Past Step Forward to Cure TSC – Super Heroes

The TS Alliance of Southern California

The TS Alliance of Southern California is a volunteer branch made up of individuals affected by TSC, joined together to provide support to individuals and families in their community, increase awareness of TSC and raise critical funds to help find a cure. This coalition of local families is associated with the TS Alliance, a national nonprofit with IRS 501(c)(3) status. Each year the TS Alliance strives to establish more walkathon sites in local communities. Participants come from families, friends, local corporations, health care organizations, clubs, civic organizations and schools. Once again, in 2017, our theme for the Step Forward to Cure TSC walks will be Super Heroes. 2016 Super Heroes was huge for the kids - they loved showing up for the walk dressed in their very favorite Super Hero! Individuals, families, friends and supporters are all encouraged to come out dressed like their favorite hero, be it a cartoon character, comic book character, doctor, teacher or other caring supporter. We urge you to become one of the 2017 Heroes of

the TS Alliance.

Our Super Heroes morning will begin at 10AM with a one-hour registration check-in walk t-shirt pick up and refreshments generously provided by Starbucks Coffee and Western Bagel. Participants will then enjoy the scenic 5k walk at 11AM around beautiful El Dorado Park, Long Beach as we join to make our voices heard to promote awareness of the battle against TSC. Post-event festivities include refreshments, hospitality tents hosted by key sponsor, entertainment and celebrity guest appearances. The event concludes at 1:30PM.

LOCAL IMPACT

We are so proud to see how The SoCal TS Walk has grown over the past 10 years. With the hard work and dedication of our TS families and friends, we have grown from 70 walkers to over 500 and raised almost \$100,000 in 2016. We are all spreading the word and educating our community about TS - a disease so rare that sometimes we must educate some doctors. Remember, once upon a time cancer, MS, AIDS and so many other diseases were unknown and not a household word. Look how far they have come - and we are spreading the awareness and raising the funds through our walk and all walks across the country to find a cure.

Join us and help make a difference.
We'll give everything. *But up!*

AMERICAN BUSINESS BANK - BUFFALO WILD WINGS - CHICK-FIL-A - KINGS INN - KNOTT'S BERRY FARM - KOHL'S - LAZY DOG CAFÉ - PETER PEPPER PRODUCTS - STARBUCKS - SUPERVISOR DON KNABE - VARIETY CLUB - WESTERN BAGEL - WIENERSCHNITZEL - DJ BILL LOVELACE

About Tuberous Sclerosis Complex (TSC)

TSC is a genetic disorder that causes tumors to form in vital organs, including the brain, heart, kidneys, lungs, liver, eyes and skin.

About 1/3 of people with TSC inherit the disease, while the other 2/3 result from a spontaneous mutation.

TSC impacts no two people in the same way – even identical twins.

TSC is the leading genetic cause of both epilepsy and autism.

UP TO 1 MILLION PEOPLE WORLDWIDE HAVE TSC.

85%

OF PEOPLE WITH TSC EXPERIENCE SEIZURES, OF WHICH 40% HAVE INTRACTABLE EPILEPSY.

TSC occurs in all races and ethnic groups and in both males and females.

Approximately 50,000 in the United States have TSC.

TSC affects an estimated **1 in 6,000** live births.

Autism occurs in about

50%

of people with TSC.

Since 1984, the TS Alliance has funded nearly **\$19 million** to further basic, translational and clinical research. But much more research is needed to identify new treatments and, one day, a cure.

Currently, there is no cure for TSC.
