

C-5

February 9, 2021

HONORABLE MAYOR AND CITY COUNCIL
City of Long Beach
California

RECOMMENDATION:

Receive and file an amendment to Munis Contract No. 3190000026 (Contract No. 35169), with GSSI, Inc., dba General Security Services, of Wilmington, CA, for providing security guard services, to increase the contract amount by \$963,600, and extend the term to February 20, 2021, made pursuant to Chapters 2.69 and 2.85 of the Long Beach Municipal Code (LBMC) and in response to the proclaimed emergency due to the COVID-19 pandemic; and,

Authorize the City Manager, or designee, to execute all documents necessary to amend Contract No. 35169 with GSSI, Inc., dba General Security Services, of Wilmington, CA, for providing security guard services, to increase the annual contract amount to \$909,000, with an additional 20 percent contingency of \$181,800, for a total annual contract amount of \$1,090,800, plus an additional annual amount of \$300,000 for emergency services related to the COVID-19 pandemic response efforts, as needed; and, reaffirm the original City Council adopted Specifications No. ITB LB18-123, including the contract term of two years, with the option to renew for three additional one-year periods, at the discretion of the City Manager. (Citywide)

DISCUSSION

On February 19, 2019, the City Council authorized the award of a contract to GSSI, Inc. (GSSI), for providing security guard services. The City Council approved six months of spending authority while a Proposition "L" (Prop L) analysis was completed to consider bringing these services "in house" (provided by City employees). The Prop L analysis was transmitted to the Mayor and City Council via memorandum on June 18, 2019 (Attachment A) and the appropriate labor organization, International Association of Machinists and Aerospace Workers (IAM), was noticed of the Prop L analysis results on July 2, 2019. On August 20, 2019, the City Council granted an extension of the contract and increased funds for a total amount of \$999,900 to continue to provide this critical service while the meet and confer process continued, and the City Manager was requested to find a solution to restore the majority of these positions back to City employees.

Following the meet and confer proceedings with the IAM in November 2019 and January 2020, a memorandum was issued to the City Council on January 16, 2020 (Attachment B) with an update on the meet and confer process as well as the Prop L analysis given changes in contract services. The January 16, 2020 memorandum included the following key information:

- The annual cost of these services would likely be at least \$1.2 million more if provided by City employees, this is in addition to currently budgeted costs.
- The services under this particular contract have never been provided by City employees; hence, there are no City positions to be restored.
- Utilizing contracted services allows for the flexibility to provide ad hoc services that could not be accomplished with full-time employees (and the lack of flexibility may mean poorer services or costs significantly higher than the \$1.2 million annually).

It is noted that GSSI has indicated there are 23 security guards who provide services under this contract that are Long Beach residents.

The January 16, 2020 update recommended that the City Council address these issues in March 2020, but that did not happen due to the pandemic. The update also recommended that the City Council consider whether it wanted to expend (at least) an additional \$1.2 million to have these services provided by City employees during the FY 21 budget process. To facilitate City Council's direction to review this request as part of the FY 21 budget, the City Manager directed, as part of budget preparation instructions, each department with supplemental security guard services to review and make recommendations on whether they should be performed with a City employee and how to address the increased cost within their budget submittals if so recommended. Given the size of the structural deficit facing departments in FY 21 and in future years, no department recommended changing the current security model. The matter was not raised by the City Council during the FY 21 budget process where the emphasis for that budget was on reducing costs. The situation for FY 22 appears to be substantially worse in terms of reductions that will be needed.

Bringing these services in-house with City employees will require equivalent offsetting reductions, most likely elimination of other positions, potentially at the same or higher level than the staff that would be added for security guard services. If the City Council wishes to continue to look at having these services performed by City employees, such a decision would be best considered during the FY 22 budget process when the impacts and relative priorities can be more fully vetted. At least a six-month delay for staffing and development of operating procedures and practices would be needed, and it could be potentially longer if there are any lingering operational impacts from the pandemic. This could be accomplished by a City Council motion to include an alternative in the FY 22 budget to have these security guard services provided by City employees and identify an offsetting reduction (likely a staffing and service reduction) for consideration during the FY 22 budget process. The City currently does significant amount of security work using City security services officers, with over 200 positions budgeted in the Public Works, Police and Harbor Departments.

On March 10, 2020, the City Council adopted a Resolution ratifying the City Manager's Proclamation of a Local Emergency and the Public Health Officer's Declaration of Local Health Emergency due to the COVID-19 pandemic. Pursuant to the authority in Chapters 2.69 and 2.85 of the LBMC, the City Manager has the authority to approve purchases up to \$1,000,000 for goods or services related to a proclaimed emergency. GSSI provides a critical service to ensure the safety of visitors, staff, and property at citywide facilities. Additionally, security guard services were added to COVID-19 testing site locations and other facilities to ensure the safety of pandemic operation staff and visitors. As a result, the City Manager used the emergency

purchasing authority to add \$963,600 in spending authorization with GSSI for security guard services until February 20, 2021. The City has continued to meet with the IAM regarding this contract and, on December 10, 2020, met to discuss these additional as-needed emergency security guard services.

City Council approval is requested to amend Contract No. 35169 with GSSI to increase the annual contract amount to \$909,000, with an additional 20 percent contingency of \$181,800, for a total annual contract amount of \$1,090,800, plus an additional annual amount of \$300,000 for emergency services related to the COVID-19 pandemic response efforts, as needed. The City Council is also requested to reaffirm the original City Council action adopting Specifications No. ITB LB18-123, including the contract term of two years, with the option to renew for three additional one-year periods. Contract No. 35139 was executed on February 21, 2019 and is effective through February 21, 2021. The City Manager intends to exercise the first renewal option extending the term through February 21, 2022.

