INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this document, the prospective recipient of Federal assistance funds is providing the certification as set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective recipient of Federal assistance funds knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective recipient of Federal assistance funds shall provide immediate written notice to the person to which this agreement is entered, if at any time the prospective recipient of Federal assistance funds learns that its certification was erroneous, when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549.
5. The prospective recipient of Federal assistance funds agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective recipient of Federal assistance funds further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Procurement or Non-Procurement Programs.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under Paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Part V: Application and Submission Subpart E Funding Restrictions

D. Intergovernmental Review

Executive Order 12372 requires applicants from State and local units of government or other organizations providing services within a State to submit a copy of the application to the State Single Point of Contact (SPOC), if one exists, and if this program has been selected for review by the State. Applicants must contact their State SPOC to determine if the program has been selected for State review. Executive Order 12372 can be referenced at <http://www.archives.gov/federal-register/codification/executive-order/12372.html>. The names and addresses of the SPOCs are listed on OMB's home page available at: <http://www.whitehouse.gov/omb/grants/spoc.html>.

E. Funding Restrictions

The applicable SAAs will be responsible for administration of the FY 2009 HSGP. In administering the program, the SAA must work with the eligible applicants to comply with the following general requirements:

1. **HSGP Priorities Threshold.** As noted before, FY 2009 HSGP will focus on six objectives as its highest priorities, of which at least 25 percent of HSGP funds must be dedicated to **Strengthening Preparedness Planning**.
2. **Law Enforcement Terrorism Prevention.** Per the 9/11 Act and *Consolidated Security, Disaster Assistance, and Continuing Appropriations Act of 2009* (Public Law 110-329), FY 2009 HSGP will not contain a separate line-item Law Enforcement Terrorism Prevention Program (LETPP). However, States are still required to ensure that at least 25 percent of their SHSP award funds and 25 percent of their UASI award funds are dedicated towards law enforcement terrorism prevention-oriented planning, organization, training, exercise, and equipment activities.
3. **Management and Administration (M&A) Limits.** A maximum of up to three percent (3%) of funds awarded may be retained by the State, and any funds retained are to be used solely for management and administrative purposes associated with the HSGP award. States may pass through a portion of the State M&A allocation to local subgrantees to support local management and administration activities; the overall subgrantee M&A amount may not equal more than three percent (3%).
4. **Allowable Costs.** A crosswalk of allowable costs across the HSGP programs can be found in Part VIII of this Guidance package, along with additional detail on Planning, Equipment, Training, and Exercises costs. The following pages outline global allowable costs guidance applicable to all programs included in the HSGP. Allowable Investments made in support of the HSGP Priorities as well as other capability-enhancing projects must fall into the categories of Planning, Organization, Equipment, Training, or Exercises. Additional detail about each of these allowable expense categories, as well as sections on additional activities including explicitly unallowable costs is provided. In general, grantees should consult their FEMA

Program Analyst prior to making any Investment that does not clearly meet the allowable expense criteria established by the guidance.

Planning Activities

States and Urban Areas are strongly encouraged to use FY 2009 HSGP funds for planning efforts that enable them to prioritize needs, build capabilities, update preparedness strategies, allocate resources, and deliver preparedness programs across disciplines (e.g., law enforcement, fire, emergency medical service (EMS), public health, behavioral health, public works, agriculture, and information technology) and levels of government. Planning activities should focus on the four homeland security mission areas of prevention, protection, response, and recovery. All jurisdictions are encouraged to work through Citizen Corps Councils, nongovernmental entities, and the general public in planning activities.³

Organizational Activities (SHSP and UASI only)

Section 2008 of the Homeland Security Act, as amended by the 9/11 Act, includes the following allowable activities:

- Responding to an increase in the threat level under the Homeland Security Advisory System, or needs resulting from a National Special Security Event
- Establishing, enhancing, and staffing State, local, and regional fusion centers
- Paying salaries and benefits for personnel to serve as qualified intelligence analysts

States and Urban Areas must justify proposed expenditures of SHSP or UASI funds to support organization activities within their Investment Justification submission by using historical data or other analysis.⁴ All States are allowed to utilize up to 50 percent of their FY 2009 SHSP funding and all Urban Areas are allowed up to 50 percent of their FY 2009 UASI funding for Organizational activities⁵. At the request of a recipient of a grant, the Administrator may grant a waiver of the limitation noted above (50 percent).

- **Overtime Costs** – Overtime costs are allowable for personnel to participate in information, investigative, and intelligence sharing activities specifically related to homeland security and specifically requested by a Federal agency. Allowable costs are limited to overtime associated with Federally requested participation in eligible fusion activities including anti-terrorism task forces, Joint Terrorism Task Forces (JTTFs), Area Maritime Security Committees (as required by the Maritime Transportation Security Act of 2002), DHS Border Enforcement Security Task

³ Nongovernmental entities include the private sector and private nonprofit, faith-based, community, volunteer and other nongovernmental organizations.

⁴ The effectiveness of a request for the use of funds for allowable organizational costs will be judged on the Investment Justification to illustrate the need for such resources to effectively achieve a capability that will have a meaningful impact in the reduction of risk.

⁵ Note: Both organizational costs (e.g., intel analysts, operational overtime) and planning, equipment, training, exercise personnel costs are applied towards the 50 percent personnel cap.

