Even for the few that seem to benefit, they end up wasting most of their energy hoarding the resources they acquired. It's hardly a life a worth living. We are in this together & we should want everyone to live the best life possible. Having equal access to parks & entertainment that can help people forget their worries is important to both quality of life and economic mobility.	7/17/2017

I want to thank councilmember member Gonzalez and city council for addressing the issue of equity, or lack thereof, in park programming and the allocation of resources directed towards our parks. I strongly encourage City Council to support this assessment of our parks with the hope of increasing access to high quality Park programming for all residents and communities in our city.	7/18/2017

WCHA consists of community members who commit hundreds of hrs a year to fundraise and develop events like Willmore Season of Live Arts & Music w/ a goal to expose children to arts & music. Each year, we see greater attendance yet unfortunate our children rely on volunteer hrs when park programming should be made for ALL children.	7/16/2017
