Proper precautions shall be taken pursuant to state law and standard practices to protect workers, general public and existing structures from injury or damage.
- 12.5 **Smoking:** Persons working under the contract shall adhere to local smoking policies. Smoking will only be permitted in posted areas or off premises.
- 12.6 **Stored materials:** Upon prior written agreement between the vendor and Member, payment may be made for materials not incorporated in the work but delivered and suitably stored at the site or some other location, for installation at a later date. An inventory of the stored materials must be provided to Member prior to payment. Such materials must be stored and protected in a secure location, and be insured for their full value by the vendor against loss and damage. Vendor agrees to provide proof of coverage and/or addition of Member as an additional insured upon Member's request. Additionally, if stored offsite, the materials must also be clearly identified as property of buying Member and be separated from other materials. Member must be allowed reasonable opportunity to inspect and take inventory of stored materials, on or offsite, as necessary.

Until final acceptance by the Member, it shall be the Vendor's responsibility to protect all materials and equipment. The Vendor warrants and guarantees that title for all work, materials and equipment shall pass to the Member upon final acceptance.

## ARTICLE 13- MISCELLANEOUS

- 13.1 **Funding Out Clause:** Any/all contracts exceeding one (1) year shall include a standard "funding out" clause. A contract for the acquisition, including lease, of real or personal property is a commitment of the entity's current revenue only, provided the contract contains either or both of the following provisions:
- "Retains to the entity the continuing right to terminate the contract at the expiration of each budget period during the term of the contract and is conditioned on a best efforts attempt by the entity to obtain appropriate funds for payment of the contract."
- 13.2 **Disclosures:** Offeror affirms that he/she has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor or service to a public servant in connection with this contract.
- Include a complete description of any and all relationships that might be considered a conflict of interest in doing business with participants in TCPN.
- The Offeror affirms that, to the best of his/her knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this contract.
- 13.3 **Indemnity:** The awarded vendor shall protect, indemnify, and hold harmless both Region 4 ESC and TCPN and its participants, administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of the vendor, vendor employees or vendor subcontractors in the preparation of the solicitation and the later execution of the contract, including any supplemental agreements with members. Any litigation involving either Region 4 ESC or TCPN, its administrators and employees and agents will be in Harris County, Texas. Any litigation involving TCPN members shall be in the jurisdiction of the participating agency.
- 13.4 **Franchise Tax:** The Offeror hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes.
- 13.5 **Marketing:** Awarded vendor agrees to allow Region 4 ESC to use their name and logo within website, marketing materials and advertisement. Any use of Region 4 ESC name and logo or any form of publicity, inclusive of press releases, regarding this contract by awarded vendor must have prior approval from Region 4 ESC.
- 13.6 **Certificates of Insurance:** Certificates of insurance shall be delivered to the Region 4 ESC participant prior to commencement of work. The insurance company shall be licensed in the applicable state in which work is being conducted. The awarded vendor shall give the participating entity a minimum of ten (10) days notice prior to any modifications or cancellation of policies. The awarded vendor shall require all subcontractors performing any work to maintain coverage as specified.
- 13.7 **Legal Obligations:** It is the Offeror's responsibility to be aware of and comply with all local, state, and federal laws governing the sale of products/services identified in this RFP and any awarded contract and shall comply with all while fulfilling the RFP. Applicable laws and regulation must be followed even if not specifically identified herein.
- 13.8 **Open Records Policy:** Because Region 4 ESC contracts are awarded by a governmental entity, responses submitted are subject to release as public information after contracts are executed. If a vendor believes that its response, or parts of its response, may be exempted from disclosure, the vendor must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt. In addition, the Offeror must specify which exception(s) are applicable and provide detailed

reasons to substantiate the exception(s). Offeror must provide this information on the "Acknowledgement and Acceptance to Region 4 ESC's Open Record Policy" form found at the beginning of this solicitation. Any information that is unmarked will be considered public information and released, if requested under the Public Information Act.

The determination of whether information is confidential and not subject to disclosure is the duty of the Office of Attorney General (OAG). Region 4 ESC must provide the OAG sufficient information to render an opinion and therefore, vague and general claims to confidentiality by the Offeror are not acceptable. Region 4 ESC must comply with the opinions of the OAG. Region 4 ESC assumes no responsibility for asserting legal arguments on behalf of any vendor. Offeror are advised to consult with their legal counsel concerning disclosure issues resulting from this procurement process and to take precautions to safeguard trade secrets and other proprietary information.

