## REDEVELOPMENT AGENCY BOARD MEMBERS

City of Long Beach

California

### RECOMMENDATION:

Approve and authorize the Executive Director to execute a contract amendment with Overland, Pacific and Cutler, Inc. for property acquisition, relocation, site clearance and property management services. (All Project Areas – Citywide)

### DISCUSSION

On April 16, 2007, the Redevelopment Agency (Agency) approved a three-year, \$3 million contract with Overland, Pacific and Cutler, Inc. (OPC) to provide services related to the acquisition, relocation, management and clearance of properties in the Agency's redevelopment project areas. On March 3, 2008, the Agency authorized the Executive Director to add \$3 million to OPC's contract for a total contract value of \$6 million. The full contract amount is likely to be depleted within the next 30 days due to some unanticipated expenses related to remediation of one of the Agency's properties. It is recommended that the contract be amended to add another \$2.5 million to the total allowable compensation. An extension to the term of the agreement is not recommended. Prior to the expiration of OPC's current contract (scheduled for May 6, 2010), the Agency will release a request for proposals to firms providing property acquisition, relocation, site clearance and property management services. Attached is a breakdown of expenditures to date and anticipated uses of the additional \$2.5 million (Exhibit A).

Since March 2007, the Agency has acquired more than 75 properties and relocated more than 140 tenants, businesses and homeowners with the assistance of OPC. The extensive services OPC provides during the acquisition and relocation processes are outlined in Exhibit B. In order to protect the Agency's interests during the acquisition process, OPC also subcontracts with environmental firms to assess property conditions and with surveyors to verify property characteristics such as easements, public utilities and property lines.

OPC also provides property management services for Agency projects in the Downtown, North Long Beach and West Long Beach Industrial Redevelopment Project Areas. Property management encompasses a wide range of activities: collecting monthly rents, preparing and delivering required notices, collecting keys and verifying abandonment, paying utility bills, and disconnecting utilities and removing meters. OPC will subcontract for emergency repairs, grounds maintenance, and boarding up vacant premises until demolition can occur. When a site has been vacated, OPC will arrange for the demolition of existing improvements, clearance of the site, and fencing of the vacant lot. OPC utilizes local contractors to assist with delivering services and provides the Agency with regular reports (Exhibit C). In addition to OPC, the Agency utilizes Equity North Investment (a Long Beach company) to provide property maintenance services.

SUGGESTED ACTION:

Adopt recommendation.

Respectfully submitted,
