Forbidden City should be able to have the live entertainment as requested. They have been a supporter of Long Beach, and a major contributor to our charities.. They are an asset to our city .

The location that they are in has been a very difficult one because of the access to get t to it. Other restaurants at this location have failed. Forbidden City needs to be able to compete with other restaurants to stay in business.

We have been there many times and enjoyed their great food and hospitality. Their music is an important asset and does not seem to interfere with the surrounding residences.