After completion of award, these documents will be available for public inspection.

**Check one of the following responses to the General Terms and Conditions:**

We take no exceptions/deviations to the general terms and conditions

*(Note: If none are listed below, it is understood that no exceptions/deviations are taken.)*

We take the following exceptions/deviations to the general terms and conditions. All exceptions/deviations must be clearly explained. Clearly state if you are adding additional terms and conditions to the general terms and conditions. Provide details on your exceptions/deviations below:

*(Note: Unacceptable exceptions shall remove your proposal from consideration for award. Region 4 ESC shall be the sole judge on the acceptance of exceptions/deviations and the decision shall be final.)*

Please see the following pages which detail our exceptions/deviations.

Appendix D:

**GENERAL TERMS & CONDITIONS ACCEPTANCE FORM**

Fastenal takes the following exceptions:

9.1 **Best Price Guarantee:**

The evaluated vendor agrees to provide pricing to Region 4 ESC and its participating entities that are the lowest pricing available and the pricing shall remain so throughout the duration of the contract. Pricing offered to Federal government buying consortiums for goods and services is exempt from this requirement. The awarded vendor, however, agrees to lower the cost of any product purchased through TCPN following a reduction in the manufacture or publisher's direct cost.

**Clarification / exception to Best Price Guarantee:**

Fastenal is offering Region 4 ESC a pricing structure that represents a "ceiling price". Region 4 ESC and its participating entities will not be charged more than the pricing negotiated but may be charged more favorable prices based upon market conditions, volume discounts, planned purchases that allow for Manufacturer specific Special Pricing Agreements (SPA) and other situational variations that regularly occur in a retail environment commonly known as deviations (liquidations, damaged goods, one time good will, seasonal items, local promotions, etc.).

Additionally, Fastenal's price methodology with other State contracts and National Governmental Cooperatives is to negotiate the not to exceed or "ceiling price," and these customers also share the same commercial sales practice of Region 4 (and their participating entities). They are afforded the same opportunity for more favorable prices resulting from situational conditions and/or deviations, so it is not possible to make a best pricing representation.

Regarding the representation to lower the price as a result of a manufacturer price reduction - Fastenal's vendor base is comprised of thousands of vendors who are manufacturers, manufacturer representatives, dealers, brokers, and distributors of branded items and commodities. We often have multiple vendors for the same item and inventory within our distribution system that represents purchases from multiple vendors over different time periods at a variety of price points. Because of the aforementioned purchasing and distribution practices of Fastenal as a national distributor with a global vendor base, it is not practical or reasonable to administer automatic price decreases based upon changes in vendor costing.

9.2 **Price increase:** Should it become necessary or proper during the term of this contract to make any change in design or any alterations that will increase expense Region 4 ESC must be notified immediately. Price increases must be approved by Region 4 ESC and no payment for additional materials or services, beyond the amount stipulated in the contract, shall be paid without prior approval. All price increases to core item list must be supported by manufacture documentation, or a formal cost justification letter.

**WE ARE WHERE YOU ARE.**

**FASTENAL<sup>®</sup>**

Seller will provide adequate documentation to substantiate proposed price adjustments. Such documentation may include but is not limited to third-party market reports, documentation from Seller's suppliers and reputable commodity indexes.

Discounts for Catalog items will remain firm for the life of the contract. Discounts will be applied to the Fastenal Wholesale published price effective the date of purchase.

Awarded vendor must honor previous prices for thirty (30) days after approval and written notification from Region 4 ESC if requested.

It is the awarded vendor's responsibility to keep all pricing up to date and on file with Region 4 ESC.

Core Item list will be maintained on an Excel spreadsheet. Core Items will have the message "Core Item" when shopping on www.fastenal.com with the Buyer's account number. Additionally, the message of "Core Item" will be displayed at the local store within Seller's Point-of-Sale system and on any punch-out e-catalogs required by Buyer.

Catalog items are items that are available for purchase on www.fastenal.com or are published in the current version of the Fastenal Big Blue Catalog. All Catalog items will have the message "Catalog item" when shopping on www.fastenal.com with the Buyer's account number. Additionally, the message of "Core Item" will be displayed at the local store within Seller's Point-of-Sale system and on any punch-out e-catalogs required by Buyer.

