

This petition is to serve as the opposition to the Mayor's budget cutting proposal to close Silverado Pool for nine months each year.

The undersigned agree that Silverado Pool should remain open all year long as it provides an invaluable venue to the community.

Silverado Pool is designated as the City's *therapeutic* pool, providing community members that are recovering from surgery, following through with therapy, are disabled, simply aging, and those dealing with aches and pains a place to improve his or her physical condition (there is also a blind participant in the water aerobics program who takes a taxi to the pool 4 times each week).

It is paramount that this pool is open year round to provide this vital opportunity to Long Beach residents who are working toward improving his or her quality of life.

A pool that is open year-round allows the community to commit to a healthy life style as opposed to a summer past-time.

This petition is to serve as the opposition to the Mayor's budget cutting proposal to close Silverado Pool for nine months each year.

The undersigned agree that Silverado Pool should remain open all year long as it provides an invaluable venue to the community.

Silverado Pool is designated as the City's therapeutic pool, providing community members that are recovering from surgery, following through with therapy, are disabled, simply aging, and those dealing with aches and pains a place to improve his or her physical condition.

It is paramount that this pool is open year round to provide this vital opportunity to Long Beach residents who are working toward improving his or her quality of life.

A pool that is open year-round allows the community to commit to a healthy life style as opposed to a summer past-time.

### PETITION TO KEEP SILVERADO POOL OPEN ALL YEAR
