

ORDINANCE NO.

AN ORDINANCE OF THE CITY COUNCIL OF THE
 CITY OF LONG BEACH AMENDING THE LONG BEACH
 MUNICIPAL CODE BY AMENDING TABLE 31-1 OF
 CHAPTER 21.31, TABLES 32-1 AND 32-1A OF CHAPTER
 21.32, TABLE 33-2 OF CHAPTER 21.33, TABLE 34-1 OF
 CHAPTER 21.34, TABLE 35-1 OF CHAPTER 21.35, AND
 TABLE 36-1 OF CHAPTER 21.36; BY ADDING CHAPTER
 21.56; AND BY REPEALING SECTIONS 21.45.115 AND
 21.52.210; ALL RELATING TO WIRELESS
 TELECOMMUNICATIONS FACILITIES

The City Council of the City of Long Beach ordains as follows:

Section 1. Chapter 21.31 of the Long Beach Municipal Code is amended
 by amending the "Other Uses" section of Table 31-1 as shown on Exhibit "A" which is
 incorporated herein by this reference.

Section 2. Chapter 21.32 of the Long Beach Municipal Code is amended
 by amending the "Transportation and Communication Facilities" section of Table 32-1 as
 shown on Exhibit "B" which is incorporated herein by this reference.

Section 3. Chapter 21.32 of the Long Beach Municipal Code is amended
 by amending the "Miscellaneous Uses" section of Table 32-1A as shown on Exhibit "C"
 which is incorporated herein by this reference.

Section 4. Chapter 21.33 of the Long Beach Municipal Code is amended
 by amending number "11. Communications" section of Table 33-2 as shown on Exhibit
 "D" which is incorporated herein by this reference.

Section 5. Chapter 21.34 of the Long Beach Municipal Code is amended

OFFICE OF THE CITY ATTORNEY
 ROBERT E. SHANNON, City Attorney
 333 West Ocean Boulevard, 11th Floor
 Long Beach, CA 90802-4664

1 by amending Table 34-1 as shown on Exhibit "E" which is incorporated herein by this
2 reference.

3 Section 6. Chapter 21.35 of the Long Beach Municipal Code is amended
4 by amending Table 35-1 as shown on Exhibit "F" which is incorporated herein by this
5 reference.

6 Section 6. Chapter 21.36 of the Long Beach Municipal Code is amended
7 by amending Table 36-1 as shown on Exhibit "G" which is incorporated herein by this
8 reference.

9 Section 7. The Long Beach Municipal Code is amended by adding
10 Chapter 21.56 to read as follows:

11 Chapter 21.56

12 Wireless Telecommunications Facilities

13
14 21.56.010 Purpose and objectives.

15 The purpose of this Chapter is to regulate the establishment and
16 operation of wireless telecommunications facilities within the City of Long
17 Beach, consistent with the General Plan, and with the intent to:

18 A. Allow for the provision of wireless communications services
19 adequate to serve the public's interest within the City;

20 B. Require, to the maximum extent feasible, the co-location of
21 wireless telecommunications facilities;

22 C. Minimize the negative aesthetic impact of wireless
23 telecommunications facilities, establish a fair and efficient process for review
24 and approval of applications, assure an integrated, comprehensive review of
25 environmental impacts of such facilities, and protect the health, safety and
26 welfare of the City of Long Beach;

27 D. Strongly encourage the location of wireless
28 telecommunications facilities in those areas of the City where the adverse

1 aesthetic impact on the community is minimal;

2 E. Strongly encourage wireless telecommunications providers to
3 configure all facilities in such a way that minimizes displeasing aesthetics
4 through careful design, siting, landscaping, screening, and innovative
5 camouflaging techniques;

6 F. Enhancing the ability of the providers of telecommunications
7 services to provide such services to the City quickly, effectively, and
8 efficiently; and

9 G. Conform to all applicable federal and state laws.

10
11 21.56.020 Definitions.

12 In addition to all those terms defined in Chapter 21.15 of the Zoning
13 Regulations, the following terms shall have the meanings set forth below, for
14 the purposes of this Chapter:

15 A. "Abandoned." Notwithstanding the definition of "abandoned" in
16 Section 21.15.030, a wireless telecommunications facility use shall be
17 considered abandoned if it is not in use for six (6) consecutive months.

18 B. "Co-location" means the placement or installation of wireless
19 telecommunications facilities, including antennas and related equipment onto
20 an existing wireless telecommunications facility in the case of monopoles, or
21 onto the same building in the case of roof/building-mounted sites or
22 placement in the public right-of-way.

23 C. "Co-location facility" means a wireless telecommunications
24 facility that has been co-located consistent with the meaning of "co-location"
25 as defined above. It does not include the initial installation of a new wireless
26 telecommunications facility where previously there was none, nor the
27 construction of an additional monopole on a site with an existing monopole.

28 D. "Monopole" means any single freestanding pole structure used

26
27
28

to support wireless telecommunications antennas or equipment at a height above the ground. This includes those poles camouflaged to resemble natural objects.

E. "Residential/Institutional Planned Development (PD) District" means the following Planned Development Districts within the City of Long Beach: PD-5 (Ocean Boulevard), PD-10 (Willmore City), PD-11 (Rancho Estates), PD-17 (Alamitos Land), PD-20 (All Souls), and PD-25 (Atlantic Avenue), as well as any future PDs designated as such in the PD ordinance.

F. "Roof/building-mounted site" means any wireless telecommunications facility, and any appurtenant equipment, located on a rooftop or building, having no support structure such as a monopole or other type of tower.

G. "Utility Pole" means any pole or tower owned by any utility company that is located in the public right-of-way necessary for the distribution of electrical or other utility services regulated by the California Public Utilities Commission. This does not include towers for high-voltage electrical power transmission between generating plants and electrical substations.

H. "Wireless Telecommunications Facility" means equipment installed for the purpose of providing wireless transmission of voice, data, images, or other information including but not limited to, cellular telephone service, personal communications services, and paging services, consisting of equipment, antennas, and network components such as towers, utility poles, transmitters, base stations, and emergency power systems. "Wireless telecommunications facility" does not include radio or television broadcast facilities, nor radio communications systems for government or emergency services agencies.

21.56.030 Permit requirements for new wireless telecommunications facilities that are not co-location facilities.

All new wireless telecommunications facilities that are not co-location facilities shall meet the following standards and requirements:

A. A Conditional Use Permit shall be required for the initial construction and installation of all new wireless telecommunications facilities in accordance with all Specific Procedures set forth in Chapter 21.21 and Chapter 21.25, Division II, of the Zoning Regulations, except as modified by this Chapter.

B. Roof/building-mounted Facilities. All new wireless telecommunications facilities that are not co-location facilities that are roof/building-mounted facilities shall also be subject to Site Plan Review in addition to the Conditional Use Permit requirement in Subsection 21.56.030.A.

21.56.040 Development and design standards for new wireless telecommunications facilities that are not co-location facilities.

All new wireless telecommunications facilities shall meet the following minimum standards:

A. Location. New wireless telecommunications facilities shall not be located in Residential (R) or Institutional (I) zoning districts, or Residential/Institutional Planned Development (PD) Districts (as defined in Subsection 21.56.020.H), unless the applicant demonstrates, by a preponderance of evidence, that a review has been conducted of other options with less environmental impact, and no other sites or combination of sites allows feasible service or adequate capacity and coverage. This review shall include, but is not limited to, identification of alternative site(s) within a

1 one (1) mile radius of the proposed facility. See Section 21.56.050 for
2 additional application requirements;

3 B. Co-location required where possible. New wireless
4 telecommunications facilities shall not be located in areas where co-location
5 on existing facilities would provide equivalent coverage, network capacity,
6 and service quality with less environmental or aesthetic impact;

7 C. Accommodation of co-location. Except where aesthetically
8 inappropriate in the determination of the Staff Site Plan Review Committee,
9 new wireless telecommunications facilities shall be constructed so as to
10 accommodate co-location, and must be made available for co-location
11 unless technologically infeasible. In cases where technological infeasibility
12 is claimed, it shall be the responsibility of the party making such claim to
13 demonstrate, by a preponderance of evidence, that such co-location is, in
14 fact, infeasible;

15 D. Additional Development and Design Standards. Wireless
16 telecommunications facilities also shall be subject to the additional design
17 standards specified in Section 21.56.100.