Pricing for Non-Catalog items shall be negotiated by the parties at the local level prior to the sale of said items.

All price changes must be provided to Region 4 ESC, using the same format as was accepted in the original contract.

- 9.4 Price Reduction and Adjustment:** Price reduction may be offered at any time during contract and shall become effective upon notice of the acceptance from Region 4 ESC. Special, time-limited reductions are permissible under the following conditions: 1) reduction is available to all Members equally; 2) reduction is for a specific time period, normally not less than thirty (30) days; 3) original price is not exceeded after the time-limit; and 4) Region 4 ESC has approved the new prices prior to any offer of the prices to a Member. Vendor shall offer Region 4 ESC any published price reduction during the contract period. Price reductions for retail deviations, spot buys and/or situational market conditions do not constitute a price reduction or adjustment.

## **ARTICLE 10- PRICING AUDIT**

- 10.1 **Audit rights:** Vendor shall, at Vendor's sole expense, maintain appropriate due diligence of all purchases made by Region 4 ESC and any entity that utilizes this Agreement. TCPN and Region 4 ESC each reserve the right to audit the accounting for a period of three (3) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. In the State of New Jersey, this audit right shall survive

**WE ARE WHERE YOU ARE.**

**FASTENAL®**

termination of this Agreement for a period of five (5) years from the date of final payment. Such records shall be made available to the New Jersey Office of the State Comptroller upon request. Region 4 ESC shall have the authority to conduct random audits of Vendor's pricing that is offered to eligible entities at Region 4 ESC's sole cost and expense. Notwithstanding the foregoing, in the event that Region 4 ESC is made aware of any pricing being offered to eligible agencies that is materially inconsistent with the pricing under this agreement, Region 4 ESC shall have the ability to conduct an extensive audit of Vendor's pricing at Vendor's sole cost and expense for auditing costs incurred by Fastenal in support of the audit. All audit costs incurred by Region 4 ESC are at Region 4 ESC's sole cost and expense. Region 4 ESC may conduct the audit internally or may engage a third-party auditing firm. In the event of an audit, the requested materials shall be provided in the format and at the location designated by Region 4 ESC or TCPN.

- 12.3 **Registered sex offender restrictions:** As required by individual school districts, for work to be performed at schools, vendor agrees to perform background checks to insure that no employee or employee of a subcontractor who has been adjudicated to be a registered sex offender will perform work at any time when students are or are reasonably expected to be present. Vendor agrees that a violation of this condition shall be considered a material breach and may result in the cancellation of the purchase order at the Member's discretion. Vendor must identify any additional costs associated with compliance of this term. If no costs are specified, compliance with this term will be provided at no additional charge.

## Supply Chain Diversity

Recognizing that many of our customers have supplier diversity requirements and initiatives, Fastenal is committed to not only promoting diversity within our company, but also across our supply chain. To that end, we've developed a three-pronged approach to supply chain diversity that includes supplier diversity, vendor diversity and a 1<sup>st</sup> tier authorized reseller program.

### Supplier Diversity

Our small business liaison officer makes sure that Fastenal isn't just "talking the talk" but also "walking the walk" when it comes to diversity and inclusion. Enriching our supply chain diversity not only helps our customers fulfill their diversity spend initiatives, it also gives our company a competitive edge and encourages our supply base to look for ways to support diverse business enterprises.

### Vendor Diversity

Fastenal's Supplier Diversity team works to maximize procurement opportunities for minority-owned and woman-owned business enterprises. To that end, we're committed to building relationships with, and purchasing goods and services from, MBE/WBE to the maximum extent possible while meeting our standards for quality and reliability. Fastenal's diversity supplier base currently includes more than 200 minority- and woman-owned suppliers. Fastenal purchases from these diversity suppliers in 2009 totaled more than \$42 million, and the number of small businesses that Fastenal purchased from exceeded 1,500. To further support Fastenal's 2<sup>nd</sup> tier product offering, a supply chain diversity educational brochure and supplier directory were published in 2008 featuring small, woman-owned, minority-owned, HUBZone, veteran and service-disabled veteran-owned businesses. Contact [suppliercert@fastenal.com](mailto:suppliercert@fastenal.com) for more information.

