PUBLIC COMMENT:	Roger Holman	rholman@vipmail.com			Long Beach	CA	90806	Honorable members, I am writing to ask you to do whatever you can to effect the retraction of proposed changes to the city charter for term limits in our city. While you may have the best interests of our city at heart, I see that this just adds to the possibility that someone who happens to have a large group of supporters to remain in office. It is my honest opinion that any extension of term limits is a bad idea and will not benefit Long Beach overall; it is an affront to democracy.	6/11/2018
26. (18-0490) Recommendation to direct City Manager to identify immediate one-time resources available to implement a Parks, Open Space and Median Drought Response Plan to preserve the City's trees and landscaping through the summer months and the end of Fiscal Year 2018.	Jessica White	jessica_lynne_white@yahoo.com					90803	The City Auditor's office released an audit of park maintenance in June 2016. The report is available to the public and addresses this exact problem. The report offers a variety of recommendations to address the needs of our parks, but I have not seen them used or referenced. Austin, Andres, Uranga, and Richardson must read the audit report to get ideas beyond one-time funds for this problem.	6/11/2018