Forces, and Integrated Border Enforcement Teams. Tribes must submit to DHS a written letter from a Federal agency which explicitly requests tribal staff participation in an eligible activity or illustrates how the activities support the roles and responsibilities of fusion centers as noted in Appendix 1 of the National Strategy for Information Sharing and provides an estimate of the size of the request in man-hours. Grant funding can only be used in proportion to the Federal man-hour estimate, and only after funding for these activities from other Federal sources (i.e. FBI JTTF payments to State and local agencies) has been exhausted. Under no circumstances should DHS grant funding be used to pay for costs already supported by funding from another Federal source.

- **Intelligence Analysts** – Per the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act* (Public Law 110-412), SHSP and UASI funds may be used to hire new staff and/or contractor positions to serve as intelligence analysts to enable information/intelligence sharing capabilities, as well as support existing intelligence analysts previously covered by SHSP or UASI funding. In order to be hired as an intelligence analyst, staff and/or contractor personnel must meet at least one of the following criteria:
 - Successfully complete training to ensure baseline proficiency in *intelligence analysis and production* within six months of being hired; and/or,
 - Previously served as an intelligence analyst for a minimum of two years either in a Federal intelligence agency, the military, or State and/or local law enforcement intelligence unit

All intelligence analyst training should be in accordance with Global's *Minimum Criminal Intelligence Training Standards for Law Enforcement and Other Criminal Justice Agencies in the United States*, which outlines the minimum categories of training needed for intelligence analysts. These include subject-matter expertise, analytic methodologies, customer-service ethics, information handling and processing skills, critical thinking skills, computer literacy, and objectivity and intellectual honesty. A certificate of completion of such training must be on file with the tribe and must be made available to FEMA Program Analysts upon request.

- **Operational Overtime Costs.** In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism, operational overtime costs are allowable for increased security measures at critical infrastructure sites during DHS-declared periods of Orange or Red threat levels. Subject to these elevated threat level conditions, FY 2009 SHSP or UASI funds for organizational costs may be used to support select operational expenses associated with increased security measures at critical infrastructure sites in the following authorized categories:

- Backfill and overtime expenses (as defined in this guidance) for staffing State or local fusion centers
- Hiring of contracted security for critical infrastructure sites
- Public safety overtime (as defined in this guidance)
- National Guard deployments to protect critical infrastructure sites, including all resources that are part of the standard National Guard deployment package
- Increased border security activities in coordination with US Customs and Border Protection (CBP), as outlined in Information Bulletin #135

Consumable costs, such as fuel expenses, are **not allowed** except as part of the standard National Guard deployment package.

Note: States with UASI jurisdictions can use funds retained at the State level to reimburse eligible operational overtime expenses incurred by the State (per the above guidance limitations and up to a maximum of 50 percent of the State share of the UASI grant). Any UASI funds retained by the State must be used in **direct** support of the Urban Area. States must provide documentation to the UAWG and FEMA upon request demonstrating how any UASI funds retained by the State would directly support the Urban Area.

Equipment Activities

The 21 allowable prevention, protection, response, and recovery equipment categories and equipment standards for FY 2009 HSGP are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), at <https://www.rkb.us>. The Standardized Equipment List (SEL) is located on this site as well. In some cases, items on the SEL are not allowable under HSGP or will not be eligible for purchase unless specific conditions are met.

Unless otherwise stated, equipment must meet all mandatory regulatory and/or DHS-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

Training Activities

States, territories, and Urban Areas are strongly encouraged to use HSGP funds to develop a State/territory homeland security training program. Allowable training-related costs under HSGP include the establishment, support, conduct, and attendance of training specifically identified under the SHSP, UASI, MMRS, and CCP grant programs. Allowable training topics include, but are not limited to, CBRNE terrorism, cyber/agriculture/food security, intelligence gathering and analysis, NIMS related training, citizen and community preparedness, and training for volunteers.

Training conducted using HSGP funds should address a performance gap identified through an After Action Report/Improvement Plan (AAR/IP) or contribute to building

a capability that will be evaluated through an exercise. Exercises should be used to provide the opportunity to demonstrate and validate skills learned in training, as well as to identify training gaps. Any training or training gaps should be identified in the AAR/IP and addressed in the State or Urban Area training cycle. All training and exercises conducted with HSGP funds should support the development and testing of the jurisdiction's Emergency Operations Plan (EOP) or specific annexes, where applicable.

Exercise Activities

Exercises conducted with FEMA support must be managed and executed in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP). HSEEP Volumes One, Two, and Three contain guidance for exercise design, development, conduct, evaluation, and improvement planning. HSEEP Volume Four provides sample exercise materials, and HSEEP Volume Five: Prevention Exercises contains guidance and recommendations for designing, developing, conducting, and evaluating prevention-focused exercises. All volumes can be found at <http://hseep.dhs.gov>.

All exercises using HSGP funding must be NIMS compliant. More information is available online at the NIMS Integration Center, <http://www.fema.gov/emergency/nims/index.shtm>.