### 1<sup>st</sup> Tier Authorized Reseller Program

Fastenal's Supply Chain Diversity program establishes strategic alliances with small businesses serving as authorized channels of distribution for Fastenal's products and services. Fastenal's 1st tier program features strategic partners with a wide range of manufacturing, distribution and service capabilities as well as a full complement of supplier diversity certifications, including:

- Small Business (SB)
- Small Disadvantaged Business (SDB)
- Minority Business Enterprise (MBE)
- Disadvantaged Business Enterprise (DBE)
- Woman Business Enterprise (WBE)
- Veteran and Service Disabled Veteran owned business (SDVSB)
- HUB Zone business (HUB )

The full line of Fastenal's fasteners and industrial supplies are available for purchase through our authorized resellers. Some resellers are stocking distributors; others are service providers with agreements for Fastenal to provide logistics and distribution services in support of their customers' requirements. All authorized resellers are the vendor of record – responsible for contract negotiations, pricing, invoicing and accounts receivable management.

It was a humble beginning, but the company eventually found its niche as a supplier that earns opportunities by exceeding customers' expectations for service – an approach later summed up with four words: *Growth Through Customer Service*. 2011: \$2,766,859,000

2013: \$3,326,106,000

14. Has your company done anything that is transformative or innovative to the industry? If yes, please describe.

Fastenal Company is continually working to adapt to the needs of our customers. Innovation is one of our four core company values (along with ambition, integrity, and teamwork) and we are always on the lookout for opportunities to bring ideas, modifications, and improvements to our business. We can tailor our solutions to meet the needs of our customers and are open to adopting new methods as they appear.

Fastenal has built the company from humble beginnings 40+ years ago through a motto of Growth Through Customer Service and a hunger to identify new products and services that add value to existing customer relationships. This hunger for more opportunities to serve customers is what drove the company to open more than 2,300 locations in the United States and expand the product offering from fasteners to a full line of industrial supplies, resulting in Fastenal becoming the fastest growing industrial supply distributor in the nation.

Through our 2,300+ local stores, Fastenal manages more inventory supply systems than any other industrial and construction supplier in the nation. The foundation of our flexible programs is local service – understanding our customers' requirements and usage patterns, keeping product stocked at the local store to anticipate their needs, and continually providing just the right amount of inventory, when, where, and how it's needed. We offer a variety of VMI options from dock-to-dock to an in-plant operation, and technical solutions from FAST Crib crib management software to industrial vending machines.

With more than 38,000 machines installed at customer sites, Fastenal is far and away the largest industrial vending company in the world. Our industrial vending solutions provide point-of-use access to supplies while generating detailed usage reporting to drive consumption reduction. The machines are provided, installed, maintained, and replenished by local Fastenal personnel. There are no long-term commitments or capital expenses, only a low annual software hosting fee and a minimum monthly spend requirement.

15. Overall public sector sales, excluding Federal Government, for last three (3) years; 2011, 2012, 2013.

**\*CONFIDENTIAL\***

16. What is your strategy to increase market share?

Our goal is to become the best industrial distributor in each market that we serve. We are working to achieve this by:

- Opening new stores, domestically and internationally
- Continuing to expand the products and services offered to our customers
- Developing innovative sales and marketing approaches

With the addition of new product offerings and more efficient ways for the customer to receive their product, we believe we are positioned to become the best industrial and construction distributor in each market we serve.

With regards to our government customer base, we have expanded, and continue to expand on all products offering with a focus in plumbing, electrical and HVAC to address

the demands of facilities maintenance managers within state agencies, municipalities and educational facilities. The continuous improvement of our e-commerce platforms are another focal point of our strategy to grow in the government segment. With regards to MRO supplies, Government customers are looking for more than a catalog and a 1-800 number or a big box retail chain.

17. What differentiates your company from competitors?

At the heart of what differentiates our company from the competition is the concept of a “strategic” versus a “transactional” supplier. There are some very good transactional suppliers out there, but their business models are narrowly focused on the efficiencies of transactions – the number of standard products available, the number of purchase orders filled, the number of days from order to delivery, etc. By nature it’s a reactive model: The order comes in, it’s processed in a remote warehouse, and shipped via a third-party carrier. The good news is that the box arrives within 24 to 48 hours. The bad news is that very little value is delivered along with it.