This matter was reviewed by Deputy City Attorney Taylor M. Anderson on December 28, 2020, Business Services Bureau Manager Tara Yeats on January 25, 2021, and by Finance Director John Gross on January 10, 2021.

TIMING CONSIDERATIONS

City Council action to amend Contract No. 35169 is requested on February 9, 2021, to allow for these critical services to continue without interruption.

EQUITY LENS

The City has incorporated the Equity Toolkit in this recommendation, as requested by the City Council on April 21, 2020. The services derived from this contract were completed in accordance with procurement procedures. Additionally, the services provided under this contract have a positive impact to the City's public health emergency response by providing security guard services to COVID-19 testing sites, homeless shelters, and quarantine and isolation sites. These sites are specifically located in communities of color disproportionately affected by the effects of COVID-19.

FISCAL IMPACT

The receive and file requested action documents the total increase for Munis Contract No. 3190000026 in the amount of \$963,600, inclusive of \$400,000 in FY 20 emergency response efforts, \$166,667 in FY 21 emergency response efforts, \$303,000 of regular services for FY 21, and a 20 percent contingency for FY 21 services of \$93,933 (excludes FY 20 emergency services), and extends the term to February 20, 2021.

The requested action for the amendment to Contract No. 35169 will increase the annual contract amount to \$1,090,800, plus an additional \$300,000 as needed for emergency response efforts. The revised aggregate total contract authority with GSSI intended for this amendment, inclusive of both recommendations and the prior City Council authorized amount of \$999,900, is an amount not to exceed \$3,354,300.

The regular services provided by the contract are budgeted in various funds and departments citywide, and funding from public health, safety, and emergency assistance grants will be sought for as-needed emergency services. This recommendation has no staffing impact beyond the normal budgeted scope of duties and is consistent with existing City Council priorities. The extension of this contract will provide continued support to our local economy by assisting in the preservation of employment for 23 employees residing in Long Beach.

SUGGESTED ACTION:

Approve recommendation.

Respectfully submitted,

JOHN GROSS
INTERIM DIRECTOR OF FINANCIAL MANAGEMENT

ATTACHMENT A – JUNE 18, 2019 MEMORANDUM
ATTACHMENT B – JANUARY 16, 2020 MEMORANDUM

APPROVED:

THOMAS B. MODICA
CITY MANAGER

City of Long Beach
Working Together to Serve

Memorandum

Date: June 18, 2019

To: Mayor and Members of the City Council

For: Patrick H. West, City Manager *T.M.L.*

Subject: **Security Guard Services – Proposition “L” analysis**

At its February 19, 2019 meeting, the City Council was requested to adopt Specifications No. ITB LB18-123 (Specifications) and award a two-year contract to GSSi, Inc., dba General Security Service, of Wilmington, CA, for providing security guard services to City facilities where such services were already in place and to facilities where no security services were in place, including on an “as needed” basis. The City Council requested a Proposition “L” analysis for these services and approved a six-month contract with GSSi, Inc., while that analysis was being completed.

The attached report provides that analysis. Since City employees have never provided security guard services at these facilities, the analysis makes reasonable assumptions as to how these services would be provided by City employees. The analysis is conservative in that it likely somewhat understates actual City costs. The estimated annual costs using City employees to provide security guard services in the Specifications is \$2,116,650. The total cost to providing the same service by way of the GSSi, Inc. contract is \$909,000. To provide the service using City staff would be a 133 percent premium (2 1/3 times the cost of providing it by contractor). The level of service would be approximately the same, although the private security guard services have the advantage of great scheduling flexibility and efficiency that maximizes security coverage and provides the best financial efficiency. This level of savings is consistent with previous Proposition “L” findings for security guard services in both 2001 and 2006.

Human Resources Department Labor Relations staff will meet with representatives of the International Association of Machinists (IAM) in response to their request to “meet and confer” on this matter.

Given the findings of the analysis, I will be recommending the City Council approve a multi-year contract for security guard services with GSSi, Inc.

Security Guard Services

Proposition “L” Analysis: Contractor-Provided Security Guard Services Based on GSSI, Inc. Contract Approved on February 19, 2019

This is a City Council requested update of a Propositions L analysis of Security Guard services. A Proposition L analysis for Security Guard services was done in 2001 and again in 2006. This update is based on the costs and service levels identified in the approved February 19, 2019 contract with GSSI, Inc. (see Attachment A).

BACKGROUND

Proposition “L”

In 1979, the electorate passed a ballot measure known as Proposition "L" which added Section 1806 to the City Charter. That Charter section permits the City Council, after certain findings, to adopt an ordinance by a 2/3 vote as a precondition to authorizing contracts with private contractors for the performance of work or services usually performed by employees of the City. The ordinance must determine, supported by findings, that the work or service proposed to be contracted out for can be performed by a private contractor as efficiently, effectively, and at an estimated lower cost to the City than if said work or services were performed by City employees. In addition, the ordinance must indicate that it has been determined that the proposed contract for work or services will not be detrimental to the best interest of the citizens of the City.

Previous Security Guard Services Proposition L Findings

Proposition “L” findings (ordinances) were made for security guard services contracts in 2001 and 2006. These findings showed that the specified services, if provided by City employees, would be 137 percent and 147 percent more expensive, respectively, than if provided by the contractor. (City employee-provided services would be more than double the cost of contractor-provided services.) The contracts for security guard services approved by the City Council in 2011 and 2014 were based on Proposition “L” findings from 2001 and 2006.

At no time have City employees provided security guard services at any of the sites contained in the contracts prior to their award. Additionally, the contracts allowed for the addition and deletion of sites as required by the City.

