|---|------------------|----------------------------|----------------|--|-----------------|
| CONSENT CALENDAR: | Squittia Brown | squittiab65@gmail.com | | I want help for my family. We did nothing wrong why would we? We wouldn't. I was a victim of power abuse. This happens every second of everyday to a person of color. Our rights were violated, Housing Authority did something to my SSN to where I cannot even re-apply. Now, if I did something wrong why would I re-apply? I've sent emails letters, to the city, my congress, my governor, my counsel woman from district1 here in Long Beach. NO ONE IN THIS CITY CARES. It has effected me mentally, I had to quit school this year, I'm taking medication for anxiety, and depression. My neighbor gets to buy cars live on SSI, and Housing? She has three cars, and I had to take her to court for harassment, because the housing does not care. It seems power wins over the truth. Alison King, and Joi Dailey have violated the rights of disable Americans, and they both still have their jobs. Please don't say black people cannot be racial against black people. I want an investigation!!! We deserve it. | 10/13/2021 |
| 9. (21-1093) Recommendation to authorize City Manager, or designee, to execute a new License Agreement with Southern California Edison (SCE), for the City's continued use of SCE-owned right-of-way between Atlantic and Myrtle Avenues, north of 68th Street, for the North Long Beach Community Garden, for a period of five years. (District 9) | Reneddie Malucia | mazzarenette@gmail.com | | Hello, Please approve this item, our community needs this and many more community gardens to teach, flourish, and benefit our community. | 10/19/2021 |
| 10. (21-1094) Recommendation to authorize City Manager, or designee, to execute a contract, and any related documents including any necessary amendments, with The Little Lion Foundation, of Long Beach, CA, to partner with Long Beach Animal Care Services for a kitten nursery, to be housed in a commercial property at 1179 East Wardlow Road, in an annual amount not to exceed \$50,000, from January 1, 2021 through December 31, 2022, with annual renewal options through December 31, 2025, at the discretion of the City Manager. (Citywide) | Reneddie Malucia | mazzarenette@gmail.com | | Please approve this item! We need al the help we can get when it comes to nursery aged kittens. Right now either they are killed or the shetlers rely on individual fosters, the money and time is short for these helpers, often having to resort to their personal finances to help these abandoned kittens. | 10/19/2021 |
| PUBLIC COMMENT | Michelle Baker | michellebaker199@gmail.com | | We are asking that Roberto Uranga be censored and removed from the PUblic Safety Committee. What he did to his dogs is disgusting and the residents of Long Beach do not want him representing us. | 10/17/2021 |

|--|----------------------------|----------------------------|----------------|---|-----------------|
| 14. (21-1098) Recommendation to request City Attorney to prepare a resolution to communicate to the State of California Department of Healthcare Services the City's full support of Molina Healthcare of California's (MHC) bid to continue providing healthcare to Medi-Cal recipients in the County of Los Angeles as the Primary Contracted Commercial Plan. | Michelle Baker | michellebaker199@gmail.com | | Of course the city would do this because the Molina family pulls the strings of Mayor Garcia. | 10/17/2021 |
| 15. (21-1099) Recommendation to receive and file a Pedestrian Safety presentation from Department of Public Works, Long Beach Fire and Police Department; and Request City Attorney to prepare a resolution to recognize October as National Pedestrian Safety Month. | Padric Gleason Gonzales | padric.gleason@gmail.com | | Dear Council Members, 1 in 10 Long Beach residents does not own a personal vehicle. As a member of this tiny minority, I'm begging you to PLEASE INVEST IN COMPLETE STREETS. Complete Streets are designed to be used by all members of the community, regardless of their age or ability, and inclusive of all modes of transportation: by foot, bike, scooter, car, truck, or public transportation. I walk to work every day. My husband drives an electric scooter. Every day, we're reminded that this city is designed by and for car-owners. The lanes are oversized to accommodate large vehicles, which increases the average speed. There are too few physically separated bike lanes to protect riders. Every few days, there's another headline of a pedestrian or cyclist death or a fatal car accident. There's clearly a problem with our city's streets. Please implement the Safe Streets LB Action Plan and the Long Beach Bicycle Master Plan. Put your money where your mouth is: invest in safe street design. | 10/16/2021 |
| 17. (21-1101) Recommendation to adopt resolution authorizing City Manager, or designee, to execute a contract, and any necessary documents including any necessary amendments, with Prime Government Solutions, of Harrisburg, PA, for the implementation of a legislative management system, on the same terms and conditions afforded to the City of Los Angeles in an amount of \$129,404, plus a 15 percent contingency in the amount of \$19,411, for a total amount not to exceed \$148,815 for the one-year period of October 1, 2021 through September 30, 2022; thereafter, in an annual amount not to exceed \$69,830, with annual increases up to 5 percent, until the City of Los Angeles contract expires on July 31, 2023, with the option to renew, for as long as the City of Los Angeles contract is in effect, at the discretion of the City Manager. (Citywide) | Aaron Moore | aaron@aaronmoore.org | | I support the City Clerk's office having access to the latest technology to efficiently manage public meetings and provide resident access. | 10/16/2021 |

| 22. (21-1106) Recommendation to request City Attorney to prepare an ordinance amending Chapters 8.60, 18.67 and 21.42 of the Long Beach Municipal Code to comply with the State-mandated legislation Senate Bill (SB) 1383, the Short-Lived Climate Pollutants: Organic Waste Methane Emissions Reduction. (Citywide) | Whitney Amaya | whitney.amaya@gmail.com | | Hello, my name is Whitney Amaya and I'm a resident of West Long Beach and member/staff with East Yard Communities for Environmental Justice. I ask our city leaders to direct staff to look into supporting & developing a robust community composting network throughout our city in order to help comply with SB 1383. Not only will the city be a role model in managing it's organic waste locally, but the product (compost) will remain local which can be used by community residents and the city as well in building the health of our soils which will help in retaining water moisture, reduce the need for chemical fertilizers, sequester carbon, and reduce the emission of methane at landfills (among many other benefits). There are many great models & groups doing this on the East Coast and amazing groups doing great work here locally like LA Compost & Long Beach Community Compost. | 10/19/2021 |
| 22. (21-1106) Recommendation to request City Attorney to prepare an ordinance amending Chapters 8.60, 18.67 and 21.42 of the Long Beach Municipal Code to comply with the State-mandated legislation Senate Bill (SB) 1383, the Short-Lived Climate Pollutants: Organic Waste Methane Emissions Reduction. (Citywide) | Padric Gleason Gonzales | padric.gleason@gmail.com | | Dear City Council Members, On organic waste, you've unfortunately failed to lead. I'm disappointed that Long Beach will not be in compliance with SB-1383 even though we've had 5 full years to implement waste diversion measures. These ordinance changes, for example, should not have been delayed until just 2 months before the compliance deadline. The excuses suggested in the staff memo frankly lack credibility. That said, I agree with the following statement: "It is imperative the City works to implement as much of the legislation as possible, including the adoption of an Ordinance for enforcement by the implementation date to avoid financial penalties." Please support this motion and, what's more, please prioritize this and other climate actions. Long Beach must do more to reduce our emissions and invest in greener, cleaner infrastructure right across city services. | 10/16/2021 |
