plan must be amended.
- The full amount of the projected program income from the float-funded activity must be shown as a source of program income in the Action Plan covering the activity, regardless of whether the income is expected in a future program year.

2. City's Intent to Use Float Funding

The City of Long Beach will consider using Float Funding as a financing technique to pursue infrastructure-related improvement projects should other CDBG-funded projects experience delays in implementation. The City will ensure all float-funded activities will meet all CDBG eligibility requirements.

The full amount of the projected program income (such as payments from other funding sources) from the float-funded activity is considered a source of program income in the Action Plan covering the activity, regardless of whether the income is expected in a future program year.

All float-funded activities will be backed by a line of credit from the City's bank.

3. Substantial Amendment

On May 9, 2014, HUD notified grantees of pending system changes that will affect the administration of the subject HUD grants. HUD's Inspector General has determined that the First-In-First-Out (FIFO) accounting methodology, or oldest money disbursed first, used by grantees since 1974 does not comply with federal financial standards. Under the FIFO methodology, grantees like the City of Long Beach would reprogram unused entitlement from the current fiscal year's action plan in next year's action plan. The new system, implemented at the beginning of FY 2016, ensures that both commitments and disbursement of grant funds be done on a grant-specific/fiscal year-specific methodology. As a result of this rule, FY 2017 Action Plan resources for CDBG, HOME and ESG can only come from new entitlement allocations and future Program Income. Carryover funds from previous years will not be counted as FY 2017 Action Plan resources. Instead, these resources will continue to be associated with previous Action Plans, hence necessitating the need to amend the corresponding Action Plans to reallocate unspent funds, if needed, for different programs in line with the Consolidated Plan. The City of Long Beach proposes to amend its FY 2015 Action Plan and FY 2016 Action Plan as follows:

Table 11: Third Substantial Amendment to FY 2015 Action Plan			
Program	Reduced Amount	Program	Increased Amount
Neighborhood Resource Center	(\$2,524)	Acquisition for Open Space Development (14 th Street Park)	\$1,000,000
Neighborhood Leadership Program	(\$4,078)	Public Facility Improvements and ADA Compliance (Drake Park and Chavez Park)	\$363,317
Technical Business Assistance	(\$4,400)		
Revolving Loan	(\$9,662)		
Neighborhood Business Investment	(\$69,627)		
Business Revitalization Program/ Corridor	(\$132,997)		
Program Administration	(\$199,047)		
ED/ Infrastructure Improvement	(\$940,982)		
Total Reallocated	(\$1,363,317)	Total	\$1,363,317

Table 12: First Substantial Amendment to FY 2016 Action Plan			
Program	Reduced Amount	Program	Increased Amount
Home Improvement Rebate Program	(\$108,762)	Economic and Infrastructure Development	\$510,225
Program Delivery	(\$12,015)	Neighborhood Business Investment	\$157,501
Neighborhood Resource Center	(\$9,275)	Business Revitalization Program/Corridor	\$367,142
Neighborhood Leadership Program	(\$1,202)		
Code Enforcement	(\$315,463)		
Interim Assistance	(\$106,814)		
Neighborhood Partners Program	(\$52,647)		
Urban Forestry Program	(\$11,031)		
Program Administration	(\$417,659)		
Total Reallocated	(\$1,034,868)	Total	\$1,034,868

Note: The activity Public Infrastructure Improvement/ Community Facility/ Economic Development is a new activity for the FY 2016 Action Plan.

B. HOME-Specific Requirements

While the City has not allocated FY 2017 HOME funds for homebuyer assistance, households assisted with HOME-funded homebuyer assistance in the past are subject to the following recapture provisions.

1. Homebuyer Activities - Recapture Option

To ensure long-term affordability, the City will impose a recapture provision, which will allow the City to recycle funds to assist future homebuyers. The City may require additional restrictions, including first-time homebuyer qualifications and affordability requirements, which may be more restrictive than current HOME Program regulations. Examples of current requirements include the following:

- Total household income cannot exceed low-income limits
- Must occupy property as the principal residence
- Required to comply with recapture/resale provisions during the affordability period

Additional City Restrictions:

- Must purchase a home within the City of Long Beach
- Required to be a first-time homebuyer
- Complete an approved pre-purchase Homebuyer Workshop
- Must currently live or work in the City of Long Beach to apply for assistance

Recapture Option

The City of Long Beach will recapture the entire direct HOME if the HOME Program recipient decides to sell the house within the affordability period.

Enforcement of the Recapture Option

To enforce the recapture restrictions, the City will record a Deed of Trust against the property. This Agreement will ensure that the full HOME subsidy will be recaptured from the net proceeds of the sale. Where the net proceeds are insufficient to repay both the HOME subsidy plus the homeowner's investment, the City will forgive a prorated share of the HOME subsidy based on occupancy during the affordability period. In such case, the homeowner will not be permitted to recover more than the homeowner's investment.

2. Refinancing with Rehabilitation Guidelines

Under certain circumstances, the HOME Investment Partnership Program allows the use of HOME funds for refinancing; however, HUD regulations at 24 CFR 92.206(b) require that "Refinancing Guidelines" be included in the local participating jurisdiction's Consolidated Plan. Subject to certain HUD requirements, the local participating jurisdiction designs its own "Refinancing Guidelines" and includes these guidelines in the Consolidated Plan for public input and HUD review/approval.

The HOME regulations at 24 CFR 92.206(b) allow HOME funds to pay the cost to refinance existing debt secured by housing that is being rehabilitated with HOME funds:

1. For single-family (1 to 4 unit) owner-occupied housing when lending HOME funds to rehabilitate the housing, if the refinancing is necessary to reduce the overall housing costs to the borrower and make the housing more affordable; and
2. For multi-family projects when lending HOME funds to rehabilitate the units, if refinancing is necessary to permit or continue affordability under 24 CFR 92.252. The Participating Jurisdiction (PJ) must establish refinancing guidelines and state them in its Consolidated Plan.

It is the City's understanding, via oral confirmation from HUD Los Angeles Area Office staff, that HUD's intent per 24 CFR 92.206(b) is not simply to use HOME funds to pay for the lender's costs and fees associated with a refinancing, but also to pay for the refunding in replacing the existing debt with new debt.

The following adopted "Refinancing Guidelines" describe the conditions under which the City of Long Beach will use HOME funds in any project proposing to refinance existing debt on a multi-family housing property.

- i. May not be used for single-family housing. Although HUD HOME regulations allow HOME funds for refinancing in connection with "single family (1 to four units) housing", the City of Long Beach Refinancing Guidelines stipulate that HOME funds to refinance may only be allowed in connection with multi-family housing projects; refinancing may not be allowed with single-family housing. HUD defines "single-family housing" as 1 to 4 units, including one owner-occupied unit.
- ii. HOME funds cannot be used to refinance multifamily loans made or insured by any federal program, including CDBG. This is a HOME requirement at 24 CFR 92.206(b)(2)(vi).
- iii. HOME funds may not be used to refinance properties that previously received home funding unless the affordability period has expired. This is a HOME regulations requirement. 92 CFR 92.214(a)(7) states that HOME funds may not be used to provide HOME assistance (beyond one year after project completion) to a project previously assisted with HOME funds during the period of affordability established in the original written agreement.
- iv. Use of HOME funds for refinancing will only be allowed in multi-family projects, which are proposed to be rehabilitated with HOME funds. This is a HOME requirement. 24 CFR 92.206(b) states that HOME funds may be used to pay "the cost to refinance existing debt secured by housing that is being rehabilitated with HOME funds" (emphasis added).
- v. The refinancing must be necessary to permit or continue affordability under HOME regulations at 24 CFR 92.252 ("Qualification as Affordable Housing: Rental Housing"). The purpose of the refinancing must be to maintain current affordability and/or create additional affordable units. This is a HOME requirement at 24 CFR 92.206(b)(2).
- vi. The new investment of HOME funds for refinancing can be made either to maintain current affordable units or to create additional affordable units. Levels of affordability will be, at a minimum, those required by the HOME Program regulations. This guideline is a HOME requirement at 24 CFR 92.206(b)(2)(iii). The Guidelines must "state whether the new investment is being made to maintain current affordable units, create additional affordable units, or both."

For those projects which currently have affordable (non-HOME-funded) deed-restricted units and which may seek to use HOME Program "Refinancing With Rehabilitation," the requirement to "maintain current affordable units or create additional affordable units" may also be met by increasing the project's current affordability level. For example, an increased affordability level may be achieved by:

- Lowering the existing rent restrictions;
- Increasing the number of affordable/restricted units;
- Extending the term of existing affordability restrictions; or
- A combination of the above.

The level of additional affordability (if any) will be determined in the context of overall financial feasibility of each financing.

