Subject: eComment

Hello Mr. Herrera,

I was repeatedly unable to submit eComments for Council today. In the chance this can still be considered:

Mills Act Item: With a diminishing lack of designated municipal resources to oversee and enforce our existing historic district ordinances in the City of Long Beach, it makes perfect sense to reinstate the Mills Act option to incentivize property owners to consider their options more carefully before embarking on improvement or renovation projects. If we can't enforce, we must actively encourage maintain the unique value our vintage properties represent, both intrinsically and financially. John Royce, Calif. Heights NA

Thank you,

John Royce
