

COUNCILWOMAN NB-23 LENA GONZALEZ

DATE: August 2, 2016

TO: Honorable Mayor and Members of the City Council

FROM: Councilwoman Lena Gonzalez, District 1 *L.G.*
Councilmember Suzie Price, District 3 *S.P.*
Councilwoman Stacy Mungo, District 5 *S.M.*

SUBJECT: Long Beach Meningitis Public Outreach Update

RECOMMENDATION

Receive and File a report from the Health and Human Services Department on their outreach and response regarding the recent outbreak of Meningitis in Long Beach particularly with the Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) community. The report should include statistics on cases in Long Beach and Los Angeles County, existing outreach and programming in Long Beach, specific outreach efforts with the LGBTQ community and next steps for reducing the number of new cases in Long Beach.

DISCUSSION

Throughout Los Angeles County, including the City of Long Beach which has its own Health Department, there has been a substantial increase in the number of reported cases of meningitis over the past few months. A large number of these confirmed cases are men who identify as gay or bisexual. For instance, in Los Angeles County between January 1 and July 25, 2016, excluding Long Beach and Pasadena, there have been a total number of thirteen confirmed cases of meningitis with seven of those cases being gay or bisexual men. This is compared to 2015 when the total number of cases was twelve with only one of those cases being a gay or bisexual identified male.¹ Similarly, in the City of Long Beach since January 1, 2016 there have been a total of six cases, five of which have occurred in the past two months and three cases confirmed with men who identify as gay or bisexual. In 2015, the City of Long Beach had zero confirmed cases of meningitis.

FISCAL IMPACT

There is no fiscal impact at this time.