7. Regardless of the amount of HOME funds invested, the minimum affordability period shall be at least 15 years. This is a HOME requirement at 24 CFR 92.206(b)(2) and 24 CFR 92.206(b)(2)(iv). The actual affordability period will be the subject of negotiation on each project.
8. The investment of HOME funds for refinancing will be allowed jurisdiction-wide. Eligible properties must be located in the City of Long Beach. This is a HOME requirement at 24 CFR 92.206(b)(2)(v), which requires the guidelines to specify whether the investment of HOME funds, for refinancing, will be jurisdiction-wide or limited to a specific geographic area, such as a neighborhood identified in a neighborhood revitalization strategy.
9. Whenever HOME funds are used for refinancing, the City of Long Beach staff will require a review of management practices to determine that:
 - "Disinvestment" in the property has not occurred. HUD regulations do not define "disinvestment." Within these Guidelines, the term "disinvestment" shall mean an intentional and avoidable reduction in capital investment, which results in a failure to either construct, maintain or replace capital assets [i.e., buildings, equipment, furnishings, fixtures, property infrastructure, etc] in accordance with the HUD minimum property standards enumerated at 24 CFR 92.251, and as determined by the City of Long Beach staff;
 - The long-term needs of the project can be met; and
 - The feasibility of serving the targeted population over an extended affordability period can be demonstrated.

This is a HOME requirement at 24 CFR 92.206(b)(2)(ii). The City of Long Beach staff will either conduct this review of management practices, or select a consultant (costs to be borne by the owner) to conduct such a review.

10. In any project using HOME funds for "Refinancing With Rehabilitation" the owner(s) would not be allowed to take cash out of the refinancing. However, a reasonable developer fee (which shall be subject to negotiation) for a project would be considered a project expense and would not be considered to be taking cash out of the refinancing. HOME regulations do not allow owners to withdraw cash from the refinancing; 24 CFR 92.205(d) states that only the actual HOME eligible development costs (i.e. costs eligible under 92.206(a), (b), or (c)) of the assisted units may be charged to the HOME program. Neither Sections 92.206(a) or (b) or (c) authorize the retention of refinanced HOME funds by the owner.
11. The minimum amount of HOME funds that can be invested in a project is \$1,000 times the number of HOME-assisted units in the project. This is a HOME regulations requirement.
12. Projects seeking to use HOME funds for "Refinancing With Rehabilitation" must be in compliance with all regulations for the HOME Investment Partnership Program at 24 CFR 92.

13. There will be a minimum "required ratio" between rehabilitation and refinancing as follows: within a proposed project up to 85 percent of the project's HOME funds may be used for refinancing and at least 15 percent of the project's HOME funds must be used for rehabilitation. The HOME regulations require, at 24 CFR 92.206(b)(2)(i), that whenever HOME funds are used for refinancing, the rehabilitation must be the "primary eligible activity" and that this "primary eligible activity" requirement is met either by establishing a minimum level of rehabilitation per unit or by establishing a "required ratio" between rehabilitation and refinancing. HUD HOME regulations do not specify the amount of this "required ratio" and allow the participating jurisdiction to propose the "required ratio." Staff will determine the ratio based on the amount of HOME funds invested, leverage of HOME funds, and financial feasibility.
14. The property proposing to use HOME for refinancing may only be owned by non-profit owners or by public entities. However, there is a prohibition on ownership interests, which are contrary to the HUD conflict of interest prohibitions at 24 CFR 92.356 [HOME "Conflict of Interest"], or 24 CFR 8536 ["Procurement"], or 24 CFR 8442 ["Codes of Conduct"].

HUD HOME regulations do not limit property ownership in connection with refinancing. However, in order to encourage housing activity by non-profits, the City of Long Beach has decided to exclude for-profit owners from using HOME funds for "Refinancing With Rehabilitation" and give priority to non-profits which are designated as CHDOs.

15. Loan Terms: The "Refinancing With Rehabilitation Guidelines" are intended to be used in conjunction with other existing HOME-funded programs previously approved by the City of Long Beach ("other City of Long Beach existing HOME programs"). City of Long Beach staff will superimpose these Guidelines onto the "other City of Long Beach existing HOME programs." To the extent that these Guidelines may be inconsistent with the requirements of the "other City of Long Beach existing HOME programs," the more restrictive requirements will apply.
16. These "Refinancing with Rehabilitation Guidelines" are minimum guidelines for conformance with HUD minimum requirements, and they may be subject to further additional restrictions or limitations (including but not limited to funding availability) as determined by the City of Long Beach. These Guidelines serve to obtain HUD's approval of a general framework and create a potential alternative for the City of Long Beach. However, approval of these Guidelines does not create an obligation or requirement that the City of Long Beach will make loans utilizing Refinancing With Rehabilitation. The City of Long Beach is authorized to modify (after notification to HUD) these "Refinancing With Rehabilitation Guidelines" to the extent that any provisions in these "Refinancing With Rehabilitation Guidelines" may be inconsistent with the City of Long Beach current (or future) adopted policies.

Appendix A: Citizen Participation

Summary of Meetings

First LBCIC Public Hearing Meeting - April 20, 2016

As part of the Action Plan development, the City conducted a public hearing on April 20, 2016 before the LBCIC to allow for input in its creation.

Neighborhood Meeting - College Square Neighborhood Association - March 29, 2016

The City conducted a neighborhood meeting at the College Square Neighborhood Association to engage the community.

Neighborhood Meeting - Wrigley Neighborhood Association - April 4, 2016

The City conducted a neighborhood meeting at the Wrigley Neighborhood Association to engage the community.

Neighborhood Meeting - AOC7 Neighborhood Association - April 6, 2016

The City conducted a neighborhood meeting at the AOC7 Neighborhood Association to engage the community.

Neighborhood Meeting - Starr King Neighborhood Association - April 6, 2016

The City conducted a neighborhood meeting at the Starr King Neighborhood Association to engage the community.

Community Workshop - Drake Park - April 16, 2016

The City conducted a meeting at Drake Park to engage the community.

Neighborhood Meeting - Wrigley Area Neighborhood Alliance - April 18, 2016

The City conducted a meeting at the Wrigley Neighborhood Association to engage the community.

Neighborhood Meeting - Washington Neighborhood Association - April 20, 2016

Community Workshop - Admiral Kidd Park - May 21, 2016

The City conducted a meeting at Admiral Kidd Park to review the FY 17 Action Plan.

Neighborhood Meeting - AOC 7 Neighborhood Association - June 1, 2016

The City conducted a meeting at the AOC 7 Neighborhood Association to review the FY 17 Action Plan.

Second LBCIC Public Hearing Meeting - June 15, 2016

The City will conduct a public hearing on June 15, 2016 before the LBCIC.

Public Input Summary for FY 2017 Action Plan

Several meetings were conducted to engage the community in the planning process of the Fiscal Year 2017 Action Plan. The discussions are framed based on the current five-year consolidated plan, HUD requirements, and available but limited resources. Within these “constraints,” City staff engaged the community to help prioritize competing worthy projects and activities that will be funded and implemented during the next fiscal year. During this year’s community participation process, a total of 86 surveys and 73 participatory budgeting worksheets were completed by residents who attended six neighborhood meetings and one community workshop.

The discussion with participants was divided into two parts: (1) ranking importance and budgeting for “brick and mortar projects” (community facility and public Infrastructure as well as business corridor improvements) and (2) ranking importance and budgeting for public service programs. In the first instance, participants had latitude to assign a percentage (0-100%) of the funds to a just one or a combination of community facilities, public infrastructure improvements, and business corridor improvements. In the second instance, participants were asked to examine the current public service budget and concur or reallocate funds amongst the activities according to their priorities, including the option to create new public service activities. Their final funding allocations had to remain within the limits of HUD’s public service cap, which restricts the use of CDBG funds for public service programs to 15 percent of the current year entitlement plus the prior year’s program income.

A. Survey and Participatory Budgeting Summary: Community Facilities and Public Infrastructure

1. Survey Summary for Community Facilities

Survey participants were asked, given limited CDBG resources, to rank which public facilities should have the highest priority for improvement or development. The survey participants ranked the following types of public facilities:

- Outdoor Parks and Recreation Facilities
- Indoor Community Centers
- Senior Centers
- Libraries

Each survey participant ranked the facilities from 1 to 4, with 1 being the highest priority and 4 being the lowest priority. Staff then assigned point values to those rankings. A facility ranked as 1 received more points than a facility ranked as 2. The points for each facility type of facility were then tallied. The chart below demonstrates the results. Survey participants rated outdoor parks and recreation facilities as a higher priority than the other three types of community facilities.

2. Survey Summary for Public Infrastructure

Similarly, survey participants were asked, given limited CDBG resources, to rank which type of public infrastructure project should be given the highest priority for improvement or development. Survey participants ranked the following categories of public infrastructure:

- Street and Alley Improvements
- Sidewalk Improvements
- Small-Scale Neighborhood Beautification Projects
- Accessibility Improvements

Each survey participant ranked the public infrastructure improvements from 1 to 4, with 1 being the highest priority and 4 being the lowest priority. Staff then assigned point values to those rankings. A facility ranked as 1 received more points than a facility ranked as 2, and so on. The points for each facility type of public infrastructure were then tallied. The chart below demonstrates the results. Survey participants ranked street and alley improvements as a higher priority than the other three types of improvements, shown in descending order of priority below.

