Subject: Mill's Act

---

I am writing to request to be submitted as a part of the hearing for the Mill's Act.

I am a new(ish) home owner in the Hellman Historic District, purchasing my home nearly 3 years ago.

I am actively working to restore my home to its former original glory, investing in the past 3 years over \$20,000.

Over the course of the past year, I've had to slow my restoration projects to just the bare essentials of the needs of the home.

As with any home of this age, many many more costly things are needed to be done to assist in this project.

Upon hearing about the Mill's Act, I have become highly interested in pursuing this avenue as a way to assist in the restoration of my home and countless other beautiful homes within Long Beach.

Thank you for your time.
