HONORABLE MAYOR AND CITY COUNCIL
City of Long Beach
California

RECOMMENDATION:

Authorize the City Manager, or designee, to execute an affiliation agreement with the entities listed below, and any subsequent amendments, for student field placement, internship and preceptorship with the City. (Citywide)

DISCUSSION

Every year, institutions of higher learning and hospitals contact the Department of Health and Human Services (Health Department) to request field placement of their students or residents-in-training. The placements range from undergraduate students seeking experience working in public affairs, administration, public health, and social work to nursing students and residents-in-training seeking to engage in a clinical rotation at the Health Department.

The following institutions have requested to enter into an affiliation agreement with the City to allow their students and residents-in-training to intern or be placed with the Health Department to expand and gain first-hand knowledge of working in a public health setting. This program is beneficial to the City in that the students, while on rotation, learn about the role and function of the Health Department, and the importance of public health in the community. The students and residents-in-training provide enhanced clinical and program capacity during the term of their rotation at the Health Department. These programs also serve as sites for the Health Department to recruit future public health professionals. Entities currently requesting affiliation agreements include:

American University of Health Sciences
California State University Dominguez Hills
California State University Fullerton
California State University Los Angeles
California State University Long Beach
California State University Northridge
Charles R. Drew University of Medicine and Science
Community Hospital of Long Beach
Loma Linda University
Long Beach City College
Long Beach Memorial Medical Center
Long Beach Unified School District