Special Services Officers

The City job classification for employees providing non-Police security and safety services is Special Service Officer (SSO). There are four grades of the SSO classification, I-IV:

Grade Level I	Performs routine guard work at a desk or in buildings or areas which are either secured or where the frequency of public contact is practically nil - OR - performs various duties in the Police Department including the supervision of Trustees on outside work details. <u>Note:</u> There are no SSO I positions currently budgeted in any department as employees are automatically upgraded to SSO II upon the successful completion of probation.
Grade Level II	Performs responsible patrol work occasionally requiring quick, independent decisions and where there is frequent public contact.
Grade Level III	Participates in the work of and serves as shift lead person over subordinates - OR - oversees the work and conduct of persons detained in custody.
Grade Level IV	Heads a bureau or department unit of security personnel - OR - supervises subordinates engaged in overseeing the work and conduct of persons detained in custody.

SSOs are used in a variety of capacities across the City organization, all playing very important roles in the security and safety of the City's assets, its workforce, and its patrons. A summary of SSO assignments is provided below.

Police Department

There are 122 full-time SSOs budgeted in the Police Department (including those to be transferred from the Long Beach Airport). Employees in these positions may be assigned to one of the following operations:

- **Jail:** Ensures inmate safety and facility security. Conducts searches, classification assessment, inmate medical screening, fingerprinting and DNA collection if applicable, performs inspections\security checks of the jail and Civic Center, supervises all inmate movement, monitors electronic audio and video surveillance equipment, transports inmates to medical and county facilities, escorts inmates to court and provides courtroom security, prepares written reports, log entries, and incidents reports.
- **Marine Patrol:** Assists the public in person or by telephone; maintains control and preserves the security of the City's marinas and beaches; enforces rules, regulations and laws within the marina areas; booking of arrested persons; patrol area in marked city vehicles; and provide community-based policing.
- **Long Beach Airport:** In the FY 2019 Budget, 27 SSOs were transferred from the Airport to the Police Department to integrate all security operations at the Airport under the Police Department. The actual transition of staff is currently underway. Airport SSOs are first responders to all public safety and security incidents at the Airport. The primary mission of the Security Division is to support the Transportation Security Administration (TSA) with counter-terrorism efforts.
- **Long Beach City College:** Responsible for the security of campuses, its faculty and students by patrolling the grounds on foot, bicycle, Segway and/or in a city vehicle. Escorts students, faculty and other employees; responds to suspicious activity, emergency situations, property damage and unlawful activity on District property; responds to calls for service involving thefts, disturbances, vandalism and malicious mischief; provide first aid as needed.

- **Civic Center Security:** Responsible for the security of the Civic Center and safety of its staff and visitors. Provides building security and screening of visitors attending City Council meetings. Responds to suspicious activity, emergency situations, property damage, and unlawful activity on the premises; responds to calls for service involving disturbances and vandalism.

Harbor

There are 65 full-time SSOs budgeted in the Harbor Department. Employees in these positions are assigned to the Harbor Patrol. Duties include the enforcement of designated sections of the California Penal and Vehicle Codes, the Long Beach Municipal Code and the Port of Long Beach Tariff/Ordinances.

Long Beach Airport

In the FY 2019 Budget, 27 SSOs were transferred from the Airport to the Police Department to integrate all security operations at the Airport under the Police Department. The actual transition of staff is currently in process. Five (5) full-time SSOs remain budgeted in the Airport Department. Duties currently include dispatch, recording calls for service in CAD, and staffing the Airport's access control and perimeter security systems.

Public Works

There are 22 full-time SSOs budgeted in the Public Works Department, Parking Enforcement Division. However, these positions are the residual of the transfer of citywide parking enforcement from the Police Department to the Public Works Department. These positions are now cross-filled with employees in the Parking Control Checker II classification.

COST ANALYSIS

Pursuant to the City Council's request, staff has endeavored to prepare a comparative cost analysis of the services contained in Specifications No. ITB LB18-123 (Specifications). The adoption of a new ordinance is not required to award a new contract for security services.

This cost comparison for a Proposition L analysis for the 2019 GSSi, Inc. contract used the scope of work identified in the associated RFP and developed a staffing model that could provide those services with City employees. This needed to be done because the City is not currently providing these services, so an existing staffing model could not be used. The model likely understates City costs a bit because it assumes the use of less expensive non-career (NC) employees where less than full-time work is done. While this is reasonable, it is not clear that such a model is practical over the long-term, and a more expensive model may, in fact, be used. However, even with this lower cost model, services provided by City employees would be significantly more expensive than contractor-provided services.

Comparison Considerations

There are several key factors that need to be considered when making a comparison between contractor-provided services and City employee-provided services. They are as follows:

- The services provided by the contractor are based on a set number of work hours (schedule) specified for each site/facility. A contractor’s employee will be on site every work hour specified. In short, every paid hour is a work hour. The contractor’s remuneration is based on the actual number of work hours that are provided to the City.
- A full-time City employee is paid for 2,088 hours per year, but will not work that many hours as he/she has the benefit of paid time off (vacation, sick leave, holidays, etc.). Thus, when making a comparison based on a set time schedule, every hour the employee does not work, must be backfilled by another employee. For example: If an employee uses 10 vacation days, takes 8 sick days, and gets 13 paid holidays, he/she is only working 1,840 hours per year, or an average of 35 hours per week. Thus, for a comparison based on a set time schedule, another employee must provide the hours not provided by the primary employee, and the costs of those additional hours must be included in the analysis.
- The contractor’s billable hourly rate will include a factor for supervision. As such, a factor for supervision should also be included in the City’s costs. Similarly, the contractor’s billable hourly rate will include account for materials, supplies, and equipment needed by the contractor’s employees. The City’s costs should also include these.

Contractor Pricing

The Specifications requested pricing and qualifications for both regular, scheduled services at 10 sites and as-needed services. Bidders were asked to provide hourly rates for specified hours of services. GSSi, Inc. (Contractor) was deemed to the lowest responsible bidder. (This company is the current provider of security guard services.) On February 19, 2019, staff recommended a contract be awarded in the annual amount of \$909,000. This amount was based on requests from departments needing regular, scheduled services and/or as-needed services. The chart below identifies the total hours specified, the Contractor’s hourly rates, and the total cost for each category of service.

