

CITY OF
LONG BEACH

Mayor Robert Garcia
FY 2019
BUDGET RECOMMENDATIONS

It is a pleasure to present the FY 2019 Budget in partnership with City Manager, Patrick West. This is the fifth budget I am presenting to the City Council, and like the previous four, it is balanced and responsible. I am particularly proud of this budget because it makes large new investments to address homelessness, and continues key investments in public safety, infrastructure repair, and other critical services that will move Long Beach forward.

The statewide homelessness crisis and its impact is felt in every community in our City. Significant enhancements to address this challenge have come to Long Beach including: \$12.3 million in one-time funds from the State that was proposed by the Big 10 California Mayors for new services, \$3.4 million in capital funding for a year-round homeless shelter, and \$2.6 million from LA County Measure H to implement additional homeless strategies.

The new resources will help support and implement recommendations from the Everyone Home Long Beach taskforce. New programs will include Everyone Home Innovation Grants, a new fund for community organizations and neighborhood groups to assist in the goal of reducing street homelessness, and funding a new Clean Team, that will employ people experiencing homelessness to clean our communities. It will also create new efforts to engage the public in preventing homelessness through parking meter donations and related efforts.

The last two budgets have made significant investments in public safety. Measure A, passed by Long Beach voters in 2016, has already restored 35 sworn positions in the Police and Fire departments, including: reestablishment of the South Police Division, restoration of Fire Engine 8, restoration of Paramedic Rescue 12, and reinstatement of Police Academy operations.

This budget adds more staffing to both departments: four new Quality of Life officers, to assist people experiencing homelessness, and a new HEART Team, staffed with two new firefighter positions, to assist with our response to homelessness.

This budget also lays out a plan to invest more than \$41 million in funding to rebuild our Police and Fire academies, which are in disrepair and need major upgrades, funds body worn cameras, and upgrades and modernizes communication technologies for both departments in coming years.

As part of this budget, I am also asking the City Manager to identify new revenue to restore Engine 17 on the East Side, which includes twelve new firefighter positions, and to restore the police department's bike patrol by adding a Community Rapid Response Bike Team of six new police officer positions this year. Both restorations will enhance our departments' ability to respond to emergencies and to keep our communities safe. I am confident that we can make these restorations in 2019.

Thanks to from Measure A and other revenue sources, Long Beach has embarked on the largest infrastructure program in a generation. That program continues in the coming year. The attached map shows our Infrastructure Investment Plan – one that will make improvements in every neighborhood in the city. More than 100 centerline miles of streets with sidewalks will be repaired, 34 parks, 10 libraries, and 21 other city facilities. Also included in this message is a list of projects that are funded in the coming year.

As presented, the FY 19 budget also makes new investments in our youth and communities. The budget allocates \$200,000 into a new Youth Fund that will be programed through a participatory budgeting process. I am recommending that budget also include \$250,000 to fully fund the Justice Fund to support immigrants in our community who need legal assistance and double the budget for Language Access services to \$160,000. I also propose allocating \$200,000 for a new effort with our City Prosecutor Doug Haubert to expunge low-level marijuana misdemeanors from peoples' records to help them reenter the workforce. All of these additions will be funded from recently identified savings from our employee health care plan.

This budget makes new investments to make sure that our residents have safe places to live. The budget includes \$150,000 in funding for the City Prosecutor for code enforcement efforts against slum lords and negligent property owners. I am also requesting the City Manager work with our property owners and community to combat poor living conditions by strengthening our proactive residential inspection program, preventing properties from falling into disrepair and fixing slum properties.

This budget also structurally funds libraries to ensure that residents have library access seven days a week and includes \$100,000 to create an adoption coordinator in Animal Care Services. I propose to provide \$150,000 over three years to support staffing for Partners of Parks, \$100,000 in funding for City staff development and training on LGBTQ issues and a community anti-bullying program, and \$150,000 to support MOLAA’s facilities master-plan efforts from health care savings and the SAP Fund.

Long Beach has worked hard to structurally balance its budget, manage pension liabilities, and continue providing core services. This budget reflects these priorities. Residents should be proud of this fiscal responsibility and the progress that has been made. I look forward to working with the Council to adopt and implement this budget.