All Urban Areas are required to develop a Multi-year Training and Exercise Plan and submit it to FEMA on an annual basis. This plan must tie into the Multi-year Training and Exercise Plan developed by the State and aligns with the Urban Area Homeland Security Strategy. Further, Urban Areas are encouraged to develop a Multi-year Plan and Schedule that takes into consideration anticipated training needs of the Urban Area for at least the immediate year, with exercises being timed to provide responders the opportunity to utilize training received. Further guidance concerning Training and Exercise Plan Workshops can be found in the HSEEP Volumes.

Urban Areas are eligible to apply for exercise direct support, but must do so in coordination with the SAA. Direct support exercises provided to Urban Areas will count against the amount of direct support allotted to the State for FY 2009.

Personnel Activities

Personnel hiring, overtime, and backfill expenses are permitted under this grant in order to perform allowable FY 2009 HSGP planning, training, exercise, and equipment activities.

- A personnel cap of up to 50 percent of total program funds may be used for personnel and personnel-related activities as directed by the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act* (Public Law 110-412). Grantees who wish to seek a waiver from the personnel cap must provide documentation explaining why the cap is unacceptable; waiver requests will be considered only under extreme

circumstances. In general, the use of HSGP grant funding to pay for staff and/or contractor regular time or overtime/backfill is considered a personnel cost. Activities that are considered “personnel” and “personnel-related”, and therefore count against the personnel cap of 50 percent include, but are not limited to:

- Operational overtime
- Overtime/backfill to participate in approved training or exercise deliveries
- Salaries and personnel costs of intelligence analysts
- Overtime to participate in intelligence sharing activities
- Salaries and personnel costs of planners, equipment managers, exercise coordinators, and/or training coordinators
- Salaries and personnel costs under the M&A category
- Contractor costs associated with performing the above activities

These activities are also subject to the funding and eligibility requirements detailed under the allowable cost categories. For further details, SAAs should contact their FEMA GPD Program Analyst.

- Neither MMRS nor CCP have a personnel cap.
- For MMRS, hiring, overtime, backfill and professional development expenses are allowable only for dedicated MMRS Leadership personnel to perform programmatic activities and that are deemed allowable under existing guidance. Supplanting, however, is not allowed.

FY 2009 HSGP funds may not be used to support the hiring of any personnel for the purposes of fulfilling traditional public health and safety duties or to supplant traditional public health and safety positions and responsibilities.

The following are definitions for the terms as used in this grant guidance:

- **Hiring** – State and local entities may use grant funding to cover the salary of newly hired personnel who are exclusively undertaking allowable FEMA program activities as specified in this guidance. This may not include new personnel who are hired to fulfill any non-FEMA program activities under any circumstances. Hiring will always result in a net increase of FTEs.
- **Overtime** – These expenses are limited to the additional costs which result from personnel working over and above 40 hours of weekly work time as a direct result of their performance of FEMA-approved activities specified in this guidance. Overtime associated with any other activity is not eligible.
- **Backfill-related Overtime** – Also called “Overtime as Backfill,” these expenses are limited to overtime costs which result from personnel who are working overtime (as identified above) to perform the duties of other personnel who are temporarily assigned to FEMA-approved activities outside their core responsibilities. Neither overtime nor backfill expenses are the result of an increase of Full-Time Equivalent (FTE) employees.

- **Supplanting** – Grant funds will be used to supplement existing funds, and will not replace (supplant) funds that have been appropriated for the same purpose. Applicants or grantees may be required to supply documentation certifying that a reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds.

Construction and Renovation

Use of HSGP funds for construction and renovation is generally prohibited except as outlined below. Such construction and renovation shall be strictly limited and allowable only when it is a necessary component of a security system at critical infrastructure facilities. CCP and MMRS funds may not be used for any type of construction or renovation.

Project construction and renovation not exceeding \$1,000,000 is allowable, as deemed necessary. The following types of projects are considered to constitute construction or renovation, and must be submitted to FEMA for compliance review under Federal environmental planning and historic preservation (EHP) laws and requirements prior to initiation of the project:

- Construction and renovation of guard facilities
- Renovation of and modifications, including the installation of security and communication equipment, to buildings and structures that are 50 years old or older
- Any other construction or renovation efforts that change or expand the footprint of a facility or structure, including security enhancements to improve perimeter security.
- Physical security enhancements, including but not limited to:
 - Lighting
 - Fencing
 - Closed-circuit television (CCTV) systems
 - Motion detection systems
 - Barriers, doors, gates and related security enhancements

In addition, the erection of communications towers that are included in a jurisdiction's interoperable communications plan is allowed, subject to all applicable laws, regulations, and licensing provisions. Communication tower projects must be submitted to FEMA for EHP review. Per the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act of 2009 (Public Law 110-329), communications towers are not subject to the \$1,000,000 construction and renovation cap.

In order to draw down funds for construction and renovation costs under HSGP, grantees must provide to FEMA:

- A description of the asset or facility, asset location, whether the infrastructure is publicly or privately owned, and the construction or renovation project

- Certification that a facility vulnerability assessment has been conducted
- An outline addressing how the construction or renovation project will address the identified vulnerabilities from the assessment
- Consequences of not implementing the construction or renovation project
- Any additional information requested by FEMA to ensure compliance with Federal environmental and historic preservation requirements

Grantees should refer to FEMA's Information Bulletin #271, *Environmental and Planning and Historic Preservation Requirements for Grants*. Additional information may also be found on the FEMA's website located at <http://www.fema.gov/plan/ehp/>.