18
19 21.56.050 Application requirements for new wireless telecommunications
20 facilities that are not co-location facilities.

21 In addition to the requirements set forth in Section 21.21.201 of the
22 Zoning Regulations and Chapter 21.25 (Specific Procedures) of the Zoning
23 Regulations, applicants for new wireless telecommunications facilities shall
24 submit the following materials regarding the proposed wireless
25 telecommunications facility:

26 A. Photo simulations. Photo simulations of the facility from
27 reasonable line-of-sight locations from public roads or viewpoints;

28 B. Maintenance plan. A maintenance plan detailing the type and

1 frequency of required maintenance activities, including maintenance of
2 landscaping and camouflaging, if applicable;

3 C. Five year build-out plan. A description of the planned
4 maximum five (5)-year build-out of the site for the applicant's wireless
5 telecommunications facilities, including, to the extent possible, the full extent
6 of wireless telecommunications facility expansion associated with future co-
7 location facilities by other wireless service providers. The applicant shall use
8 best efforts to contact all other wireless service providers known to be
9 operating in the City upon the date of application, to determine the demand
10 for future co-locations at the proposed site, and, to the extent feasible, shall
11 provide written evidence that these consultations have taken place, and a
12 summary of the results, at the time of application. The City shall, within thirty
13 (30) days of its receipt of an application, identify any known wireless service
14 providers that the applicant has failed to contact and with whom the
15 applicant must undertake their best efforts to fulfill the above consultation
16 and documentation requirements. The location, footprint, maximum tower
17 height, and general arrangement of future co-locations shall be identified by
18 the five (5)-year build-out plan. If future co-locations are not technically
19 feasible, a written explanation shall be provided;

20 D. Nearby facilities. Identification of existing wireless
21 telecommunications facilities within a one (1) mile radius of the proposed
22 location of the new wireless telecommunications facility, and an explanation
23 of why co-location on these existing facilities, if any, is not feasible. This
24 explanation shall include such technical information and other justifications
25 as are necessary to document the reasons why co-location is not a viable
26 option. The applicant shall provide a list of all existing structures considered
27 as alternatives to the proposed location. The applicant shall also provide a
28 written explanation for why the alternatives considered were either

1 unacceptable or infeasible. If an existing wireless telecommunications facility
2 was listed among the alternatives, the applicant must specifically address
3 why the modification of such wireless telecommunications facility is not a
4 viable option. The written explanation shall also state the radio frequency
5 coverage and capacity needs and objectives of the applicant, and shall
6 include maps of existing coverage and predicted new coverage with the
7 proposed facility;

8 E. Availability for co-location. A statement that the proposed
9 wireless telecommunications facility is available for co-location, or an
10 explanation of why future co-location is not technically feasible;

11 F. RF report. A radio frequency (RF) report describing the
12 emissions of the proposed wireless telecommunications facility. The report
13 shall demonstrate that the emissions from the proposed equipment as well
14 as the cumulative emissions from the facility will not exceed the limits
15 established by the Federal Communications Commission (FCC);

16 G. Alternative analysis. Applications for the establishment of new
17 wireless telecommunications facilities inside Residential (R) or Institutional
18 (I) zoning districts, Residential/Institutional Planned Development (PD)
19 Districts (as defined in Subsection 21.56.020.H), and residential or
20 institutional General Plan Land Use Districts (LUDs) shall be accompanied
21 by a detailed alternatives analysis that demonstrates that there are no
22 feasible alternative non-residential, non-institutional sites or combination of
23 non-residential, non-institutional sites available to eliminate or substantially
24 reduce significant gaps in the applicant service provider's coverage or
25 network capacity;

26 H. Height justification. An engineering certification providing
27 technical data sufficient to justify the proposed height of any new monopole
28 or roof/building mounted site;

1 I. Deposit. A cash or other sufficient deposit for a third party peer
2 review as required by this Chapter.

3
4 21.56.060 Entitlement, term, renewal, and expiration.

5 A. Conditional Use Permits and other entitlements for wireless
6 telecommunications facilities, including approval of the five (5)-year build-out
7 plan as specified in Subsection 21.56.050.C, shall be valid for ten (10) years
8 following the date of final action. A ten (10)-year term is prescribed for
9 Conditional Use Permits for this class of land uses due to the unique nature
10 of development, exceptional potential for visual and aesthetic impacts, and
11 the rapidly changing technologic aspects that differentiate wireless
12 telecommunications from other Conditional land uses allowed by the City.
13 The applicant or operator shall file for a renewal for the entitlement and pay
14 the applicable renewal application fees six (6) months prior to expiration of
15 the permit with the Department of Development Services, if continuation of
16 the use is desired. In addition to providing the standard information and
17 application fees required for renewal, wireless telecommunications facility
18 renewal applications shall provide an updated build-out description prepared
19 in accordance with the procedures established by Subsection 21.56.050.C.

20 B. Where required, renewals for entitlements for existing wireless
21 telecommunications facilities and co-location facilities constructed prior to
22 the effective date of this Chapter are subject to the provisions of Sections
23 21.56.030 through 21.56.050. Renewals of entitlements approved after the
24 effective date of this Chapter shall only be approved if all conditions of the
25 original entitlement have been satisfied, and the five (5)-year build-out plan
26 has been provided.

27 C. If the entitlement for an existing wireless telecommunications
28 facility has expired, applications for modification, expansion, or co-location at

1 that site, as well as after-the-fact renewals of entitlements for the existing
2 wireless telecommunications facilities, shall be subject to the standards and
3 procedures for new wireless telecommunications facilities set forth in
4 Sections 21.56.030 through 21.56.050.

5
6 21.56.070 Permit requirements for co-location facilities.

7 A. Co-location Facilities Requiring a Conditional Use Permit.

8 Applications for co-location will be subject to the standards and procedures
9 set forth for new wireless telecommunications facilities, above (Sections
10 21.56.030 through 21.56.060), if any of the following apply:

11 1. No Conditional Use Permit was issued for the original
12 wireless telecommunications facility;

13 2. The Conditional Use Permit for the original wireless
14 telecommunications facility did not allow for future co-location facilities or the
15 extent of site improvements involved with the co-location project (in this
16 case, an application for a modification to the approved Conditional Use
17 Permit, subject to Planning Commission review, may be substituted for a
18 new Conditional Use Permit); or

19 3. No environmental review was completed for the location
20 of the original wireless telecommunications facility that addressed the
21 environmental impacts of future co-location facilities (in this case, an
22 application for a modification to the approved Conditional Use Permit,
23 subject to Planning Commission review, may be substituted for a new
24 Conditional Use Permit).

25 B. Permit Requirements for Other Co-location Facilities.

26 1. Roof/building-mounted facilities with visible exterior
27 changes. Roof/building-mounted co-location facilities proposing visible
28 exterior changes to the site shall be subject to Site Plan Review.

1 2. All Others. Applications for all other co-location facilities
2 shall be subject to a building permit approval. Prior to filing an application
3 for a building permit for co-location, the applicant shall demonstrate
4 compliance with the conditions of approval, if any, of the original Conditional
5 Use Permit, and with all applicable provisions of this Chapter, by submitting
6 an application to the Department of Development Services for an
7 administrative review as set forth in Section 21.56.090. The applicant shall
8 not file an application for a building permit until the applicant receives written
9 notification that this administrative review is complete and approved. The
10 applicant shall pay a fee for this administrative review in the amount adopted
11 by the City Council in a resolution.

12
13 21.56.080 Development and design standards for co-location facilities.

14 A. Compliance with discretionary approvals. The co-location
15 facility shall comply with all approvals and conditions of the underlying
16 (existing) discretionary permit for the wireless telecommunications facility.

17 B. Harmonious Design. To the extent feasible, the design of co-
18 location facilities shall also be in visual harmony with the other wireless
19 telecommunications facility(ies) on the site.