Categories of Service	Total Hours	Hourly Rate	Total Cost
Regular, Scheduled Services: Non-Holidays (8 sites)	37,909	\$18.79	\$712,310
Regular, Scheduled Services: Non-Holidays (2 sites)	602	23.26	14,003
Regular, Scheduled Services: Holidays (8 sites)	432	28.19	12,178
Regular, Scheduled Services: Holidays (2 sites)	126	33.26	4,191
As-Needed Services: Non-Holidays*	8,851	18.79	166,310
TOTAL	47,920	--	\$909,000
* As-needed hours were estimated based on the remaining contract authority after regular, scheduled service hours were accounted for. The actual number and type of hours provided may differ. An estimate was needed for comparison purposes.			

Building a City Staffing Model

The Contractor provided the City with a staffing plan for the sites contained in the proposed contract that require regular, scheduled service (not including as-needed services). This staffing plan provides for as many full-time positions as possible, and, as such, it was used as the basis for the City's staffing model (see Attachment B).

A conceptual staffing model requires that certain assumptions be made. They are as follows:

- When a regular weekly work schedule totals 40 or more hours per week, a full-time employee will perform the work.
- When a regular weekly work schedule totals 30 to 39 hours per week, a "permanent, part-time" employee will perform the work.
- When two employees are on the same shift, they will stagger meal and rest breaks and coverage drops to one during those times.
- When security guard services at a given site are provided by a single employee, the employee will not leave the site during meal and rest breaks, but will be available to respond, if needed.
- Hours needed beyond those worked by full-time or "permanent, part-time" employees will be provided by non-career (part-time) employees.
- Work hours not provided by full-time or "permanent, part-time" employees on paid leave (VA, SL, HO) will be provided by non-career (part-time) employees, except holidays when facilities are closed.
- Costs are based on Step III of the SSO II classification. The costs were taken from the FY 2019 Budget. The chart below identifies the costs for 1 FTE of a full-time SSO and 1 FTE (2,088 work hours) of a part-time, non-career SSO.

SSO II, Step III	Salary	Benefits	Total	Loaded Hourly Cost
Full-Time (Avg.)	\$47,806	\$34,145	\$81,951	\$39.25
Part-Time, Non-Career (Avg.)	\$46,766	\$7,039	\$53,805	\$25.77

- Average annual work hours for full-time SSO II employees are based on the class average for all SSO IIs for 2018, which is 1,788.
- All as-needed services will be provided by non-career (part-time) employees.
- Supervision is calculated at a ratio of 1 supervisor to 10-12 employees. Supervision will be provided by the SSO IV classification (Step III).

Regular, Scheduled Services

The following would be required to meet the staffing requirements for regular, scheduled services:

Classification	FTEs	Comments
Special Services Officer II, Full-time	15.00	1,053 overtime (OT) hours would also be required.
Special Services Officer II, Perm./Part-time	3.18	1@ 31 hrs/wk; 3 @ 32 hrs/wk
Special Services Officer II, NC, Scheduled Hours	0.85	1,768 hours
Special Services Officer II, NC, Backfill Hours	1.99	4,145 hours
Special Services Officer IV, Full-time, Supervisor	2.00	
Total	23.02	

As-Needed Services

The following would be required to meet the staffing requirements for as-needed services:

Classification	FTEs	Comments
Special Services Officer II, NC, As-Needed Hours	4.24	8,851 hours
Total	4.24	

City Costs

Provided below are the estimated annual costs for City employees to provide security guard services based on the aforementioned assumptions.

Personal Services Costs	FTE	Salary	Benefits & WC	Total
Special Services Officer II, Full-time	15.00	\$717,094	\$512,175	\$1,229,269
Special Services Officer II, Perm./Part-time (31/wk)	0.78	36,607	21,902	58,509
Special Services Officer II, Perm./Part-time (32/wk)	2.40	112,638	67,389	180,027
Special Services Officer II, NC (Scheduled & Backfill)	2.84	132,815	19,992	152,808
Special Services Officer II, NC (As-Needed Services)	4.24	198,288	29,848	228,136
Special Services Officer IV, Full-time, Supervisor	2.00	121,335	77,874	199,209
Special Services Officer II – Overtime Hours (1,053)	--	35,507	1,895	37,402
Total Personal Services	27.26	\$1,354,284	\$731,075	\$2,085,359

Non-Personal & Internal Services Costs	No.	Unit Cost	Total
Uniforms, Boots, Gear (FT, PPT, NC)	25	\$2,489	\$62,225
Handheld Radios	17	950	16,150
Vehicles (Supervisors)	2	8,208	16,416
Total Non-Personal & Internal Services Costs			\$80,291

TOTAL ANNUAL CITY COSTS	\$2,116,650
--------------------------------	--------------------

It should be noted that there would also be some one-time costs if City employees were to provide the specified services. These costs, which are identified below, are not included in the Total Annual City Costs. While these are “one-time” costs, training costs, would need to be periodically repeated.

One-Time Costs	No.	Unit Cost	Total
Pre-Employment Investigations	25	\$1,900	\$47,500
Training	25	2,954	73,850
Handheld Radios - Initial Acquisition	17	3,000	51,000
Vehicles – Initial Acquisition	2	31,156	62,312
Total One-Time Costs			\$234,662

Cost Comparison Results

The estimated annual costs to provide security guard services with City employees based on the GSSI, Inc. contract is \$2,116,650. The total annual cost to contract out for the same services is \$909,000. The city cost is 138 percent higher or much more than twice the cost of contracting out (2.38 times). This cost premium for using City employee-provided services is consistent with the Proposition “L” findings (Ordinances) for security guard services contracts in 2001 and 2006.

