19. (17-0065) Recommendation to adopt Plans and Specifications No. R-7022 for the Seaside Park Artificial Turf Field Project; award the contract to Los Angeles Engineering, Inc., of Covina, CA, in the amount of \$773,123, authorize a 10 percent contingency in the amount of \$77,312, for a total contract amount not to exceed \$850,435; authorize City Manager, or designee, to execute all documents necessary to enter into the contract, including any necessary amendments thereto;	Rae Gabelich	hoorae1@aol.com			Long Beach	CA	90805	Health and safety concerns have been raised about artificial turf. Friction between skin can cause abrasions and/or burns to a much greater extent than natural grass. Artificial turf tends to retain heat from the sun and can be much hotter than natural grass with prolonged exposure to the sun. There is evidence that periodic disinfection of artificial turf is required as pathogens are not broken down by natural processes in the same way as natural grass. Right choice for all. Not simply money.	2/7/2017
23. (17-0072) Recommendation to Support SB 54 (De Leon), The California Values Act, and SB 31 (Lara), the California Religious Freedom Act. These two legislative proposals protect the safety and well-being of all Californians by ensuring State and local resources are not used to support deportations, separate families, collect information about an individual's religious beliefs or affiliations, and ultimately hurt California's economy.	Andrew Kerr	akerr.ca@gmail.com		Bixby Knolls	Long Beach	CA	90807	I fully support SB 54 legislation proposed by Senator Pro Tem de León and the actions taken by our State leadership to maintain the values of California voters against the careless and reckless leadership of the new Trump Administration. The Trump Administration is clearly influenced by racism and white nationalism. These interests are insulting to me as a Californian and a proud member of the Long Beach community.	2/7/2017
