

## City of Long Beach

Working Together to Serve

## Memorandum

Councilmember Al Austin II  
Eighth District

# NB-34

**Date:** May 18, 2021

**To:** Mayor and Members of the City Council

**From:** Councilmember Al Austin II, Eighth District  
Councilwoman Cindy Allen, Second District  
Councilwoman Suzie Price, Third District  
Councilmember Roberto Uranga, Seventh District

**Subject:** Resolution calling on Congress and the EPA to address the DDT waste dumped in the waters between Long Beach and Santa Catalina Island

---

### RECOMMENDED ACTION:

**Request the City Attorney to draft a resolution calling on the United States Congress and the U.S. Environmental Protection Agency to take all measures necessary to prevent further harm to natural resources, wildlife and citizens from the DDT waste dumped in the waters between Long Beach and Santa Catalina Island, and support Assembly Joint Resolution 2 by Assemblymember Patrick O'Donnell.**

### BACKGROUND:

DDT, or dichloro-diphenyl-trichloroethane, is a toxic pesticide that was banned in 1972 due to it causing a number of environmental problems, including harming wildlife such as sea lions, brown pelicans, California condors and dolphins and other birds and fish. The nation's largest manufacturer of DDT was based in Los Angeles.

A Superfund site was declared off the coast of the Palos Verdes Peninsula when it was discovered that the company disposed toxic waste through the sewage pipes that poured into the ocean.

However, much less was known about the company's barging of additional barrels of toxic waste out to sea to dispose of the waste. A recent Los Angeles Times investigation, based on the work of local scientists, estimates that as many as half a million barrels of toxic waste from DDT, could be lying underwater in the waterway between Long Beach and Santa Catalina Island.

This recently discovered barrel dumpsite far exceeds, by as much as 40 times greater, the amount of DDT in the previously identified Superfund site off the coast of the Palos Verdes Peninsula.

Assemblyman Patrick O'Donnell has authored Assembly Joint Resolution 2, which calls on the U.S. Congress and the U.S. Environmental Protection Agency (EPA) to take all measures necessary to "prevent further damage to California's citizens, wildlife, and natural resources by the DDT waste dumped in the waters near Santa Catalina Island." Assemblyman O'Donnell's resolution was approved by the Assembly, and is currently being considered in the Senate.

MAYOR AND MEMBERS OF THE CITY COUNCIL

Page 2 of 2

U.S. Senator Dianne Feinstein has also called the dumped DDT a public health hazard, and the Los Angeles County Board of Supervisors have approved a motion by Supervisor Janice Hahn urging the EPA to assess the DDT damage and expedite clean-up.

As Long Beach has a thriving coastal economy, and it is important that we support efforts to protect our region's natural resources and wildlife, Long Beach should add our voice to call on Congress and the EPA to give the highest attention to addressing this marine contamination, the magnitude of which was previously not fully realized.

**FISCAL IMPACT:** A fiscal impact analysis was not able to be conducted for this item due to the time sensitivity of placing it on the agenda.

**STATEMENT OF URGENCY:** This agenda item is time sensitive due to the pending legislation and the timeliness of adding Long Beach's voice to this issue.

**City of Long Beach Memorandum**

## REQUEST TO ADD AGENDA ITEM

**Date:** May 14, 2021  
**To:** Monique De La Garza, City Clerk  
**From:** Councilmember Al Austin II, Eighth District  
**Subject:** Request to Add Agenda Item to Council Agenda of May 18, 2021

---

Pursuant to Municipal Code Section 2.03.070 [B], the City Councilmembers signing below request that the attached agenda item (due in the City Clerk Department by Friday, 12:00 Noon) be placed on the City Council agenda under New Business via the supplemental agenda.

The agenda title/recommendation for this item reads as follows:

**Request the City Attorney to draft a resolution calling on the United States Congress and the U.S. Environmental Protection Agency to take all measures necessary to prevent further harm to natural resources, wildlife and citizens from the DDT waste dumped in the waters between Long Beach and Santa Catalina Island, and support Assembly Joint Resolution 2 by Assemblymember Patrick O'Donnell.**