3. Participatory Budgeting for Public Infrastructure/ Community Facilities/ Business Corridor Improvement Projects

In addition to asking community meeting participants to rank their priorities, they were also asked to provide a percentage budget allocation to projects that meet HUD requirements for public infrastructure, community facilities, and economic development. The aggregated results are below in table and chart formats.

Community Facilities/ Public Infrastructure/ Business Corridor Improvement Worksheet		
Allowable Projects	To-Date Consolidated Plan Allocations (4 Years)	Participatory Budget
<u>Community Facilities</u>		
Outdoor Parks & Recreation Facilities	3%	19%
Indoor Community Centers	0%	13%
Libraries	3%	13%
Senior Centers	0%	12%
<u>Public Infrastructure</u>		
Street & Alley Improvements	13%	11%
Sidewalk Improvements	36%	9%
Small-Scale Neighborhood Beautification Projects	9%	8%
Accessibility Improvements	0%	6%
<u>Business Corridor Improvements</u>		
Façade Improvements Along Business Corridors	36%	9%
Total	100%	100%

Taking into account the survey results, participatory budgeting process, and Consolidated Plan goals and priorities for community facilities and infrastructure improvements, the FY 17 Action Plan and prior years Action Plan Amendments will focus CDBG funding towards outdoor parks and recreation facilities, indoor community centers, and ongoing public infrastructure projects. Funding will be allocated to projects which are the most likely to be fully funded and constructed. All CDBG funded brick and mortar improvements have to comply with Americans with Disabilities Act (ADA) regulations addressing accessibility improvements. All of brick and mortar projects will be reevaluated for funding in the planning process for the FY 2018 to FY 2022 Five-Year Consolidated Plan.

B. Survey and Participatory Budgeting Summary: Public Service Activities

1. Survey Summary for Public Service Activities

Participants were asked to rank the following public service activities in order of importance to them and their neighborhoods:

- Anti-Crime Programs
- Youth Services
- Mental Health Services
- Senior Services
- Graffiti Removal
- Legal Services

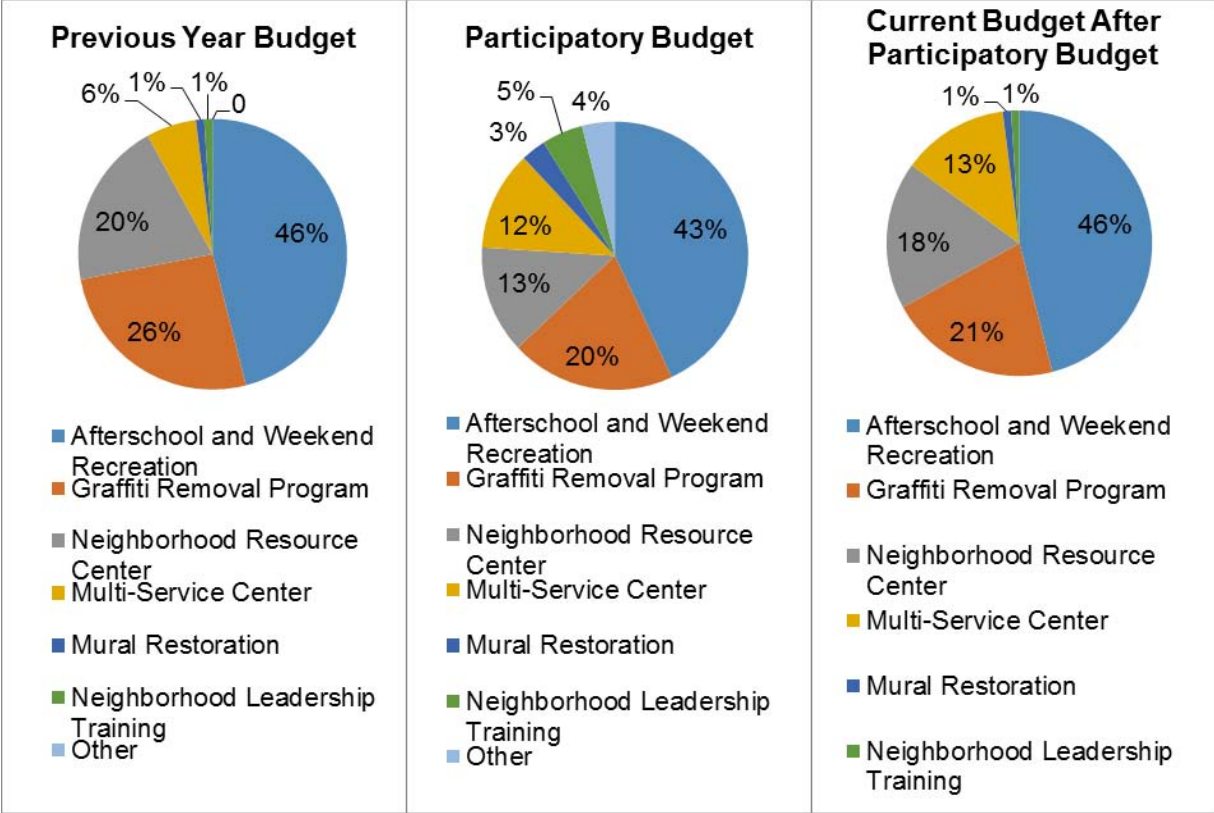

The ranking was on a scale of 1 to 6, with 1 being the most important and 6 being the least important. Like the assessment of the survey responses regarding community facilities and public infrastructure, points were assigned to the rankings and aggregated to determine the overall ranking of each public service activity. As before, the most points were assigned to activities survey participants ranked as 1 and the fewest points were assigned to activities ranked as 6 by survey participants. The results are provided in the chart below. Survey participants indicated that anti-crime programs are most important to them and their neighborhoods but youth and mental health services are not far behind in importance.

2. Participatory Budgeting for Public Service Activities

Community members were given current percentage budget allocations to existing public service activities. Through a participatory budgeting process, individuals were asked to provide a percentage budget allocation to an existing or a new public service activity. The aggregated results are below:

Public Service Programs Budget Worksheet				
Existing Activities	Previous Year Budget	Participatory Budget	Current Budget After Participatory Budget	Change in Budget
After School and Weekend Recreation	46%	43%	46%	0%
Graffiti Removal Program	26%	20%	21%	-5%
Neighborhood Resource Center	20%	13%	18%	-2%
Multi-Service Center	6%	12%	13%	7%
Mural Restoration	1%	3%	1%	0%
Neighborhood Leadership Training	1%	5%	1%	0%
Other	0%	4%	0%	0%
Total	100%	100%	100%	

Taking into account participatory budgeting process, the Multi-Service Center will see an increase in allocation while the Graffiti Removal Program and the Neighborhood Resource Center will see a decrease in allocation relative to the total public services budget. As a result of other constraints including commitment to the City’s five-year consolidated plan accomplishment goals and HUD’s public service cap, other public services activities budget will remain the same.

Notice of First LBCIC Public Hearing on City Website

The screenshot shows the LBD Development Services website. The header includes the logo, the date "Thursday, March 17, 2016", and a search bar. A navigation menu on the left lists various services. The main content area features a "Latest News" section with a prominent notice about a public hearing on the FY 2017 Action Plan. Below this, there are smaller notices for a bicycle master plan community meeting and a SEADIP update community open house. A right-hand sidebar lists "UPCOMING EVENTS" with dates from March 17 to April 11, 2016. A "CONTACT INFO" box provides the address and phone number for LBD Services. At the bottom, there is a "Quick Links" section.

DE CHISMES Y COSAS PEORES

Chatanuga se fue

El actor mexicano Pedro Manuel Weber Chávez, más conocido como "Chatanuga" falleció a los 37 años de edad. Uno de los últimos proyectos en los que Pedro Weber "Chatanuga" dio su talento fue la película mexicana "En el último trabajo", del director Jack Zalcas, aunque también tuvo un largo recorrido por la televisión, donde productores como Juan Osorio lo reconocían como actor. Ambos competieron con su pesar por el fallecimiento de su actor emblemático en la historia del cine y la televisión mexicana. Para Zalcas, "Chatanuga" era un hombre alegre, plácidamente extrovertido y simpático que por ese mismo siempre estaba rodeado de gente, mientras que Chatanuga mismo no amaba la fama y la armonía que provocaba. "Era un hombre tranquilo, un hombre sencillo con la vida, con lo que hacía, se nos respondía, nunca ayudaba a que con su físico hubiera una asociación y eso hacía que el hablara sero decías 'qué cuadrado!' y él se reía y te decía mucha risa, te contagiaba por lo mismo, por la voz", puntó una sílaba. Cuando Zalcas le preguntó hacer "En el último trabajo" su coadjuvante lo llevó a negociar. "Chatanuga me acompañó para mostrar su primera reacción fue que era imposible, porque yo no podía moverme, pero le dije, mira, es una escena a lo más, entonces sí". Así dio vida al hombre que asegura tener la letra original de la canción "Yo" de José Alfredo Jiménez en una versión, "a los 30 años, sus amigos (los tergoteros) por José Carlos Ruiz, Eduardo Marcano y Luis Bazarán decidieron hacerle la película en el Museo del cineasta, pero para dejar el objeto. En la vida real, Pedro fue amigo de José Alfredo, incluso fue su testigo de su primer matrimonio.