20 C. Additional Design Standards. Co-location facilities also shall be
21 subject to the additional design standards specified in Section 21.56.100.

22
23 21.56.090 Application requirements for co-location facilities.

24 Applications that qualify for administrative review of co-location
25 facilities in accordance with Section 21.56.070 shall be required to submit
26 the following:

27 A. Photo simulations of the facility from reasonable line-of-sight
28 locations from public roads or viewpoints;

1 B. A maintenance and access plan that identifies any changes to
2 the original maintenance and access plan associated with the existing
3 wireless telecommunications facility and Conditional Use Permit;

4 C. A Radio Frequency (RF) report demonstrating that the
5 emissions from the co-location equipment as well as the cumulative
6 emissions from the co-location equipment and the existing facility will not
7 exceed the limits established by the Federal Communications Commission
8 (FCC);

9 D. Prior to the issuance of a building permit, the applicant shall
10 submit color samples, and materials samples if requested, for the co-location
11 equipment and any screening devices. Paint colors and materials shall be
12 subject to the review and approval of the Department of Development
13 Services. Color verification shall occur in the field after the applicant has
14 painted the equipment the approved color, but before the applicant
15 schedules a final inspection.

16
17 21.56.100 Development and design standards for all wireless
18 telecommunications facilities and co-location facilities.

19 The following standards shall apply to all wireless telecommunications
20 facilities and co-location facilities:

21 A. The adverse visual impact of wireless telecommunications
22 facilities shall be avoided, minimized, and mitigated by:

23 1. Siting new wireless telecommunications facilities outside
24 of public viewshed whenever feasible;

25 2. Maximizing the use of existing vegetation and natural
26 features to cloak wireless telecommunications facilities;

27 3. Constructing towers or monopoles no taller than
28 necessary to provide adequate coverage, network capacity, and service

1 quality;

2 4. Grouping buildings, shelters, cabinets, ground lease
3 areas, and other equipment together, to avoid spread of these structures
4 across a parcel or lot;

5 5. Screening wireless telecommunications facilities and co-
6 location facilities with landscaping consisting of drought-tolerant plant
7 material. All ground lease areas shall be landscaped with climbing vines on
8 the exterior of the enclosure wall, planted not more than four (4) feet on
9 center. Adequate irrigation systems shall be provided for landscaping. The
10 landscape screening requirement may be modified or waived by the Director
11 of Development Services in instances where landscaping would not be
12 appropriate; and

13 6. Painting all equipment to blend with the surrounding
14 environment as specified in Subsection 21.56.100.C (Paint Colors).

15 B. Pole design. Use of monopoles that attempt to replicate trees
16 or other natural objects are strongly discouraged and shall be used only as a
17 last resort when all other options have been exhausted, since:

18 1. Artificial trees cannot presently be made to resemble
19 natural trees in a sufficiently believable and realistic fashion; and

20 2. Such attempts to replicate nature are disingenuous by
21 their obvious falsity and therefore increase, rather than reduce, visual blight.

22 C. Paint colors. Paint colors for a wireless telecommunications
23 facility and co-location facility shall minimize the facility's visual impact by
24 blending with the surrounding environment, terrain, landscape, or buildings
25 (not sky colors, as the sky is a luminous source of light at all times and no
26 non-luminous object can physically be made to blend with the sky). Paint
27 colors shall be subject to the review and approval of the Department of
28 Development Services. Color verification shall occur in the field after the

1 applicant has painted the equipment in the approved color(s), but before the
2 applicant schedules a final inspection.

3 D. Roof/building-mounted Facilities. For roof/building-mounted
4 wireless telecommunications facilities and co-location facilities, the following
5 standards also shall apply:

6 1. Antenna location.

7 a. Antennas mounted on the façade of a building
8 are prohibited;

9 b. Antennas shall be located on the building rooftop,
10 above the ceiling plate of the highest occupied floor;

11 c. Antennas shall be located as far away as
12 possible from the edge of the building or roof, with the goal of reducing or
13 eliminating visibility of the installation from any and all vantage points.

14 2. Equipment location.

15 a. All equipment appurtenant to a roof/building-
16 mounted wireless telecommunications site shall be located inside an existing
17 building whenever possible, to the satisfaction of the Director of
18 Development Services;

19 b. If it is physically impossible for equipment to be
20 located inside an existing building and the equipment is to be located on a
21 building rooftop, the equipment shall be subject to the same screening and
22 location requirements as the antennas. If no space for the equipment is
23 available for lease in a building because all possible spaces are leased and
24 occupied, this shall constitute a physical impossibility.

25 3. Screening required.

26 a. Where physically possible, antennas and
27 equipment shall be located entirely within an existing architectural feature or
28 screening device. This shall include areas used or occupied by other

- 1 wireless service providers where feasible.
- 2 b. All antennas and equipment mounted on a
- 3 building rooftop shall be screened in a manner that is architecturally
- 4 compatible with the existing building and is otherwise made as unobtrusive
- 5 as possible. Screening shall use matching colors, materials, and
- 6 architectural styles to create a harmonious addition to the building's
- 7 architecture without disrupting its form, volume, massing, or balance.
- 8 c. All antennas, including panel antennas,
- 9 microwave antennas, GPS antennas, any other antennas, and all other
- 10 equipment mounted on the building, shall be concealed behind the screening
- 11 device on all sides such that the antennas and appurtenant equipment is not
- 12 visible from the exterior of the subject property, from other property, or the
- 13 public right-of-way.
- 14 d. All cable trays and cable runs shall be located
- 15 within existing building walls whenever physically possible. Cable trays and
- 16 runs on the façade of a building are strongly discouraged. Any façade-
- 17 mounted cable trays and runs shall be painted and textured to match the
- 18 building and shall be mounted as close to the façade surface as possible,
- 19 with no discernible gap between. Cable trays and runs mounted on a roof
- 20 deck and below the height of the parapet wall or screening device shall be
- 21 exempt from this requirement, provided they are fully screened by the
- 22 parapet wall or screening device. Exposed cable trays and runs on a sloped
- 23 roof are prohibited.
- 24 e. At the discretion of the Staff Site Plan Review
- 25 Committee, part or all of a proposed roof/building-mounted wireless
- 26 telecommunications facility or co-location facility may be exempted from
- 27 screening requirements if the best feasible screening design would result in
- 28 greater negative visual impacts than if part or all of the proposed installation

were unscreened.

4. Restriction on Historic Landmark structures. Installation of a roof/building-mounted wireless telecommunications facility or co-location facility at a City-designated Historic Landmark shall make no changes to the external appearance of the building unless approved by the Cultural Heritage Commission.

E. Non-reflective materials. The exteriors of wireless telecommunications facilities and co-location facilities shall be constructed of non-reflective materials.

F. Underlying setbacks. Wireless telecommunications facilities and co-location facilities shall comply with all the setback requirements of the underlying zoning district(s), except as modified by this Chapter.

G. Height. Facilities subject to the provisions of this Chapter may be built and used to a greater height than the limit established for the zoning district in which the structure is located, except as otherwise provided below:

1. No monopole or other freestanding structure shall ever exceed a maximum height of one hundred twenty feet (120') in any zoning district. In any Residential (R) or Institutional (I) zoning district, or Residential/Institutional Planned Development (PD) district (as defined in Subsection 21.56.020.H), no monopole or other freestanding structure shall exceed a maximum height of fifty-five feet (55');

2. A roof/building-mounted wireless telecommunications facility shall not exceed the maximum height allowed in the applicable zoning district, or ten (10) feet above the building roof deck, whichever is higher, except that in any R-1, R-2, or R-3 district, no roof/building-mounted site shall exceed the maximum height for structures allowed in that district;

3. Notwithstanding the height limits set forth in the preceding sections, for facilities to be mounted on towers used for high-

1 voltage electrical power transmission between generating plants and
2 electrical substations (not utility poles), the antennas may be mounted as
3 high as necessary on the tower, provided that the top of the highest antenna
4 is not higher than the top of the existing tower.

