

Petition to Uphold the Appeal of Site Plan Approval

Petition Subject: Appeal of the Site Plan Approval and parking requirements for new development at 635 E Ocean Blvd.

We are Long Beach voters who are concerned that the proposed parking in this project will not provide parking for residents with 2 cars. Consequently, it will adversely affect residents and property owners in this parking-impacted area by depleting parking for our visitors, increasing our parking costs, and lowering property values/rents.

Action Requested: We, the undersigned request the following from City Council:

- (1) Uphold the appeal of the Site Plan Approval for this project until adequate parking is required, and
- (2) Raise the parking requirements in the City ordinance to a minimum of 1.25 spaces for one bedroom units and 1.5 spaces for 2 bedroom units in order to provide parking for residents who have more than one car.

Petition to Uphold the Appeal of Site Plan Approval

Petition Subject: Appeal of the Site Plan Approval and parking requirements for new development at 635 E Ocean Blvd.

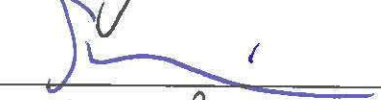

We are Long Beach voters who are concerned that the proposed parking in this project will not provide parking for residents with 2 cars. Consequently, it will adversely affect residents and property owners in this parking-impacted area by depleting parking for our visitors, increasing our parking costs, and lowering property values/rents.

Action Requested: We, the undersigned request the following from City Council:

- (1) Uphold the appeal of the Site Plan Approval for this project until adequate parking is required, and
- (2) Raise the parking requirements in the City ordinance to a minimum of 1.25 spaces for one bedroom units and 1.5 spaces for 2 bedroom units in order to provide parking for residents who have more than one car.

Petition to Uphold the Appeal of Site Plan Approval

Petition Subject: Appeal of the Site Plan Approval and parking requirements for new development at 635 E Ocean Blvd.

We are Long Beach voters who are concerned that the proposed parking in this project will not provide parking for residents with 2 cars. Consequently, it will adversely affect residents and property owners in this parking-impacted area by depleting parking for our visitors, increasing our parking costs, and lowering property values/rents.

Action Requested: We, the undersigned request the following from City Council:

- (1) Uphold the appeal of the Site Plan Approval for this project until adequate parking is required, and
- (2) Raise the parking requirements in the City ordinance to a minimum of 1.25 spaces for one bedroom units and 1.5 spaces for 2 bedroom units in order to provide parking for residents who have more than one car.