Law Enforcement Terrorism Prevention-Oriented Allowable Costs

Section 2006 of the Homeland Security Act, as amended by the 9/11 Act, includes the following allowable activities:

- Overtime expenses consistent with a State homeland security plan, including enhanced operations in support of federal agencies, including border security and border crossing enforcement;
- Establishing, enhancing and staffing State, local and regional fusion centers;
- Paying salaries and benefits for personnel to serve as qualified intelligence analysts;
- Any other terrorism prevention activity authorized by the Administrator
- Provisions from Section 2008 also apply

The broad parameters of the historical LETPP program are still allowable under SHSP and UASI. These include the following activities:

- Information sharing and analysis
- Target hardening
- Threat recognition
- Terrorist interdiction
- Subject to the limitations on Organization and Personnel Costs outlined above, overtime expenses consistent with a State Homeland Security Plan, including for the provision of enhanced law enforcement operations in support of Federal agencies, including for increased border security and border crossing enforcement
- Subject to the limitations on Organization and Personnel Costs outlined above, establishing, enhancing, and staffing State, local, and regional fusion centers with appropriately qualified personnel
- Subject to the limitations on Organization and Personnel Costs outlined above, paying salaries and benefits for personnel, including individuals employed by the grant recipient on the date of the relevant grant application, to serve as qualified intelligence analysts

Secure Identification

In addition to the expenditures outlined above, SHSP funds may be used to support the Department's efforts to enhance secure identification. Activities that facilitate secure identification, including IT enhancements for identification management and verification systems, are a priority. DHS is currently developing and implementing a number of high profile screening programs in which secure identification credentials figure prominently. These include the REAL ID program which aims to enhance the security, integrity and protection of licensing and identification systems across the country; the Transportation Worker Identification Credential (TWIC) program which promotes tamper-resistant biometric credentials for workers who require unescorted access to secure areas of ports, vessels, outer continental shelf facilities and all credentialed merchant mariners; and the credentialing of First Responders which entails enhancing real-time electronic authentication of identity and attribute(s) (qualification, certification, authorization, and/or privilege) of emergency response/critical government personnel responding to terrorist attacks or other catastrophic events.

REAL ID specific allowable activities include: planning activities related to REAL ID compliance, related personal identification verification systems enhancements; personnel and management costs related to REAL ID compliance activities; and acquisitions for hardware and software related to ensuring compatibility with REAL ID technologies.

As to TWIC, specific allowable activities include: projects that involve new installations or upgrades to access control and identity management systems that exhibit compliance with TWIC standards and program specifications.

As to credentialing of First Responders, specific allowable activities include: development of standards-based technologies, policies, protocols, and practices for portable and functional solutions to first responder identification issues.

Note: Secure Identification projects requested and funded under SHSP must directly support SHSP mission goals and cannot supplant projects/activities funded under the REAL ID Grant Program.

F. Other Submission Requirements

The FY 2009 Investment Justification for HSGP will be web-based. The Investment Justification will be completed by applicants using the Grants Reporting Tool (GRT). Once Investment Justifications are marked 'complete' in GRT by applicants, the SAA will then need to submit the final application through *grants.gov*.

Please allow enough time before (or no later than 11:59 PM EDT) March 20, 2009 to complete the Investment Justification in GRT and submit the required application materials in *grants.gov*.

MMRS Planning. The MMRS Leadership shall ensure that local strategic goals, objectives, operational capabilities, and resource requirements align with State and Urban Area Homeland Security Strategies. Critical factors in planning are to ensure that

- a. The MMRS Jurisdiction has an applicable and up to date plan for responding to a mass casualty incident caused by any hazards; and
- b. applicable procedures and operational guides to implement the response actions within the local plan.

CCP Planning. Integrating non-governmental entities into the planning process is critical to achieve comprehensive community preparedness. To meet this important objective, HSGP funds may be used to support the following:

- Establishing and sustaining bodies to serve as Citizen Corps Councils
- Assuring that State and local government homeland security strategies, policies, guidance, plans, and evaluations include a greater emphasis on government/non-governmental collaboration, citizen preparedness, and volunteer participation
- Developing and implementing a community preparedness strategy for the State/local jurisdiction
- Developing or reproducing public education and outreach materials to: increase citizen preparedness and knowledge of protective actions (to include the national Ready Campaign materials); promote training, exercise, and volunteer opportunities; and inform the public about emergency plans, evacuation routes, shelter locations, and public alerts/warnings.
 - All public education and outreach materials must include the national or jurisdiction's Citizen Corps logo, tagline or website or the Ready logo, tagline, or website and comply with logo standards. For more information go to <https://www.citizencorps.gov>. In addition, all public education and outreach materials should incorporate special needs considerations, to include language, content, and method of communication.
 - Allowable expenditures include:
 - Media campaigns: PSAs, camera-ready materials, website support, newsletters
 - Outreach activities and public events: booth displays; event backdrops or signs; displays and demonstrations; and informational materials such as brochures/flyers
 - Promotional materials: pens/pencils, pins, patches, magnets, souvenir clothing/headwear, etc. Expenditures for promotional items must not exceed 15 percent of the total Citizen Corps Program allocation (see CCP Equipment for information on equipment caps.)
- Establishing, enhancing or expanding volunteer programs and volunteer recruitment efforts.
 - Citizen support for emergency responders is critical through year-round volunteer programs and as surge capacity in disaster response. Citizen Corps funding may be used to establish, enhance or expand volunteer programs and volunteer recruitment efforts for Neighborhood Watch/USAonWatch, Community Emergency Response Teams (CERT), Volunteers in Police Service (VIPS), Medical Reserve Corps (MRC), and Fire Corps; for the Citizen Corps Affiliate Programs and Organizations; and for jurisdiction specific volunteer efforts.
 - Examples include:

