Subject: Re: Drive-Through Regulations City Council Meeting - July 16

Dear Cynthia de la Torre:

As a resident living in the 9th District, I hope that the discussions of the harmful impacts of drive thru businesses, especially those that serve food or drinks, will proceed. One impact that has not been previously discussed is the amount of trash and plastic waste that is generated by drive thrus. There are bags of wasted tossed out from cars and trucks that originated in these drive thrus.

Thank you.

Melissa Shilling
