Date: Sat, 26 Jul 2014 15:22:45 -0700

Please attached this to the above packet delivered to your office re the above:

Among the issues which has preseneted itslef to the among the convening authorities pursuing the issue is: It as come to their attention--especially Governor Brown; HIS FORMER CALIFORNIA STATE COASTAL COMMISSIONER ,Robert Gracia,(who was a sitting Commisioner when the Long Marine Stadium 2S issue was brought before the California State Coastal Commission,when it sat enbanc @its meeting in Newport Beach and herd this issue voted along with Commisomner's Garcia's to so raze 2S)...

had a, very inimate,relationship with the PIP SQUEAK who was the then,and up until less than a fortnight ago- Chair of the City of Long Beach City Council Public Safety Committee. Surely,surely the Governor's Coastal Commissioner would have pikcked up some "pillow talk" relative to the alledge crime wave-had it existed!!!!

Yet,yet,search as they have ,the above authorities have been unable to locate ANY-ANY..not ,one ,single record,of any type, an alledge crime wave, SO,UNCHECKED,SO HIGH,SO UNRELENTING, that the cash strapped City of Long Beach-faced with

CRUMBLING SEA WALLS

A CRUMBLING BLUFF ALONG OCEAN BLVD

A BIKE BATH SO DANGEROUS ITS SIZE HAS TO BE ESSENTIALLY DOUBLED

Was forced to DIVERT \$300,000 to RAZE to the round Marine Stadium 2S well built and recently repainted (with City Painters taking great care and pride in matching, to extent possible, hues of adjacent homes))

Surely such unchecked, out of control crime would have been brought before the referenced PUBLIC SAFETY COMMITTEE for public review.

More to the point; Having searched the records of every single media outlet which serves the area---convening authorities have been unable to find:

One, single, article relative to the alleged out of control, unchecked nocturnal crime wave. None. Zero zilch.

The one interesting document which DID appear---though not printed in any media was, what most, reasoned minds would view as an editorial position from a "quasi media outlet" that, if such a ruse/scheme to gift near \$300,000 of Tidelands Funds to a select few as earlier described, were uncovered it would be, NO BIG DEAL with the complicit be allowed to remain at large---you can imagine the level of IRE that has raged within the circles of import -including the Governor's Office

Included in the attached you will find:

1.Long Beach Police Reports which EPOSE the;deceit,deception,dishonesty which overlined,underlined,encompassed,the the RUSE/SCHEME to raze the much needed re purposed support structure Marine Stadium 2S justifying such for falsely claiming the,recently re painted,WELL FORTIFIED building( so fortified by two near 200# IRON gates and Heavy gage STEEL LOCKS TO WHICH only the City has keys.

*WELL FORTIFIED CENTER OF NOCTURNE CRIME*

NOTE: To those unfamiliar with the area: Though the LBPD Crime report is headed Marine Stadium area...none of the referenced incidents--are anywhere near 2S...or even inside the defacto or dejure Marine Stadium.

2.Copies of e mail referencing the PRESSURE put on staff to so raze.

NOTE: You are invited to listen to the uncontroverted public testimony at Planning Commission...re Long Beach staffer stating.....THE BARN REALLY IS!!!! ON FIRE!!!! (to get this building down)

RECEIVED  
CITY CLERK  
LONG BEACH, CA  
14 JUL 28 AM 8:06

FYI Aside from the corruption aspect it also goes to the OBTUSENESS OF THOSE PRESSURING for such razing

failing to understand the IMPORT/SHORTAGE/VALUE of storage space for support components of the every increasing recreational boating dynamics within our recreational marine dynamics. It is tantamount to the need and shortage of parking spaces in parking impacted neighborhoods.Such storage space limits the number of people who are able to access the Marine Stadium.

All your copies are in black and white. Color photos are in City Clerk's file copy.

Pending election for new Mayor: Follow up...

