Bid/Proposal Attachment regarding the Darfur Contracting Act of 2008

Effective January 1, 2009, all Invitations for Bids (IFB) or Requests for Proposals (RFP) for goods or services must address the requirements of the Darfur Contracting Act of 2008 (Act). (Public Contract Code sections 10475, et seq.; Stats. 2008, Ch. 272). The Act was passed by the California Legislature and signed into law by the Governor to preclude State agencies generally from contracting with "scrutinized" companies that do business in the African nation of Sudan (of which the Darfur region is a part), for the reasons described in Public Contract Code section 10475.

A scrutinized company is a company doing business in Sudan as defined in Public Contract Code section 10476. Scrutinized companies are ineligible to, and cannot, bid on or submit a proposal for a contract with a State agency for goods or services. (Public Contract Code section 10477(a)).

Therefore, Public Contract Code section 10478 (a) requires a company that currently has (or within the previous three years has had) business activities or other operations outside of the United States to certify that it is not a "scrutinized" company when it submits a bid or proposal to a State agency. (See # 1 on the sample Attachment).

A scrutinized company may still, however, submit a bid or proposal for a contract with a State agency for goods or services if the company first obtains permission from the Department of General Services (DGS) according to the criteria set forth in Public Contract Code section 10477(b). (See # 2 on the sample Attachment).

The following sample Attachment may be included in an IFB or RFP to satisfy the Act's certification requirements of bidders and proposers.

Exhibit E - DARFUR CONTRACTING ACT

Pursuant to Public Contract Code section 10478, if a bidder or proposer currently or within the previous three years has had business activities or other operations outside of the United States, it must certify that it is not a "scrutinized" company as defined in Public Contract Code section 10476.

Therefore, to be eligible to submit a bid or proposal, please complete only one of the following three paragraphs (via initials for Paragraph # 1 or Paragraph # 2, or via initials and certification for Paragraph # 3): YOUR BID OR PROPOSAL WILL BE DISQUALIFIED UNLESS YOUR BID OR PROPOSAL INCLUDES THIS FORM WITH EITHER PARAGRAPH #1 OR #2 INITIALED OR PARAGRAPH #3 INITIALED AND CERTIFIED.

OR

3. _____ We currently have, or we have had within the previous three years, business activities or other operations outside of the United States, but we certify below that we are not a scrutinized company as defined in Public Contract Code section 10476.

6. Jurisdiction Table

List All Waterbodies That Are In Your Jurisdiction and Fill in the Chart for Each

Waterbody	Size (area)	Boating activities (fishing, watersports, paddlecraft, etc.)	How many hours/year is this waterbody patrolled by your agency. If seasonal, list active months	Do you share jurisdiction on this waterbody	If shared jurisdiction, list other agency(s)
Long Beach Port, Long Beach Marinas, and City of Long Beach waterfront	25 Miles of water front	The Port of Long Beach is the second busiest container port in the United States. The seaport generates approximately 100 billion dollars in trade. Long Beach also has 3000 boat slips, 5 different launch ramp facilities, and 4 yacht clubs. The City of Long Beach and the Port of Long Beach also host the Long Beach International Sea Festival, 4th of July fireworks show, Christmas Boat Parade, fishing, lobster diving, paddle boarding, sailing, windsurfing, and other recreation water sports.	The water is patrol 24/7 - 365 days a year.	Yes	USCG

7. Clearly identify the top three safety issues related to your request in your jurisdiction.

The Port of Long Beach generates over 100 Billion dollar in trade a year, and is the second busiest container port in the United States. There are over 8.1 million 20' cargo containers moved a year through the port. The port is a key asset to the U.S. economy and is of vital importance to national security. Our number one priority is security of the port, and prevention of acts of terror. Patrolling as much as possible, and being highly visible is a key component for the Port to help prevent such incidents.

Secondarily, the port detail has over 25 miles of water front to patrol which includes the largest municipally operated marina system (3 marinas) in the US with over 3000 boat slips. In addition, there are 5 launch ramp facilities and multiple boat rental outlets. For this reason, there is always a great concern for boating collisions. In 2019, we had one boating fatality, and several boats that crashed or washed ashore. Prevention is done by doing safety checks of boats, keep a lookout for any possible BUI's, and high visibility patrols. We have many different activities that draw people to our water front. We have the Long Beach Grand Prix, Long Beach International Sea Festival, 4th of July fireworks show, Christmas boat parade, sport fishing, lobster diving, paddle boarding, wind surfing, and other recreational water sports. Our port detail works on assisting with keeping all of these different entities, including our shipping lines, from having accidental interactions that could be catastrophic.

Our third priority is the safety of the Officers. We have 5 boat seats that the shock absorbers are going out on. The parts can not be replaced and we need to get new seats. It is vital to keep our Officers and their backs healthy and in good shape. If we have officers injured, we are unable to be on the water as much as needed which creates a critical issue for the safety of everyone.
