Subject: No 710 Extension

Dear Long Beach City Officials,
We are senior citizens living in Pasadena since 1975. We have watched freeways built through our city ruining our landscape, air and quality of life. Four freeways and a number of state roads have brought our traffic literally to a standstill.

The 210 extension to the 15 makes our freeways and roads 24/7 rush hour. We know what the 710Extension will do. Cars will not pay the tolls. So that leaves cargo trucks from the ports headed inland.

We know for a fact that our younger generations are not buying cars at the rates of their parents and grandparents, turning instead to Public Transportation/
We know that gasoline/diesel is 19th Century, while Hyperloop is 21st Century/

By the time the tunnel is built it will be outmoded, unneeded, and a huge waste of taxpayers scarce dollars.

Please do what is right for Long Beach residents as well as Pasadena residents by voting NOT to extend the 710 Tunnel Freeway (oops, not a FREEway, but a TOLLway) , certainly until the Environmental Reports are available to read and study.

By the way, the air vent from the tunnel will be located next to our only Trauma Center, Huntington Hospital.

Thank you for your time.
Yours Truly,
Mr & Mrs Edward Hannan
Pasadena

&
Mr & Mrs Sergio Magos
