Regarding: 710 West Willow Street, Long Beach, California 90806

Dear Mr. Rick Oropeza:

In response to your complaint on July 2, 2014, a "Noise Abatement Notification" was mailed on July 7, 2014, to the alleged source of your complaint. This action usually solves the noise problem.

You must wait for two weeks to allow the alleged noise source an opportunity to correct the problem. If the problem continues after the two weeks have passed, or recurs within one year of the original complaint, you must complete the enclosed "Petition" and/or "Noise Complaint Form" and return the form(s) to us. The completed form(s) are required by Section 8.80.370 of the Long Beach Municipal Code which states in part "Enforcement of noise control regulations shall be undertaken only upon receipt of a written sworn complaint made by a person who resides or owns property within the noise district into which the alleged noise intrudes."

If you should have any questions, please contact Daniel Phillips at (562) 570-4297 during regular business hours, Monday through Friday.

Sincerely,

---
