Subject: Do NOT Support Completion of the 710

---

Dear Long Beach City Council,

This message is to urge you to NOT support 'completion' of the 710. This proposal will have a severe and negative impact to Los Angeles. It will bring more trucks to our neighborhoods, and increase traffic and pollution.

There are better options. Instead of continuing to promote freeways, let's put cargo from the ports on rail at the ports and transfer goods in and out of our city in a clean and cost-effective manner. This would be an investment in our future, both for our business community and the health of our citizens.

Sarah Gavit and Andre de Salis