- Recruiting, screening, and training volunteers (e.g. background checks)
 - Retaining, recognizing, and motivating volunteers (e.g. volunteer recognition items, such as certificates or plaques).
 - Purchasing, maintaining, or subscribing to a system to track volunteers (to include identification and credentialing systems, and to track volunteer hours) and other available resources in compliance with applicable privacy laws
 - Necessary non-structural accommodations to include persons with special needs (i.e. sign language interpreters)
 - Evaluating volunteers
- Organizational activities supported with CCP funding are limited to 25 percent of the grantee's CCP funding. Organizational activities include hiring of full- or part-time staff or contractors for emergency management activities.

Additional Equipment Information

MMRS Equipment. MMRS funds may be used for equipment acquisition from the MMRS equipment categories listed in the AEL. MMRS grant funds are intended to ensure an appropriate supply of pharmaceuticals and equipment, personal protective equipment, as well as detection equipment for chemical, biological, radiological nuclear and explosive incidents for the first crucial hours of a response to a mass casualty incident.

MMRS grant funds cannot be used to duplicate supplies already available through local and State sources, including local/regional public health offices and hospital associations, or other Federal programs.

Procurements should have a sound threat based justification with an aim to reduce the consequences of mass casualty incidents during the first crucial hours of a response.

Prior to procuring pharmaceuticals and equipment with MMRS grant funds, grantees must have in place an inventory management plan. The inventory management plan should avoid large periodic variations in supplies due to coinciding purchase and expiration dates. MMRS grantees are strongly encouraged to enter into rotational procurement agreements with vendors and distributors.

Purchases of pharmaceuticals have to include a budget for the disposal of expired drugs within the Period of Performance of the FY 2009 MMRS grant. The cost of disposal cannot be carried over to another FEMA grant or grant period.

CCP Equipment. States and Urban Areas are encouraged to fully leverage all HSGP resources for equipment to support volunteer personnel in preparedness

and response. All allowable equipment costs are listed in the AEL, available at <https://www.rkb.us>.

Any equipment purchased with CCP funding must be used for specific preparedness or volunteer training or by volunteers in carrying out their response functions. CCP funding is intended only to be used for specific preparedness or volunteer training or by trained volunteers in carrying out their response functions. Examples of equipment used to support training and exercises for citizens include items such as burn pans or sample preparedness kits.

Expenditures for kits used in volunteer response (e.g., CERT or MRC kits / backpacks) or clothing for official identification must not exceed 30 percent of the total Citizen Corps Program allocation. Clothing for official identification includes those items that volunteers are required to wear when engaging in public safety activities or disaster response (e.g., t-shirts for CERT members, baseball caps for Neighborhood Watch/USAonWatch Program foot patrol members).

Training Information and Requirements

1. **Training Information Reporting System ("Web-Forms").** Web-Forms is an electronic form/data management system built to assist the SAA and its designated State/territory TPOC with the reporting of State and Federal sponsored training supported by HSGP funds. Web-Forms can be accessed through the FEMA Toolkit located at <http://www.firstrespondertraining.gov/admin>.
2. **Types of training.** FEMA facilitates a number of different training sources:
 - **FEMA Provided Training:** These courses or programs are developed for and/or delivered by institutions and organizations funded directly by FEMA. This includes the Center for Domestic Preparedness (CDP), the National Domestic Preparedness Consortium (NDPC), the Rural Domestic Preparedness Consortium (RDPC), National Emergency Training Center (National Fire Academy and the Emergency Management Institute), and FEMA Training Partners funded through the Continuing and Demonstration Training grant programs.
 - **Training Not Provided by FEMA:** These courses are either State sponsored or Federal sponsored, coordinated and approved by the SAA or their designated Training Point of Contact (TPOC), and fall within the FEMA mission scope to prepare State and local personnel to prevent, protect against, respond to, and recover from acts of terrorism or catastrophic events.
 - **State Sponsored Courses:** These courses are developed for and/or delivered by institutions or organizations other than Federal entities or FEMA and are sponsored by the SAA or their designated TPOC.
 - **Approved State Sponsored Course Catalog:** This catalog lists State/territory sponsored courses that fall within the FEMA mission scope and have been approved through the FEMA course review and approval process. An updated

version of this catalog can be accessed at
http://www.firstrespondertraining.gov/odp_webforms.

- **Federal Sponsored Courses:** This catalog lists courses developed for and/or delivered by institutions funded by Federal entities other than FEMA.
- **Approved Federal Sponsored Course Catalog:** This catalog lists Federal-sponsored courses that fall within the FEMA mission scope, and have been approved through the FEMA course review and approval process. An updated version of this catalog can be accessed at
http://www.firstrespondertraining.gov/odp_webforms.