El actor Pedro Manuel Weber "Chatanuga" falleció este martes 22 de marzo de 2016. Las causas fueron atribuidas a una insuficiencia cardíaca y pulmonar.

guna respuesta y tenía por su vida y lo que ella le había dado. Él se había convertido en un hombre mexicano. En una entrevista a la periodista de "La Jirafa del Sur", también habló sobre su política relación con Zalcas. "En Chatanuga, donde abordas el tema del personaje que está interpretando en la televisión, lo que exploraría en mi película, sería la historia de un hombre que se convierte en un hombre mexicano (su personaje) en la serie". Habría que preguntarle. Creo que es un admirador", apuntó Del Castillo.

Angry Birds mexicanos

La evolución dice que los dinosaurios se convirtieron en aves para sobrevivir, pero ahora son los humanos quienes aprenden a tener plumas y alas. Al menos eso ocurre con los Angry Birds mexicanos. Luz María Zúñiga y Adrián Uribe, quienes prestan sus voces a sus amigos Angry Birds, personajes sur-

gidos del videojuego. Ella será Matilda, un ave que ha dominado su ira y a los abuelos pretende escapar a los demás. El es Red, el más de mal humor que desde pequeño sufrió acciones inofensivas de su carácter. "Desde hace mucho tiempo había hecho casting para estar en el doblaje de películas pero no me había quedado", comenta Zúñiga, quien a estar al estado de grabación de voz. "Tengo tres hijas y ellas están los jueces más difíciles de este trabajo", agrega sonriendo. Uribe, la película, explicó que los personajes siempre intentan acabar con los cerdos. El King se ven cómo los porcos comienzan a robarse los huevos de las aves e intentan tirar sus cosas. En el videojuego, dond' había habido, sólo se escuchan sonidos. Su personalidad ha dado para muchas versiones con diferentes niveles de dificultad y en algunos anteriores se han lanzado algunos otros animales en donde se narra de dónde viene la rivalidad entre pájaros y cerdos.

Yo quiero portarme bien Pablo Montero lo confiesa: ha cometido muchos errores en su vida personal y está en proceso de redención. "Me tensioné mucho en mi vida", se lamenta Montero, quien en un momento de su vida se casó con Carolina, mi esposa, en un momento de mi vida. Se le escribió un poema que me dio mucho que pensar en la relación por una publicación - donde se da a conocer una supuesta lealtad del cantante - me las vi negras y se acabó esta canción, se llama "Yo no era". También agregó que está en un proceso de maduración, en el que ha recibido consejos de personas como Juan Gabriel y Vicente Fernández.

El actor Adolfo Urdue protagoniza la comedia de acción cinematográfica "Dos policías apuros". Filmada en la República Dominicana.

En 2014, Sofia Espinosa interpretó a la regimentera Gloria Trevi en la película biográfica donde cantó más de una decena de canciones.

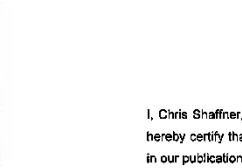

Lola Beltrán aparece en tres episodios de 137 minutos. Hasta que se conoció retratará a partir del 16 de abril la vida del cantante Juan Gabriel. "Se ve cuando lo conocí y él me tenía fama sin reconocimiento, lo ve en una copia y trata de cantarle una canción, es como el primer encuentro que tiene con ella", detalla Espinosa. Espinosa salió al cine en 2008 con La niña en la piedra, tributo que le valió ser nominada como Mejor Actriz del premio Ariel de la Academia Mexicana de Artes y Ciencias Cinematográficas. Al año siguiente el cortometraje Los jueves, el cual postuló a Espinosa, ganó en el festival de cine de Cannes. Después fue la película El beso de Emma, Chama en latín de Charles Stone y la serie de televisión Capadocia. A fines de este mes se verá de ella misma, protagonizada por ella misma.

Google abre un centro en Cuba

El gigante informático Google abrió su primer centro tecnológico en Cuba en el edificio del antiguo plantón Alexis Leyva "Kcho" en la Habana, donde habrá acceso gratuito a sus contenidos mucho más veces que en el resto del país y se podrá utilizar productos de última generación de la compañía. El espacio es una réplica de "Kcho Estudio Rosenthal", donde funciona el primer sitio público de internet inalámbrico que se abrió en la isla y el único gratis, y aunque todavía se ajustan detalles para su apertura a público, se cuenta con unos 15 computadores Chromebook listos para usar.

Para que este tipo de computadores personales funciones a su máxima capacidad es necesario el acceso a internet, debido a que trabajan conectados a la red global, concepto que el arquitecto trató al arte al proporcionar un cable azul con cables blancos en el techo, al que se le da por una característica que simboliza el crecimiento.

Nombrado "Google + Kcho.Mo", el centro permitirá a los cubanos familiarizarse con la tecnología de última generación proporcionada por la empresa estadounidense, como los "carritos de Google+", los visores de realidad virtual para móviles, provision también por la compañía.

El espacio permanecerá abierto cinco días a la semana desde bien temprano en la mañana hasta la medianoche y atenderá a un máximo de 40 personas a la vez, con todas las limitaciones de tiempo.

La empresa estatal de Telecomunicaciones (Ereca) de la isla es la encargada de poner la conexión, costada por Kcho, cuya velocidad será mucho mayor y atenderá a un máximo de 40 personas a la vez, con todas las limitaciones de tiempo.

Mantente sano, ejercítate...

AVISO DE AUDIENCIA PÚBLICA

AVISO DE AUDIENCIA PÚBLICA: El día Miércoles, 30 de abril, 2016 a las 4:00 PM, la Compañía de Inversión Comunitaria de la Ciudad de Long Beach (LBIC) conducirá una Audiencia Pública en la sala de conferencias del tercer piso de 333 West Ocean Boulevard, Long Beach.

El propósito de la Audiencia Pública es para permitir participación del público durante el desarrollo del Plan de Acción para el año fiscal 2017 que dirige las prioridades del Plan Consolidado. La Ciudad de Long Beach anualmente recibe dinero de los Estados Unidos por el departamento de Vivienda y Desarrollo Urbano (HUD) para ayudar a mejorar nuestra comunidad. Los fondos provienen de tres fuentes de financiación: Community Development Block Grant (CDBG), Emergency Solutions Grant (ESG), y Home Investment Partnership Act (HOME).

La Ciudad de Long Beach tiene la intención de proveer acomodaciones razonables de acuerdo con el Acto de Americanos con Discapacidades de 1990. Si se requiere acomodaciones especiales, por favor contactar a Alem Hagoos al (562) 570-7403, por lo menos 48 horas antes de la Audiencia Pública del 30 de abril, 2016. Las personas que deseen presentar sus comentarios por escrito, lo deben hacer para el 19 de abril, 2016. Los comentarios por escrito deben de ser enviados a: Alem Hagoos, Development Services Department, 333 West Broadway, Long Beach, California 90802. Email: alem.hagoos@longbeach.gov.

Flyer and Pictures for First Community Workshop – Drake Park

2017 ACTION PLAN DEVELOPMENT WORKSHOP

WE NEED YOUR INPUT!

Long Beach is prioritizing housing and neighborhood development needs and wants to hear from you!

The Department of Development Services is seeking public input on the use of funds received from the U.S. Department of Housing and Urban Development (HUD). These funds are used for public services, public facility improvements, infrastructure improvements, affordable housing development, other housing services, and homeless services.

The City annually receives funding from HUD in the form of three grants, the Community Development Block Grant (CDBG), HOME Investment Partnerships Act (HOME), and Emergency Solutions Grant (ESG).

During preparation of the City's Five-Year Consolidated Plan (2013-2017), the following were identified as priorities for these funds:

- Economic Development
- Public Infrastructure & Public Facility Improvement
- Public Services
- Housing Assistance Needs
- Homeless Services Needs

In addition to the Consolidated Plan, the City must also develop an annual Action Plan which serves as a planning document for that fiscal year. This is where we need your input!

To help us plan, please RSVP using the following link <http://bit.ly/1TixvTD> or by contacting Elizabeth Salcedo (information below). RSVP is not required to attend.

SATURDAY
APRIL 16, 2016

10:00 am – 12:00 pm
DRAKE PARK
951 Maine Ave

BUILDING A BETTER LONG BEACH

2017 TALLER DEL DESARROLLO PARA PLAN DE ACCION

¡Necesitamos su opinión!

Long Beach está proporcionando prioridad a las necesidades comunitarias para mejorar viviendas y desarrollar vecindades y quiere oír de usted!

El Departamento de Servicios de Desarrollo está buscando la opinión pública en lo que se refiere a la utilización de los fondos recibidos del Departamento de Vivienda y Desarrollo Urbano (HUD) para los servicios públicos, mejoramientos de instalaciones públicas e infraestructura, la creación de viviendas accesibles, otros servicios para residencias y personas sin hogar.

La ciudad anualmente recibe fondos de HUD en forma de tres subvenciones: el Community Development Block Grant (CDBG), Home Investment Partnership Act (HOME), y Emergency Solutions Grant (ESG).