As a strategic supplier, Fastenal takes a very different approach to drive a deeper level of value. A key concept is total cost of ownership, or TCO. This is particularly important in the MRO arena, where piece price typically represents less than 50% of the total costs associated with low-dollar, high-use supplies. While we strive to be competitive on price, what truly sets us apart is our ability to economize the many indirect costs associated with acquiring, owning and managing MRO inventory, in many cases by assuming these burdens and costs ourselves – something we’re willing to do in order to earn loyalty and future opportunities.

The key to this TCO value proposition is our local presence. With more than 2,300 U.S. branches – far more than any other industrial supplier – we’re located within 20 miles of nearly 100% of our current and potential customer locations in North America. Because we are where you are, we’re able to stock tailored inventory minutes away, actively manage the flow of planned purchases, and immediately respond to any emergency needs, driving down indirect costs every step of the way. On a more fundamental level, having a dedicated local store for every customer location sets the stage for an environment in which nearly all purchases become planned purchases.

Every Fastenal store carries a broad core inventory to meet common customer needs across a range of industries, but this is just a starting point. As information is shared and usage patterns emerge, each servicing branch will adapt its inventory model to mirror and anticipate your local demand. Within a matter of months, nearly all of your product needs are stocked in close proximity to your facilities, dramatically reducing inventory carrying costs, stock outages, and costly rush orders. In short, while other suppliers are built to react with 24 to 48 hour lead times, our system is designed to analyze, anticipate, and provide today’s needs today.

18. Describe the capabilities and functionality of your firm’s on-line catalog/ordering website.

Fastenal.com features nearly 400,000 products presented online for browsing and purchasing. A powerful search engine which includes attributes and standard fastener terminology has been developed for more accurate search results. Users can register to see their Custom Pricing as well as view the inventory in their closest Fastenal store. This fully transaction website allows for product search, traceability, and order submittal for on-line shopping convenience. Orders may be picked up at the local store or delivered directly to the user by one of our Fastenal Customer Service Representatives from the local store.

19. Describe your company's level of expertise with web-based procurement providers such as ESM, SciQuest, Lawson, Oracle, SAP, Peoplesoft, and all others your company has successfully interfaced with a public agency.

Fastenal has vast integration experience with a number of 3<sup>rd</sup> party web-based procurement providers, including ESM, SciQuest, Oracle, SAP, Peoplesoft, and many more. With over 15 years of experience with B2B integration, Fastenal has a dedicated eCommerce team to implement such integrations.

20. Does your company have a "Lead Point of Contact" for e-commerce integration issues? If yes, please provide detail contact information.

Fastenal has a dedicated team for eCommerce integrations. Each project is assigned an eCommerce Sales Specialist and a Technical Business Analyst. Both of these individuals would be key points of contact for any integration issues.

21. Describe your company's ongoing quality control processes to ensure qualified in-house personnel and subcontractors.

Fastenal has a highly trained, ethical work force thanks to our comprehensive corporate university, the Fastenal School of Business. With 14 campus locations, extensive field training, and a dynamic online training portal, FSB provides career-long opportunities for professional education and development, enabling our sales and support personnel to continually improve their product knowledge and service skills. Specialized institutes focus on store operations, leadership, sales, marketing, product education, operations, and support.

Fastenal does not typically utilize subcontractors. However, we have in place a documented and implemented supplier approval program with scheduled on-site audits on a three-year cycle. Our policy is that we buy standard product only from approved suppliers.

22. Describe your company's ability to create and maintain a dedicated TCPN page on your company's website, as well as any other capabilities your company may have of promoting the contract online.

Fastenal has an established "Landing Page" on fastenal.com that references our agreement with TCPN and shows users the product categories under the contract, how to become a TCPN member, links to the TCPN.org website, how to register their account with TCPN pricing, how to contact their local Fastenal store or government sales manager. This landing page is controlled and updated by Fastenal on a regular basis.