CONCLUSION

The use of contracted-out security guard services for the locations and functions described in the GSSI, Inc. contract is significantly less expensive and provides comparable services than could be provided by City employees in the SSO classification, the classification best suited for security guard services. In addition, the use of contractual services provides a level of flexibility to meet needs that would not be available with City employees.

City of Long Beach
Working Together to Serve

Memorandum

Date: January 16, 2020

To: Mayor and Members of the City Council

From: Thomas B. Modica, Acting City Manager *T.M.*

Subject: **Security Guard Services**

At its August 20, 2019 meeting, the City Council was requested to approve a six-month extension of the contract with GSSi, Inc., for security guard services to provide staff with additional time to complete the meet and confer process with the International Association of Machinists (IAM), which represents the Special Services Officer (SSO) employee classification. A motion was made by Vice Mayor Andrews to approve the recommendation with a clause that the City Manager work to find a solution to restore the majority of these positions back to City employees when the contract terminates; and report back with a plan by the end of the year. This memorandum provides an update related to this direction.

Background

At its February 19, 2019 meeting, the City Council was requested to adopt Specifications No. ITB LB18-123 (Specifications) and award a two-year contract to GSSi, Inc., dba General Security Service, of Wilmington, CA, for security guard services to City facilities where such services were already in place and to facilities where no security services were in place, including on an "as-needed" basis, in an annual amount of \$909,000, for a period of two years, with three one-year renewal options. The City Council approved the contract with GSSi, Inc. (GSSi), and requested a Proposition "L" (Prop L) analysis for these services. While the contract with GSSi was approved, the City Council only approved a six-month spending authority to allow for the Prop L analysis to be completed.

By way of a memorandum dated June 18, 2019 (Attachment A), the City Manager transmitted to the Mayor and City Council a report providing the requested Prop L analysis. As City employees have never provided security guard services at the facilities served by GSSi, the analysis made reasonable assumptions as to how these services would be provided by City employees. The findings of the Prop L analysis estimated costs for City employees to provide the contracted services, as per the contract specifications, at an annual cost of \$2,116,650; \$1,207,650 higher than the proposed contract with GSSi.

On August 12, 2019, staff from the Human Resources Department, City Manager's Office, and City Attorney's Office met with representatives from the IAM in response to its request to meet and confer. Subsequent to that meeting, staff returned to the City Council on August 20, 2019 for an extension of the contract to provide staff with additional time to complete the meet and confer process.

On November 6, 2019 and January 15, 2020, the City's Labor Relations Manager, Dana Anderson, met with IAM Grand Lodge Representative Richard Suarez. At this time, Ms. Anderson, informed Mr. Suarez that the City would be continuing the meet and confer process to continue the contract and would review the issue of adding some Security Services Officer (SSO) positions as part of the FY 21 budget development process.

Changes in Contract Services

Since the June 18, 2019 report, there have been several changes to the services provided by the contractor:

- Security guard services have been added to the Central Facilities Center at King Park;
- The FY 20 budget includes new funding for contracted security guard services at four branch libraries: Alamitos, Bay Shore, Brewitt, and Harte; and,
- Responsibility for security at Long Beach Community Hospital transferred to Molina, Wu, Network, LLC, effective November 2019.

With the above changes, it was necessary to revise the original City cost estimate and comparative analysis. Using the same assumptions and cost development approach outlined in the June 18, 2019 report and updated personnel rates for FY 20, the estimated cost to provide the amended services with City employees is \$2,049,094 (Attachment B). The total annual cost to contract for the same services with GSSi is \$909,000. The cost to provide the services with City employees is more than twice the costs of contracting for services (2.25 times).

There are several issues for the City Council to consider pertaining to bringing the contracted security guard services "in house." They are as follows:

1. The services currently provided by contractor were never provided by City employees. Additionally, Prop L findings (ordinances) were made for security guard services contracts in 2001 and 2006, both establishing that "the work or service proposed to be contracted out for can be performed by a private contractor as efficiently, effectively, and at an estimated lower cost to the City than if said work or services were performed by City employees."
2. The additional funding to provide the services with City employees was not contemplated in the Adopted FY 20 Budget. If all services provided through the contract were performed by City employees, funding in the estimated amount of \$1,140,094 would need to be found.
3. The use of contractual services provides a level of staffing flexibility to meet needs that would not be available with City employees. This flexibility includes the ability to add or delete facilities and/or change staffing schedules (where security services are not provided by City employees), and not having to provide replacement/ substitute staff to cover employee vacations, illness, training, etc.

4. To provide the scheduled services with City employees would require the creation of 11.5 FTE of new full-time positions, 4.1 FTE of new permanent part-time positions, and 2.38 FTE of new non-career hours.

Next Steps and Recommendation

Given the timing necessity to renew the contract to ensure the safety of employees and residents at City facilities currently serviced by GSSi, the Acting City Manager intends to bring the contract back to the City Council in March 2020, prior to the expiration of the current purchasing authority, to seek further direction from the City Council on how to proceed given the analysis, fiscal impact, and the contract for services. With the known budgetary shortfalls for FY 21 and subsequent years, it is recommended that the City Council consider the matter of bringing some, or all, of the contracted security guard services "in-house" in the context of the FY 21 budget preparation process along with other budget priorities. At that time, if a decision is made to proceed with bringing these services in-house, it could take six months or longer to hire and train new City employees. This being the case, it would still be necessary to contract for security guard services for some period of time to assure a continuation of service.