Durante la preparación del Plan Consolidado de cinco años de la Ciudad (2013-2017), se identificaron las siguientes prioridades para estos fondos:

- Desarrollo Económico
- Mejoramientos de Infraestructura e Instalaciones Públicas
- Servicios Públicos
- Asistencia para Viviendas
- Servicios para Personas Sin Hogares

Además del Plan Consolidado, la Ciudad también debe crear un plan de acción anual que sirve como un documento de planificación para este año fiscal. ¡Aquí es donde necesitamos su ayuda!

Para ayudarnos a planear adecuadamente, por favor confirme su asistencia mediante el siguiente enlace: <http://bit.ly/1TixvTD> o poniéndose en contacto con Elizabeth Salcedo (información de contacto a continuación). No se requiere RSVP para asistir.

SABADO
16 DE ABRIL de 2016

10:00 am – 12:00 pm
DRAKE PARK
951 Maine Ave
Long Beach, CA 90813

Se servirá café y un pequeño desayuno.
Por favor póngase en contacto con:
Elizabeth Salcedo
(562) 570-6912
Elizabeth.Salcedo@longbeach.gov

Este taller es GRATIS y se presentará en inglés con traducción en español y khmer disponible.

La Ciudad de Long Beach intenta proporcionar medidas razonables de acuerdo con el Acta de Estadounidenses con Discapacidades de 1990. Si se desea un alojamiento especial, por favor llame a Alem Hagos 48 horas antes del evento al (562) 570-7403.
Esta información está disponible en un formato alternativo, previa solicitud al (562) 570-3807.

Subject: City of Long Beach Initiates 2017 Action Plan Development Workshop - Sat., April 16th, 2016 10:00 a.m. @ Drake Park

Esta invitación está disponible en español más abajo.

2017 Action Plan Development Workshop We Need Your Input!

Long Beach is prioritizing housing and neighborhood development needs and wants to hear from you! The Department of Development Services is seeking public input on the use of funds received from the U.S. Department of Housing and Urban Development (HUD). These funds are used for public housing, public facility improvements, infrastructure improvements, affordable housing development, other housing services, and homeless services.

The City annually receives funding from HUD in the form of three grants: the Community Development Block Grant (CDBG), HOME Investment Partnership Act (HOME), and Emergency Solutions Grant (ESG).

During preparation of the City's Five-Year Consolidated Plan (2013-2017), the following were identified as priorities for these funds:

- Economic Development
- Public Infrastructure and Public Facility Improvement
- Public Services
- Housing Assistance Needs
- Homeless Services Needs

In addition to the Consolidated Plan, the City must also develop an annual Action Plan which serves as a planning document for that fiscal year. This is where we need your input!

To help us plan, please RSVP using the following link: <http://bit.ly/1TxyDf1> or by contacting Elizabeth Salcedo (below). RSVP is not required to attend.

Saturday April 16, 2016

10:00 a.m. – noon

Notice of Second LBCIC Public Hearing on City Website

The screenshot shows the LBD Development Services website. The browser address bar displays 'lbds.info'. The page header includes the date 'Monday, May 16, 2016' and a search bar. The main navigation menu on the left lists various services such as 'Home', 'Building & Safety', 'Housing & Community Improvement', 'Neighborhood Services', 'Planning', 'Successor Agency to LBRDA', 'Forms & Applications', 'Safe Long Beach - LBVPP', 'Publications', 'Public Records Request', 'Contact Us', 'Directions to Parking', and 'FADs'. The central banner features a cityscape image. The 'Latest News' section highlights the 'Draft FY 2017 Action Plan' public hearing, scheduled for June 15, 2016. The 'UPCOMING EVENTS' section lists several meetings, including the 'Board of Examiners, Appeals and Condemnation Meeting' on May 16, 2016, and the 'Oversight Board as Successor to the Redevelopment Agency' on May 17, 2016. A 'CONTACT INFO' section provides the address: 333 West Ocean Blvd., Long Beach CA 90802, and contact numbers: Phone: (562) 570-LBDS (5237), Fax: (562) 570-5753. A 'Quick Links' section is also visible at the bottom.

NOTICE OF PUBLIC HEARING AND NOTICE OF DOCUMENT AVAILABILITY

NOTICE OF PUBLIC HEARING: On June 15th, 2016 at 4:00PM, the City of Long Beach Community Investment Company (CIC) will conduct a Second Public Hearing in the 3rd Floor Conference Room in City Hall at 333 West Ocean Boulevard, Long Beach.

The purpose of the Public Hearing will be to receive public comment on the 2017 Action Plan (**Action Plan**), the final annual implementation plan under the five-year 2013-2017 Consolidated Plan (**Consolidated Plan**) which also includes the Third Amendment to the 2015 Action Plan and the First 2016 Action Plan Amendment (**Amendments**). A Consolidated Plan describes and prioritizes the housing and community development needs, as well as activities to address those needs as defined and funded by the U.S. Department of Housing and Urban Planning (HUD). As required by HUD, the Consolidated Plan brings together, in one consolidated submission, the planning and application aspects of the Community Development Block Grant (CDBG), Emergency Solutions Grant (ESG), and HOME Investment Partnership Program (HOME) funds to address those priorities.

Draft copies of the 2017 Action Plan and the Amendments are located at 333 W. Ocean Blvd., 3rd Floor, the Main Library, 101 Pacific Avenue, or can be downloaded from the announcement section of the Development Services web page: <http://www.lbds.info>

The City of Long Beach intends to provide reasonable accommodation for the Public Hearing in accordance with the Americans with Disabilities Act (ADA) of 1990. If you require this document in an alternate format or if special accommodations are required of hearing, please call Alem Hagos at (562) 570-7403 at least 48 hours prior to the June 15, 2016 Public Hearing. Citizens wishing to provide written comments must do so by June 13, 2016. Written comments must be addressed to Alem Hagos, Development Services Department, 333 W. Ocean Blvd., 3rd Floor, Long Beach, California 90802. Email: Alem.Hagos@longbeach.gov. Telephone: (562) 570-7403.

DE CHISMES Y COSAS PEORES

El Buki Vs narcocorridos

Ahora que está celebrando 40 años de carrera artística, Marco Antonio Nolas desea que existan más intérpretes que le canten al amor y no a los narcos, pues aunque asegura que los "narcocorridos" han permeado el panorama musical actual, es un género con el que él no convulga y hasta condena. "No estoy de acuerdo con los contenidos díficiles que apelen a la violencia y el narcotráfico, definitivamente no es lo que yo quiero que escuche nuestra juventud. La juventud necesita estar de moda y es algo que debemos enfrentar. Nuestra juventud necesita más criterios para entender esas mensajes", dijo "El Buki", quien entre juicios desde su estatus de oca en la Ciudad de México, pidió que los medios de comunicación no den más difusión a estos géneros y que por el contrario, den más foco a música que apele a las valores. "Hay que hacer un llamado a las compañías de discos y radiofonías para que apoyen la música con contenido positivo. Existen muchos que aún tenemos valores, que creemos en la familia, hay que rescatarlos hoy más que nunca", comentó el cantante en su plática con los medios, lo que también ha sido el caso de Donald Trump, de quien lamentó que sea una persona influyente. "Donald Trump para mí es una mente brillante con un corazón oscuro", añadió el músico.

Angry Birds

De la misma manera como la realidad ha inspirado a la ficción a través de las décadas, las nuevas tecnologías, incluyendo la animación, han permitido que las películas se enfrenten hoy en día no solo la excepción de 2009, cuando las aplicaciones para dispositivos móviles eran apenas una reciente forma de divertirse, un par de páginas mal diseñadas y la aparición de la red y con ello de la atención del mundo entero. "Angry Birds" fue el primer juego que en pocos meses se convirtió en un fenómeno mundial y obligó que para 2012 más de mil millones al rededor de los planes habrían descargado el juego. Eso abrió la puerta para que el fenómeno de la red saltara a su comercialización masiva. La empresa finlandesa encargada de este juego, Rovio Entertainment, comenzó a vender juguetes, ropa, bicicletas y un avión de juguete, pero lo que tal vez pocos sepan es que la empresa ha aca salido a la gran pantalla. Durante su visita al mundo, John Cohen, productor de esta acertada película titulada simplemente The Angry Bird Movie, explicó que en muchas ocasiones le dijeron que no era buena idea hacer una película de algo que probablemente sería pasajero.

Manzanero, metatero

La interpreté mexicana Fabiola Finkelman se encontró en Armando Manzanero una guía para el éxito. Finkelman lleva 29 años de carrera, fue hace siete años en el club de la Torre Mayor la ocasión el asistente de Armando Manzanero y la invitó al programa que tiene en IMER "Manzanero presenta". Así como con el maestro, la entrevista y terminando el programa le hizo una propuesta a la que no pudo negarse. "Terminando el programa me dijo: ¿quieres que te voy a enseñar a cantar y a bailar? Obviamente que me

le canté al amor y no a los narcos. Fabi, año y medio estuve invitada en sus conciertos y después me invitó a hacer un proyecto juntos, me propuso producir y dirigir el disco "Fabiola en partida", disco en el que tienen cinco duetos. Fabi, Fabiola, Manzanero fue un paréntesis: "El camino del amor", "La paloma", "Acompaña a un amigo a bailar y a bailar". A pesar de que él le dice que el disco se debe a un talento, ella cree que sin él su carrera no sería la misma. La primera oportunidad de Fabiola Finkelman se dio en la versión "Juliana en una producción de Jacques Rivière. Amador Lamadrid "La paloma", "Acompaña a un amigo a bailar y a bailar".