## Litigation Disclosure

On October 18, 2007, a complaint was filed in the United States District Court for the Northern District of California against Fastenal Company on behalf of two former employees claiming to represent all employees employed in the store position of Assistant General Manager in the United States within three years prior to the filing date (four years for California employees). The suit alleges Fastenal misclassified its Assistant General Managers as exempt for purposes of the overtime provisions of the Fair Labor Standards Act (FLSA) and California and Pennsylvania state statutes. This suit also alleges that Assistant General Managers in California did not receive sufficient meal breaks and paid rest periods under the California Labor Code. An opt-in class has been certified for this action.

On August 29, 2008, Fastenal Company issued a press release announcing a preliminary agreement to settle the class action lawsuit noted above. While the Company denies the allegations underlying the lawsuit, it has agreed to enter into the settlement agreement in order to avoid significant legal fees, the uncertainty of a jury trial, distractions to Fastenal's operations, and other expenses and management time that would have to be devoted to protracted litigation. The settlement, which is still subject to court approval, fully resolves all claims brought by the plaintiffs in this lawsuit. Pursuant to the settlement, Fastenal will make a cash payment of \$10 million to cover claims by eligible class members, plaintiff attorneys' fees and costs, and payments to the named plaintiffs. The expense for this settlement was recorded in the quarter ended September 30, 2008. The company does not expect the settlement to have any material impact on its operating results going forward.

In July 2010, we received a letter from the Civil Division of the Department of Justice (the 'DOJ') advising that they intended to be ready to commence litigation against us regarding a contract we entered into with the United States General Services Administration (the 'GSA') in 2000. We discontinued the GSA contract in 2005. The letter is related to an audit conducted by the GSA Office of Inspector General (the 'OIG') in 2005-06 that suggested we had not complied with certain pricing and product requirement provisions, and had potentially overcharged government customers under the contract. We have communicated our disagreement with the audit report, and have participated in several meetings and discussions with the OIG and DOJ on these disputed issues during the past several years. A subpoena dated March 25, 2010 was sent to us from the DOJ seeking information about the Company's position concerning our compliance under the contract, and we provided responsive information to the DOJ in May 2010. Discussions between the DOJ and Fastenal relating to our compliance with the pricing and product requirement provisions under the contract are ongoing. As of June 30, 2010, the DOJ had offered to resolve this matter for a payment by us of \$9.5 million and we had offered \$750,000, which amount we had accrued. During the third quarter of 2010 we continued our discussions with the DOJ. The DOJ has currently offered to resolve this matter for \$8.5 million and we have offered \$2,750,000, which amount we have accrued as of September 30, 2010. Fastenal Company signed a settlement agreement on January 13, 2011. This agreement settles the dispute disclosed in our quarterly report on Form 10-Q for the quarter ended September 30, 2010. Under the terms of the agreement, we will make an immediate one-time payment of \$6.25 million. As indicated above, we continue to believe that we complied with our obligation under the GSA contract in all material respects. However, we felt a continuation of our dispute with the DOJ and GSA was not the best use of our resources.

In early February 2010, we received a letter from a California fastener supplier dated January 26, 2010. This letter threatened to sue us for our alleged violation of an exclusive distribution arrangement this supplier believes exists between our organizations. In addition, this supplier provided a press release and a video regarding the claim that they threatened to make public unless we agreed to mediation of the claim. Shortly after receipt of this letter, we performed a preliminary internal review to understand (1) who this supplier was and (2) the nature of our relationship with this supplier. Based on that review, we determined that this supplier manufactures a niche type of fastener and that the total volume of purchases by us, from all suppliers, over the purported term of the alleged

exclusivity arrangement of this niche type of fastener does not exceed \$1 million. Following completion of our preliminary internal review, we requested additional information and documentation from the supplier. The supplier's response failed to provide the requested information and documentation. By letter dated February 26, 2010, we quantified for the supplier our total volume of purchases as discussed above and informed the supplier that we believed their claim was grossly exaggerated and completely unsupported. We have not received any direct response to our February 26 letter. On May 3, 2010, this supplier filed suit in Arkansas alleging damages. In response, we filed a motion to dismiss. This motion to dismiss was denied on August 16, 2010. We subsequently filed two motions for summary judgment. The first summary judgment motion was partially denied.

