February 5, 2018

Dear Mr. Valdez,

As a long time property and business owner around the corner from Rob Bellvue's property, I am strongly in support of approval for the condo map at 1333/1351 Orizaba. We believe this project will dramatically help to transform this depressed area. When you add the addition of business owners that are also vested in the neighborhood by way of owning their property, this will be the catalyst for a renovation that usually occurs only in areas supported by Redevelopment money, and this is done with private funds.

Respectfully,

Ken J. Buck
