

PETITION
TO THE CITY COUNCIL OF LONG BEACH

The petition draws attention to the amendment of Municipal Code Chapters 5.81 and 8.68, relating to electronic cigarettes and similar devices.

The amendment of these codes places electronic cigarettes in the same category as tobacco products. This would force electronic cigarette users to use their device in tobacco smoking approved areas only. This amendment forces strict regulation on; and lumps e-cigs in with traditional tobacco products; forcing users (former smokers, recreational, and hobbyist users) into the same spaces as tobacco users. This compromises the health of all e-cig users. This could also compromise those users who are trying to quit smoking traditional cigarettes. This forces businesses that would normally allow e-cigarette use in their establishment to ban all use of electronic cigarettes.

Electronic cigarettes are a safer and healthier alternative to traditional cigarette use.

We are petitioning to reverse this amendment so electronic cigarettes would not be lumped in with traditional tobacco products, and therefore not subject to the same regulations as traditional tobacco products.

This would force electronic cigarette users to use their device in tobacco smoking approved areas only. This amendment forces strict regulation on; and lumps e-cigs in with traditional tobacco products; forcing users (former smokers, recreational, and hobbyist users) into the same spaces as tobacco users. This compromises the health of all e-cig users. This could also compromise those users who are trying to quit smoking traditional cigarettes. This forces businesses that would normally allow e-cigarette use in their establishment to ban all use of electronic cigarettes.

Electronic cigarettes are a safer and healthier alternative to traditional cigarette use.

We are petitioning to reverse this amendment so electronic cigarettes would not be lumped in with traditional tobacco products, and therefore not subject to the same regulations as traditional tobacco products.

PETITION TO THE CITY COUNCIL OF LONG BEACH

The petition draws attention to the amendment of Municipal Code Chapters 5.81 and 8.68, relating to electronic cigarettes and similar devices.

The amendment of these codes places electronic cigarettes in the same category as tobacco products. This would force electronic cigarette users to use their device in tobacco smoking approved areas only. This amendment forces strict regulation on; and lumps e-cigs in with traditional tobacco products; forcing users (former smokers, recreational, and hobbyist users) into the same spaces as tobacco users. This compromises the health of all e-cig users. This could also compromise those users who are trying to quit smoking traditional cigarettes. This forces businesses that would normally allow e-cigarette use in their establishment to ban all use of electronic cigarettes.

Electronic cigarettes are a safer and healthier alternative to traditional cigarette use.

We are petitioning to reverse this amendment so electronic cigarettes would not be lumped in with traditional tobacco products, and therefore not subject to the same regulations as traditional tobacco products.

The petition draws attention to the amendment of Municipal Code Chapters 5.81 and 8.68, relating to electronic cigarettes and similar devices.

The amendment of these codes places electronic cigarettes in the same category as tobacco products. This would force electronic cigarette users to use their device in tobacco smoking approved areas only. This amendment forces strict regulation on; and lumps e-cigs in with traditional tobacco products; forcing users (former smokers, recreational, and hobbyist users) into the same spaces as tobacco users. This compromises the health of all e-cig users. This could also compromise those users who are trying to quit smoking traditional cigarettes. This forces businesses that would normally allow e-cigarette use in their establishment to ban all use of electronic cigarettes.

Electronic cigarettes are a safer and healthier alternative to traditional cigarette use.

We are petitioning to reverse this amendment so electronic cigarettes would not be lumped in with traditional tobacco products, and therefore not subject to the same regulations as traditional tobacco products.