FEMA Provided Training. FEMA funds the direct delivery of a variety of courses that States can request to meet training needs. These courses are listed in the FEMA approved course catalog listed at http://www.firstrespondertraining.gov/odp_webforms.

Each FEMA Training Partner should contact the SAA or designated TPOC for locations within the State that are appropriate for the training. When the direct delivery funds are exhausted, the Training Partner can continue to offer the classes to the States through one of two methods—the Voluntary Training Enhancement Program (VTEP) or the Excess Delivery Acquisition Program (EDAP).

VTEP is a voluntary program designed to increase flexibility for States and territories while enhancing FEMA's training delivery capability and complementing the current training partner pool. Funding from previous fiscal years may be used to support a State, territory, or Urban Area's implementation of this program. Through VTEP, the SAA has the authority to adopt various TEI/TO provided programs for delivery by institutions within its State and local jurisdictions, and designate institutions as recognized providers for the identified standardized curriculum.

EDAP allows a FEMA Training Partner to charge for a course delivery when the Federal grant that developed the program is completed or more deliveries of a requested class are needed than the grant funds can accommodate. This cost per class is approved by FEMA so that States pay for the cost of instruction only, not the curriculum development costs that were paid by FEMA training grant funds. HSGP funds can be used to pay for the delivery of these classes within a State at the request of the SAA/TPOC.

Attending Training Not Provided by FEMA (State or Federal Sponsored Courses). States, territories, and Urban Areas are not required to request approval from FEMA for personnel to attend training not provided by FEMA (State or Federal-sponsored courses) provided that the training is coordinated with and approved by the SAA or TPOC and falls within the FEMA mission scope and the jurisdiction's EOP and Strategy of preparing State and local personnel or citizens to prevent, protect against, respond to, and recover from acts of terrorism or catastrophic events.

States, territories, and Urban Areas are required, within 30 days after attendance, to submit information through the SAA or TPOC via Web-Forms on all training not provided by FEMA, but supported with HSGP funds. This information will consist of

course title, course description, mission area, level of training, the training provider, the date of the course, the number and associated disciplines of the individuals, and the sponsoring jurisdiction. States, territories, and Urban Areas intending to use FEMA funds to support attendance at training not provided by FEMA must ensure these courses:

- Fall within the FEMA mission scope to prepare State and local personnel to prevent, protect against, respond to, and recover from acts of terrorism and catastrophic events
- Build additional capabilities that a) support a specific training need identified by the State, territory, and Urban Area, and b) comport with the State, territory, or Urban Area Homeland Security Strategy
- Address specific tasks and/or competencies articulated in FEMA's *Emergency Responder Guidelines* and the *Homeland Security Guidelines for Prevention and Deterrence*
- Address specific capabilities and related tasks articulated in the September 2006 version of the TCL, available through LLIS
- Support the specific program training activities identified in the individual HSGP grant programs (SHSP, UASI, MMRS, CCP) for which the funding will be used
- Comport with all applicable Federal, State, and local regulations, certifications, guidelines, and policies deemed appropriate for the type and level of training

In support of the continuing efforts to build common catalogs of approved training not provided by FEMA, the SAA/TPOC will be allowed three deliveries of the same course within a State/territory before the course is required to go through the FEMA State course review and approval process. Additional course deliveries will be authorized during the review period. However, if the course is disapproved as part of the process, no additional FEMA funds can be dedicated to attending the course.

State and Federal-Sponsored Course Catalogs. Courses approved by FEMA will be added to either the approved State Sponsored Course Catalog or the Federal Sponsored Course Catalog. Courses identified within these catalogs may be attended on an unlimited basis within any State/territory as long as the training is coordinated and approved by the SAA/TPOC. A full description of the FEMA Course Development, Review, and Approval Process, as well as the approved course catalogs, can be found at http://www.firstrespondertraining.gov/odp_webforms.

FEMA will respond to the initial request for review within 15 days with one of the following outcomes:

- Course concept is approved as consistent with the State plan and the State should submit the full course package for subject matter expert review and comment.
- Course concept is disapproved as inconsistent with State plan, FEMA guidance, or is exactly the same as another course in the catalog (no need for another approval, refer to the curriculum already developed and approved).

At any time, the SAA/TPOC (for State-sponsored courses) or the Federal Agency POC (for Federal sponsored courses) may request the addition of a course to the corresponding approved catalog by submitting the associated Web-Form (i.e., Request for Addition to the Approved State-Sponsored Catalog) for review. If a class on the same subject is already in the catalog, the submitting State should provide documentation as to why the course is unique, after contacting the owner(s) of the other courses to review the curriculum. This step is required to avoid unnecessary duplication of similar courses in the catalog, allow States to share course development costs, permit all States to have access to new or unique courses developed by other providers, and allow States to direct their training dollars to delivery rather than development. If it is determined that the proposed course meets the above listed criteria, the providing entity (SAA/TPOC or Federal Agency POC) will be invited to submit the Course Review and Approval Request Form along with all supporting training materials.

For further information on developing courses using the instructional design methodology and tools that can facilitate the process, SAAs and TPOCs are encouraged to review the FEMA Strategy for Blended Learning and access the Responder Training Development Center (RTDC) available at <http://www.firstrespondertraining.gov/admin>.

