1. Opportunity for public comment.	Allison Roberts	allie54678@gmail.com						According to the LB post, council members, including my representative Suzie Price, routinely accept money from the police department. I feel like this can impact their ability to effectively reallocate funds from the police department and take proper stances against police overreaching and toxic police culture in LB. I'm hoping council members will be transparent about donations accepted by the police in their communication with the public and make a commitment not to take these donations in the future, as they can lead to bias and further corruption within our LB government.	7/6/2020
1. Opportunity for public comment.	Marie Rolla	marie.a.rolla@gmail.com						Please stop proposing tax increases to fix our communities problems without defunding LBPD. We have the most corrupt PD out here and you seriously haven't done anything to begin removing funds and power. I'm happy to discuss tax increases if they are stacked on top of a heavy budget cut for the PD. Care not cops!	7/5/2020