Un comentario que Gloria Trevi hizo en las audiencias del domingo en "La Voz México" no fue bien recibido por Los Tigres del Norte y la generó críticas. Tanto Trevi como Los Tigres son "coaches" en la quinta temporada de la competencia, junto a J Jaly y Alejandro Sanz. El fin de semana se presentó a la audición una joven llamada Valentina, quien interpretó el tema "Highway to hell" de AC/DC. Había las "coaches" solicitar sus alios, mostrando interés en que formara parte de su equipo. Los Tigres del Norte explicaron a Valentina por qué debería estar en su equipo y después Gloria Trevi dijo: "Yo a ti no te voy, así, chucha chucha, no", lo que generó la molestia de Jorge y Hernán de Los Tigres. Los integrantes de la agrupación respondieron: "La música regional mexicana, la música, no se considera un paréntesis. El nuestro trabajo es nuestra identidad". Trevi aclaró que su comentario no era un ataque sino que trataba de convencer a Valentina de formar parte de su equipo. En Twitter, la cantante respondió a la pregunta de una seguidora sobre lo que significa "chucha": "¡Muehús peschucha (música disco) chucha chucha (canción) una pa-tun pa (creek) pero nadie me

BILLBOARD

Manny Manuel lidera con "Pégate de mi mamba"

"Pégate de mi mamba", del artista puertorriqueño Manny Manuel, debutó esta semana en el primer lugar en los Top Latin Albums de la revista Billboard, que lista los discos latinos más vendidos en Estados Unidos. Este disco debutó así al álbum "Vanzhante" del grupo cubano Gente de Zona, que debutó en esa posición la semana pasada, para bajar ahora al segundo lugar, mientras que "Los días 9", del mexicano Juan Gabriel, se elevó del cuarto al tercero. "Resucen mi estilo", el disco que le rinde homenaje al desaparecido vocalista del primer regional mexicano Ariel Camacho, cayó de la tercera a la cuarta plaza, seguido por "Las alas" de Gabriel, que subió de la sexta a la quinta. Por su parte, la colección de éxitos del género regional mexicano "20 corridos bien pecores, vol. 4" ingresó en la decimotercera posición, mientras que el álbum "Mujeres que hicieron", que recoge éxitos de famosas vocalistas mexicanas como Daniela Romo, Valeria Lynch, Yuri y Denisse De Kalafé, debutó en la decimosegunda. Manny Manuel repitió vía y Wifin, subió del segundo al sexto en la lista de Tropical Albums, ya que el álbum "Pégate de mi mamba" ingresó en la primera posición, seguido por "Vanzhante" de Gente de Zona, que bajó del primero al segundo lugar. La colección de éxitos habalares "Latin Hits 2016 Club 40 Hits" se mantuvo en el tercer por segunda semana consec-

AVISO DE ENCUENTRO PÚBLICO Y AVISO DE DISPONIBILIDAD DE DOCUMENTOS

AVISO DE ENCUENTRO PÚBLICO: El día miércoles, 15 de junio, 2016 a las 10:00 PM, la Comisión de Inversión Comunitaria de la Ciudad de Long Beach (CIC) conducirá un Encuentro Público en la sala de conferencias del 3er piso del City Center Municipal en 333 West Ocean Boulevard, Long Beach.

El propósito del encuentro público es para anunciar la contribución de fondos de un desarrollo del plan de acción (Action Plan) para el año fiscal 2017 (para el año correspondiente). Conozca el Plan que tendrá impacto a través de la inversión del plan de acción para el año fiscal 2017 y la primera inversión del plan de acción para el año fiscal 2018. (Disponibilidad de un plan de acción y de un presupuesto de la comunidad y de las entidades comunitarias, apropiado y financiado por el Departamento de E.I.M. de Vivienda y Desarrollo Urbano (HUD). Según los requisitos de HUD, el plan comunitario debe, en una presentación comunitaria, los aspectos de planificación y colaboración de la Comisión de Inversión Comunitaria (CIC) por abordar las prioridades.

Copias del plan de acción y solicitudes se encuentran en el 3er piso del City Center Municipal en la oficina de la Comisión de Inversión Comunitaria de la Ciudad de Long Beach.

Flyer for Second Community Workshop – Admiral Kidd Park

2017 DRAFT ACTION PLAN WORKSHOP

THE ACTION PLAN

The Fiscal Year (FY) 2017 Action Plan is the final planning document under the FY 2013-2017 Consolidated Plan. The Action Plan is required annually to budget funds received from the U.S. Department of Housing and Urban Development (HUD) to be used for:

- Public services
- Public facility improvements
- Infrastructure improvements
- Affordable housing development
- Other housing services
- Homeless services

The City of Long Beach receives annual funding from HUD in the form of three grants: the Community Development Block Grant (CDBG), HOME Investment Partnerships Act (HOME), and Emergency Solutions Grant (ESG).

THE WORKSHOP

The City will host a workshop to offer the opportunity for the public to provide input on the draft FY 2017 Action Plan. The free event will feature a presentation of the document, and discuss HUD funding allocations. Spanish and Khmer translation available.

THE DRAFT ACTION PLAN

The draft FY 2017 Action Plan will be made available for a 30-day public comment beginning May 16, 2016, through June 14, 2016. Copies will be located at 333 W. Ocean Blvd., 3rd Floor; and the Main Library, 101 Pacific Ave. The draft will also be available for public viewing at <http://bit.ly/1QWFze6>.

**SATURDAY
May 21, 2016**

10:00 a.m. – 12:00 p.m.

**ADMIRAL KIDD PARK
2125 Santa Fe Ave.
Long Beach, CA 90810**

To RSVP, go to: <http://bit.ly/1Tlxvtd>. RSVP is not required to attend. For more information, contact Elizabeth Salcedo at (562) 570-6912 or elizabeth.salcedo@longbeach.gov.

Coffee and small breakfast will be provided.

The City of Long Beach intends to provide reasonable accommodations in accordance with the Americans with Disabilities Act of 1990. If a special accommodation is desired, please call Alem Hagos 48 hours prior to the event at (562) 570-7403. This information is available in an alternate format on request by calling (562) 570-3807.

TALLER PLAN DE ACCIÓN DEL 2017

EL PLAN DE ACCIÓN

El Plan de Acción 2017 del año fiscal (FY) es el documento de planificación final del Plan Consolidado para los años fiscales 2013-2017. El plan de acción se requiere anualmente para recibir los fondos del Departamento de Vivienda y Desarrollo Urbano (HUD) de EE.UU. para ser utilizado para:

- Servicios públicos
- Mejoramientos de instalaciones públicas
- Mejoramientos de infraestructura
- Desarrollo de vivienda asequible
- Otros servicios de vivienda
- Servicios para personas sin hogar

La Ciudad de Long Beach recibe financiación anual de HUD en forma de tres subvenciones el Community Development Block Grant (CDBG), HOME Investment Partnerships Act (HOME), and Emergency Solutions Grant (ESG).

EL TALLER

La ciudad organizara un taller para ofrecer la oportunidad para que el público participe en la revisión del Plan de Acción del año fiscal 2017. El evento gratuito detallará con una presentación del documento, y discutiremos las asignaciones de fondos de HUD. Español y la traducción en español y Khmer será disponible.

LA VISION INICIAL DE EL PLAN DE ACCION

La versión inicial del Plan de Acción para el año fiscal 2017 estará disponible para comentario público de 30 días a partir del 16 de mayo de 2016, hasta el 14 de junio de 2016. Las copias serán ubicados en el 333 W. Ocean Blvd., 3^{er} piso; y la biblioteca central, 101 Pacific Ave. La versión inicial también estará disponible para el público en <http://bit.ly/1QWFze6>.

**SABADO
21 de mayo de 2016**

10:00 a.m. – 12:00 p.m.

**ADMIRAL KIDD PARK
2125 Santa Fe Ave.
Long Beach, CA 90810**

Para confirmar su asistencia, visite: <http://bit.ly/1Tlxvtd>. El RSVP es necesario para asistir. Para obtener más información, póngase en contacto con Elizabeth Salcedo al (562) 570-6912 o elizabeth.salcedo@longbeach.gov.

Se servirá café y desayuno pequeño.

La Ciudad de Long Beach intenta proporcionar medidas razonables de acuerdo con el Acta de Americanos con Discapacidades de 1990. Si se desea un alojamiento especial, por favor llame a Alem Hagos 48 horas antes del evento al (562) 570-7403. Esta información está disponible en un formato alternativo, previa solicitud al (562) 570-3807.

Appendix F: Certifications

The following pages contain the HUD-required certifications for the CDBG, HOME, and ESG programs.

