Question/Comments for agenda item#: 26. (20-0540)

Having the City Manager and his/her staff oversee the citizen oversight committee seems like a rather large conflict of interest, my questions are:

- 1: How does council intend to genuinely mitigate complaints and accountability in a true and fair manner, when the same entities that are being investigated are investigating themselves and overseeing the investigation process?
- 2: What type of REAL power does council intend to allocate to the Long Beach Citizen's Police Complaint Commission to ensure the community that complaints to the CPCC are heard and being properly and fairly investigated?
