Subject: Item 15: NO Car Wash at 1911 E PCH

-EXTERNAL-

Good afternoon,

The community already gave their opinions during the planning commission meeting regarding this matter, but the will of the people has been superseded through appeal. Let it be known that **none** of the audience members (besides the developers and their attorneys) in attendance during the Planning Commission meeting when this permit was discussed wanted **yet another** car wash on PCH.

I hope you reject this proposal and listen to your constituents. Car washes are plentiful in this community and along PCH, and they do not want or need another.

Thank you,

Kurt Canfield
