19. (13-0038) Recommendation to request the City Council to refer consideration of the California Finance Lender's Law to the State Legislation Committee in order to amend the City's legislative agenda to advocate for the elimination of the loophole that allows for unregulated loans exceeding \$2,500.	Mauna Eichner	melf@charter.net			Minneapolis	Minnesota	55407	I strongly support this agenda item. It's critical that a message be sent to the legislators in Sacramento that the City of Long Beach requires them to put an end to the loophole in the law that allows this predatory practice to continue. Our citizens lives and livelihoods need to be protected by the state and killing bills in committee is not protecting anyone. Please approve the recommendation!	2/3/13

Let's keep predatory lenders out of Long Beach.	2/4/13
