MEMBERS OF THE PARKS AND RECREATION COMMISSION
City of Long Beach
California

RECOMMENDATION:

Authorize the Director of Parks, Recreation and Marine to amend Permit No. 35023 for a Railway Concession, with In Circus Entertainment, LLC, to reincorporate into the Permit Area, four of five reservable picnic sites that had been included in the previous railway concession permit but were initially deemed unneeded. (District 5)

DISCUSSION

On June 21, 2018, the Parks and Recreation Commission (Commission) approved a Railway Concession Permit (Permit) with In Circus Entertainment, LLC, a California Limited Liability Corporation (In Circus) for operation of an 18-gauge model train in El Dorado East Regional Park, Area III (El Dorado). The Permit Area approved by the Commission (Attachment 1) only included areas south and east of the service road that runs through El Dorado, even though the permitted area for the previous railway concession operator included five reservable picnic sites west and north of the service road all the way to the edge of the lake. Since In Circus began operations, they have realized that in order to reach the operational goals approved by the Commission, they need to reincorporate some of the original picnic sites, and have requested that the Permit Area be increased to include four of the five picnic sites included in the previous operation (Attachment 2). There will not be any fencing around the increased footprint.

All other terms of the Permit will remain as originally approved.

FISCAL IMPACT

There is no fiscal impact associated with the proposed action.

SUGGESTED ACTION:

Approve recommendation.