Appendix G: SF 424 Forms

Appendix H: Emergency Solutions Grant (ESG) Written Standards

Long Beach Continuum of Care

Emergency Solutions Grant (ESG) Written Standards

In accordance with Title 24 of the Code of Federal Regulations (24 CFR) 91.220(l)(4)(i) and 567.400(e)(1), the City of Long Beach (City) and the Long Beach Continuum of Care (CoC) have developed the following written standards for the provision and prioritization of Emergency Solutions Grant (ESG) funding. The following standards are intended as basic, minimum standards to which individual ESG applicants and/or subrecipients can add additional and more stringent standards applicable only to their own projects. These required standards help to ensure that the ESG program is administered fairly and methodically. The City and the Long Beach CoC will continue to build upon and refine this document.

The City of Long Beach is awarded ESG funds annually from the Department of Housing and Urban Development (HUD) as part of the Annual Action Plan Process. These funds are designed to identify sheltered and unsheltered homeless persons, as well as those at risk of homelessness, and provide the services necessary to help those persons quickly regain stability in permanent housing after experiencing a housing crisis and/or homelessness.

The Homeless Emergency Assistance and Rapid Transition to Housing Act of 2009 (HEARTH Act) significantly amended the McKinney-Vento Homeless Assistance Act, including major revisions to the Emergency Shelter Grants program, which was renamed the Emergency Solutions Grants program. The HEARTH Act, and implementation of the applicable federal regulations by HUD, incorporated many of the lessons learned from the implementation of the Homelessness Prevention and Rapid Re-Housing Recovery Act Program (HPRP) into the new ESG program, including placing a stronger emphasis on rapid re-housing assistance.

The ESG program allows the City to set priorities based on the individualized needs of the community. These standards serve to outline the specific guidelines and priorities that will be used by the City in awarding and administering ESG funding. Currently, eligible program components that are prioritized under the City's ESG program are "Emergency Shelter," "Rapid Re-Housing," "Administrative Costs," "Homeless Management Information System" (HMIS), and "Homelessness Prevention." Applications for projects in other components will not be considered at this time. The City and Long Beach Continuum of Care may revise ESG component priority in subsequent years; additionally, the collaborative partners may also prioritize "Street Outreach" for funding.

Standard policies and procedures for evaluating individuals' and families' eligibility for assistance under Emergency Solutions Grant (ESG). The City and the Long Beach Continuum of Care are continuing to utilize and build upon the comprehensive and standardized assessment and evaluation instruments developed for the HPRP program in determining eligibility for ESG programs. All subrecipients receiving ESG funds will ensure that all program participants meet the applicable eligibility requirements for the project. At a minimum, this includes:

- An initial evaluation, conducted in accordance with the centralized assessment, these written standards, and Long Beach CoC Standards of Care, to determine:
 - Eligibility of each individual or family for ESG assistance; AND
 - The amount and types of assistance needed to (re)gain stability in permanent housing; AND
- The household must meet the requirements of an applicable AND eligible category under the definition of “At Risk of Homelessness” OR definition “Homeless” as established by HUD at 24 CFR §576.2; AND
- For homelessness prevention assistance:
 - The household income must be below 30% area median income (AMI).
 - The household has not identified any subsequent housing options.
 - The household lacks the financial resources and support networks necessary to retain immediate housing or remain in their existing housing without ESG assistance.
- For rapid re-housing assistance:
 - The household has not identified any subsequent housing options.
 - The household lacks the financial resources and support networks needed to obtain immediate housing.

Housing status and annual income must be verified through recordkeeping and documentation procedures outlined by HUD in 24 CFR part 576. Additionally, the evidence relied upon to establish and verify homeless or at risk for homelessness status and annual income must be included in the program HMIS participant record sufficient to demonstrate compliance with the program regulations.

Standards for targeting and providing essential services related to street outreach. Given the limited ESG resources and HUD’s emphasis on rapid re-housing, collaboration, and results/performance measurement, the City and the Long Beach CoC are seeking to leverage street outreach services from non-ESG resources. The City does not intend to use any ESG Funds for street outreach activities.

Policies and procedures for admission, diversion, referral, and discharge by emergency shelters assisted under ESG, including standards regarding length of stay, if any, and safeguards to meet the safety and shelter needs of special population. The City and the Long Beach CoC are continuing to collaborate on the refinement the policies and procedures for admission, diversion, referral, and discharge by emergency shelters assisted under ESG. ESG-funded emergency shelter programs serve households that meet the definition of “homeless” as defined by HUD at 24 CFR §576.2. Households served by ESG-funded emergency shelters lack a fixed, regular, and adequate nighttime residence; cannot be served by other programs or resources; and have no other options for overnight shelter. Households are referred to ESG-funded emergency shelters after exhausting all available options for diversion.

The Multi-Service Center (MSC) is the primary point of entry for homeless assistance in the Long Beach CoC. Households are screened using a standardized assessment tool to evaluate program eligibility and identify the appropriate intervention(s) to meet the households’ needs. Households are assessed to determine the lowest level of assistance in order to maintain or

obtain sustainable housing. Intake staff is effective in managing limited resources within the CoC.

Diversion from emergency shelter is one of the strategies the Long Beach CoC utilizes to reduce homelessness within the local community. During intake assessment, households are assessed for existing support systems and resources to prevent them from entering the shelter system. Intake staff provides linkage to mainstream resources such as childcare, employment services, and food resources to stabilize households. HMIS is used as a mechanism to increase coordination and avoid duplication of services.

Special provisions are set in place when dealing with domestic violence households seeking services through the centralized intake and assessment process. Staff of the MSC and broader CoC utilize the local domestic violence hotline to coordinate intakes for households fleeing domestic violence and seeking shelter. Intake staff coordinates additional services via telephone directly with shelter staff, as domestic violence shelters do not track participants in the local HMIS. Households seeking entry into domestic violence shelters are not required to access services through the MSC to ensure that households can access the system of care in the safest manner possible.

Emergency shelter placement is prioritized for homeless households requiring short-term shelter (less than 90-days) with the outcome target to secure permanent housing. Homeless households requiring longer than a 90-day stay will be prioritized for direct entry to transitional shelter. Discharges from the emergency shelter will be coordinated at the MSC by the ESG funded eligibility screening staff member for alternative placement to housing stabilization resources. Emergency shelters will insure vacancies will be filled within 72 hours.

Policies and procedures for assessing, prioritizing, and reassessing individuals' and families' needs for essential services related to emergency shelter. Due to limited length of stay in emergency shelter, households will be assessed, prioritized, and reassessed for essential services on a regular basis; they will also be regularly assessed to determine progress on goals pertaining to increasing income, linkage to mainstream and homeless services resources, and housing placement. Emergency shelter staff will work with the CoC partners to ensure linkages to mainstream, employment and housing resources are expedited in an effort to reduce length of time that a household experiences homelessness. Eligible Essential Services include case management; child care; educational services; employment assistance and job training; outpatient health services, but only to the extent that other appropriate health services are unavailable in the community; legal services, but only to the extent that other appropriate legal services are unavailable or inaccessible in the community; life skills training; mental health services, but only to the extent that other appropriate mental health services are unavailable or inaccessible in the community; substance abuse treatment services, but only to the extent that other appropriate substance abuse treatment services are unavailable or inaccessible within the community; and transportation.

Policies and procedures for coordination among emergency shelter providers, essential services providers, homelessness prevention, and rapid re-housing assistance providers; other homeless assistance providers; and mainstream service and housing providers. The MSC collaborative of agencies will oversee system coordination among the emergency shelters, homelessness prevention, rapid re-housing, homeless assistance and mainstream service providers. The MSC, operated by DHHS in conjunction with an array of co-located nonprofit partners, is a one-stop access center that serves as the primary intake access for services

provided by the Long Beach CoC. MSC intake staff screen households using the standardized assessment tool and refer eligible households to the most appropriate, available intervention(s) needed to meet the households' needs. At the MSC, representatives from mainstream benefits and employment services are located onsite to increase income and earning capacity for those served by the Long Beach CoC. Regular, open, and ongoing communications, including meetings, trainings, between the ESG partners, the Long Beach CoC, and the City will be utilized. Furthermore, ESG subrecipients are required to participate in the local HMIS, which coordinates care, reduces duplication, and better serves participants across the CoC system of care.