Date: June 18, 2019
To: Mayor and Members of the City Council
For: Patrick H. West, City Manager *T.M.L.*
Subject: **Security Guard Services – Proposition “L” analysis**

At its February 19, 2019 meeting, the City Council was requested to adopt Specifications No. ITB LB18-123 (Specifications) and award a two-year contract to GSSi, Inc., dba General Security Service, of Wilmington, CA, for providing security guard services to City facilities where such services were already in place and to facilities where no security services were in place, including on an “as needed” basis. The City Council requested a Proposition “L” analysis for these services and approved a six-month contract with GSSi, Inc., while that analysis was being completed.

The attached report provides that analysis. Since City employees have never provided security guard services at these facilities, the analysis makes reasonable assumptions as to how these services would be provided by City employees. The analysis is conservative in that it likely somewhat understates actual City costs. The estimated annual costs using City employees to provide security guard services in the Specifications is \$2,116,650. The total cost to providing the same service by way of the GSSi, Inc. contract is \$909,000. To provide the service using City staff would be a 133 percent premium (2 1/3 times the cost of providing it by contractor). The level of service would be approximately the same, although the private security guard services have the advantage of great scheduling flexibility and efficiency that maximizes security coverage and provides the best financial efficiency. This level of savings is consistent with previous Proposition “L” findings for security guard services in both 2001 and 2006.

Human Resources Department Labor Relations staff will meet with representatives of the International Association of Machinists (IAM) in response to their request to “meet and confer” on this matter.

Given the findings of the analysis, I will be recommending the City Council approve a multi-year contract for security guard services with GSSi, Inc.

Security Guard Services

Proposition "L" Analysis: Contractor-Provided Security Guard Services Based on GSSi, Inc. Contract Approved on February 19, 2019

This is a City Council requested update of a Propositions L analysis of Security Guard services. A Proposition L analysis for Security Guard services was done in 2001 and again in 2006. This update is based on the costs and service levels identified in the approved February 19, 2019 contract with GSSi, Inc. (see Attachment A).

BACKGROUND

Proposition "L"

In 1979, the electorate passed a ballot measure known as Proposition "L" which added Section 1806 to the City Charter. That Charter section permits the City Council, after certain findings, to adopt an ordinance by a 2/3 vote as a precondition to authorizing contracts with private contractors for the performance of work or services usually performed by employees of the City. The ordinance must determine, supported by findings, that the work or service proposed to be contracted out for can be performed by a private contractor as efficiently, effectively, and at an estimated lower cost to the City than if said work or services were performed by City employees. In addition, the ordinance must indicate that it has been determined that the proposed contract for work or services will not be detrimental to the best interest of the citizens of the City.

Previous Security Guard Services Proposition L Findings

Proposition "L" findings (ordinances) were made for security guard services contracts in 2001 and 2006. These findings showed that the specified services, if provided by City employees, would be 137 percent and 147 percent more expensive, respectively, than if provided by the contractor. (City employee-provided services would be more than double the cost of contractor-provided services.) The contracts for security guard services approved by the City Council in 2011 and 2014 were based on Proposition "L" findings from 2001 and 2006.

At no time have City employees provided security guard services at any of the sites contained in the contracts prior to their award. Additionally, the contracts allowed for the addition and deletion of sites as required by the City.

Special Services Officers

The City job classification for employees providing non-Police security and safety services is Special Service Officer (SSO). There are four grades of the SSO classification, I-IV:

Grade Level I	Performs routine guard work at a desk or in buildings or areas which are either secured or where the frequency of public contact is practically nil - OR - performs various duties in the Police Department including the supervision of Trustees on outside work details. <u>Note:</u> There are no SSO I positions currently budgeted in any department as employees are automatically upgraded to SSO II upon the successful completion of probation.
Grade Level II	Performs responsible patrol work occasionally requiring quick, independent decisions and where there is frequent public contact.
Grade Level III	Participates in the work of and serves as shift lead person over subordinates - OR - oversees the work and conduct of persons detained in custody.
Grade Level IV	Heads a bureau or department unit of security personnel - OR - supervises subordinates engaged in overseeing the work and conduct of persons detained in custody.

SSOs are used in a variety of capacities across the City organization, all playing very important roles in the security and safety of the City's assets, its workforce, and its patrons. A summary of SSO assignments is provided below.

Police Department

The are 122 full-time SSOs budgeted in the Police Department (including those to be transferred from the Long Beach Airport). Employees in these positions may be assigned to one of the following operations:

- **Jail:** Ensures inmate safety and facility security. Conducts searches, classification assessment, inmate medical screening, fingerprinting and DNA collection if applicable, performs inspections\security checks of the jail and Civic Center, supervises all inmate movement, monitors electronic audio and video surveillance equipment, transports inmates to medical and county facilities, escorts inmates to court and provides courtroom security, prepares written reports, log entries, and incidents reports.
- **Marine Patrol:** Assists the public in person or by telephone; maintains control and preserves the security of the City's marinas and beaches; enforces rules, regulations and laws within the marina areas; booking of arrested persons; patrol area in marked city vehicles; and provide community-based policing.
- **Long Beach Airport:** In the FY 2019 Budget, 27 SSOs were transferred from the Airport to the Police Department to integrate all security operations at the Airport under the Police Department. The actual transition of staff is currently underway. Airport SSOs are first responders to all public safety and security incidents at the Airport. The primary mission of the Security Division is to support the Transportation Security Administration (TSA) with counter-terrorism efforts.
- **Long Beach City College:** Responsible for the security of campuses, its faculty and students by patrolling the grounds on foot, bicycle, Segway and/or in a city vehicle. Escorts students, faculty and other employees; responds to suspicious activity, emergency situations, property damage and unlawful activity on District property; responds to calls for service involving thefts, disturbances, vandalism and malicious mischief; provide first aid as needed.

- **Civic Center Security:** Responsible for the security of the Civic Center and safety of its staff and visitors. Provides building security and screening of visitors attending City Council meetings. Responds to suspicious activity, emergency situations, property damage, and unlawful activity on the premises; responds to calls for service involving disturbances and vandalism.

