**Subject:** Item #20

My name is Andrew Mayorga member of local 1309 we are in support of item 20. This agreement supports the community not only with careers and futures but the next generation of young adult. Adults like from our S.T.A.R program in LBUSD showing kids about continuing a education in a apprenticeship program in the construction industry. Giving them building blocks for a solid foundation for Long Beach futures. This is why we are in support of this agreement. Thank you.