On August 24, 2011, the court issued an order granting Fastenal's second motion for summary judgment in its entirety. On December 16, 2011, the court issued an order granting, in part, Fastenal's request to recover on its Bill of Costs and Petition for Attorney's Fees from B&B Hardware, which order B&B Hardware appealed on January 9, 2012. On August 21, 2012, the appeals court issued a ruling affirming the August 24, 2011 and December 16, 2011 orders. The appeals court filed a Mandate order on September 13, 2012 to effectively conclude these proceedings. While we are not required to disclose this matter under the rules of the Securities and Exchange Commission, we initially disclosed the existence of this threat in February 2010 (in our 2009 annual report on Form 10-K) as we believed that disclosure was prudent due to the alleged amount (\$180 million) of the claim and the threat to make these allegations public.

In addition to the forgoing legal actions, Fastenal Company from time to time may be involved in various legal actions or proceeding that may involve products, employees, property, debtor or creditor issues, bankruptcy, contracts and related operational issues of the Company and certain investigative inquiries or audits by local, state or federal authorities; however, these actions or activities are not viewed as having a material impact on the Company's operations or its financial condition.

## General Statement

The purpose of this policy is to explain and establish standards which will help assure good management and fair treatment for all employees. The Company has established some guidelines that must be followed in order for our organization to remain profitable and to promote safety, respect, responsibility, ethical behavior, and teamwork within our facilities. All employees of the Company need to understand and comply with the following guidelines.

## Acceptable Conduct

Fastenal requires a high degree of personal integrity and responsibility from its employees. Acceptable conduct involves not only sincere respect for the rights and feelings of others but also the assurance that personal conduct avoids any action that might be harmful to the employee, other employees, the Company, or cause any unfavorable reaction from current or potential customers. Disruptive, fraudulent, or destructive behavior is unacceptable and is grounds for disciplinary action up to and including termination.

## Professional Appearance

As an employee, it is your responsibility to dress in a professional manner when at work and when representing the Company away from work. Employees should be dressed appropriately and accordingly based on the responsibilities of the employee and the work performed. No shirts or hats promoting lewd or illegal behavior (drug related or vulgar messages, etc.) are allowed. Our appearance is a reflection of the service we provide our customers.

## Attendance

1. Employees are expected to report to work 100% of the time, on time, for their scheduled shift unless they have informed the appropriate personnel. If employees are unable to make their scheduled shift, they must contact their department manager or appropriate person at least one hour prior to their scheduled shift to report their tardiness or absenteeism.
2. Employees are expected to be in their department and ready for work by their scheduled time. Request for vacation/time off should be done in writing with reasonable advance notice. Attendance is crucial in our work environment, and failure to report to work without a prior request for time off will lead to termination.
3. If employees do not report to work after two hours of their scheduled start time, and do not call in to report their tardiness or absenteeism, this will be considered a no call/no show. Two no call/no shows (consecutive or non-consecutive) during their tenure will be considered a voluntary resignation and a replacement for or elimination of their position will occur.

## Job Safety

1. Personal safety, health, and prevention of work related injuries are of great importance to the Company. Management will provide to employees the proper and recommended instructions to use all tools (via video, online training, literature, classes, or on the job training). Additionally, all employees will be required to complete specific safety training. Employees will be informed of proper ways to lift and lower heavy objects. Any person involved in an injury or accident must report to a member of management immediately. Failure to follow these guidelines may result in termination.
2. No employee shall operate a forklift before completing the required Fastenal forklift (online) training and the driver skills test.
3. Certain behaviors will not be tolerated on Fastenal property. These include, but are not limited to, the following:
  - No passenger riding on forklifts
  - No climbing racks
  - No forms of horseplay (e.g., wrestling)
  - Do not throw products or any other objects
  - Do not ride on belts or conveyor
  - Do not ride pallet jacks
  - Do not jump across belts or rollers. Use the walkovers.

## **Time Sheets**

Falsification of time sheets will result in immediate termination of employment.

## **Breaks**

All employees must take all meal and rest breaks required by law. The regulations for each jurisdiction can be found on FastNet/Human Resources/Payroll. When an employee is on a paid break, he or she will not be allowed to leave the premises or go to his/her vehicle without the supervisor's knowledge or permission. Breaks should be taken in designated areas, and Fastenal property cannot leave the building (e.g., Telxons, tapeguns, RF units, etc.)