Harbor

There are 65 full-time SSOs budgeted in the Harbor Department. Employees in these positions are assigned to the Harbor Patrol. Duties include the enforcement of designated sections of the California Penal and Vehicle Codes, the Long Beach Municipal Code and the Port of Long Beach Tariff/Ordinances.

Long Beach Airport

In the FY 2019 Budget, 27 SSOs were transferred from the Airport to the Police Department to integrate all security operations at the Airport under the Police Department. The actual transition of staff is currently in process. Five (5) full-time SSOs remain budgeted in the Airport Department. Duties currently include dispatch, recording calls for service in CAD, and staffing the Airport's access control and perimeter security systems.

Public Works

There are 22 full-time SSOs budgeted in the Public Works Department, Parking Enforcement Division. However, these positions are the residual of the transfer of citywide parking enforcement from the Police Department to the Public Works Department. These positions are now cross-filled with employees in the Parking Control Checker II classification.

COST ANALYSIS

Pursuant to the City Council's request, staff has endeavored to prepare a comparative cost analysis of the services contained in Specifications No. ITB LB18-123 (Specifications). The adoption of a new ordinance is not required to award a new contract for security services.

This cost comparison for a Proposition L analysis for the 2019 GSSi, Inc. contract used the scope of work identified in the associated RFP and developed a staffing model that could provide those services with City employees. This needed to be done because the City is not currently providing these services, so an existing staffing model could not be used. The model likely understates City costs a bit because it assumes the use of less expensive non-career (NC) employees where less than full-time work is done. While this is reasonable, it is not clear that such a model is practical over the long-term, and a more expensive model may, in fact, be used. However, even with this lower cost model, services provided by City employees would be significantly more expensive than contractor-provided services.

Comparison Considerations

There are several key factors that need to be considered when making a comparison between contractor-provided services and City employee-provided services. They are as follows:

- The services provided by the contractor are based on a set number of work hours (schedule) specified for each site/facility. A contractor's employee will be on site every work hour specified. In short, every paid hour is a work hour. The contractor's remuneration is based on the actual number of work hours that are provided to the City.
- A full-time City employee is paid for 2,088 hours per year, but will not work that many hours as he/she has the benefit of paid time off (vacation, sick leave, holidays, etc.). Thus, when making a comparison based on a set time schedule, every hour the employee does not work, must be backfilled by another employee. For example: If an employee uses 10 vacation days, takes 8 sick days, and gets 13 paid holidays, he/she is only working 1,840 hours per year, or an average of 35 hours per week. Thus, for a comparison based on a set time schedule, another employee must provide the hours not provided by the primary employee, and the costs of those additional hours must be included in the analysis.
- The contractor's billable hourly rate will include a factor for supervision. As such, a factor for supervision should also be included in the City's costs. Similarly, the contractor's billable hourly rate will include account for materials, supplies, and equipment needed by the contractor's employees. The City's costs should also include these.

Contractor Pricing

The Specifications requested pricing and qualifications for both regular, scheduled services at 10 sites and as-needed services. Bidders were asked to provide hourly rates for specified hours of services. GSSi, Inc. (Contractor) was deemed to the lowest responsible bidder. (This company is the current provider of security guard services.) On February 19, 2019, staff recommended a contract be awarded in the annual amount of \$909,000. This amount was based on requests from departments needing regular, scheduled services and/or as-needed services. The chart below identifies the total hours specified, the Contractor's hourly rates, and the total cost for each category of service.

Categories of Service	Total Hours	Hourly Rate	Total Cost
Regular, Scheduled Services: Non-Holidays (8 sites)	37,909	\$18.79	\$712,310
Regular, Scheduled Services: Non-Holidays (2 sites)	602	23.26	14,003
Regular, Scheduled Services: Holidays (8 sites)	432	28.19	12,178
Regular, Scheduled Services: Holidays (2 sites)	126	33.26	4,191
As-Needed Services: Non-Holidays*	8,851	18.79	166,310
TOTAL	47,920	--	\$909,000
* As-needed hours were estimated based on the remaining contract authority after regular, scheduled service hours were accounted for. The actual number and type of hours provided may differ. An estimate was needed for comparison purposes.			

Building a City Staffing Model

The Contractor provided the City with a staffing plan for the sites contained in the proposed contract that require regular, scheduled service (not including as-needed services). This staffing plan provides for as many full-time positions as possible, and, as such, it was used as the basis for the City's staffing model (see Attachment B).

A conceptual staffing model requires that certain assumptions be made. They are as follows:

- When a regular weekly work schedule totals 40 or more hours per week, a full-time employee will perform the work.
- When a regular weekly work schedule totals 30 to 39 hours per week, a "permanent, part-time" employee will perform the work.
- When two employees are on the same shift, they will stagger meal and rest breaks and coverage drops to one during those times.
- When security guard services at a given site are provided by a single employee, the employee will not leave the site during meal and rest breaks, but will be available to respond, if needed.
- Hours needed beyond those worked by full-time or "permanent, part-time" employees will be provided by non-career (part-time) employees.
- Work hours not provided by full-time or "permanent, part-time" employees on paid leave (VA, SL, HO) will be provided by non-career (part-time) employees, except holidays when facilities are closed.
- Costs are based on Step III of the SSO II classification. The costs were taken from the FY 2019 Budget. The chart below identifies the costs for 1 FTE of a full-time SSO and 1 FTE (2,088 work hours) of a part-time, non-career SSO.