5 H. Accessory buildings. In any zoning district, accessory
6 buildings in support of the operation of the wireless telecommunications
7 facility or co-location facility may be constructed, provided that they comply
8 with the development standards set forth for accessory structures for the
9 zoning district in which the site is located.

10 I. Footprint. The overall footprint of each wireless
11 telecommunications facility shall be as small as possible, to the satisfaction
12 of the Staff Site Plan Review Committee.

13 J. Generators and emergency power. Diesel generators are
14 allowed as an emergency power source, although they are discouraged.
15 When a feasible alternative technology for permanent on-site backup power
16 becomes available (for example, fuel cells) the Department of Development
17 Services may require the use of such technology in lieu of a diesel
18 generator, unless the applicant provides written documentation explaining
19 why such an alternative is not feasible. All generator installations shall
20 comply with all containment requirements of the applicable Fire and Building
21 codes, without exception.

22 K. Ground lease area enclosures and landscaping. If equipment
23 appurtenant to a facility is to be located in a ground lease area, the lease
24 area shall be enclosed by a CMU block wall, or other appropriate fence, to
25 the satisfaction of the Staff Site Plan Review Committee. The fence shall be
26 of a minimum height of six feet six inches (6'-6") in residential districts, and
27 eight feet (8') in other districts, unless waived at the discretion of the Director
28 of Development Services in cases of infeasibility. The exterior of all ground

1 lease areas shall be landscaped with drought-tolerant plant material, and
2 adequate irrigation systems shall be provided for landscaping. Climbing
3 vines shall be provided on the exterior of the enclosure wall, planted not
4 more than four (4) feet on center. This landscaping requirement may be
5 modified or waived by the Director of Development Services in instances
6 where landscaping would not be appropriate.

7
8 21.56.110 Performance standards for all wireless telecommunications
9 facilities and co-location facilities.

10 No use may be conducted in a manner that, in the determination of
11 the Director of Development Services, does not meet the performance
12 standards below:

13 A. Lighting. Wireless telecommunications facilities and co-
14 location facilities shall not be lighted or marked unless required by the
15 Federal Communications Commission (FCC), the Federal Aviation
16 Administration (FAA), or the California Public Utilities Commission (CPUC).

17 B. Licensing. The applicant or operator shall file, receive, and
18 maintain all necessary licenses and registrations from the Federal
19 Communications Commission (FCC), the California Public Utilities
20 Commission (CPUC) and any other applicable regulatory bodies prior to
21 initiating the operation of the wireless telecommunications facility. The
22 applicant shall supply the Department of Development Services with
23 evidence of these licenses and registrations prior to approval of a final
24 inspection. If any required license is ever revoked, the operator shall inform
25 the Department of Development Services of the revocation within ten (10)
26 days of receiving notice of such revocation.

27 C. Building permit required. Once a Conditional Use Permit or
28 other applicable entitlement is obtained, the applicant shall obtain a building

1 permit and shall build in accordance with the approved plans.

2 D. Power connection. The project's final electrical inspection and
3 approval of connection to electrical power shall be dependent upon the
4 applicant obtaining a permanent and operable power connection.

5 E. Removal after end of use. The wireless telecommunications
6 facility, and/or co-location facility, if present, and all equipment associated
7 therewith shall be removed in its entirety by the operator, at the operator's
8 sole expense, within ninety (90) days of a FCC or CPUC license or
9 registration revocation or if the facility is abandoned (per Subsection
10 21.56.020.A) or no longer needed. The site shall be restored to its pre-
11 installation condition and, where necessary, re-vegetate to blend in with the
12 surrounding area. In the case of roof/building-mounted facilities, all
13 antennas, equipment, screening devices, support structures, cable runs, and
14 other appurtenant equipment shall be removed and the building shall be
15 restored to its to its pre-installation condition. Restoration and re-vegetation
16 shall be completed within two (2) months of removal of the facility; hence a
17 maximum of five (5) months from abandonment of the facility to completion
18 of restoration. Facilities not removed within these time limits shall be
19 removed immediately. The City shall not be responsible to provide notice
20 that removal is required under the provisions of this Chapter.

21 F. Maintenance. Wireless telecommunications facilities and co-
22 location facilities shall be maintained by the permittee(s) and subsequent
23 owners in a manner that implements all of the applicable requirements of this
24 Chapter and all other applicable zoning and development standards set forth
25 in Title 21, and all permit conditions of approval. Site and landscaping
26 maintenance shall be the responsibility of the property owner, who may
27 designate an agent, including the operator, to carry out this maintenance.

28 G. Noise. All construction and operation activities shall comply

1 with Chapter 8.80 (Noise Ordinance) of the Long Beach Municipal Code and
2 any applicable conditions of approval.

3 H. Use of backup power sources. The use of diesel generators or
4 any other emergency backup power sources shall comply with Chapter 8.80
5 of the Long Beach Municipal Code (Noise Ordinance). The use of backup
6 power sources shall be limited to actual power-outage emergencies and any
7 operation necessary for testing and maintenance. Permanent or continuous
8 use of backup power sources is prohibited.

9 I. RF report. Within forty-five (45) days of commencement of
10 operations, the applicant for the wireless communications facility shall
11 provide (at the applicant's expense) the Development Services Department
12 with a report, prepared by a qualified expert, indicating that the actual radio
13 frequency emissions of the operating facility, measured at the property line
14 or nearest point of public access and in the direction of maximum radiation
15 from each antenna, is in compliance with the standards established by the
16 Federal Communications Commission. This report shall include emissions
17 from all co-location facilities, if any, at the site as well. The applicant shall
18 subsequently provide such report to the City within forty-five (45) days
19 following any change in design, number of antennas, operation, or other
20 significant change in circumstances, or when such a report is otherwise
21 required by the FCC, to the satisfaction of the Director of Development
22 Services.

23
24 21.56.120 Additional requirements and standards for wireless
25 telecommunications facilities and co-location facilities in the
26 Coastal Zone.

27 A. Location. New wireless telecommunications facilities shall not
28 be located between the first public highway and the sea or bay, unless no

1 feasible alternative exists, and the facility is not visible from a public location,
2 or will be attached to an existing structure in a manner that does not
3 significantly alter (in the determination of the Staff Site Plan Review
4 Committee) the exterior appearance of the existing structure.

5 B. Local coastal program requirements. New wireless
6 telecommunications facilities shall comply with all applicable policies,
7 standards, and regulations of the Local Coastal Program (LCP).

8 C. Coastal permit required. The necessary Coastal Development
9 Permit or Local Coastal Development Permit shall be obtained.

10
11 21.56.130 Requirements and standards for wireless telecommunications
12 facilities and co-location facilities in the public right-of-way.

13 A. Purpose. The purpose of this Section is to:

14 1. Provide a uniform and comprehensive set of standards
15 for the development, siting, installation, and operation of Wireless
16 Telecommunications Facilities in the limited physical resources and capacity
17 of the available Public Right-of-Way of the City of Long Beach in such a
18 manner to not unreasonably discriminate, and to be competitively neutral,
19 and non-exclusive as to the extent required under applicable law;

20 2. Encourage open competition and the provision of
21 advanced and high quality telecommunications services on the widest
22 possible basis to the businesses, institutions, and residents of the City;

23 3. Encourage economic development while preserving
24 aesthetic and other community values and preventing proliferation of above
25 ground wireless telecommunication equipment;

26 4. To promote the public health, safety, convenience, and
27 general welfare of the City's residents, and to protect historical resources,
28 property values and the aesthetic appearance of the City of Long Beach.

1 B. Department of Development Services Review. The Director of
2 Public Works shall refer all applications for wireless telecommunications
3 facilities and co-location facilities in the public right-of-way to the Department
4 of Development Services for review.

5 C. Definitions.

6 Public Right-of-way. "Public right-of-way" or "PROW" means any
7 public highway, street, alley, sidewalk, parkway, and all extensions or
8 additions thereto which is either owned, operated, or controlled by the City,
9 or is subject to an easement or dedication to the City, or is a privately owned
10 area within City's jurisdiction which is not yet dedicated, but is designated as
11 a proposed public right-of-way on a tentative subdivision map approved by
12 the City.