FEMA funds must be used to supplement, not supplant, existing funds that have been appropriated for the same purpose. FEMA will conduct periodic reviews of all State, territory, and Urban Area training funded by FEMA. These reviews may include requests for all course materials and physical observation of, or participation in, the funded training. If these reviews determine that courses are outside the scope of this guidance, grantees will be asked to repay grant funds expended in support of those efforts.

States and territories are required to conduct an annual Training and Exercise Plan Workshop to identify key priorities and major events over a multi-year time frame and to align training and exercises in support of those priorities. A Multi-year Training and Exercise Plan will be produced from the Training and Exercise Plan Workshop to include the State's training and exercise priorities, associated training and exercise capabilities, and a multi-year training and exercise schedule. Further guidance concerning the Multi-year Training and Exercise Plan can be found in the Exercises discussion immediately following.

CCP Training. Training funded through the CCP includes but is not limited to: all-hazards safety, such as emergency preparedness, basic first aid, life saving skills, crime prevention and terrorism awareness, school preparedness, public health issues, mitigation/property damage prevention, safety in the home, light search and rescue skills, principles of NIMS/ICS, community relations, volunteer management, serving people with disabilities, pet care preparedness, any training necessary to participate in volunteer activities, any training necessary to fulfill surge capacity roles, or other training that promotes individual, family, or community safety and preparedness.

There is no cap on the number of deliveries State or local jurisdictions may conduct of non-responder community-based training workshops, seminars, demonstrations, or conferences. Examples include: CPR/AED training, identity theft workshops, terrorism awareness seminars, chain-saw safety demonstrations, and community preparedness conferences.

Funding for CERT training includes the delivery of the CERT Basic Training Course, supplemental training for CERT members who have completed the basic training, and the CERT Train-the-Trainer training. Any CERT Basic training conducted by State or local entities must: 1) include the topics covered in the FEMA CERT Basic Training Course; 2) be instructor-led; and 3) be classroom-based, using lecture, demonstration, and hands-on practice throughout. Note that the Independent Study course, "Introduction to CERT" (IS 317) must not be substituted for classroom delivery of CERT basic training. There is no cap on the number of deliveries State or local jurisdictions may conduct of the CERT Basic Training, the CERT Train-the-Trainer, Campus CERT Train-the-Trainer, or Teen CERT Train-the-Trainer courses, or supplemental/advanced training for CERT program participants.

Any training supported with these CCP funds should be delivered with specific consideration to include all ages, ethnic and cultural groups, persons with disabilities, and special needs populations at venues throughout the community, to include schools, neighborhoods, places of worship, the private sector, non-governmental organizations, and government locations. Expenditures to provide necessary non-structural accommodations for persons with special needs is allowable (i.e. sign language interpreters). Jurisdictions are also encouraged to leverage existing training provided via educational/professional facilities and to incorporate non-traditional methodologies such as the Internet, distance learning, or home study whenever such delivery supports training objectives. Pilot courses and innovative approaches to training citizens and instructors are encouraged.

Instruction for trainers and training to support the Citizen Corps Council members in their efforts to manage and coordinate the Citizen Corps mission is also an allowable use of the FY 2009 CCP funding.

Allowable Training Costs

Allowable training-related costs include, but are not limited to, the following:

- **Funds used to develop, deliver, and evaluate training**, including costs related to administering the training, planning, scheduling, facilities, materials and supplies, reproduction of materials, and equipment.
- **Overtime and Backfill costs**, as defined in this guidance, associated with attending or teaching FEMA-sponsored and/or approved training courses and programs are allowed. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an

employee of a unit of government may not receive compensation from both their unit or agency of government AND from an award for a single period of time (e.g., 1:00 pm to 5:00 pm), even though such work may benefit both activities. Further, overtime costs associated with employees who participate in training in a teaching role for which they are compensated are not allowed.

- **Travel costs** (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants** to support training-related activities. Payment of salaries and fringe benefits must be in accordance with the policies of the State or unit(s) of local government and have the approval of the State or awarding agency, whichever is applicable. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation as specified in section E.6. In no case is dual compensation allowable (see above).
- **Certification/Recertification of Instructors** is an allowable cost. States are encouraged to follow the FEMA Instructor Quality Assurance Program to ensure a minimum level of competency and corresponding levels of evaluation of student learning. This is particularly important for those courses that involve training of trainers. This information is contained in a Information Bulletin #193, issued October 20, 2005.

Exercise Requirements

1. **Training and Exercise Plan Workshop.** States and Urban Areas are required to conduct an annual Training and Exercise Plan Workshop (T&EPW). A Multi-year Training and Exercise Plan must be produced from the T&EPW and submitted to the State's respective Exercise Manager and Program Analyst. This plan must be updated annually.

The Training and Exercise Plan will include the State's training and exercise priorities, associated capabilities, and a multi-year training and exercise schedule. The Plan and the schedule must both be submitted within 60 days of the workshop and should reflect all exercises that are being conducted throughout the State. All scheduled exercises must be entered through the National Exercise Schedule (NEXS) Application, which is located on the HSEEP website. A template of the Multi-year Training and Exercise Plan can be found in HSEEP Volume guidance and on the HSEEP website (<https://hseep.gov>) under the Sample Exercise Documents section.