SSO II, Step III	Salary	Benefits	Total	Loaded Hourly Cost
Full-Time (Avg.)	\$47,806	\$34,145	\$81,951	\$39.25
Part-Time, Non-Career (Avg.)	\$46,766	\$7,039	\$53,805	\$25.77

- Average annual work hours for full-time SSO II employees are based on the class average for all SSO IIs for 2018, which is 1,788.
- All as-needed services will be provided by non-career (part-time) employees.
- Supervision is calculated at a ratio of 1 supervisor to 10-12 employees. Supervision will be provided by the SSO IV classification (Step III).

Regular, Scheduled Services

The following would be required to meet the staffing requirements for regular, scheduled services:

Classification	FTEs	Comments
Special Services Officer II, Full-time	15.00	1,053 overtime (OT) hours would also be required.
Special Services Officer II, Perm./Part-time	3.18	1@ 31 hrs/wk; 3 @ 32 hrs/wk
Special Services Officer II, NC, Scheduled Hours	0.85	1,768 hours
Special Services Officer II, NC, Backfill Hours	1.99	4,145 hours
Special Services Officer IV, Full-time, Supervisor	2.00	
Total	23.02	

As-Needed Services

The following would be required to meet the staffing requirements for as-needed services:

Classification	FTEs	Comments
Special Services Officer II, NC, As-Needed Hours	4.24	8,851 hours
Total	4.24	

City Costs

Provided below are the estimated annual costs for City employees to provide security guard services based on the aforementioned assumptions.

Personal Services Costs	FTE	Salary	Benefits & WC	Total
Special Services Officer II, Full-time	15.00	\$717,094	\$512,175	\$1,229,269
Special Services Officer II, Perm./Part-time (31/wk)	0.78	36,607	21,902	58,509
Special Services Officer II, Perm./Part-time (32/wk)	2.40	112,638	67,389	180,027
Special Services Officer II, NC (Scheduled & Backfill)	2.84	132,815	19,992	152,808
Special Services Officer II, NC (As-Needed Services)	4.24	198,288	29,848	228,136
Special Services Officer IV, Full-time, Supervisor	2.00	121,335	77,874	199,209
Special Services Officer II – Overtime Hours (1,053)	–	35,507	1,895	37,402
Total Personal Services	27.26	\$1,354,284	\$731,075	\$2,085,359

Non-Personal & Internal Services Costs	No.	Unit Cost	Total
Uniforms, Boots, Gear (FT, PPT, NC)	25	\$2,489	\$62,225
Handheld Radios	17	950	16,150
Vehicles (Supervisors)	2	8,208	16,416
Total Non-Personal & Internal Services Costs			\$80,291

TOTAL ANNUAL CITY COSTS	\$2,116,650
--------------------------------	--------------------

It should be noted that there would also be some one-time costs if City employees were to provide the specified services. These costs, which are identified below, are not included in the Total Annual City Costs. While these are "one-time" costs, training costs, would need to be periodically repeated.

One-Time Costs	No.	Unit Cost	Total
Pre-Employment Investigations	25	\$1,900	\$47,500
Training	25	2,954	73,850
Handheld Radios - Initial Acquisition	17	3,000	51,000
Vehicles – Initial Acquisition	2	31,156	62,312
Total One-Time Costs			\$234,662

Cost Comparison Results

The estimated annual costs to provide security guard services with City employees based on the GSSI, Inc. contract is \$2,116,650. The total annual cost to contract out for the same services is \$909,000. The city cost is 138 percent higher or much more than twice the cost of contracting out (2.38 times). This cost premium for using City employee-provided services is consistent with the Proposition "L" findings (Ordinances) for security guard services contracts in 2001 and 2006.

CONCLUSION

The use of contracted-out security guard services for the locations and functions described in the GSSI, Inc. contract is significantly less expensive and provides comparable services than could be provided by City employees in the SSO classification, the classification best suited for security guard services. In addition, the use of contractual services provides a level of flexibility to meet needs that would not be available with City employees.

Revised Cost Estimate to Provide Security Guard Services with City Employees

Using the same assumptions and cost development approach outlined in the June 18, 2019 report, and updated personnel rates for FY 20, the estimated cost to provide the amended services with City employees is as follows:

Personal Services Costs	FTE	Salary	Benefits & WC	Total
Special Services Officer II, Full-time	10.00	478,063	350,480	828,543
Special Services Officer II, Perm./Part-time (32/wk)	0.80	37,546	23,819	61,365
Special Services Officer II, Perm./Part-time (31/wk)	0.78	36,607	23,224	59,831
Special Services Officer II, Perm./Part-time (25/wk)	2.50	117,332	74,436	191,768
Special Services Officer II, NC (Scheduled & Backfill)	2.38	111,303	22,084	133,387
Special Services Officer II, NC (As-Needed Services)	8.88	415,282	82,398	497,680
Special Services Officer IV, Full-time, Supervisor	1.50	91,001	60,281	151,282
Special Services Officer II – Overtime Hours (1,053)	–	35,507	1,895	37,402
Total Personal Services	26.12	\$1,322,641	\$638,616	\$1,961,257

Non-Personal & Internal Services Costs	No.	Unit Cost	Total
Uniforms, Boots, Gear (FT, PPT, NC)	25	\$2,489	\$62,225
Handheld Radios	14	950	13,300
Vehicles (Supervisors)	1.5	8,208	12,312
Total Non-Personal & Internal Services Costs			\$87,837

TOTAL ANNUAL CITY COSTS	\$2,049,094
--------------------------------	--------------------

It should be noted that there would also be some one-time costs if City employees were to provide the specified services. These costs, which are identified below, are not included in the Total Annual City Costs. While these are “one-time” costs, training costs, would need to be periodically repeated.

One-Time Costs	No.	Unit Cost	Total
Pre-Employment Investigations	25	\$1,900	\$47,500
Training	25	2,954	73,850
Handheld Radios - Initial Acquisition	17	3,000	51,000
Vehicles – Initial Acquisition	2	31,156	62,312
Total One-Time Costs			\$234,662