13 D. Permit requirements for wireless telecommunications facilities
14 in the public right-of-way.

15 1. Prior to the issuance of construction permits for any
16 new, co-located, modified or expanded wireless telecommunication facility
17 within the public right-of-way, an administrative review and approval from the
18 Planning Bureau shall be required to ensure compliance with this Chapter.
19 All such applications shall be reviewed and approved by the Directors of
20 Development Services and Public Works or their respective designees. The
21 Director of Development Services shall issue a Notice of Final Action with
22 the results of this administrative review. The Applicant shall pay a fee for
23 this administrative review in the amount adopted by the City Council in a
24 resolution.

25 2. If the facility is to be installed on an existing utility pole,
26 street light or traffic signal the Applicant shall provide proof that the pole is
27 either a) owned and controlled by the Joint Pole Commission ("JPC") and
28 that the Applicant is a member of the JPC with attachment rights or b) that

1 the owner of the pole has authorized the installation.

2 3. The applicant shall submit a copy of the certificate of
3 public convenience and necessity (CPCN) issued by the California Public
4 Utilities Commission (CPUC) to the applicant, and a copy of the CPUC
5 decision that authorizes the applicant to provide the telecommunications
6 service for which the facilities are proposed to be constructed in the City's
7 public right-of-way. Any applicant that, prior to 1996, provided
8 telecommunications service under administratively equivalent documentation
9 issued by the CPUC may submit copies of that documentation in lieu of a
10 CPCN.

11 4. The applicant shall submit a copy of the certified
12 environmental document from the CPUC covering the applicant's proposed
13 telecommunication facilities with the City, including all mitigation measures
14 as required by the CPUC pursuant to the required environmental analysis.
15 The City's issuance of a standard permit will be conditioned upon the
16 applicant's compliance with all applicable mitigation measures and
17 monitoring requirements imposed by the CPUC upon the applicant.

18 5. Prior to the installation of any new or expanded
19 wireless telecommunication facility within the public right-of-way, the
20 applicant shall obtain the appropriate permits (e.g., encroachment
21 and traffic control permits) from the Department of Public Works.
22 The applicant shall provide a written justification as to the need and
23 authority by which it has a right to place its facilities within the public
24 right-of-way.

25 E. Development and design standards for wireless
26 telecommunications facilities in the public right-of-way.

27 1. No interference with public right-of-way. In no
28 case shall any part of a wireless telecommunication facility alter

1 vehicular circulation or parking within the public right-of-way, nor shall
2 it impede vehicular and/or pedestrian access or visibility along any
3 public right-of-way. No permittee shall locate or maintain
4 telecommunication facilities to unreasonably interfere with the use of
5 City property or the public right-of-way by the City, by the general
6 public or by other persons authorized to use or be present in or upon
7 the public right-of-way. Unreasonable interference includes
8 disruption to vehicular or pedestrian traffic on City property or the
9 public right-of-way, interference with public utilities, and any such
10 other activities that will present a hazard to public health, safety or
11 welfare when alternative methods of construction would result in less
12 disruption. All such facilities shall be moved by the permittee, at the
13 permittee's cost, temporarily or permanently, as determined by the
14 Director of Public Works or Director of Development Services.

15 2. Location. All wireless telecommunication
16 facilities shall be designed and located to eliminate or substantially
17 reduce their visual and aesthetic impacts upon the surrounding public
18 rights-of-way and public vantage points. To accomplish this goal, all
19 wireless telecommunication equipment shall be developed with the
20 intent of locating and designing such facilities in the following manner
21 and order of preference (from top to bottom):

22 3. Antennas:

- 23 a. On an existing public utility pole;
24 b. On an existing street light or traffic signal
25 standard;
26 c. On a new public utility pole.

27 4. Equipment:

- 28 a. Mounted on the subject pole;

1 exempt from this requirement. However, no more than two (2)
2 wireless telecommunications facilities shall be located on one (1)
3 pole;

4 f. The applicant shall not install a new utility
5 on a public right-of-way where there presently are no overhead utility
6 facilities unless the CPUC has authorized the applicant to install such
7 facilities and that the applicant has demonstrated by the
8 preponderance of the evidence that no other viable options exist.

9 6. Height:

10 a. Antenna installations on existing City
11 infrastructure shall not exceed the height of the existing infrastructure
12 piece by more than five feet (5') unless approved by the City
13 Engineer and Director of Public Works after a finding is made that a
14 greater height would promote the aesthetic or safety concerns of the
15 City;

16 b. For facilities proposed for placement on a
17 new pole in the public right-of-way, the height to the top of the
18 highest element shall not exceed the average height of utility poles
19 on the same block as the subject site by more than five feet (5'). In
20 cases of uncertainty, the Zoning Administrator shall have the
21 authority to determine the applicable height limit;

22 c. Overhead equipment shall be a minimum
23 of eight feet (8') above level of sidewalk for public safety reasons.

24 7. Design:

25 a. Any pole to be installed in the public right-
26 of-way shall be disguised to resemble a utility pole or street light to
27 the maximum extent possible. All antennas, where feasible, shall be
28 screened behind a cylindrical screening device of a diameter no more

1 than fifty percent (50%) greater than that of the pole. All antennas
2 and screening devices shall be painted or finished to match the pole.
3 The provisions of Subsection 21.56.100.C (Paint Colors) shall apply;

4 b. Panel antennas shall utilize brackets
5 and/or cross-arms that allow no more than a six-inch (6") extension
6 (stand-off) from the pole except when additional stand-off is required
7 to comply with health and safety regulations such as GEO-95 and
8 OSHA;

9 c. Antenna installations on existing City
10 infrastructure shall be placed in a manner so that the size,
11 appearance and function of the final installation is essentially
12 identical to the installation prior to the antenna installation taking
13 place;

14 d. No faux or otherwise nonfunctioning street
15 lights, decorative elements, signs, clock towers, or artificial trees or
16 shrubs or other such nonfunctioning screening elements made to
17 resemble other objects shall be permitted;

18 e. Wireless telecommunications facility
19 equipment located above the surface grade in the public right-of-way
20 including, but not limited to those on certain street lights or traffic
21 signal standards, shall consist of small equipment components that
22 are compatible in structure, scale, function and proportion to the
23 streetlights and traffic signals they are mounted on. Equipment shall
24 be painted or otherwise coated to be visually compatible with lighting
25 and signal equipment. Underground vaults shall employ flush-to-
26 grade access portals and vents. Installations on City owned or
27 controlled streetlights and other public facilities shall be subject to
28 applicable administrative and rental fees as adopted by resolution of

the City Council;

f. Facilities shall be designed to be as visually unobtrusive as possible. Applicant shall size antennas, mast arms, cabinet equipment and other facilities to minimize visual clutter. Facilities shall be sited to avoid or minimize obstruction of views from public vantage points and otherwise minimize the negative aesthetic impacts of the public right-of-way;

g. Proposed facilities shall be located and designed for co-location to the maximum extent possible.

8. Other requirements.

a. Street trees. The City may require that the applicant plant and maintain street trees adjacent to the wireless telecommunications facility if the applicant's equipment occupies space at street level. All street trees shall be selected from the list of permitted species maintained by the Department of Public Works, and shall be installed under a Public Works permit, to the satisfaction of the Director of Public Works.

b. Permittee shall install and maintain permitted wireless telecommunications facilities in compliance with the requirements of the Uniform Building, National Electrical Code, City noise standards and other applicable codes, as well as other restrictions specified in this Chapter.

c. The proposed wireless telecommunications facility and its location shall comply with the Americans with Disabilities Act.

9. Signs.

a. There shall be no advertising or signage on any portion of a wireless telecommunication facility, except that

1 required by law and/or as may be required by the City of Long Beach.