## **Discipline**

An employee is issued a verbal or written warning when a standard of conduct is broken or company policies are not followed. Disciplinary actions can result from, but are not limited to, the following:

1. Poor work performance
2. Insubordination
3. Unexcused absence or repeated tardiness
4. Unsafe practices (e.g., throwing things)
5. Misuse of equipment (e.g., riding pallet jacks, raising other employees on the forklift, etc.)

Certain forms of improper conduct or violations of company policies may lead to immediate termination without warning.

The most severe forms of improper conduct, which typically warrant immediate termination without warning, are classified as gross misconduct. Gross misconduct termination can result from, but is not limited to, the following:

1. Theft (e.g., misuse of Company assets, timesheet falsification, fraudulent billing, misrepresentation of sales data, etc.)
2. Inappropriate physical contact or assault
3. Use, possession, sale or purchase of illegal drugs or alcoholic beverages on Company time
4. Severe safety violations
5. Malicious verbal threats or harassment

## **Phone Calls**

## WHAT WE ARE DOING TODAY

### WASTE REDUCTION

- We reuse or recycle most of our incoming packaging materials (cardboard, polystyrene, shredded paper, air bags, etc.), we use composite pallets and totes for shipping, and our corrugated boxes used for repackaging are made from post-consumer recycled content
- Packaging reduction efforts at select distribution centers with our new automated storage and retrieval system (ASRS). Reusable totes are used in place of cardboard boxes with this new system. Further packaging reduction efforts are also underway for incoming, high volume products.
- We reuse pallets, repair when necessary, throughout distribution
- Increased use of e-mail which greatly reduces the amount of paper used, business records are digitized to minimize hard copy document storage, multifunctional devices (for faxing, printing and photocopying) reduce energy and paper usage.
- We purchase paper made from recycled content, and we recycle our office paper
- We encourage staff and visitors to recycle bottles, plastics and aluminum cans by placing recycling bins at strategic points throughout our stores, distribution centers, and offices
- We recycle our old computers as part of our IT replacement strategy
- We recycle our spent fluorescent lamps, ballasts, batteries and printer cartridges
- We have reduced the amount of our landfill waste by finding ways of recycling waste material, either in-house or in conjunction with others who are able to use the material constructively
- We have developed e-learning opportunities for employee training in conjunction with the Fastenal School of Business to reduce miles traveled
- Fastenal supports entities with a ban on single-use shopping bags by offering alternatives such as recycled paper bags and reusable bags
- Reduced paper usage with electronic accounting practices

### ENERGY EFFICIENCY

- Our consumption of energy is also closely monitored and we take measures to ensure that it is not wasted
- Our distribution centers have been retrofitted with energy-efficient lighting systems
- Our headquarters have been retrofitted with LED lighting systems
- We have a HVAC Preventative Maintenance Program in which our HVAC systems are serviced semi-annually to increase the units' performance and overall efficiency which reduces energy consumption

### FLEET SUSTAINABILITY

- Our consumption of fuel is closely monitored and we take measures to ensure that it is not wasted

Standard order lead time for store-stocked items is 24 to 48 hours, but that only tells part of the story. Below are some of the distribution performance metrics that distinguish Fastenal in the industrial supply marketplace:

- If a standard product is not already in stock at your local store, we can usually get it there on our own trucks before the next business day begins. 64% of store deliveries via Fastenal trucks from our distribution centers arrive before 7 a.m. (on scheduled truck days).
- If it's not available at a regional distribution center, our goal is to have it available in one of our master stocking locations, which can provide overnight service to the majority of our customers.

## Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 ([www.nj.gov/dca/lgs/lfnslfnmenu.shtml](http://www.nj.gov/dca/lgs/lfnslfnmenu.shtml)).

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
  - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at [www.nj.gov/dca/lgs/p2p](http://www.nj.gov/dca/lgs/p2p). They will be updated from time-to-time as necessary.
  - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
  - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
  - d. The form may be used “as-is”, subject to edits as described herein.
  - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
  - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract. (See Local Finance Notice 2006-7 for additional information on this obligation) A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. **NOTE: This section is not applicable to Boards of Education.**

## C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

### Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee\*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
  - of the public entity awarding the contract
  - of that county in which that public entity is located
  - of another public entity within that county
  - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county. The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs). When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure. Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report. The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement. The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act. The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law.

**NOTE: This section does not apply to Board of Education contracts.**

\* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

Required Pursuant To N.J.S.A. 19:44A-20.26