States must complete a cycle of exercise activity during the period of this grant. States and Urban Areas are encouraged to use exercises as an opportunity to meet the requirements of multiple exercise programs. To this end, grantees are encouraged to invite representatives/planners involved with other Federally-mandated or private exercise activities. States and Urban Areas are encouraged to share, at a minimum, the multi-year training and exercise schedule with those departments, agencies, and organizations included in the plan. Further guidance

concerning Training and Exercise Plan Workshops can be found in the HSEEP Volumes.

2. **Exercise Scenarios.** The scenarios used in HSGP-funded exercises must be based on the State's/Urban Area's Homeland Security Strategy and plans. Acceptable scenarios for SHSP, UASI, MMRS, and CCP exercises include: chemical, biological, radiological, nuclear, explosive, cyber, agricultural and natural or technological disasters. Exercise scenarios must be catastrophic in scope and size, as defined by the National Response Framework.

The scenarios used in HSGP-funded exercises must focus on validating existing capabilities and must be large enough in scope and size to exercise multiple tasks and warrant involvement from multiple jurisdictions and disciplines and non-governmental organizations. Exercise scenarios should also be based on the Multi-year Training and Exercise Plan.

3. **Models, Simulations and Games (MS&G).** Grantees who wish to expend funds on models, simulations, or games (MS&G) must consult with *"Review of Models, Simulations, and Games for Domestic Preparedness Training and Exercising, Volume III,"* which provides an overview and analysis of existing models, simulations, and games. Grantees can also consult with the MS&G Decision Support System, which automates the aforementioned report into a searchable database. Both the report and system are available through the HSEEP website.
4. **Special Event Planning.** If a State or Urban Area will be hosting an upcoming special event (e.g., Super Bowl, G-8 Summit); they anticipate participating in a Tier 2 National-Level Exercise as defined by the National Exercise Program Implementation Plan (NEP I-Plan); or they anticipate that they will apply to be a venue for a Tier 1 National-Level Exercise, as defined by the I-Plan, they should plan to use SHSP or UASI funding to finance training and exercise activities in preparation for that event. States and Urban Areas should also consider exercises at major venues (e.g., arenas, convention centers) that focus on evacuations, communications, and command and control. States should also anticipate participating in at least one Regional Exercise annually. States must include all confirmed or planned special events in the Multi-year Training and Exercise Plan.
5. **Exercise Evaluation.** All exercises will be performance-based and evaluated. An After-Action Report/Improvement Plan (AAR/IP) will be prepared and submitted to FEMA within 60 days, following every exercise, regardless of type or scope. AAR/IPs must conform to the HSEEP format, should capture objective data pertaining to exercise conduct, and must be developed based on information gathered through Exercise Evaluation Guides (EEGs) found in HSEEP Volume IV. All applicants are encouraged to use the Lessons Learned Information Sharing System (LLIS.gov) as a source for lessons learned and to exchange best practices.

- 6. Self-Sustaining Exercise Programs.** States are expected to develop a self-sustaining exercise program. A self-sustaining exercise program is one that is successfully able to implement, maintain, and oversee the Multi-year Training and Exercise Plan, including the development and delivery of HSGP-funded exercises. The program must utilize a multi-disciplinary approach to the development and delivery of exercises, and build upon existing plans, training, and equipment.
- 7. Role of Non-Governmental Entities in Exercises.** Non-governmental participation in all levels of exercises is strongly encouraged. Leaders from non-governmental entities should be included in the planning, conduct, and evaluation of an exercise. State and local jurisdictions are encouraged to develop exercises that test the integration and use of non-governmental resources provided by non-governmental entities, defined as the private sector and private non-profit, faith-based, community, volunteer and other non-governmental organizations. Non-governmental participation in exercises should be coordinated with the local Citizen Corps Council(s).

MMRS Exercises. The scenarios used in MMRS exercises should focus on incidents that would be catastrophic to the grant implementer's community and/or have national impact caused by any hazard. Grantees are encouraged to use scenarios with a focus on medical issues related to preparedness and response. Scenarios should test appropriate Target Capability that support the MMRS mission.

Citizen participation in exercises is strongly encouraged and should be coordinated with the local Medical Reserve Corps and Citizen Corps Council. Volunteer roles and responsibilities include, but are not limited to, backfilling non-professional tasks for first responders deployed on exercise planning and implementation, providing simulated victims, media, and members of the public; supporting surge capacity functions; and participating in the after-action review.

MMRS jurisdictions, in coordination with regional, Urban Area, and State exercise and public health officials, are expected to schedule, design, conduct, and evaluate mass casualty exercises that are in compliance with both FEMA and CDC Public Health Emergency Preparedness Cooperative Agreement Exercise requirements and guidance.

CCP Exercises. Exercises specifically designed for or that include participation from non-governmental entities and the general public are allowable activities and may include testing public warning systems, evacuation/shelter in-place capabilities, family/school/business preparedness, and participating in table-top or full scale emergency responder exercises at the local, State, or national level, to include the Top Officials Exercise (TOPOFF).

The applicant's formal written procurement policy or the Federal Acquisition Regulations (FAR) – whichever is more stringent – must be followed. In no case is dual compensation allowable.
- **Overtime and Backfill** – Overtime and backfill costs associated with the design, development, and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable (see above).
- **Travel** – Travel costs are allowable as expenses by employees who are on travel status for official business related to the planning and conduct of exercise project(s).