2 b. Identification. Each wireless
3 telecommunication facility shall be identified by a permanently
4 installed plaque or marker, no larger than four inches (4") by six
5 inches (6"), clearly identifying the addresses, email contact
6 information, and twenty-four (24) hour local or toll-free contact
7 telephone numbers for a live contact person for both the permittee
8 and the agent responsible for the maintenance of the wireless
9 telecommunications facility. Emergency contact information shall be
10 included for immediate response. Such information shall be updated
11 in the event of a change in the permittee, the agency responsible for
12 maintenance of the wireless telecommunication facility, or both.

13 F. Performance standards for wireless telecommunications
14 facilities in the public right-of-way.

15 All wireless telecommunications facilities in the public right-of-
16 way shall be subject to the performance standards enumerated in
17 Section 21.56.110, in addition to the following:

18 1. Interference. No wireless telecommunication
19 facility shall interfere with any emergency communication system at
20 any time.

21 2. Compliance with regulations. Wireless
22 telecommunication facilities shall comply with all local, state and
23 federal regulatory requirements.

24 3. Graffiti. All graffiti on any components of the
25 wireless telecommunications facility shall be removed promptly in
26 accordance with City regulations. Graffiti on any facility in the public
27 right-of-way must be removed within twenty-four (24) hours of its
28 appearance.

1 4. Landscaping. All landscaping attendant to the
2 wireless telecommunications facility, including landscaping of the
3 public right-of-way, shall be maintained in good, healthy condition at
4 all times. Any dead or dying landscaping and shall be promptly
5 replaced or rehabilitated.

6 5. Repair of public right-of-way. The
7 permittee/operator shall repair, at its sole cost and expense, any
8 damage (including, but not limited to subsidence, cracking, erosion,
9 collapse, weakening, or loss of lateral support) to City streets,
10 sidewalks, walks, curbs, gutters, trees, parkways, or utility lines and
11 systems, underground utility line and systems, or sewer systems or
12 sewer lines that results from any activities performed in connection
13 with the installation and/or maintenance of a wireless
14 telecommunications facility by Permittee. In the event Permittee fails
15 to complete said repair within the number of days stated on a written
16 notice by the Director of Public Works, the Director of Public Works
17 shall cause said repair to be completed and shall invoice the
18 permittee for all costs incurred by City as a result of such repair.

19 6. Replacement of Equipment. During the term of a
20 public right-of-way wireless telecommunications site permit, a
21 permittee may replace equipment that is part of a permitted wireless
22 facility provided that the replacement equipment would be of the
23 same size and appearance as the previously permitted equipment.
24 The permittee shall notify the Department of Development Services
25 and the Department of Public Works prior to replacing or adding any
26 equipment, and shall not install the proposed equipment unless and
27 until the Department of Development Services notifies permittee in
28 writing that the Department has determined that the proposed

1 replacement equipment complies with the requirements of this
2 Section, and until all required permits have been obtained.

3 7. Abandonment. The owner or operator of the
4 wireless telecommunications site shall notify the Department of
5 Development Services in writing upon abandonment of the facility.
6 The wireless telecommunications facility and all equipment
7 associated therewith shall be removed in its entirety by the operator
8 within ninety (90) days of a FCC or CPUC license or registration
9 revocation or of facility abandonment (per Subsection 21.56.020.A)
10 or other discontinuation of use. The site shall be restored to its pre-
11 installation condition to the satisfaction of the Directors of Public
12 Works and Development Services at the expense of the facility owner
13 or operator. Restoration shall be completed within two (2) months of
14 removal of the facility; hence a maximum of five (5) months from
15 abandonment of the facility to completion of restoration. If such
16 removal is not completed within these time limits, the Director of
17 Public Works shall be authorized to cause such removal to be
18 completed and shall invoice the permittee for all costs incurred by
19 City as a result of such removal.

20 8. Indemnification. Every permittee of a Wireless
21 Telecommunications Facility in the public right of way shall defend,
22 indemnify, and hold harmless the City of Long Beach, its City Council,
23 officers, and employees to the maximum extent permitted by law, from any
24 loss or liability or damage, including expenses and costs, for bodily or
25 personal injury, and for property damage sustained by any person as a result
26 of the installation, use or maintenance of the applicant's Facility subject to
27 this Chapter.

28 9. Insurance. The permittee shall obtain, pay for and

1 maintain, in full force and effect through the term of the permit, an insurance
2 policy or policies that fully protects the City from claims and suits for bodily
3 injury and property damage. The insurance must be issued in the amount or
4 amounts, which the City Attorney or Risk Manager determines. The
5 insurance must afford coverage for the permittee or wireless provider's use,
6 operation and activity, vehicles, equipment, facility, representatives, agents
7 and employees, as determined by the City's Risk Manager. Before issuance
8 of any permit, the applicant shall furnish the City with certificates of
9 insurance and endorsements, in the form satisfactory to the City Attorney or
10 the Risk Manager, evidencing the coverage required by the City.

11 10. City Changes to Public Right-of-Way. The permittee
12 shall modify, remove, or relocate its Wireless Telecommunications Facility,
13 or portion thereof, without cost or expense to the City, if and when made
14 necessary by any street or alley reconstruction, widening, relocation or
15 vacation, the undergrounding of utilities, or any other construction in the
16 public right-of-way negatively impacted by the wireless telecommunications
17 facilities as installed, to the maximum degree consistent with the regulations
18 at the California Public Utility Commission. Said modification, removal, or
19 relocation of a wireless telecommunications facility shall be completed within
20 ninety (90) days of notification by City unless exigencies dictate a shorter
21 period for removal or relocation. In the event a wireless telecommunications
22 facility is not modified, removed, or relocated within said period of time, City
23 may cause the same to be done at the sole expense of applicant. Further, in
24 the event of an emergency, the City may modify, remove, or relocate
25 wireless telecommunications facilities without prior notice to applicant
26 provided applicant is notified within a reasonable period thereafter.

27 G. Application Requirements.
28

1 All applications for wireless telecommunication facilities
2 located wholly or partly within the public right-of-way shall be
3 submitted to the Director of Development Services and the Director
4 of Public Works and shall be accompanied with the following:

5 1. A site plan illustrating the exact location and size
6 of all proposed wireless telecommunication facility antennas,
7 equipment and related infrastructure necessary for its operation
8 within the public right-of-way;

9 2. A fully dimensioned and scaled site plan that
10 illustrates the following information within one hundred fifty feet (150')
11 of the proposed wireless telecommunication facility:

12 a. The distances between all new and
13 existing wireless telecommunication equipment and all other
14 infrastructure within the public right-of-way such as, but not limited to,
15 other existing telecommunication equipment, utility poles, light poles,
16 fire hydrants, bus stops, traffic signals and above and below ground
17 utility equipment vault(s);

18 b. The distance and location of adjoining
19 property lines and easement boundaries abutting the public right-of-
20 way, curbs, driveway approaches, easements, walls, existing utility
21 substructures, and parkway trees from the wireless
22 telecommunication facility;

23 c. The immediate adjacent land uses and
24 building locations;

25 d. The dedicated width of the public right-of-
26 way;

27 e. The location of all existing sidewalks and
28 parkway landscape planters;

1 3. All conduit locations between the wireless
2 telecommunication antennas and the infrastructure necessary to
3 operate the antennas;

4 4. A detailed photograph of the exact location of all
5 proposed wireless telecommunication facility antennas, equipment
6 and related infrastructure within the public right-of-way. Additional
7 photographs shall also be provided to document the existing setting
8 of the wireless telecommunication facility within one hundred fifty feet
9 (150') to the north, south, east and west of the proposed facility with
10 a corresponding location map key documenting where each
11 photograph was taken;

12 5. Propagation/coverage maps as required by
13 Subsection 21.56.050.D;

14 6. A radio-frequency (RF) study prepared by a
15 qualified, independent, RF engineer, deemed acceptable to the City,
16 documenting that the new or modified telecommunication facility will
17 not exceed maximum RF emission limits, as set by the Federal
18 Communication Commission, for maximum human exposure. The
19 RF study shall include all proposed and existing telecommunication
20 antennas at maximum operational capacity;

21 7. Any additional information deemed necessary by
22 the Director of Public Works and/or Director of Development Services
23 to evaluate the proposed telecommunication facility and its
24 construction impact to the existing infrastructure and design of the
25 public right-of-way;

26 8. Each permittee, as a condition of the Wireless
27 telecommunication permit, shall obtain, keep, and maintain a
28 performance bond in an amount as determined by the City Engineer

1 adequate to guarantee to the City the prompt, faithful and competent
2 performance of the proposed work necessary to install the proposed
3 telecommunication facility and restoration of the public right-of-way.

