SPECIAL MEETING	Rich Mansfield	richman0841@gmail.com						I'd like the Council to consider that, in order to hasten economic recovery they should bear in mind that most of the serious Covid19 cases have to do with the elderly and otherwise infirm citizens; and that many have recovered even so. Therefore, only the elderly and others with pre-existing health issues should continue to sequester themselves -- which it seems they would be willing to do, to save themselves. Everyone else should go back to work as soon as possible. Too many of them will doubtless find that their jobs have disappeared already!	5/5/2020
