RE: Amendments to improve trucking facilities – Support amendments
OPPOSE adding CUP recommendation

The Westside Industrial Council supports the planning commission's approval of the trucking facilities improvements. Now a CUP is recommended. The code amendments were added to improve trucking facilities in Long Beach, by adding a CUP requirement it adds additional costs making us noncompetitive with cities surrounding the ports. Code enforcement will correct any specific facility improvement that is necessary. The city and its citizens want Long Beach to grow and prosper but by adding the unnecessary cost of a CUP is non-business friendly. This CUP will significantly restrict the Port and business growth in Long Beach.
Aggrieved business owner and resident.
