# Right to Assemble and Have Political Free Speech Zone

## About the petition

Our petition grants us the right to peacefully assemble and have a public space for political speech 24/7. We are asking the city council and director of Parks and Recreation to honor our first amendment rights. An area set for political discourse will be a center to involve the community and change peoples actions. We are asking the city to distinguish between camping and an encampment meant for political free speech, where people can seek shelter in the rain and cold, to rest and continue to provide discourse throughout the day and night. There is much to catch up on over the last 30+ years of vile economic policy, so we truly need this to be a 24 hour public free speech zone. Please support our efforts city council.

Comments: we as American citizens have a 1st amendment right to assemble and protest, even if that protest is an occupation that won't "go away". It is alarming and frightening to see our police officers and elected city officials all over the country openly violating our constitutionally protected freedom of speech and protest. I find it disgusting that we even have to sign a petition to be allowed a political free speech zone - that in and of itself is a violation of our first amendment rights. These people who stay out night after night are fighting for a better government and a better way of life for all of us and that should be commended not fought with ever trick in the book. Those who wish to deny this right should be ashamed as elected officials that you would suppress your own constituents of their political voice.

Our tax dollars pay for your salaries, pay for the police that should be providing the protesters security, and pay for the grounds and maintenance they need to exercise their First Amendment Rights. Here is your opportunity to change the course of our history in the right direction and leave a legacy that will put you as individuals and our city on a higher plane for all our generations to come to admire and respect. It is a movement that is not going to go away. Join us for the betterment of us all . . .

Why should those of us who have been economically disenfranchised the past thirty years by those corporations not be allowed to have a handful of volunteer representatives to counter

their unceasing propaganda?

But with the law on your behalf, you have made it illegal past 10pm to peacefully assemble in a park that is regularly used as a public space. In the name of compromise, and with an effort to uphold the constitution of the United States that you, as city council representatives, have sworn by, we are seeking your support, to allow all long beach residents to have and use this space for the purposes of discourse, without arrests, threats or intimidation by the Long Beach Police department, 24 hours a day, 7 days a week.

Let businesses know and turn it into a city thing where local business can generate income from "occupy" members and those looking to watch 'Occupy' protesters. To really generate a crowd of watchers; consider sending in riot police and dogs to scatter protesters and make a spectacle for on lookers..... I see this as an ENTERTAINMENT opportunity. It's all based how you market this!

Comments: I want to be taxed, taxed fairly. I need roads, a fire dept. clean air, health care for all and all things the commons share. I just want a good job with good wages and good paying customers to help pay for them. We should all pay our fair share in taxes, that is our civic duty, that means every one. The fact is the people making \$250,000 and more are not paying there fair share. They have also been responsible for 2 wars unpaid for and a financial breakdown that did not have enough or correct government oversight to stop this crime. They are the one's who are making the unfair tax rules in our government with there huge unchecked lobby money, so let's put blame where it is deserved.

Our government is not broke, the wealth is disproportionate and is being sat on. Why would businesses and large corporations invest and hire if no one is buying anything. Pay a man to dig a hole and another man to fill it and they will spend there earnings and what do you know, we have an economy. This has been western civilization's governments way of getting out of debt ever since the

concept was originated.

Don't be fooled by people who say all politicians are bad. It is just an argument to get us to put everyone in a basket and become apathetic to trying. You and I know we have met good people in our life and we should support those people and fight against those who tear them down. There are good politicians in office right now and they need our vote and support and when they go south they need to be contacted and told what is right to do or we won't support them any more. If good government is gone the only thing left to fill that vacuum is the private sector. I have more ability voting out my government representative then getting my corrupt boss fired.

So I guess I'm just saying it is not enough just to vote every 2 years but instead to vote every day, become active and try to change things. You ran for public office once and I know you know this to be true.

If our mother is an alcoholic, because we love her we try to help her and get her to stop drinking. Our government is our mother so to speak and it is up to us as good children of our government to help her do right, despair is not an option. If we stop our good help she will surely die.

The least we can do is let them have their encampments on public grounds as a protest measure against this injustice.

Comments: But these, too, as were the phrases of the Covenant, are only words; their value depends wholly on our will to observe and honor them and give them content and meaning. The preservation of peace and the guaranteeing of man's basic freedoms and rights require courage and eternal vigilance: courage to speak and act - and if necessary, to suffer and die - for truth and justice; eternal vigilance, that the least transgression of international morality shall not go undetected and unremedied. These lessons must be learned anew by each succeeding generation, and that generation is fortunate indeed which learns from other than its own bitter experience. This Organization and each of its members bear a crushing and awesome responsibility: to absorb the wisdom of history and to apply it to the problems of the present, in order that future generations may be born, and live, and die, in peace.-HIS IMPERIAL MAJESTY, EMPEROR, HAILE SELASSIE, I, KING OF KINGS, LORD OF LORDS, CONQUERING LION OF THE TRIBE OF JUDAH.....THE WORDS OF THE UNITED STATES CONSTITUTION ARE BUT WORDS INDEED THEIR VALUE DEPENDS WHOLLY ON OUR WILL TO OBSERVE AND HONOR THEM AND GIVE THEM CONTENT AND MEANING.

We are asking the city council and director of Parks and Recreation to honor our first amendment rights. An area set for political discourse will be a center to involve the community and change peoples actions. We are asking the city to distinguish between camping and an encampment meant for political free speech, where people can seek shelter in the rain and cold, to rest and continue to provide discourse throughout the day and night. There is much to catch up on over the last 30+ years of vile economic policy, so we truly need this to be a 24 hour public free speech zone. Please support our efforts city council.

The homeless are allowed to &quot;camp&quot; using make shift shelters around the city undisturbed but a peaceful political group would like the same courtesy and its suddenly a problem? Let them stay, let them erect structures such as tents and canopies!

It is our right, as the owners of this public land, to peacefully assemble and protest at any hour of any day. No general curfew for cops, streets, sidewalks or public service lines. These are our parks (our taxes pay for them) and we will occupy them.

There is a distinct difference between recreational camping and holding grounds for political free speech in which all American citizens are supposed to be entitled to. Please respect and honor our ability to use our given rights. Please keep in mind that city council members and ourselves are all protected and influence by our laws, no one is segregated. How would you want to be treated if the situation was reverse? Thank you.

Shelter is a requirement to "promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity". Denying simple shelter inhibit's the exercise of our rights, a denial of rights. Your oath of office requires you to uphold the Constitution which supersedes any lesser stature.

- &quot;1. We demand a balanced distribution of wealth and will continue until this is actually accomplished (not just promised) -- however long this may take.  
2. We will continue until the control of Government is removed from the wealthy 1% and returned to all of the people in a real democracy.  
3. We demand that Government at all levels (National, State, City) stop persecuting us and instead start protecting our right to assemble.&quot;
- Keep up the good work.

Comments: I lived for two years in a third world country. I fear the increasing economic divide here is taking us in the same direction. Corporate greed and corruption has seriously damaged the world economy. They have been rewarded with bailouts while the rest of us struggle with the repercussions. We have witnessed bailouts for corporations, total lack of consequences for individuals who have broken the law, and big bonuses for corporate leaders who drove their companies to bankruptcy. We cannot continue to tolerate one set of rules for the very rich and a different set for the rest of us.