4 H. Entitlement, term, renewal, and expiration.

5 1. Permits for wireless telecommunications facilities
6 in the public right-of-way, shall be valid for ten (10) years following
7 the date of final action. A ten (10)-year term is prescribed for permits
8 for this class of land use, due to the unique nature of development,
9 exceptional potential for visual and aesthetic impacts, and the rapidly
10 changing technologic aspects that differentiate wireless
11 telecommunications from other land uses allowed by the City. The
12 applicant or operator shall file for a renewal of the entitlement and
13 pay the applicable renewal application fees of the Department of
14 Development Services and the Department of Public Works six (6)
15 months prior to expiration, if continuation of the use is desired. In
16 addition to providing the standard information and application fees
17 required for renewal, renewal applications for wireless
18 telecommunications sites in the public right-of-way shall include all
19 application requirements set forth in this Chapter.

20 2. Where required, renewals of entitlements for
21 existing wireless telecommunications facilities in the public right-of-
22 way constructed prior to the effective date of this Chapter are subject
23 to the provisions of Subsection 21.56.130.H.1. Renewals of permits
24 approved after the effective date of this Chapter shall only be
25 approved if the subject site is in full compliance with the provisions of
26 this Chapter.

27 3. If the entitlement for an existing wireless
28 telecommunications facility has expired, applications for co-location at that

1 site, as well as after-the-fact renewals of entitlements for the existing
2 wireless telecommunications facilities, shall be subject to the standards and
3 procedures for new wireless telecommunications facilities in the public right-
4 of-way, as set forth in this Section.

5
6 21.56.140 Additional requirements and standards for wireless
7 telecommunications facilities located in Park Zoning Districts.

8 A. For the purpose of this ordinance the term Park Zoning District
9 shall include those areas of the City regulated and established pursuant to
10 Chapter 21.35 of this Code.

11 B. Installation of Wireless Telecommunications Facilities in Park
12 Districts must be pursuant to a lease or permit approved by the City Council.
13 For those parks under the jurisdiction of the City's Parks and Recreation
14 Commission, the matter shall first be submitted to the Commission for its
15 recommendation. A Conditional Use Permit shall not be required.

16 C. Prior to the City Council considering any lease or permit of
17 Park District land for a Wireless Telecommunications Facility, the matter
18 shall first be submitted to the Site Plan Review Committee in accordance
19 with Chapter 21.25 of this Code. The Site Plan Review Committee shall
20 impose reasonable conditions of approval, which shall include the minimum
21 development, design and performance standards set forth in this Chapter.

22 D. Application for Site Plan review in a Park Zoning District shall
23 be in accordance with Section 21.56.050, or Section 21.56.090, if it is to be a
24 co-location facility.

25 E. All Site Plan Review proceedings conducted in accordance
26 with this Section shall be subject to the Administrative Procedures set forth
27 in Chapter 21.21, and the specific procedures set forth in Section 21.25.501
28 *et seq.* relative to site plan reviews.

1 F. In order to effectuate parity between those Wireless
2 Telecommunications Facilities located in Park Zoning Districts and those
3 located elsewhere in the City, a fee equivalent to that established by the City
4 Council for the processing and issuance of a Conditional Use Permit shall be
5 charged.

6
7 21.56.150 Other provisions.

8 A. Temporary Wireless Telecommunication Facilities. Installation,
9 maintenance, or operation of any temporary wireless telecommunications
10 site is prohibited except as allowed under a special events permit necessary
11 during a special event authorized by Chapter 5.60 of the LBMC, or during a
12 government-declared emergency.

13 B. Illegal facilities. Illegal wireless telecommunications facilities or
14 co-location facilities have no vested rights and shall either be brought into
15 legal conforming status in accordance with this Chapter and Title 21 of the
16 Long Beach Municipal Code, or shall be removed.

17 C. Modifications to Wireless Telecommunications Facilities. Any
18 modification to a wireless telecommunications facility or co-location facility,
19 including but not limited to replacement of antennas, installation of additional
20 antennas, installation of additional equipment cabinets, installation of a
21 backup generator, paint or camouflage changes, and other physical changes
22 to the facility, shall require, at a minimum, an administrative approval, and, if
23 necessary, a building permit from the Department of Development Services.
24 Prior to issuance of any approval for modification, the applicant shall submit
25 an application for an administrative review to determine the compliance of
26 the proposed modification with this Chapter and the existing Conditional Use
27 Permit or other entitlement. For sites not subject to Section 21.56.130
28 (located in the public right-of-way), applications for modification will be

1 subject to the standards and procedures set forth for new wireless
2 telecommunications facilities, as specified in Sections 21.56.030 through
3 21.56.060, if any of the following apply:

4 1. No Conditional Use Permit was issued for the original
5 wireless telecommunications facility;

6 2. The Conditional Use Permit for the original wireless
7 telecommunications facility did not allow for future modification or the extent
8 of site improvements involved with the modification project (in this case, an
9 application for a modification to the approved Conditional Use Permit,
10 subject to Planning Commission review, may be substituted for a new
11 Conditional Use Permit); or

12 3. No environmental review was completed for the location
13 of the original wireless telecommunications facility that addressed the
14 environmental impacts of future modifications (in this case, an application for
15 a modification to the approved Conditional Use Permit, subject to Planning
16 Commission review, may be substituted for a new Conditional Use Permit).

17 D. Peer Review.

18 1. The Director of Development Services is authorized to
19 retain on behalf of the City an independent technical expert to peer review
20 any application for a Wireless Telecommunications Facility Permit if
21 reasonably necessary, as determined by the Director. The review is intended
22 to be a review of technical aspects of the proposed Wireless
23 Telecommunications Facility and shall address all of the following:

24 a. Compliance with applicable radio frequency
25 emission standards;

26 b. Whether any requested exception is necessary to
27 close a significant gap in coverage, increase network capacity, or maintain
28 service quality and is the least intrusive means of doing so;

- 1 c. The accuracy and completeness of submissions;
- 2 d. Technical demonstration of the unavailability of
- 3 alternative sites or configurations and/or coverage analysis;
- 4 e. The applicability of analysis techniques and
- 5 methodologies;
- 6 f. The validity of conclusions reached;
- 7 g. The compatibility of any required architectural
- 8 screening;
- 9 h. Technical data submitted by the applicant to
- 10 justify the proposed height of any new installation including monopoles or
- 11 roof/building mounted sites; and
- 12 i. Any specific technical issues designated by the
- 13 City.

14 E. Appeals.

- 15 1. Appeals from the decision(s) of the Director of
- 16 Development Services or designee, and the Staff Site Plan Review
- 17 Committee, shall be to the Planning Commission.
- 18 2. Appeals from the decision(s) of the Planning
- 19 Commission shall be to the City Council.
- 20 3. All appeals shall be in accordance with the provisions of
- 21 Title 21 related to Appeals.

22 F. Revocation. The Planning Commission may, after a duly
23 noticed public hearing, revoke, modify or suspend any Wireless
24 Telecommunications Permit on any one or more of the following grounds:

- 25 1. That the Wireless Telecommunications Permit was
- 26 obtained by fraud or misrepresentation;
- 27 2. That the Wireless Telecommunications Permit granted
- 28 is being, or within the recent past has been, exercised contrary to the terms

1 or conditions of such approval or in violation of any statute, ordinance, law or
2 regulation; or

3 3. That the use permitted by the Wireless
4 Telecommunications Permit is being, or within the recent past has been,
5 exercised so as to be detrimental to the public health or safety or as to
6 constitute a nuisance.