<https://www.fastmail.fm/mail/?u=795641b2>

As to who else might be found complicit: That will be determined, by the yet to be selected Special Prosecutor who will be adding one additional question to that now famous ten word thesis asked by the recently departed Howard Baker:  
Special Prosecutor's question will be: "What did you do upon learning such"

Indeed, as thoughtful minds read through the entire range of complicity, they will detect a disturbing number of similarities between the ruse and scheme surrounding the Marine Stadium 2S building, and that flowing from a certain waterside building near 3000 miles to the east in Washington DC during mid 70-'s & a third rate crime which unfolded there... which gave rise to Howard Baker's question. Though to be sure, as important and vital as Marine Stadium 2S is to Long Beach- and important it is..... it is far more humble

Bill...this together with the

1. Earlier letter to Holder.
2. Copy of LBPD Report which shows zero crime @ Marine Stadium 2S
3. E-mails from public records stating City Staff was pressured to razing such
4. Public records which show that Harris's Deputy Attorney General was, personally present at the December 2013 Coastal Commission Meeting where/when Garcia covered up the LBPD Report which exposed Garcia's ruse.

"Well, at least taxpayers would not have to worry about COUNTING THE SILVERWARE every morning"

Such was my reply reply to a Xerox associate who had just returned from the newly installed Xerox copier at the Jerry Brown for president headquarters (at the downtown Los Angeles Biltmore hotel-if memory serves me correctly.

Having recently transferred to California and being immersed in my job, there had been little time for this transferred Buckeye with strong roots in Margret Chase Smith's state (who is the benchmark by which this individual measures all elected officials) to familiarize myself with California politicians.

However, my political bent having been shaped early on, not just by the good lady from Maine, but by:

1. Caddying for Ray C Bliss on weekends and summers while in junior and senior high school.
2. Being concierge of sorts to William Casey, when he would rendezvous in Maine, with Stan Lovell and General Paul (Ike's former Chief of Staff) and reminisce about the OSS days
3. Having the good fortune to being a neighbor at one time to C. Erwin Piper-who alas had that red phone in his Studio City home.....

MY SENSE WAS .. the good Jerry Brown--though being, shall we say--far out there----was decent and honest and would not countenance corruption---such as that which has been undertaken by one of your Coastal Commissioners---and some of this fellow travelers--as outlined in the attached.

Finally sir, though we have never formally met, our paths did briefly cross a few years ago here in Long Beach:  
Having just dropped off an Appeal to the California Coastal Commission Office a few floors above the Press Telegram's

when ridding down the elevator--who should step in but Jerry Brown!!!!

Ironically, the above referenced Appeal to the Coastal Commission--concerned protection of a venue most important (City and State Land Mark-Long Beach Marie Stadium). Alas, the CORRUPTION detailed in the attached--is centered around one the venue's components.

As a side note driven by this past weekend.s announcement by the USOC...the Long Beach Marine Stadium will be the lynch pin to California and the United States securing the next Olympic bid. Neither San Francisco or Washington will be strong contender. Boston is a different matter. It, sir, will be a formidable competitor. Very formidable!!!!

Please read the attached re the, unchecked corruption that still festers and so sullies your good name .

The need for your actions is NOT eviscerated by the recent ruling by the State's Attorney General that Garcia must vacate his Costal Commission Office since he will be full-time elected sitting Mayor.

Any and all of the complicit in the ruse and scheme to Gift near \$300,000 of Tidelands Funds as Garica and his fellow travelers did must be:

INDICTED  
CONVICTED  
IMPRISONED

Absent such the Clarion Call will be sounded---Tidelands, and indeed, public treasuries anywhere in California may be raided by any political hack wishing to bestow favors for votes.

Councilmember, Vice Mayor, Robert Garcia, Chair of Long Beach City Council  
Public Safety Committee; California Coastal Commission  
Member conduct includes, but is not limited to:

KNOWINGLY MAKING A GIFT OF PUBLIC MONEIES-(near \$300,000 of Tideland  
Funds) to raze a capital structure ie  
Marine Stadium Building 2S in order to

Improve the financial stautus, of a very select few of the connected  
whose real esate values would be increased by such  
razing=vis a via improving the VIEW OF THE WATER from their  
property-(which they purchased long afer 2S was  
constructed)

HAS NO BASIS  
IN LAW  
LRG-7/26/14

Central to the ruse was pressuring City Staff to delcare 2S a public  
nuisance by claiming it was an epi center of  
nocturnal crime:

LONG BEACH POLICE RECORDS CLEARLY REVEAL--such a claim was void  
of;FACT, TRUTH OR INTELLIGENCE--  
zero crime during the 12 month run up to the PRESSURE began to reach a  
cresedo.

The structure, though built for the 1968 Olypmic Rowing Trals as a  
special event restroom; for the past 20 years,  
it has been used as a MUCH NEEDED storage facility for Marine Stadium  
support dynamics===and could so serve  
for another 60 + years.