Policies and procedures for determining and prioritizing which eligible families and individuals will receive homelessness prevention assistance and which eligible families and individuals will receive rapid re-housing assistance. Prioritization of eligible households for ESG funded projects will be determined by using the following risk factors. Homelessness prevention and shelter diversion can reduce the number of people entering the homeless assistance system and the demand for shelter and other programmatic housing beds. While prevention is the least proven strategy, linking homelessness prevention and diversion efforts with the centralized assessment process can create an integrated, system-wide "front door" to the homeless assistance system. Homelessness prevention will be prioritized for individuals and families who would spend the night in an emergency shelter or on the streets without ESG assistance. To be eligible for homeless prevention services under ESG, the household must:

- Meet the requirements of an category under either the definition of "At Risk of Homelessness" OR categories 2 or 4 under the definition of definition "Homeless" as established by HUD at 24 CFR §576.2;
- Have an annual household income below 30% of area median income;
- Have not identified any subsequent housing options;
- Lack the financial resources and support networks necessary to retain immediate housing or remain in their existing housing without ESG assistance;
- Meet one of the following prevention targets:
 - Severe housing cost burden (55% to 75% rent to gross monthly income ratio);
 - Fixed income is TANF, Pension, SSI, VA benefits;
 - Sudden and significant loss of source of income; or
 - Had a one time financial incident and a one time gap payment will end the housing crisis; AND
- Demonstrate at least one of the following risk factors:
 - Household unit left primary residence in Long Beach within past 3 months and is currently staying with family/friends;
 - Household is living in a motel, using own resources;
 - Residency in housing that has been condemned by housing officials and is no longer meant for human habitation;
 - Eviction within 2 weeks from a private dwelling;
 - Imminent foreclosure of rental housing can be confirmed;
 - Discharge within 2 weeks from an institution in which person has been a resident for more than 180 days;
 - Credit problems or history of eviction that preclude obtaining of housing;
 - Physical disabilities and other chronic health issues which are barriers to employment;

- Recent traumatic life event that has prevented the household from meeting its financial responsibilities;
- Homeless in last 12 months;
- Incidence of domestic violence;
- Participant has exhausted all other sources of public benefits.

The Rapid re-housing component will be targeted for households residing in emergency and transitional shelter programs, to promote reduced length of time experiencing homelessness and for a decrease in average length of stay for shelter programs system wide. Rapid re-housing resources will be targeted towards individuals and families who meet the following guidelines:

- Household must be literally homeless, as defined by HUD; AND
- No appropriate subsequent housing options have been identified; AND
- Household lacks the financial resources and support networks needed to obtain immediate housing.

Families and individuals with lower barriers to housing and less service needs who are expected to stabilize in permanent housing with no additional assistance will receive priority for rapid re-housing assistance.

Standards for determining what percentage or amount of rent and utilities costs each program participant must pay while receiving homelessness prevention or rapid re-housing assistance.

Determination of the share of rent and utilities cost will be determined at time of household's intake assessment and will be approved as the smallest amount needed in order to maintain or obtain housing. ESG-funded financial assistance, including rental assistance, cannot be provided to a program participant who is receiving the same type of assistance through other public sources or to a program participant who has been provided with replacement housing payments under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA), during the period of time covered by the URA payments. Units assisted with rental assistance must also meet rent reasonableness standards, be at or below Fair Market Rent (FMR), and have both a rental assistance agreement and written lease agreement before financial assistance payments are approved. ESG-funded financial assistance, including rental assistance, will be paid directly to the appropriate third-party (e.g. utility company, property owner). Any late fees incurred while receiving ESG assistance will be the responsibility of the subrecipient or tenant; such fees must be paid by non-ESG funds.

Standards for determining how long a particular program participant will be provided with rental assistance and whether and how the amount of that assistance will be adjusted over time.

The City and Long Beach CoC are committed to ensuring the most efficient and effective use of ESG resources. All approvals of rental assistance will be based on the assessment of the eligible household's needs. Households receiving homelessness prevention will be re-evaluated every three months to determine if the household maintains program eligibility, i.e. an annual income below 30% AMI and a lack of sufficient resources and support networks necessary to retain housing without ESG assistance, and demonstrates continued need for financial assistance. Furthermore, ESG subrecipients will be responsible for follow up evaluations with households for tracking housing retention. Individual household assistance should not exceed twelve months in a three-year period.

Standards for determining the type, amount, and duration of housing stabilization and/or relocation services. The type of housing stabilization and/or relocation services a household receives will be determined at the time of initial evaluation, via the centralized assessment, and at each re-evaluation. Households will be assessed for the lowest amount of need to ensure housing stabilization. The subrecipients will retain flexibility to promote improved outcomes among a population with diverse and individualized needs. In accordance with the interim rule, no household will receive more than 24 months housing stabilization and/or relocation services in a 3-year period.

Determinations of ineligibility. For each household determined ineligible to receive Emergency Solutions Grant (ESG) assistance, the household's record must include documentation of the reason for that determination.

Termination of ESG assistance. ESG subrecipients may, in accordance with 24 CFR § 576.402, terminate assistance provided under the ESG program to a program participant who violates program requirements. The subrecipient may terminate assistance in accordance with a formal process established by the subrecipient that recognizes the rights of individuals affected. This process, at a minimum, must consist of:

- Written notice to the program participant containing a clear statement of the reasons for termination.
- A review of the decision, in which the program participant is given the opportunity to present written or oral objections before a person other than the person (or a subordinate of that person) who made or approved the termination decision.
- Prompt written notice of the final decision to the program participant.

3. Description of CoC Centralized/Coordinated Assessment

The Long Beach CoC utilizes the Multi-Service Center (MSC) as the primary centralized assessment access point for coordination of homeless services citywide. The MSC, operated by DHHS in conjunction with its co-located non-profit social service agency partners, is a one-stop access center that provides a range of services, including shower, mail and message center; street outreach; intake assessment and referrals to services; transportation; employment services; public benefits services; medical care; mental health services; HIV/AIDS services; integrated case management; and housing coordination. The Long Beach CoC is guided by a commitment to ensuring access; strengthening cross-cutting service integration; and providing appropriate and timely services and resource referrals. Long Beach CoC services are detailed the "Pocket Guide Resource Directory," which is distributed in the community by local social service agencies, libraries, churches, and outreach workers. Long Beach CoC intake staff will screen households using the standardized assessment tool and refer eligible households to the most appropriate, available intervention(s) needed to meet the households' needs. Households are assessed to determine the lowest level of assistance in order to maintain or obtain sustainable housing. All services are designed to be in pursuit of housing stability. Households are assisted with addressing their immediate needs in a variety of ways; including, motel/food, shelter referrals/placements, rental/move-in assistance, linkage to other homeless and mainstream services, and system diversion/prevention services. Emergency, transitional and permanent housing placements will be contingent upon availability and eligibility criteria.

4. Process for Making Subawards

As the lead agency of the Long Beach CoC, the City competitively funds nonprofit agencies that provide a broad array of services to address the needs of the men, women, and children experiencing homelessness in Long Beach. A Request For Proposals (RFP) will be issued, in compliance with procurement requirements and City Council authorization. The City will allocate and administer ESG funds via executed contracts, as recommended by the Homeless Services Advisory Committee (HSAC) and approved by the Mayor and City Council of Long Beach.

5. Homeless Participation Requirement

The City has a homeless or formerly homeless person serving as a voting member on the Homeless Services Advisory Committee (HSAC). HSAC is an advisory body that was established by City Ordinance in 1988 to commence strategic planning activities to address homelessness in the City. HSAC is comprised of representatives from each of 9 council districts along with two representatives appointed by the Mayor.

6. Performance Standards

The City's ESG allocation will complement and contribute to the Long Beach CoC program performance measures by providing resources to increase permanent housing placements, reduce the length of homelessness, increase housing retention, and maintain/increase household income.

DHHS will utilize the local HMIS to monitor progress on a monthly basis to ensure compliance with eligibility requirements and effective distribution of the CoC service and housing resources. HMIS will be utilized to track participant data and report on outputs and outcomes as required by HUD.

7. Consultation with CoC

The City of Long Beach Department of Development Services, Neighborhood Services Bureau manages the Consolidated Planning process for the City and collaborates with the Department of Health and Human Services (DHHS), Bureau of Community Health, Homeless Services Division, which is the City lead for the local Continuum of Care (CoC) jurisdiction. As lead CoC agency since 1995, DHHS competitively funds nonprofit agencies that provide a broad array of services located at the Multi-Service Center (MSC), the Villages at Cabrillo, the Village Integrated Service Agency, and other scattered site programs to address the needs of those experiencing homelessness in Long Beach. The Homeless Services Division administers the following components within the City's Consolidated Plan: Emergency Solutions Grant (ESG) and HOME Move-in Deposit Program. In addition, the Homeless Services Division collaborates directly with the City's Housing Authority to coordinate the CoC Shelter Plus Care projects, Section 8 set aside, and the Veterans Affairs Supportive Housing (VASH) programs for the City.

The Homeless Services Division works closely with the Long Beach CoC stakeholders on a variety of levels, including the development and implementation of funding priorities, performance standards, system-wide policies and procedures, program implementation, and the HMIS. The Homeless Services Officer and MSC Coordinator participate in several advisory boards, including the HSAC, an advisory body appointed by the Long Beach City Council; the

Multi-Service Center Advisory Board; and the Villages at Cabrillo Advisory Board. The Homeless Services Officer also hosts regular CoC General Membership and CoC Board meetings to review systemwide coordination. The CoC membership has met in subcommittees to address the following:

- Educational Assurances
- Chronic Homelessness
- Veteran Homelessness
- Discharge Planning
- Homeless Management Information System (HMIS), Data and Performance
- Centralized/Coordinated Intake and Assessment

Requirements for Recipients who plan to use the risk factor under paragraph (1)(iii)(G) of the “at risk of homelessness” definition

The City does not intend to use the risk factor under Paragraph (1)(iii)(G) of the “at risk of homelessness” definition.