7 G. Findings. A Conditional Use Permit, Site Plan Review, or
8 Modification for a Wireless Telecommunications Facility or Co-location
9 Facility may be granted only if the following findings are made by the
10 designated reviewing body or person, in addition to any findings applicable
11 under Chapter 21.25:

12 1. The proposed Wireless Telecommunications Facility has
13 been designed to achieve compatibility with the community to the maximum
14 extent reasonably feasible;

15 2. An alternative configuration will not increase community
16 compatibility or is not reasonably feasible;

17 3. The location of the Wireless Telecommunications
18 Facility on alternative sites will not increase community compatibility or is not
19 reasonably feasible;

20 4. The proposed facility is necessary to close a significant
21 gap in coverage, increase network capacity, or maintain service quality, and
22 is the least intrusive means of doing so;

23 5. The applicant has submitted a statement of its
24 willingness to allow other wireless service providers to co-locate on the
25 proposed Wireless Telecommunications Facility wherever technically and
26 economically feasible and where co-location would not harm community
27 compatibility; and

28 6. Noise generated by equipment will not be excessive,

1 annoying nor be detrimental to the public health, safety, and welfare.

2 H. Transfer or Change of Ownership/Operator. Upon assignment
3 or transfer of an already approved Wireless Telecommunications Facility or
4 any rights under that permit, the owner and/or current operator of the Facility
5 shall within thirty (30) days of such assignment or transfer provide written
6 notification to the Director of Development Services of the date of the
7 transfer and the identity of the transferee. The Director may require
8 submission of any supporting materials or documentation necessary to
9 determine that the proposed use is in compliance with the existing permit
10 and all of its conditions including, but not limited to, statements,
11 photographs, plans, drawings, models, and analysis by a State-licensed
12 radio frequency engineer demonstrating compliance with all applicable
13 regulations and standards of the Federal Telecommunications Commission
14 and the California Public Utilities Commission. If the Director determines
15 that the proposed operation is not consistent with the existing permit, the
16 Director shall notify the applicant who may revise the application or apply for
17 modification of the permit pursuant to the requirements of this Chapter.

18
19 21.56.160 Severability Clause.

20 If any provision or clause of this ordinance or the application thereof
21 to any person or circumstance is held to be unconstitutional or to be
22 otherwise invalid by any court of competent jurisdiction, such invalidity shall
23 not affect other article provisions or clauses or applications, and to this end
24 the provisions and clauses of this ordinance are declared to be severable.

25
26 Section 8. The Long Beach Municipal Code is amended by repealing
27 Sections 21.45.115 and 21.45.210.

Abbreviations:

Y = Yes (permitted use).

N = Not permitted.

C = Conditional use permit required. Refer to provisions in Chapter 21.52.

A = Accessory use. Permitted subject to provisions contained in Chapter 21.51.

T = Temporary Use. Permitted subject to provisions contained in Chapter 21.53.

AP = Administrative use Permit required. Refer to provisions in Chapter 21.52.

IP = Interim park use permit required. Refer to provisions in Chapter 21.52.

(a) Retail and office commercial uses are subject to the development standards specified in Section 21.45.160.

(b) Unless the site can provide 4 independently accessible parking spaces, one unit is limited to 450 sq. ft. as a zero bedroom.

(c) One unit shall not exceed 800 sq. ft. or 12 percent of lot area, whichever is greater. The 800 sq. ft. limit shall apply to the rear unit. If both units exceed 800 sq. ft., the rear unit, or bottom unit in a stacked duplex, shall be considered the legal nonconforming unit.

(d) For commercial uses permitted in the R-4-H zone see Section 21.45.160.

Abbreviations:

Y = Permitted.

N = Not permitted

C = Conditional use permit required. Refer to Chapter 21.52.

A = Permitted as an accessory use. Special conditions may apply. Refer to Chapter 21.51.

T = Permitted as a temporary use subject to the requirements of Chapter 21.53 of this title.

AP = Permitted with an administrative use permit.

TABLE 35-1
Uses in Park Districts

Use	District P
Alcoholic beverage sales – with permitted or conditionally permitted uses	C
Amphitheater, band shell, performance stage and the like:	
a. With a seating capacity of up to 200 persons	Y
b. With a seating capacity greater than 200 persons	C
Athletic facilities including sports fields, swimming pools, courts and the like	Y
Campgrounds (except recreational vehicle campgrounds)	Y
Circuses	N
Comfort stations	A
Commercial recreation uses ^(a) (see definition, e.g., miniature golf courses, water slides, bicycle rentals, nonmotorized vehicles, and the like)	C
Commercial uses-other	N
Community gardens	Y
Community service uses ^(b) :	
a. Nonregional, city staffed	Y
b. Nonregional, nonprofit	C
c. Nonregional, for profit	N
Community service uses ^(b) -regional	N
Construction trailer	T
Cultural and educational uses (e.g., museums, ranchos, nature centers and the like)	Y
Daycare and preschools:	
a. Cooperatives and city staffed	Y
b. Nonprofit	C
Electronic video games (not to exceed 4 in any 1 building)	A
Exhibition grounds on a permanent basis for fairs, carnivals, trade shows and the like, or for continuation of fairs, carnivals, trade shows and the like beyond 10 days in length	N
Exhibitions, trade shows and the like	T
Fairs, festivals, carnivals, holiday celebrations, pageants, social events and the like for a period not to exceed 10 days	T
Food and beverage concessions (not including alcoholic)	A
Landscaped open areas	Y
Libraries of the City of Long Beach	C
Motor vehicle racing or testing	N
Natural habitat reserves or preserves	Y
Offices for the supervision and maintenance of park facilities, programs and activities	A

Parking (commercial)	N
Parks and related improvements	Y
Passive games and activities, and arts and crafts classes	Y
Police and fire stations, communication centers, schools, government buildings and the like	N
Private clubs (nonprofit and recreational only)	C
Recreational equipment sale and rental for use in park (except that motorcycles, motorized skateboards, mopeds and the like, are not permitted)	A
Recreational vehicle campground	C
Recreational vehicle storage	N
Residential uses (except caretaker or guard facilities)	N
Restaurants with or without alcoholic beverage sales	C
Sale of alcoholic beverage	C
Sewage and wastewater treatment of tertiary or more advanced level of treatment	A
Wireless Telecommunications Facilities (see Chapter 21.56)	C
Any use which violates the noise ordinance of the city	N

Editor's note— Abbreviations:

Y = Permitted as a principal use.

N = Not permitted.

C = Conditional use permit required. Refer to Chapter 21.52.

A = Permitted as accessory use. Refer to Chapter 21.51.

T = Permitted as temporary use. Refer to Chapter 21.53.

(a) "Commercial recreation" is any recreational use in parks for which a fee is charged independent of city oversight. (See definition for "commercial recreation" in Section 21.15.565 and findings for such uses in the park P district in Section 21.52.610.)

(b) "Community service use" is a service provided for the health and welfare of the individual receiving the service. Such uses in parks do not include the permanent provision of food, shelter or medical services except for counseling, health fairs, medical screening and the like. Nonregional community service uses serve the local community—the neighbors nearby who require the service. Regional serving community service providers serve a much wider constituency.

TABLE 36-1

Uses in the Public Right-of-Way District

Use	District (PR)
1. Agriculture	A
2. Caretaker dwelling	A
3. Electrical distribution station, pipeline or flood-control pumping station, railroad switching station or other similar facility essential to the operation of rights-of-way	A
4. Electrical generating facility (except solar)	N
5. Flood control rights-of-way	Y
6. Freeway rights-of-way	Y
7. Public recreational facilities	A
8. Railroad or rapid transit rights-of-way	Y
9. Rail yard or maintenance yard	N
10. Right-of-way maintenance facilities	A
11. Solar collectors	Y
12. Tree farm or nursery	Y
13. Utility rights-of-way	Y
14. Wireless telecommunication facilities (see Chapter 21.56)	C

Abbreviations:

Y = Permitted as a principal use.

N = Not permitted.

C = Conditional use permit required. Refer to Chapter 21.52.

A = Permitted as an accessory use. Special standards may apply. Refer to Chapter 21.51.
