City of Long Beach, Planning Administrator – Derek Burnham
City of Long Beach, Planner – Steven Valdez

Date 8/23/15

POSITION: OPPOSE THE PROPOSED AMENDMENTS TO THE ZONING ORDINANCE RELATED TO FINANCIAL SERVICE USES

I am writing to express my opposition to the Long Beach Planning Commission's 's proposed actions regarding the change in requirements for check cashing and payday lending businesses.

As a consumer who uses check cashing and payday lending services, I believe that future limitations of these services would harm me and the residents of Long Beach. I have used small, short-term loans in the past because it was the right choice for me. I oppose any ordinances that would take this choice away from me or limit my access to short-term credit.

Check cashing and payday loan facilities are regulated by the California Department of Justice and the California Department of Business Oversight respectively. Both are often the best, most convenient and least expensive option for those of us who fall short of cash in between paychecks.

In reality, there are few other legitimate, regulated short-term options for borrowing small amounts of cash like this in the marketplace. Limiting my credit options will definitely cause more problems for me because no banks offer short-term loans, especially when it's an immediate need.

I hope you will listen to my opposition to this proposed ordinance.

Sincerely,

Signature

POSITION: OPPOSE THE PROPOSED AMENDMENTS TO THE ZONING ORDINANCE RELATED TO FINANCIAL SERVICE USES

I am writing to express my opposition to the Long Beach Planning Commission's 's proposed actions regarding the change in requirements for check cashing and payday lending businesses.

As a consumer who uses check cashing and payday lending services, I believe that future limitations of these services would harm me and the residents of Long Beach. I have used small, short-term loans in the past because it was the right choice for me. I oppose any ordinances that would take this choice away from me or limit my access to short-term credit.

Check cashing and payday loan facilities are regulated by the California Department of Justice and the California Department of Business Oversight respectively. Both are often the best, most convenient and least expensive option for those of us who fall short of cash in between paychecks.

In reality, there are few other legitimate, regulated short-term options for borrowing small amounts of cash like this in the marketplace. Limiting my credit options will definitely cause more problems for me because no banks offer short-term loans, especially when it's an immediate need.

I hope you will listen to my opposition to this proposed ordinance.

Sincerely,

Eugenia McKney

POSITION: OPPOSE THE PROPOSED AMENDMENTS TO THE ZONING ORDINANCE RELATED TO FINANCIAL SERVICE USES

I am writing to express my opposition to the City of Long Beach's proposed actions regarding the change in requirements for check cashing and payday lending businesses, including increasing the buffer to 1,320 feet.

As a consumer who uses check cashing and payday lending services, I believe that future limitations of these services would harm me and the residents of Long Beach. I have used small, short-term loans in the past because it was the right choice for me. I oppose any ordinances that would take this choice away from me or limit my access to short-term credit.

Check cashing and payday loan facilities are regulated by the California Department of Justice and the California Department of Business Oversight respectively. Both are often the best, most convenient and least expensive option for those of us who fall short of cash in between paychecks.

In reality, there are few other legitimate, regulated short-term options for borrowing small amounts of cash like this in the marketplace. Limiting my credit options will definitely cause more problems for me because no banks offer short-term loans, especially when it's an immediate need.

I hope you will listen to my opposition to this proposed ordinance.

Sincerely,

Stanley Fudge
